### 3. Reasons for the revision

Consolidated earnings forecast for the first half of the current fiscal year is expected to exceed the forecast announced on July 30, 2020, as we have promoted a reduction in fixed costs in each segment that was

greater than planned, and as demand for High Performance Plastics Company in the mobility field and building and infrastructure materials field has been recovering more than expected.

The consolidated earnings forecast for the full year is as stated above, as the demand trend remains uncertain due to the impact of COVID-19.
