### 1. Qualitative information on results for the nine months ended September 30, 2020

### (1) Overview of operating results

Advocating "Payment to the People, Power to the People." as its mission, the Group of the Company (hereinafter, "the Group") actively operates the BASE business providing e-commerce platforms BASE, and the PAY business providing PAY.JP, online payment services and PAY ID, payment services and through these services, the Group focuses on empowering SMB (Small and Medium Businesses) and supporting start-up businesses.

In the 2nd quarter of the fiscal year, demand in the EC market surged due to the acceleration of nesting consumption, shop support consumption, and an online shift of brick-and-mortar stores in line with the spread of infections of the novel coronavirus. During the 3rd quarter of the fiscal year under review, temporary demand in line with the voluntary restraint on going out decreased, but growth of the EC market continued at a high level. In this business environment, the BASE business is striving to improve long-term usage and LTV (Lifetime Value) by making active investments to accelerate the opening of new shops, developing functions to promote wider use of the business, and expanding services to support the growth of shops that continue to use the business, such as enhancement of extended functions. In the PAY business, we are promoting marketing activities targeting startups and venture companies, strengthening products, and striving to expand the number of member stores.

As a result of the above, our Group's consolidated net sales for the cumulative 3rd quarter of the fiscal year under review were \$5,996,858 thousand (119.6% increase year on year), operating profit was \$1,146,988 thousand (operating loss of \$280,312 thousand in the same period of the previous year), ordinary income was \$1,148,517 thousand (ordinary loss of \$279,638 thousand in the same period of the previous year), and profit attributable to owners of parent was \$949,258 thousand (loss attributable to owners of parent of \$283,304 thousand in the same period of the previous year).

The results of the segments are as follows.

#### A) BASE Business

In the BASE business, even after the declaration of a state of emergency, the number of newly opened shops continued to increase at a higher level than the same period of the previous fiscal year. COVID-19-related consumption declined in part, but the total value of distribution has remained at a high level. In addition, the Group enhanced its services to support the growth of stores that continue to use our services, such as linking with external services that support everything from manufacturing to merchandise shipment, strengthening expansion functions to sell merchandise to more fans such as merchandise option apps, and accelerating cash flow. As a result, the gross merchandise volume during the 3rd quarter of the fiscal year under review was ¥68,994,167 thousand (order base), ¥63,228,435 thousand (settlement base), and was up 124.4% (order base) and up 133.7% (settlement base) from the same period of the previous year.

As a result of the above, net sales were \(\frac{\pmathbf

#### B) PAY Business

In the PAY business, the Group provides online settlement service "PAY.JP" and identity settlement service "PAY ID". During the 3rd quarter of the fiscal year under review, the number of registered member stores remained strong, with the gross merchandise volume reaching \(\xi\)24,261,888 thousand (up 42.7% year on year).

As a result, net sales were \(\frac{\pmathbb{4}}{639,856}\) thousand (up 39.0% year on year) and segment loss was \(\frac{\pmathbb{7}}{72,128}\) thousand (segment loss of \(\frac{\pmathbb{1}}{103,237}\) thousand in the same period of the previous year).

#### C) Other Businesses

In other businesses, the Group provides services such as YELL BANK, which provides business funds to Internet shop operators using BASE. The number of its users has been steady since the service was launched in December 2018.

As a result, net sales were \(\frac{\pma}{19}\),401 thousand (up 524.6% year on year) and segment loss was \(\frac{\pma}{3}\),172 thousand (segment loss of \(\frac{\pma}{3}\)9,800 thousand in the same period of the previous year).

Based on the Board of Directors' meeting held on February 20, 2020, the Company reduced capital surplus by \(\frac{\pmathb{1}}{1}\),130,856 thousand and transferred the amount to retained earnings in order to eliminate accumulated loss at an early date and enable realization of a flexible and expeditious capital policy for the future.
