Notice Concerning GRESB Real Estate Assessment Results

LaSalle LOGIPORT REIT ("LLR") announces that it has been awarded the prestigious "4 Stars" and "Green Star" by the 2020 GRESB Real Estate Assessment. The award recognizes LLR for its outstanding performance in areas related to Environmental, Social, and Governance ("ESG") matters.

1. About GRESB and LLR's ranking

GRESB is an industry-driven organization which assesses the sustainability performance of real estate assets, and its associated asset managers, around the world.

GRESB Real Estate Assessment participants receive comparative business intelligence on where they stand against their peers, with a roadmap providing action items they can take to improve upon their ESG performance. Concurrently, institutional investors use the ESG data and GRESB's analytical tools to improve the sustainability performance of their respective investment portfolios, engage with investment managers, and prepare for increasingly rigorous ESG obligations.

This year, 1,229 property companies, REITs, funds, and developers participated in the real estate assessment.

For more information about the survey, please visit the GRESB website: https://gresb.com/2020-real-estate-results/

2. LaSalle's Commitment to Sustainability

As an entire organization, LaSalle submitted nine (9) real estate assessment submissions (via its various private equity fund vehicles and public REIT vehicles globally), of which all (9) achieved Green Stars.

LaSalle believes that Environmental, Social Responsibility and Corporate Governance (ESG) factors can have an impact on investment performance and should be considered when evaluating real estate securities, real estate related investments, and managing real estate assets.

3. LLR's Future Initiatives

As a member of LaSalle, a leading global investment management company, LLR supports United Nations Principles for Responsible Investment ("PRI") and believes that ESG best practices enhance the investment performance of our assets. LLR will continue to strive for maximum contributions through formal programs that are conducive toward environmental stewardship, social responsibility, and a pursuit for ethical business governance.
