1.3 Basic Strategy for Capital Policy

It is our management policy to become a “highly growing, highly profitable company,” and we consider that it is important to work to increase shareholder returns through expansion of our business. At the same time, in order to ensure business continuation in any business environment, we believe that it is to the benefit of shareholders from a long-term perspective that we maintain a high equity ratio and a strong financial basis.

Based on the above beliefs, we are making aggressive investments directed toward growth, including enhancement of production capacity, investment in research and development, conduct of mergers and acquisitions, etc. We are also actively utilizing capital and improving our capital efficiency in order to realize sustainable business development by conducting a structural reorganization aimed at improving profitability.

In addition, we continue to consider various types of returns to shareholders, such as increases in dividends, and conduct of repurchase of own shares when appropriate.

1.4 Cross-Shareholdings

Policy regarding cross-holding of shares (seisaku hoyuu kabushiki):

We engage in cross-holding of shares with the objective of improving our business value in the medium to long-term, focusing on corporate growth through enhancement, maintenance and development of business relationships, realization of profits through shareholdings, and the issuing companies' social significance.

In our annual review of cross-holdings of shares, if we determine that there is no significance in holding the relevant shares, in principle we will dispose of such shares.

Pursuant to the above-mentioned policy, we currently hold shares of KDDI CORPORATION ("KDDI"). We continue to hold these shares for economic reasons and because we anticipate that KDDI will be an important business partner of ours in future business opportunities.

Review of cross-holdings of shares:

Kyocera Group Management Committee and our Board of Directors conduct an annual review of all cross-holdings of shares to assess whether continued holding of the relevant shares is appropriate, taking into account business needs, such as maintenance and/or enhancement of business relationships and efficiency in use of assets, including capital costs, with respect to individual shares. For any shares as to which a justifiable reason for holding them cannot be identified, we decrease our holdings of such shares through discussions with the issuing companies.

We sold some of our cross-holdings of shares in the fiscal year ended in March 2020 as a result of such review.

Exercise of voting rights:

In exercising the voting rights of shares that we hold through cross-holdings, we undertake a comprehensive assessment based on criteria that include whether the proposed measure conforms to our basic policy regarding cross-holdings of shares, and whether our exercise of such voting rights will produce improvement in medium to long-term business value and in shareholder returns, or may cause damage to the management efficiency or financial soundness of the issuers, while continuing to respect their overall management policy and strategy.

1.7 Related Party Transactions

We have a system as mentioned below in order to ensure that when we engage in transactions with our Directors and Audit & Supervisory Board Members or major shareholders (i.e., related party transactions), such transactions do not harm the interests of the Company or the common interests of our shareholders:

- a) All competitive transactions or transactions involving conflict of interest are made subject to resolution of the Board of Directors, requiring such transaction to be approved by the Board of Directors in advance and to make its performance report to the Board of Directors.
- b) Regarding the transactions with a Director and an Audit & Supervisory Board Member or any of their close relatives (those within the second degree), confirmation is regularly secured from all Directors and Audit & Supervisory Board Members every year using a questionnaire prepared to investigate into whether any such transactions are conducted.
- c) Regarding the related party transactions, disclosure is made pursuant to the applicable laws and regulations, including the Companies Act and the Financial Instruments and Exchange Act.

2.6 Roles of Corporate Pension Funds as Asset Owners

We have adopted a contract-type defined-benefit company pension plan. In connection with the management of our pension arrangements, we have put in place systems to ensure stable asset building and an appropriate company pension scheme, by establishing a department specializing in pension management and assigning specialists to work there. We also retain an external consulting firm. A periodic report on the pension plan's investment status is made by the relevant specialized department to the Pension Investment Management Committee and Kyocera Group Management Committee for review. We also entrust invested assets to multiple domestic and international investment institutions and leave portfolio selection and exercise of voting rights to the discretion of such investment institutions, so that no conflicts of interest will arise between beneficiaries of the company pension plan and the Company.

[Incentives]

Incentive Policies for Directors	Performance-linked Remuneration, Other
----------------------------------	--

Supplementary Explanation(Updated)

(1) Bonuses to Directors

The performance linked remuneration system varies with the level of each director's contribution to the performance of "Profit attributable to owners of the parent." It does not, however, determine the proportion of compensation to total compensation, and does not impose restrictions on maximum incentives for improving performance. Bonuses to Directors accounted for approximately 40% of total director remuneration in the year ended March 31, 2020, which is generally considered to be appropriate.

