1. Details of the Secondary Offering via Over-Allotment

- (1) The secondary offering in Japan (secondary offering via over-allotment) may be conducted with Daiwa Securities Co. Ltd., borrowing from Daiwa Securities Group Inc. the unitholder of the Investment Corporation, in a maximum amount of 3,600 units, in conjunction with the Public Offering but separate from the Public Offering, taking demand condition and other factors into consideration. The number of investment units to be sold by the secondary offering via over-allotment is the maximum number of units to be sold and, depending on the demand conditions and other factors, this number may decrease, or the secondary offering via over-allotment itself may be canceled.

In connection with the secondary offering via over-allotment, the Investment Corporation's Board of Directors resolved at

the meeting held on November 19, 2020 (Thursday) that the Investment Corporation will issue by third-party allotment 3,600 units necessary for Daiwa Securities Co. Ltd. to return the Borrowed Investment Units where the payment date is December 25, 2020 (Friday).

In addition, Daiwa Securities Co. Ltd. may conduct stabilizing transactions with the public offering and secondary offering via over-allotment and the investment units acquired through stabilizing transactions will be allotted to return the Borrowed Investment Units.

Furthermore, Daiwa Securities Co. Ltd. may also purchase investment units on the Tokyo Stock Exchange up to the number of investment units to be sold by over-allotment (“Syndicate Cover Transactions”) to return the Borrowed Investment Units. All investment units purchased by Daiwa Securities Co. Ltd. through Syndicate Cover Transactions shall be used to return the Borrowed Investment Units. Such Syndicate Cover Transactions would be made during the period beginning from the date immediately following the last day of the subscription period for the Public Offering and secondary offering by over-allotment to December 22, 2020 (Tuesday) (“the Syndicate Cover Transaction Period”). At its discretion during the Syndicate Cover Transaction Period, Daiwa Securities Co. Ltd. may not conduct any Syndicate Cover Transactions or may terminate any Syndicate Cover Transactions before the number of investment units purchased reaches the number of investment units sold by the secondary offering via over-allotment.

Daiwa Securities Co. Ltd. plans to subscribe for the allotment of the new investment units by Third-Party Allotment of a number of investment units obtained by deducting the number of investment units purchased through stabilizing transactions and Syndicate Cover Transactions that are to be used to return the Borrowed Investment Units, from the number of investment units to be sold in the over-allotment. Accordingly, all or a part of the investment units to be issued by Third-Party Allotment may not be subscribed for, which may result in a decrease in the final number of investment units planned to be issued by Third-Party Allotment to that extent, or in the cancellation of the entire issuance due to forfeiture.

Whether or not the secondary offering via over-allotment will be conducted and the number of investment units sold in the event that it takes place will be determined on the Pricing Day. If the secondary offering via over-allotment does not take place, Daiwa Securities Co. Ltd. will not borrow investment units from our unitholders. Consequently, Daiwa Securities Co. Ltd. would not respond to allotment of the Third-Party Allotment and would not subscribe thereof, the issuance of new investment units through the Third-Party Allotment would not be conducted at all due to forfeiture. Syndicate Cover Transaction at the Tokyo Stock Exchange would not be conducted either.
