

Recruit Holdings Announces FY2020 Q1 Results

1. 3 Months FY2020 Consolidated Financial Highlights

- Consolidated revenue of 475.4 billion yen (-20.0%), adjusted EBITDA of 53.4 billion yen (-38.8%), adjusted EPS of 17.49 yen (-47.5%).
 - Operating income significantly decreased due to decreased revenue and 9.8 billion yen of other operating expenses. Other operating expenses include additional non-recurring expenses arising from COVID-19 related measures and a loss on the sale of a subsidiary.
 - Reduced SG&A expenses by 44.0 billion yen yoy which was driven mainly by reduced advertising expenses and promotion expenses, as well as lower sales commissions which were directly correlated to revenue.

2. Q1 FY2020 Segment Highlights

HR Technology:

- Revenue decreased by 27.5% yoy and by 25.8%⁽¹⁾ yoy in US dollar terms. Revenue decline was primarily driven by a decrease in sponsored job advertising and reduced demand for recruiting solutions.
- Adjusted EBITDA decreased by 59.4% yoy, primarily driven by the decline in revenue. Adjusted EBITDA margin was 10.6% (18.9% in Q1 FY2019).
- Continued reduction of investments in sales and marketing and hiring pause since March.

⁽¹⁾ The US dollar based revenue reporting represents the financial results of operating companies in this segment on a US dollar basis, which differ from the consolidated financial results of the Company.

Media & Solutions:

- Revenue decreased by 29.1% yoy. Revenue in both Marketing Solutions and HR Solutions decreased.
- Adjusted EBITDA decreased by 45.4% yoy, primarily due to decreased revenue in both operations. Adjusted EBITDA margin was 20.6% (26.7% in Q1 FY2019).
- Implemented quick and flexible cost controls, mainly by reducing marketing expenses while focusing on capturing enterprise clients' present and future demand for resuming their advertising and hiring activities.

Staffing:

- Revenue decreased by 12.3% (-10.3% ex FX impact) yoy. Revenue for Japan operations increased by 5.9% and for Overseas operations decreased by 26.6% (-23.0% ex FX impact) yoy.
- Adjusted EBITDA increased by 0.2% (Japan +44.7%, Overseas -64.8%) yoy. Adjusted EBITDA margin was 7.2%.
- For Japan operations, both revenue and adjusted EBITDA increased yoy, primarily due to an additional two business days in the quarter compared to the previous year, and increased billing prices following the implementation of the equal pay for equal work regulations beginning April 1, 2020. Adjusted EBITDA margin was 11.7% (8.5% in Q1 FY2019).
- For Overseas operations, both revenue and adjusted EBITDA decreased yoy, primarily due to restrictions on enterprise clients' business operations and the negative impact of FX movements. These conditions, as well as uncertainty about the future, led to a significant decline in demand from enterprise clients for temporary staff. Adjusted EBITDA margin was 2.2% (4.6% in Q1 FY2019). Overseas operations maintained a positive adjusted EBITDA margin by strengthening ongoing cost control initiatives.

3. Consolidated Financial Guidance for FY2020

Due to the uncertainty and rapidly evolving conditions around the world, the Company is unable at this time to reliably predict the impact that the global spread of COVID-19 will have on its FY2020 financial performance. As a result, the Company is not providing consolidated financial guidance for FY2020. The Company plans to provide consolidated financial guidance for FY2020 when the Company is able to reasonably estimate the magnitude of the impact of the global spread of COVID-19 on its business.

4. Latest Business Operation Update

The Company's consolidated monthly revenue for July exceeded that of June. However, monthly revenue decreased approximately 15% year on year, which was slightly worse than that of June.

Monthly revenue for July in HR Technology decreased approximately 7% yoy on a US dollar basis, in Media & Solutions decreased approximately 26% yoy, and in Staffing decreased approximately 10% yoy.

The global economic outlook remains uncertain, and lockdowns and other restrictions may continue or may be implemented again in many countries. Therefore, the Company expects that the global spread of COVID-19 will continue to have a significant adverse impact on financial performance in Q2 FY2020 and beyond.

Note:
Consolidated monthly revenue reporting represents the unaudited financial results of operating companies as reported on a monthly basis (before applying intercompany eliminations or adjustments) and monthly revenue reporting for segments represents the unaudited financial results of operating companies as reported on a monthly basis (excluding the impact of foreign exchange rate movements and before applying intercompany eliminations or adjustments). These figures may differ in certain material respects from the consolidated financial results of the Company reported under IFRS. Accordingly, monthly revenue figures are not comparable to consolidated revenue reported by the Company and should not be regarded as a substitute for the consolidated financial results of the Company.