The reason for selecting "Profit attributable to owners of the parent" as a performance indicator is that directors have an incentive to maximize profits and that the linkage with the dividend payout ratio is made clear so as to align the interests of shareholders.

(2) Compensation for granting restricted stocks to Directors

Compensation for granting restricted stocks to Directors (excluding Outside Directors, the "Eligible Directors") was introduced at the 65th Ordinary General Meeting of Shareholders, which was held on June 25, 2019, for the purpose of providing incentives for Eligible Directors to continuously improve the Company's corporate value, as well as to promote further shared value between Eligible Directors and shareholders. Compensation for granting restricted stocks to Directors accounted for approximately 10% of total director remuneration in the year ended March 31, 2020, which is generally considered to be appropriate at the present moment.

The Nomination and Remuneration Committee will also refer to the benchmark results of compensation for directors and corporate auditors provided by external consultants, and will continue deliberation on the ratios of (1) and (2) to total director remuneration.

Materials which are required to be timely disclosed by the Company pursuant to various domestic and foreign disclosure laws, regulations and rules as well as materials intended for voluntary disclosure to the markets, etc. are usually handled by the Kyocera Disclosure Committee and its Administrative Office as follows.

(i) Information Gathering and Preparation of Disclosure Materials

Facts, decisions of the board of directors and information concerning corporate accounting generated by the Company and each Group company are collected from each department through the related departments of the Company as raw information for disclosure, and consolidated at the Administrative Office of the Disclosure Committee constituted by the officers of the departments of the Company in charge of its IR and accounting.

This Office prepares, based on such reported information and reference to various domestic and foreign laws, regulations and rules concerning timely disclosure and disclosure materials from a fair standpoint, and submits such materials to the Kyocera Disclosure Committee indicating the points to be examined.

In the process of preparation of disclosure materials by the Administrative Office of the Kyocera Disclosure Committee, all information gathered from each department is approved by the head of each department reporting such information (with respect to information of Group companies, by the president or other executive in charge thereof) and the system (The Principle of Double-Check) does not permit independent judgments by department heads.

(ii) Investigation of Disclosure Materials

Members of the Kyocera Disclosure Committee investigate information submitted through the Administrative Office and undertake a review process to make determinations as to whether or not to disclose and the appropriateness of information to be disclosed by reference to independently obtained information. Each member provides notice of its investigation to the Administrative Office and if corrections are required, so indicates.

Due to the policy in connection with such investigation that judgments by the Kyocera Disclosure Committee as to whether disclosure shall be made are to be based on uniform criteria, the following “Guidelines for the Importance of Matters” have been established as such criteria.

Quantitative Criteria

Any event which would have an impact of 5% or more on sales revenue, profit before income taxes or profit attributable to owners of the parent for a quarterly period covered by the most recent corporate plan is an “Important Event.”

Qualitative Criteria

Any event which would have a material impact upon the ability of the Company to continue as a going concern based on consideration of the special characteristics of individual businesses, internal rules and ethics, applicable general laws, regulations and rules, and generally accepted social morals etc., is an “Important Event.”

Time Criteria

Based on consideration of both quantitative and qualitative criteria, an event which will obviously have such an impact within the next twelve (12) months is an “Important Event.”

Also, this Committee clarifies the purpose of the investigation and facts and materials which will be subject to investigation for the purpose of responding to changes in the management environment in an agile manner, and it is always endeavoring to increase the effectiveness of such investigations by convening the Committee in either of the following major ways.

Regular Scheduled Convening of the Committee

To gather information on matters arising mid-term, confirm matters that must be disclosed, perceive “Important Events” (focusing on information concerning risks) expected to occur during subsequent reporting periods, and investigate disclosure materials for the purpose of studying the contents of periodic disclosure materials such as quarterly reports and annual securities reports.

Extraordinary Convening of the Committee

A meeting of the Committee shall be convened upon the decision of the Chairman and Vice Chairman of the Committee in the event of mid-term amendments of laws, regulations and rules, or accounting standards, etc. or upon the unexpected occurrence of Important Events in order to determine whether or not to timely disclose and if so determined to investigate the contents of the disclosure.

