UV Disinfection Device Installation Case Study:
Kanto International Senior High School Adopts “UVC Air Clean Manager”

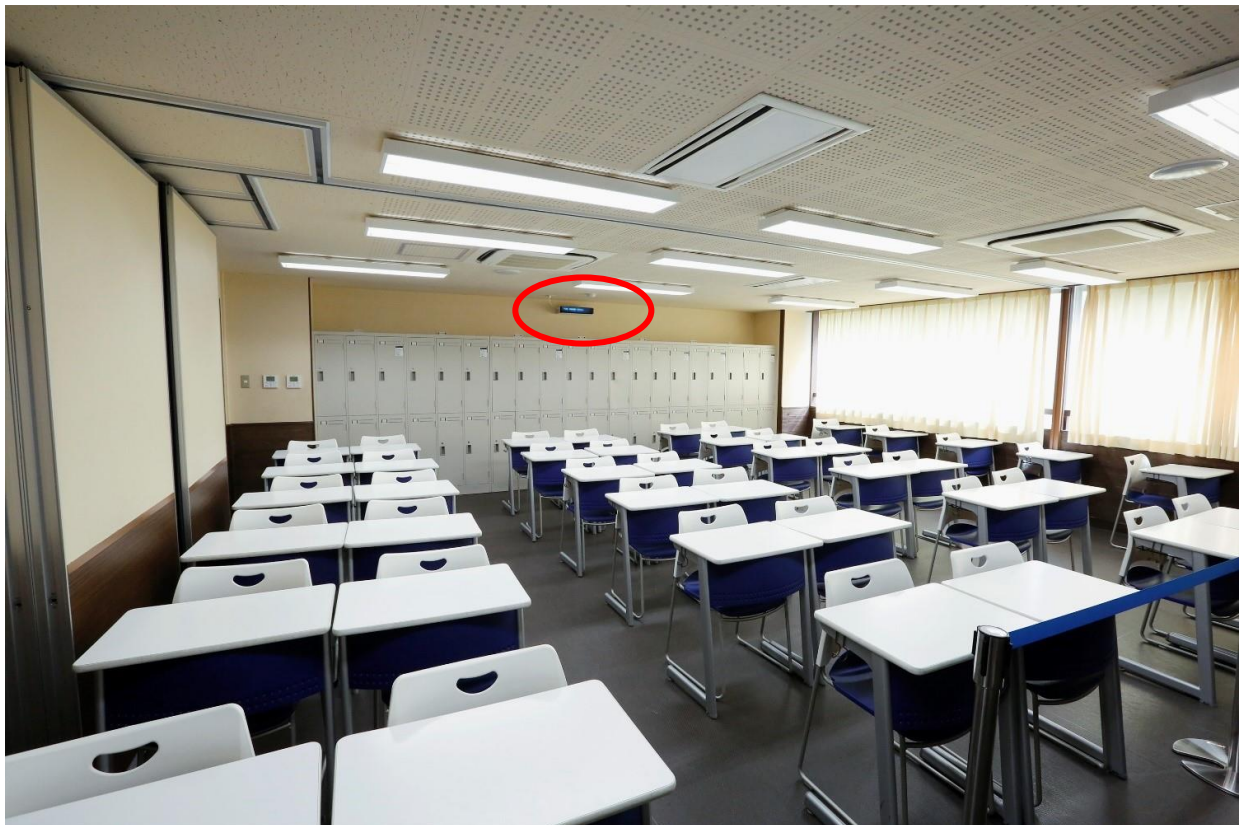

Kanto International Senior High School (Main Campus: Shibuya-ku, Tokyo; Chairman of the Board of Trustees: Yasuo Kamouchi) has installed 63 units of “UVC Air Clean Manager”, an ultraviolet disinfection device marketed by Kanamic Network Co., Ltd. (Headquarters: Shibuya-ku, Tokyo; Representative Director and President: Takuma Yamamoto; hereinafter, “the Company”). “UVC Air Clean Manager” units will be installed in locations including the school’s classrooms, cafeteria, library, staff room, and nurse’s office.

■ Background

As a preventative measure against the novel coronavirus, Kanto International Senior High School has adopted the use of “UVC Air Clean Manager” in order to reduce the risk of students and faculty member infection and to provide a safe learning environment.

