and President: Takuma Yamamoto
(Stock Code: 3939 TSE 1)

Streamline cumbersome billing / receipt issuance operations through going digital: Announcing "Kanamic Easy Web Statements" & "Kanamic Easy Mailing Service"!

Kanamic Network Co., Ltd. (Headquarters: Shibuya-ku, Tokyo; Representative Director and President: Takuma Yamamoto; hereinafter the "Company") has launched the following two services: (1) "Kanamic Easy Web Statements" and (2) "Kanamic Easy Mailing Service" (a business process outsourcing (BPO) service). These cloud-powered, digital transformation (DT) solutions will help elderly care service providers streamline their billing/receipt issuance operations.

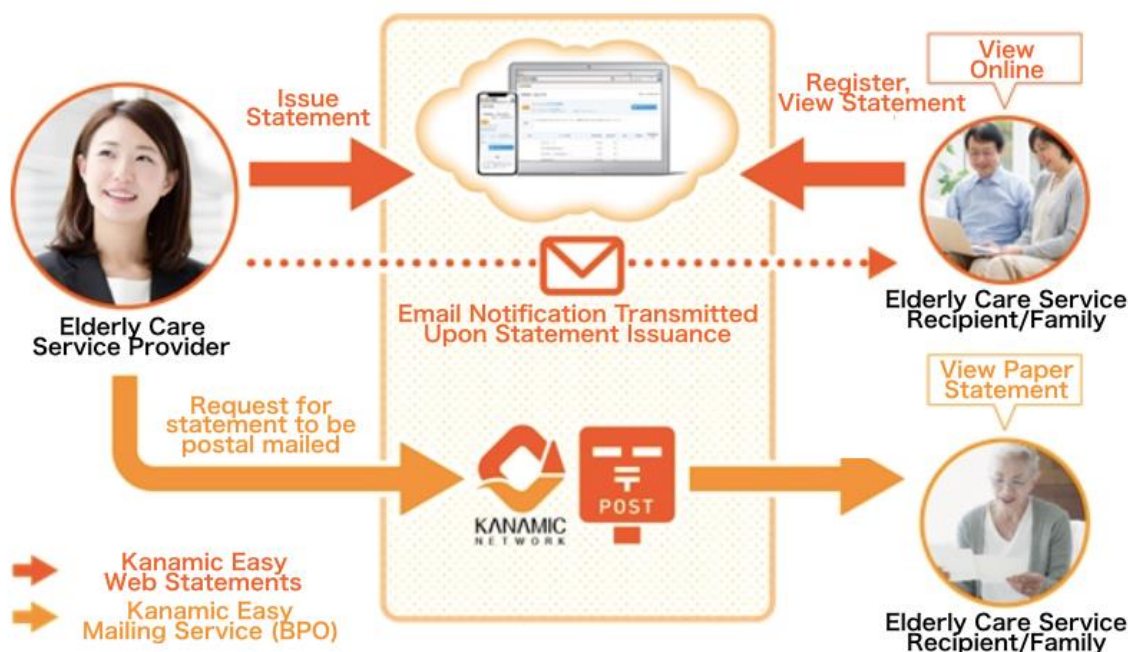

■About the new services

"Kanamic Easy Web Statements" is a service that allows bills and receipts to elderly care service recipients (that were created with The Company's Cloud Service) to be issued and transmitted completely over the internet. Issued bills and receipts can be accessed anytime and anywhere using a computer or smartphone.

"Kanamic Easy Mailing Service" is a business process outsourcing (BPO) service for sending bills/receipts by postal mail. The Company will (1) print, (2) enclose / seal, and (3) mail bills/receipts on behalf of elderly care service providers.

These services will allow elderly care service providers to greatly reduce labor costs and man-hours associated with issuing bills/receipts, go paperless, and reduce the burden on elderly care workers on the caregiving front lines.

■Overview image

■About “Kanamic Cloud Service”

The “Kanamic Cloud Service is a “regional communication” cloud service that contributes to the realization of the “community comprehensive care system” that our super-aged society requires by making multidisciplinary communication among local governments, medical associations, and elderly care service providers possible. The Company’s lineup includes an information sharing system for the purpose of facilitating communication among interdisciplinary professionals as well as a system for elderly care service provider operations.