(iii) Supplemental System for Representatives of Important Group Companies

The Kyocera Disclosure Committee may implement a supplemental system assuring the appropriateness of information from each Group company by demanding that the representatives of each of the most financially important Group companies, based on net sales and profits of all Group companies, individually certify in writing as to the accuracy of reported information.

(iv) Report of Investigation Results

After confirming that all Committee members have verified the appropriateness of the disclosure information, the Chairman of the Kyocera Disclosure Committee reports the results of such investigation to the President and Representative Director. The President and Representative Director confirm the investigation procedures by the Kyocera Disclosure Committee and issue instructions for corrective actions, if necessary, to the Chairman of the Kyocera Disclosure Committee.

(v) Approval and Disclosure of Information

The President and Representative Director of the Company, following the completion of the procedures described in (i) through (iv) above, upon receipt of a report from the Chairman of the Kyocera Disclosure Committee assuring the appropriateness of information disclosure, approves such information disclosure. Thereafter, each information disclosure execution department, after being informed of the approval of the President and Representative Director via the Administrative Office of the Kyocera Disclosure Committee, implements the disclosure of such information through the Financial Service Agency and Timely Disclosure Information System of Tokyo Stock Exchange, Inc.

As described above, the Company has established a system centered on the Kyocera Disclosure Committee as an investigation organ assuring the appropriateness of disclosed information by means of a process of gathering, preparing and disclosing corporate information. Please refer to the diagram appearing in Attachment 1 concerning the information disclosure process described in (i) through (v) above.

(4) Internal Audit System and Internal Alert System

The Company has established the Corporate Global Audit Division, which conducts audits to ensure that the accounting and operations of each group company are duly undertaken in accordance with applicable Japanese and overseas requirements. The Corporate Global Audit Division will periodically conduct investigations in cooperation with the internal audit division of each group company and report the results thereof to the directors and audit & supervisory board members of the Company and each relevant group company. The Directors and Audit & Supervisory Board Members who receive such reports will then issue instructions for any necessary corrective action. The Corporate Global Audit Division will also undertake the internal audit pursuant to “Internal Controls over Financial Reporting” prescribed under Article 24-4-4, paragraph 1 of the Financial Instruments and Exchange Act of Japan.

The Company also has an internal alert system referred to as the “Employee's Consultation Corner” which assures a system whereby employees are able to report acts which constitute violations, or acts which bear the risk of being violations, of the Kyocera Code of Conduct.

