1. Qualitative Information of Consolidated Performance during the Quarter under Review

(1) Explanation of Operating Results

[1] Operating Results for the Cumulative First Quarter of the Fiscal Year Ending March 31, 2021

The Company recorded a decrease in net sales mainly due to the reduced demand for recruitment at clients and postponement of hiring activities because of COVID-19. The decline was particularly huge in Domestic Job Board where the term from receiving and placing orders to recognizing sales is short. As a result, net sales for the cumulative first quarter of the fiscal year ending March 31, 2021 were ¥10,442 million (down 24.1% year on year). Expenses during the quarter were ¥9,193 million (down 15.3% year on year) as a result of cost reduction efforts primarily in advertisement that is a part of variable costs and because we accelerated an overhaul ahead of the schedule.

As a result, the Company recorded operating income of ¥1,248 million (down 57.0% year on year) and ordinary income of ¥1,236 million (down 57.2% year on year). Profit attributable to owners of parent was ¥618 million (down 67.8% year on year), reflecting the goodwill impairment related to JapanWork, INC., which is a consolidated subsidiary of en-japan inc., for the cumulative first quarter of the fiscal year ending March 31, 2021.

(Unit: Million ven)

				(cinu iliniich jen)
	FY Ended March 2020 Cumulative First Quarter	FY Ending March 2021 Cumulative First Quarter	Change	Percent change (%)
Net sales	13,763	10,442	-3,320	-24.1
Operating income	2,904	1,248	-1,656	-57.0
Ordinary income	2,892	1,236	-1,655	-57.2
Profit attributable to owners of parent	1,917	618	-1,299	-67.8

[2] Summary of Major Businesses (based on managerial accounting)

(Unit: Million yen)

				()
	FY Ended March 2020 Cumulative First Quarter	FY Ending March 2021 Cumulative First Quarter	Change	Percent change (%)
Domestic Job Board	7,550	4,642	-2,908	-38.5
Domestic Permanent Recruitment	3,049	2,812	-237	-7.8
Overseas	2,728	2,208	-519	-19.1
HR-Tech	43	246	+203	+472.9
Other business/ Subsidiaries	514	657	+143	+28.0

^{*} The difference between the combined net sales of each business and the consolidated net sales is attributable to the adjustment made among the businesses and consolidated adjustments.

(Domestic Job Board)

Net sales in Domestic Job Board decreased significantly due to reduced demand for recruitment at clients and increased postponement of hiring activities and so forth after the declaration of the state of emergency in response to the COVID-19 pandemic.

"[en]Career Change Info (for permanent-job seekers)" and job boards for temporary staffing companies saw an immediate impact on the results. This came from the plunge in the number of job openings as their revenue model is primarily built on pay-

^{*} For characteristics in the sales recognition by the type of services, please refer to "(3) Explanation of Future Projections such as Projections of Consolidated Operating Results, (Supplementary Explanation of Projected Consolidated Operating Results for Cumulative Second Quarter)" on page 4 for details.

per-listing billing.

Job boards for permanent recruitment agencies were also affected by the reduced demand for recruitment as well as other job boards. However, the business saw year-on-year growth because the revenue model is mostly based on success fees and the sales recognized in this first quarter were largely boosted by the favorable operational performance in the previous quarter.

As a result, net sales of Domestic Job Board recorded ¥4,642 million, down 38.5% year on year.

(Domestic Permanent Recruitment)

Both "en Agent" and the Company's subsidiary, en World Japan K.K., were affected by the reduced demand for recruitment, but the level of decline in sales was limited because the revenue model is mostly based on success fees and the sales recognized in this first quarter were largely boosted by the favorable operational performance in the previous quarter.

High-profile staffing service, en world Japan K.K., posted solid results as a certain level of recruiting demand is expected in this business even in this challenging market environment.

"en Agent" identified companies aspiring to recruit even under the challenging market environment and made stronger approaches to those companies. "en Agent" also accelerated the implementation of online meetings with clients and interviews with candidates early on, putting in place a system to continue in the future.

