## Analysis of Results of Operations

## (1) Overview of Operating Results

|  | (Billions of yen) |  |  |  |
| :--- | ---: | ---: | ---: | ---: |
|  | Nine months <br> ended <br> September 30, 2019 | Nine months <br> ended <br> September 30, 2020 | Change <br> (\%) | Change (\%) <br> 〔Local currency basis〕 |
| Net sales | 576.6 | $\mathbf{5 1 4 . 3}$ | $\mathbf{2 5 . 6}$ | $-10.8 \%$ |

* EBITDA $=$ Net income attributable to owners of the parent + Total income taxes + (Interest expenses - Interest income) + Depreciation and amortization

In the nine months ended September 30, 2020, consolidated net sales declined $10.8 \%$, to $¥ 514.3$ billion. While the COVID-19 pandemic persisted worldwide, the spread of infection subsided in many areas in the third quarter (July 1-September 30, 2020), prompting a relaxation of restrictions on activities that led to signs of an improvement in shipments of certain products, including publication inks and materials for use in automobiles. Nonetheless, sales shrank in all segments, as in the six months ended June 30, 2020. Net sales were $5.2 \%$ higher in the third quarter than in the second quarter (April 1-June 30, 2020).

Operating income decreased $13.2 \%$, or $8.1 \%$ on a local currency basis, to $¥ 25.6$ billion. Overseas, a recovery in shipments, particularly of printing inks, in Asia, and in the Americas and Europe, combined with reduced activity expenses and rationalization measures to boost operating income above the level reported in the nine months ended September 30, 2019, on a local currency basis. In Japan, shipments have been slower to rally, as a result of which the drop in operating income widened.

Ordinary income, at $¥ 23.0$ billion, was down $23.4 \%$.

Net income attributable to owners of the parent fell $24.1 \%$, to $¥ 13.9$ billion. The principal factor behind this result was one-time costs associated with the acquisition of BASF SE's Colors \& Effects business, which was announced on August 29, 2019.

Earnings before interest, taxes, depreciation and amortization (EBITDA) declined $12.9 \%$, to $¥ 43.6$ billion.

| :--- | ---: | ---: | ---: | ---: |
| Net sales | $¥ 312.1$ billion | $¥ \mathbf{2 8 6 . 2}$ billion | $-8.3 \%$ | $-4.6 \%$ |
| Operating income | $¥ 13.1$ billion | $¥ \mathbf{1 3 . 5}$ billion | $3.5 \%$ | $12.4 \%$ |

Segment sales declined $8.3 \%$, to $¥ 286.2$ billion. In the area of materials for food packaging, sales of packaging inks advanced in Asia, where demand was steady, and were level in the Americas and Europe, where demand remained firm, but decreased in Japan as COVID-19 caused the deterioration of sales. Although demand for print advertisements and commercial printing in the third quarter improved from the second quarter in all regions, sales of publication inks-which center on publishing inks and news inks-dwindled, as demand, having slumped under the influence of the pandemic, failed to recover completely. Sales of jet inks for digital printing were also down, as the expanded use of teleworking arrangements depressed demand for office use.

Segment operating income rose $3.5 \%$, to $¥ 13.5$ billion. This result was despite falling shipments of publication inks and of packaging inks in Japan and was attributable to firm shipments of packaging inks in Asia, and in the Americas and Europe, as well as to cost-cutting efforts, which focused on rationalization.

| Net sales | $¥ 89.6$ billion | $¥ 79.9$ billion | $-10.8 \%$ | $-8.5 \%$ |
| Operating income | $¥ 8.8$ billion | $¥ \mathbf{6 . 3}$ billion | $-28.9 \%$ | $-26.7 \%$ |

Segment sales，at $¥ 79.9$ billion，were down $10.8 \%$ ．Sales of color materials fell sharply，owing to declining shipments，particularly of pigments for cosmetics，a consequence of the normalization of mask－wearing and other lifestyle changes．In display materials，sales decreased despite signs of an improvement in sales of pigments for color filters and of thin－film transistor liquid crystals（TFT LCs）accompanying a recovery in the market for liquid crystal displays（LCDs）．In contrast，sales of effect pigments remained even，buttressed by higher demand in Europe for autoclaved aerated concrete for construction－related applications．

Segment operating income dropped $28.9 \%$ ，to $¥ 6.3$ billion．In the Americas and Europe，operating income plunged as production adjustments prompted the cutting of operating rates at certain production facilities amid sagging shipments of pigments for cosmetics，which made it impossible to absorb fixed and other costs．

## Functional Products

| Operating income | $¥ 12.9$ billion | $\mathbf{¥ 1 1 . 2}$ billion | $-13.1 \%$ | $-12.4 \%$ |

Segment sales decreased $14.8 \%$ ，to $¥ 170.4$ billion．Shipments of epoxy resins，the principal application for which is semiconductor devices，slowed as demand for use in 5G－enabled communications equipment stalled in the third quarter．Demand for environment－friendly resins＊rallied，particularly for use in automobiles and building materials，but a full－scale revival remained elusive，causing sales to shrink．Shipments of polyphenylene sulfide （PPS）compounds－uses for which continue to expand，underpinned by the trend toward lighter and increasingly electrified vehicles－tumbled despite signs of an improvement in the third quarter，bolstered by a recovery in the automobile market across all regions after a steep fall in demand in the second quarter．

Segment operating income declined $13.1 \%$ ，to $¥ 11.2$ billion．This result reflected the fact that demand for products for diverse industrial applications，including automobiles and building materials，lingered in a recovery phase，while lower raw materials prices and cost reductions were insufficient to offset the stagnation of previously robust shipments of epoxy resins．