■ Installation Examples

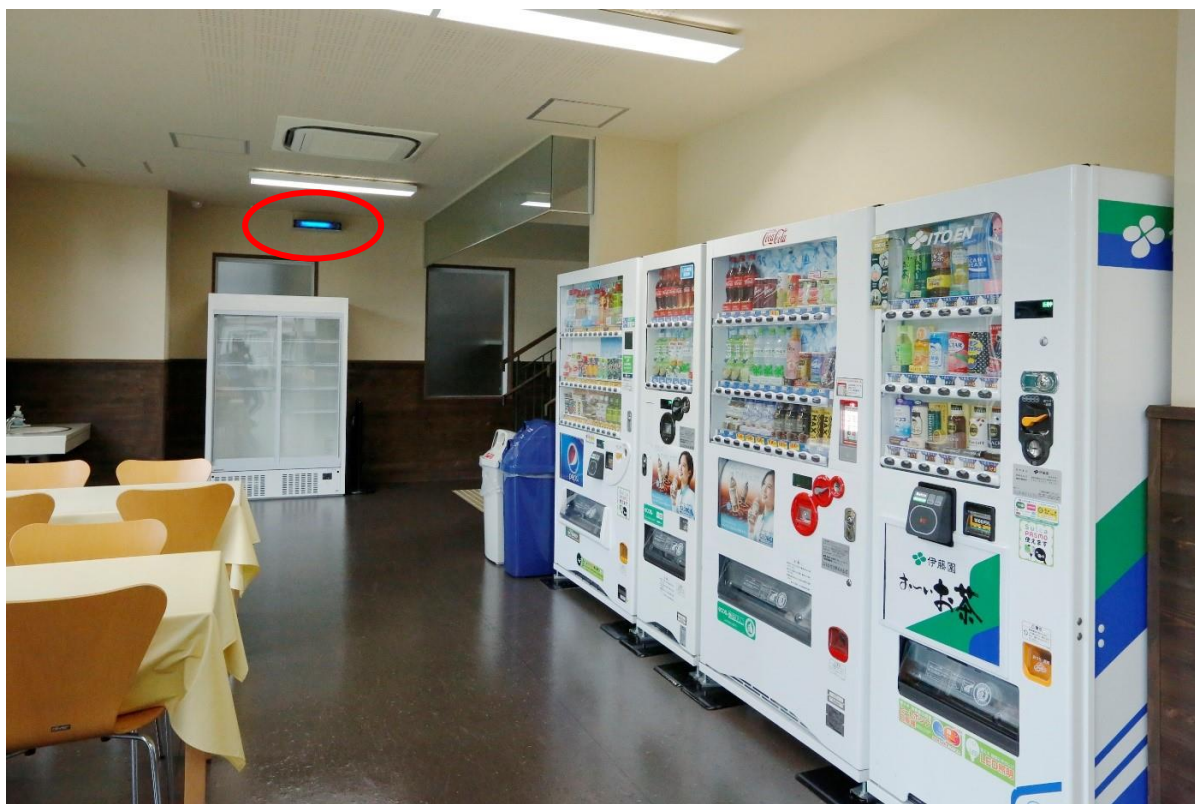

【Installation in a Classroom (1)】

【Installation in a Classroom (2)】

【Installation in the Staff Room】

■ About Kanto International Senior High School

Kanto International Senior High School boasts a history of 96 years. As an international high school, Kanto is constantly evolving in its pursuit of education that is “one step ahead”.

■ What is UVC Air Clean Manager

Indoor air disinfection device "UVC Air Clean Manager" is an ultraviolet-C (UV-C) disinfection device with a high virus removal rate (of 99.99%). Its unique horizontal irradiation setup makes it safe to use 24 hours a day, 365 days a year for continuous disinfection, even in indoor locations where people are present. Its effectiveness against Coronaviruses (SARS-CoV-1) has also been verified.

*Installing this disinfection device will not prevent all transmission.

■ About “Kanamic Cloud Service”

The “Kanamic Cloud Service is a “regional communication” cloud service that contributes to the realization of the “community comprehensive care system” that our super-aged society requires by making multidisciplinary communication among local governments, medical associations, and elderly care service providers possible. The Company’s lineup includes an information sharing system for the purpose of facilitating communication among interdisciplinary professionals as well as a system for elderly care service provider operations.
