Notes to the financial statements

Notes to the financial statements at 30/06/2020

Note 1 - General Information

Events that occurred during the financial period from 1 January 2020 to 30 June 2020

No special event occurred during this financial period.

Note 2 - Principal accounting methods

a) Presentation of the financial statements

The financial statements of the Fund are presented in accordance with the legislation in force in Luxembourg on Undertakings for Collective Investment. The consolidation currency of the Fund is the US dollar (USD).

The statement of operations and changes in net assets covers the financial period from 1 January 2020 to 30 June 2020.

b) Net asset value

This semi-annual report is prepared on the basis of the last net asset value calculated as at 30 June 2020.

c) Valuation of the securities portfolio

Investments listed on an official stock exchange or dealt in on another Regulated Market which operates regularly and is recognized and open to the public, are valued at the last available price, and, in the event that there are several such markets, on the basis of the last available price on the principal market for that investment. If such a price does not reflect the investment's fair value, it is valued at its probable sales value, which shall be estimated with prudence and in good faith by the Board of Directors of the Management Company.

Investments not dealt in or listed on a stock exchange or on a Regulated Market operating regularly, recognized and open to the public, are valued at their probable sales value, which shall be estimated with prudence and in good faith by the Board of Directors of the Management Company.

Liquid assets, money market instruments and all other instruments may be valued at the last known closing price on the valuation day or according to the straight-line depreciation method. In the case of straight-line depreciation, money market instruments are disclosed in portfolio at cost and their value is increased in the Statement of Operations and Changes in Net Assets by the accrued interest under the caption "Bank Interest". Portfolio positions will be regularly reviewed under the supervision of the Management Company in order to determine whether there is a difference between the valuation found according to the closing price method and straight-line depreciation method. If there is a difference that is likely to result in significant dilution or to be detrimental to the Unitholders, appropriate corrective action may be taken, including, if necessary, calculation of the net asset value using the last known closing prices.

The list of changes in the portfolio during the financial period from 1 January 2020 to 30 June 2020, is available free of charge at the Registered Office of the Management Company of the Fund and from local agents.

d) Conversion of foreign currencies

The cost of investments denominated in currencies other than the Fund accounting currency is converted into that currency at the exchange rate prevailing at the purchase date.

Income and expenses in currencies other than the Fund accounting currency are converted into that currency at the exchange rate at the transaction date.

At the end of the financial period, the assets and liabilities denominated in currencies other than the Fund accounting currency are converted into that currency at the exchange rates prevailing at that date. The resulting realized and unrealized foreign exchange profits or losses are included in the Statement of Operations and Changes in Net Assets.

As at 30 June 2020, the sole sub-fund and unit class was denominated in USD.

Notes to the financial statements at 30/06/2020

e) Swap Contracts

Open swaps are valued at their expected realization value. The resulting changes in unrealized profits or losses and the realized profits or losses are included in the Statement of Operations and Changes in Net Assets. Realized profits or losses are presented net of interest expenses paid by the Fund to the swap counterparty.

f) Income

Dividends are recorded at the ex-dividend date. Interest is recorded on an accrual basis.

g) Tracking error

The Fund's objective is to achieve a return comparable to that of the S&P GSCI® ENERGY & METALS CAPPED COMPONENT 35/20 Total Return Index (Bloomberg: SPGCNCT) (this Fund's "Benchmark Index"). As the Fund is index-based, its objective is to maintain a tracking deviation in absolute terms between its Net Asset Value and the value of the relevant Benchmark Index. The anticipated level of tracking error between the Fund and the level of the Benchmark index, in normal market conditions, is 1 % at the maximum.

The sub-fund aims at replicating as closely as possible the performance of its reference index. However, it may experience some degree of tracking error due to the replication costs.

Note 3 - Subscription and redemptions

The units issued by the Fund are in registered form. The Fund does not issue fractions of units. There are for the time being one class of units, with the following characteristics:

Class A USD (active)

Units are bought and sold on a primary market and/or on a secondary market as the case may be.

Subscriptions can be paid for in cash, or by the contribution of instruments and securities representative of the Benchmark Index.

All subscriptions of the period have been paid for in cash.

The subscription and redemption charges, if any, are recorded in the Statement of Operations and Changes in Net Assets under the caption "Income on investments and assets".

Note 4 - Management fees (maximum per annum)

In consideration of its services, the Management Company receives a management fee calculated on the net asset of the unit class, at the following annual rate:

Class A USD: up to 0.30%

The management fees are calculated on each Trading Day and provisioned during the month in question whenever the Net Asset Value is calculated. They shall be paid monthly, in arrears.

Notes to the financial statements at 30/06/2020

Note 5 - Other fees

Other fees are calculated each Trading Day, provisioned during the month in question whenever the Net Asset value is calculated and paid monthly in arrears from the average net assets of a sub-fund, unit category, or unit class and serve to cover general custody assets expenses (remuneration of the Custodian) and daily administration expenses (NAV calculation, record and book keeping, notices to the unitholders, providing and printing the documents legally required for the unitholders, domiciliation, auditors cost and fees...), except for brokerage fees, commissions for transactions not related to the deposit, director fees, interest and bank fees, extraordinary expenses, reporting cost in relation with regulation requirements including the European Market Infrastructure Regulation (EMIR), and the “*taxe d’abonnement*” in force in Luxembourg, as well as any other specific foreign tax and other regulators levy.

Note 6 - Taxes

In accordance with applicable Luxembourg law and accepted practice, the Fund is not liable for Luxembourg corporation tax. Similarly, no withholding tax is levied on any sums distributed by the Fund, without prejudice of the potential application of the law dated 21 June 2005 implementing the EU Savings Directive.

In Luxembourg the Fund is exempted from the obligation to pay the subscription tax (“*taxe d’abonnement*”) in accordance with article 175(e) of the Law of 2010, as amended.

Investors may be personally liable for further taxes on income or gains received. Investors who are unsure of their tax position are advised to contact a professional tax consultant or their local tax authorities.