As a result, net sales of Domestic Permanent Recruitment recorded ¥2,812 million, down 7.8% year on year.

(Overseas)

For the overseas business, the performance is reflected in the results 3 months behind. The results in countries focused on, Vietnam and India, from January to March reflect the performance in the period before the countries were hit hard by the COVID-19 pandemic. For this reason, Vietnam recorded an increase in sales in the quarter supported mostly by services for job boards. India, which operates mainly in the temp IT staffing business, recorded a decrease in sales affected by impacts such as the deteriorated economic environment in the country. China, which operates job boards, was severely hit by the impact of the COVID-19 pandemic and the lockdown from January to March.

As a result, net sales of Overseas business recorded ¥2,208 million, down 19.1% year on year.

(HR-Tech)

As for the personnel and recruitment support platform "engage," the number of user companies steadily increased up to 287,000 (as of June 2020). The number of paid user companies increased by more than 6 times year on year, though, the number decreased by approximately 20% from the previous quarter because recruiting needs were lower than expected due to the COVID-19 pandemic. The number hit bottom in May and has been back on a recovery track since June.

As a result, net sales in the quarter were up by 5.7 times year on year to \(\frac{\cup}{2}\)46 million.

(2) Explanation of Financial Position

Total assets at the end of the first quarter of the fiscal year ending in March 31, 2021 decreased ¥7,421 million compared to the end of the previous fiscal year to ¥44,475 million.

Current assets decreased \(\frac{\pmathbf{\pmath

Total liabilities at the end of the first quarter of the fiscal year ending March 31, 2021 were \(\frac{\pma}{2}\)10,262 million, a decrease of \(\frac{\pma}{2}\)2,984 million compared to the end of the previous fiscal year.

Current liabilities decreased \(\frac{4}{3}\),219 million to \(\frac{4}{8}\),543 million. This mainly stemmed from decreases in income taxes payable of \(\frac{4}{1}\),355 million and provision of bonuses of \(\frac{4}{5}\)95 million. Non-current liabilities increased \(\frac{4}{2}\)34 million to \(\frac{4}{1}\),719 million.

Total net assets were \(\frac{\pmathbf{434,212}}{34,212}\) million, down \(\frac{\pmathbf{44,436}}{436}\) million from the end of the previous fiscal year. This was mainly attributable to a decrease in retained earnings of \(\frac{\pmathbf{43,069}}{30,069}\) million due to cash dividends paid and an increase in treasury shares of \(\frac{\pmathbf{498}}{3000}\) million.

(3) Explanation of Future Projections such as Projections of Consolidated Operating Results

The Company considers it is hard to grasp the outlook for economic conditions, client companies' financial results and demand for recruitment as it is still uncertain at this point in time when the COVID-19 pandemic will end both in Japan and overseas. For this reason, the Company has decided to disclose projections of operating results for the cumulative second quarter of the fiscal year ending March 31, 2021 in view of recent trends.

The Company will announce the forecast for full-year consolidated operating results as soon as it becomes available.

The estimated operating results for the cumulative second quarter of the fiscal year ending March 31, 2021 include net sales of \$19,703 million (down 30.1% year on year), operating income of \$1,992 million (down 67.9% year on year), ordinary income of \$1,956 million (down 68.4% year on year), and profit attributable to owners of parent of \$1,018 million (down 75.2% year on year).

Projected Consolidated Operating Results - FY Ending March 2021 Cumulative Second Quarter (April 2020 - September 2020)

Profit attributable to owners of parent	2,190	399	-1,790	-81.7

(Supplementary Explanation of Projected Consolidated Operating Results for the Second Quarter)

[1] Preconditions for results impacted by COVID-19

While Japan has been seeing a resumption of hiring activities since June after the state of emergency was lifted, the Company assumes the improvement is not enough to achieve a speedy return and the demand for recruitment will recover gradually.

For overseas countries where the Company group operates, the performance is reflected in the results three months behind. For this reason, the above forecast is worked out based on the performance in each country from April to June, which accordingly includes results affected by the lockdown and so forth during the period.

