UV Disinfection Device Installation Case Study: **Umenohana Co., Ltd. Adopts “UVC Air Clean Manager”**

Umenohana Co., Ltd. (TSE 2, Stock Code: 7604; Headquarters: Kurume City, Fukuoka Prefecture; Representative Director and President: Yuji Honda) has installed “UVC Air Clean Manager” units at the group’s restaurants as detailed below. “UVC Air Clean Manager” is an indoor-use ultraviolet disinfection device marketed by Kanamic Network Co., Ltd. (Headquarters: Shibuya-ku, Tokyo; Representative Director and President: Takuma Yamamoto; hereinafter, “the Company”).

■ Background

To prevent the spread of the novel coronavirus and provide customers with peace of mind, Umenohana Co., Ltd. has adopted the use of “UVC Air Clean Manager” at the restaurants listed below as a countermeasure against the novel coronavirus.

■ Installation Locations (to be completed by July-end)

Restaurant Umenohana: Tenjin, Honmachi, Umeda, Kobe (Motomachi),
Ueno (Hirokoji), Ginza (Namiki-dori), Yokohama Sky Building, Machida
Kumamoto Akaushi Shabu-shabu Kobai: Ginza Six Facility

【Installation at the Ginza (Namiki-dori) Location】

【Installation at the Ueno (Hirokoji) Location】

■ What is UVC Air Clean Manager

Indoor air disinfection device "UVC Air Clean Manager" is an ultraviolet-C (UV-C) disinfection device with a high virus removal rate (of 99.99%). Its unique horizontal irradiation setup makes it safe to use 24 hours a day, 365 days a year for continuous disinfection, even in indoor locations where people are present. Its effectiveness against Coronaviruses (SARS-CoV-1) has also been verified.

*Installing this disinfection device will not prevent all transmission.

■ About “Kanamic Cloud Service”

The “Kanamic Cloud Service is a “regional communication” cloud service that contributes to the realization of the “community comprehensive care system” that our super-aged society requires by making multidisciplinary communication among local governments, medical associations, and elderly care service providers possible. The Company’s lineup includes an information sharing system for the purpose of facilitating communication among interdisciplinary professionals as well as a system for elderly care service provider operations.
