**[Monthly comment]**

In September, net sales totaled 95.6% for existing stores compared with the previous year and 99.3% for all stores.

By category, sales of hobby-related items and sports and outdoor items continued to perform favorably, but sales of apparel fell below the previous year despite increase in sales of autumn clothes with the drop in temperatures in late September.

In addition, sales of furniture, home appliances, and audio-visual equipment decreased year on year due to the last-minute demand ahead of the consumption tax rate hike that arose in the previous year. The fact that there was one less Sunday compared with the previous year also affected sales.