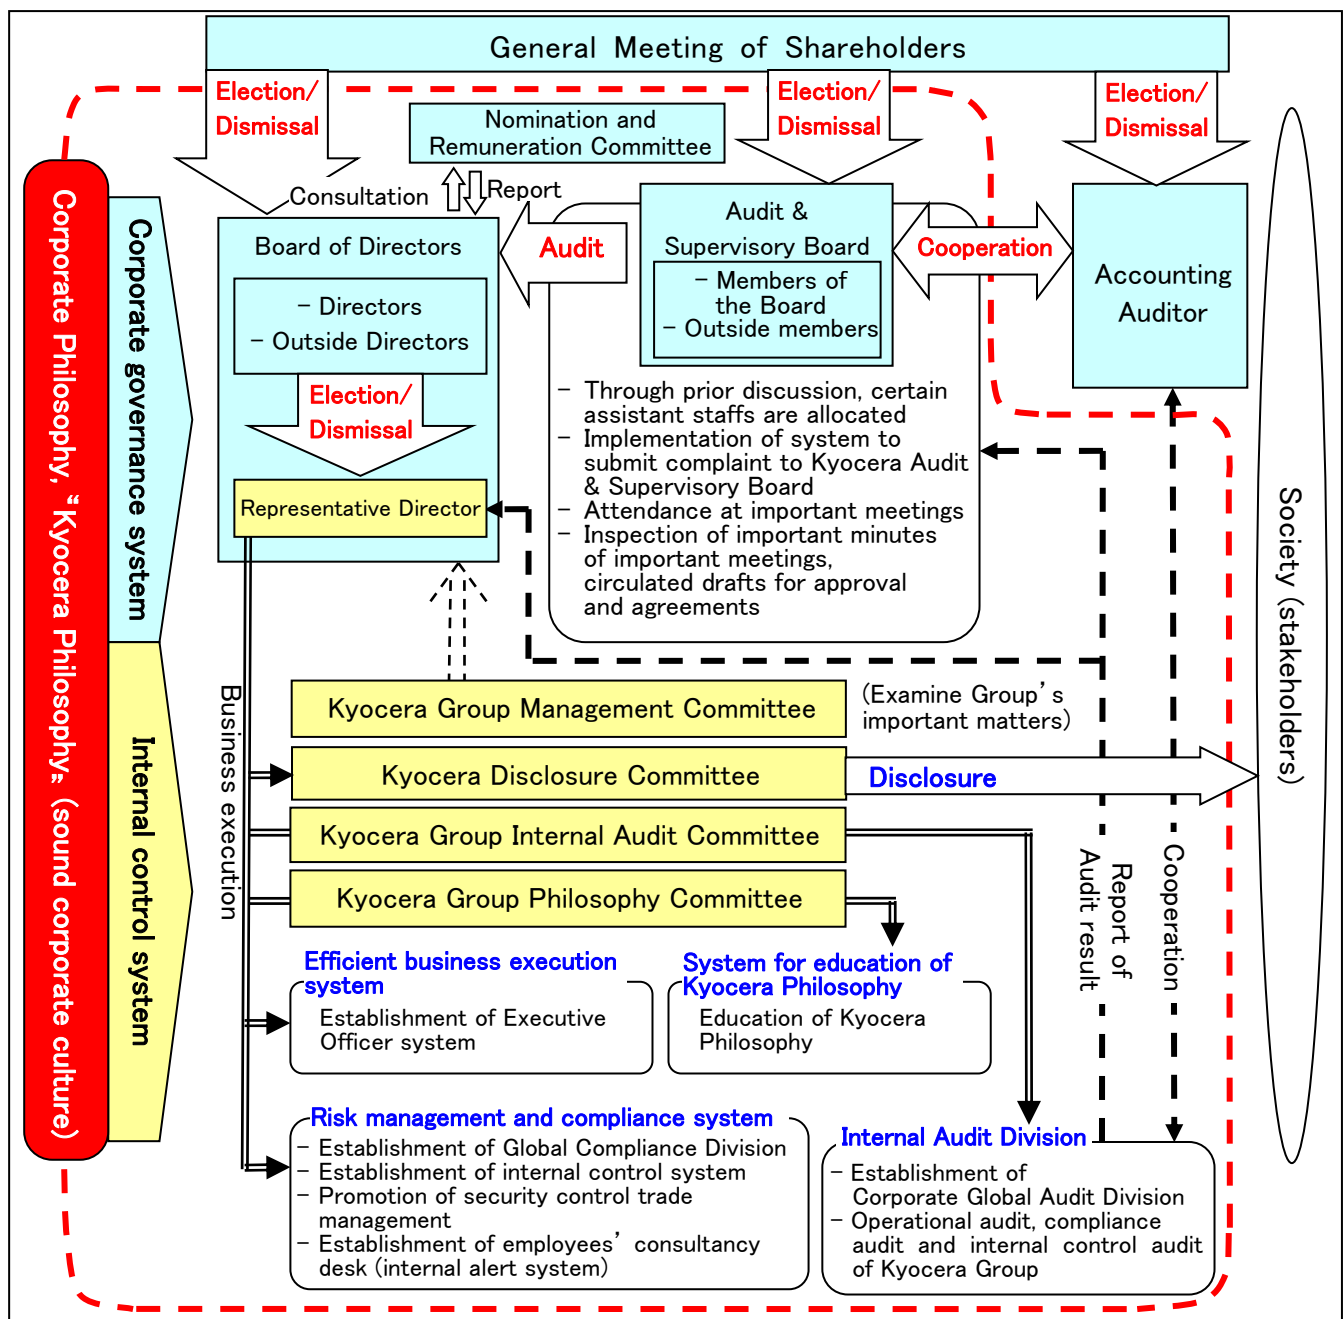

These systems have important functions in addition to heightening the effectiveness of the Company's internal structures related to timely disclosure.