This forecast does not include possibilities such as a further spread of COVID-19 and consequent additional lockdowns both in Japan and overseas.

[2] Characteristics in the sales revenue recognition by the type of services

Under the Domestic Job Board, "[en]Career Change Info" and job boards for temporary staffing companies operate based on the revenue model centering on pay-per-listing billing, and job boards for permanent recruitment agencies operate based on the revenue model centering on success fees. In a success fee-type service, sales tend to be recorded approximately two to four months behind the actual sales activities and conclusion of contracts (because the sales are recognized when the candidate who has been accepted via our service joins a new company).

Likewise, "en Agent" under the Domestic Permanent Recruitment and the Company's subsidiary "en world Japan K.K." operate based on the success-fee type revenue model, so the timing for recognizing the sales is the same as above.

[3] Preconditions for consolidated net sales and profit planning

Net sales are expected to decrease by 35.9% year on year to ¥9,261 million. This is based on the assumption of the year-on-year decrease in the Domestic Job Board by approximately 47%, Domestic Permanent Recruitment by approximately 29%, overseas subsidiaries by approximately 28%, and the year-on-year growth in HR-Tech by approximately 4 times. As explained in [1] and [2] as above, the forecast is premised on the expectation that companies' recruiting activities will recover gradually and success-fee type services and overseas subsidiaries will see a significant negative impact during the second quarter of the fiscal year ending March 31, 2021 due to the revenue recognition timing.

Expenses are expected to decrease by 23.6% year on year to ¥8,517 million. This reflects a continued control of advertising expenses initiated in the first quarter of the fiscal year ending March 31, 2021 as well as driving further reductions in outsourcing related expenses including the payment of commission fees from the second quarter of the fiscal year.

For these reasons, the Company expects the results in the second quarter of the fiscal year ending March 31, 2021 will be impacted most largely by a decline in sales despite the further expense reductions during the period. Year on year, operating income is expected to decrease by 77.4% to ¥743 million, ordinary income by 78.2% to ¥719 million, and profit attributable to owners of parent by 81.7% to ¥399 million.

(3) Notes regarding Quarterly Consolidated Financial Statements

(Notes relating to the Going Concern Assumption)

There are no pertinent items.

(Notes on Significant Changes to Shareholders' Equity)

en-japan adopted a resolution on matters related to acquiring treasury shares based on a written resolution in lieu of the resolution of the Board of Directors on March 25, 2020 and the provision of Article 156 of the Companies Act to be applied mutatis mutandis pursuant to the provision of Article 165, Paragraph 3 of the said Act, and accordingly acquired 496,200 common shares. As a result, treasury shares increased by ¥1,000 million at the end of the first quarter of the current fiscal year.

(Adoption of Special Accounting Treatment used in Preparation of the Quarterly Consolidated Financial Statements)

(Calculation of tax expenses)

The Company calculates tax expenses by rationally estimating the effective tax rate after applying tax effect accounting on profit before income taxes on a consolidated basis for the fiscal year including the first quarter of the period. It then multiplies the estimated effective tax rate by profit before income taxes for the quarter.

Note, however, that if calculating tax expenses using the estimated effective tax rate produces a result which significantly lacks reasonableness, the statutory tax rate is adopted.

(Segment Information)

[Segment Information]

- I Cumulative first quarter of the previous fiscal year (April 1, 2019 to June 30, 2019) Description is omitted since en-japan group is formed under a single segment.
- II Cumulative first quarter of the fiscal year under review (from April 1, 2020 to June 30, 2020)

 Description is omitted since en-japan group is formed under a single segment.

(Additional Information)

Cumulative first quarter of the fiscal year ending March 31, 2021 (from April 1, 2020 to June 30, 2020)

There has been no critical change about the assumptions including the outlook for the spread of COVID-19 and the time when it will end, which were described in the Annual Securities Report for the previous fiscal year in the "Additional Information: Accounting estimate under the COVID-19 outbreak."
