## **Performance Update for November 2020**

Invincible Investment Corporation (“INV”) hereby announces its monthly performance.

### 1. Overall Performance of the Entire Portfolio

As announced in “Notice concerning Conclusion of Memorandum of Understanding to Amend the Fixed-term Building Lease and Property Management Agreement pertaining to the rent conditions for the period from October to December, 2020 with Major Tenant” dated December 11, 2020, INV entered into a Memorandum of Understanding (“MOU”) to amend each fixed-term building lease and property management agreement pertaining to the rent conditions for the period from October 1, 2020 to December 31, 2020 for the 73 hotels operated by INV's main tenant, MyStays Hotel Management Co., Ltd. and its affiliates (“MHM Group”). Under the MOU, we have partially changed the rent payment conditions for the three months and changed the fixed rent payment amount and the variable rent calculation method. For details on the MOU, please refer to the above press release.

As for the 73 hotels operated by MHM Group, the amount of the employment adjustment subsidy for November 2020 has not been determined as of today. As a result, GOP<sup>1</sup> and NOI<sup>2,3</sup> for November 2020 have not been determined yet.

The following are the details by segment.

### 2. Hotel Assets Overview

#### (1) Domestic Hotels

The domestic hotel portfolio<sup>4</sup> performance for the month of November 2020 has shown year-over-year declines in Occupancy of 32.5pt, ADR of 8.3%, and RevPAR of 42.3%. The NOI<sup>3</sup>

for November 2020 is TBD as explained above.

The weak domestic hotel demand for November 2020 stems primarily from the pronounced impact of the COVID-19 pandemic that has caused a significant reduction in demand for hotels due to the sharp decline in domestic and global travel. While the effects of the recent increase in Covid-19 cases are yet to be seen, INV's domestic hotels' RevPAR did increase in November 2020 to JPY 5,206 from JPY 4,597 in October, which is the highest RevPAR since March 2020 and the onset of the Covid-19 crisis effects on the economy and tourism.

JNTO reported that inbound visitors declined by 97.7% in November (year-over-year). Similar to last month, hotel performance varied depending on the area and type of hotel. Hotels located in local areas where tourism demand is high mainly on weekends have shown relatively strong occupancy rates. Several Tokyo metropolitan area hotels had relatively high occupancy rates, thanks to the MHM Group's sales effort, procuring demand for group accommodations of foreign students, technical training students, and other groups for self-isolation following the relaxation of immigration controls on foreigners from October. Due to increases in COVID-19 infections, travel to Sapporo City and Osaka City were excluded from the scope of the Go To Travel Campaign effective November 24. INV owns 12 hotels in these two cities. Concerns over the third wave of the COVID-19 pandemic began to increase recently, slowing the recovery trend.

In December, it was announced that the Go To Travel Campaign would be suspended from December 28 to January 11, 2021. The pickup of occupancy rate has been sluggish due to concerns over the third wave of the COVID-19 pandemic. Therefore, we are forecasting RevPAR in December 2020 to decrease by approximately 50% year-over-year.

Table below shows the KPIs for each area of the 75 domestic hotels portfolio<sup>4</sup>.

Area	Occupancy Rate <sup>5</sup>	ADR (JPY) <sup>6</sup>	RevPAR (JPY) <sup>7</sup>
Tokyo 23 Wards	49.7%	5,141	2,556
Greater Tokyo (ex. Tokyo 23 Wards)	77.1%	11,345	8,752
Chubu	53.1%	10,795	5,727
Kansai	30.6%	6,837	2,094
Kyushu	64.8%	9,371	6,072
Hokkaido	37.7%	7,181	2,708
Other domestic	76.8%	16,663	12,793
Total	55.3%	9,411	5,206

## (2) Cayman Hotels

Owen Roberts International Airport in Grand Cayman has resumed acceptance of foreign nationals on a limited basis. Of the Cayman Hotels (the Westin Grand Cayman Seven Mile Beach & Spa ("Westin") and Sunshine Suites Resort ("Sunshine")), Sunshine has resumed

operations from October after being selected as one of the hotels for isolation facilities, which utilized 38.9% of the rooms in November. However, Westin is expected to remain closed for the time being, except for one restaurant, as the Cayman Islands government has not disclosed when the ban on tourists will be lifted.

The NOI<sup>3</sup> for November 2020 and the NOI<sup>3</sup> on a cumulative basis for the December 2020 fiscal period (July to December) decreased significantly year-over-year.

### 3. Residential Assets Overview

The residential portfolio<sup>8</sup> in-place occupancy rate as of the end of November 2020 was 94.9%, a year-over-year decrease of 1.3pt. The rent increase program continues to show positive results as the average in-place rent per tsubo as of the end of November 2020 increased by 0.2% year-over-year. NOI<sup>9</sup> for the residential portfolio in November 2020 decreased by 3.4% year-over-year as the rental revenue decreased from the same period of last year due to the delayed recovery of occupancy rate, while the cost of leasing increased. NOI<sup>9</sup> for the residential portfolio decreased by 0.3% year-over-year on a cumulative basis for the December 2020 fiscal period (July to December) as well.

Rents, compared with those based on the immediately preceding leases, increased by 0.2% for new leases, 1.2% for renewal leases, and 0.8% for new and renewal leases combined for the December 2020 fiscal period. INV achieved a rent increase on 37.1% of lease contract renewals for the December 2020 fiscal period. The retention rate for the existing tenants continues to be high at 83.8% for the December 2020 fiscal period.

### 4. Performance

Total	30,820	100.0%	-	-	-	-	-	-

(Note 1) GOP means the gross operating profit, and is the amount remaining after deducting costs of hotel operations (the personnel, utility and advertising expenses and other expenses) and the management services fee to operators (if any) from the hotel's revenues.

(Note 2) Based on all properties held as of the end of November 2020, excluding 9 hotels with fixed-rent lease agreements. 9 hotels with fixed-rent lease agreements are D29 Super Hotel Shinbashi/ Karasumoriguchi, D33 Comfort Hotel Toyama, D36 Super Hotel Tokyo-JR Tachikawa Kitaguchi, D37 Super Hotel JR Ueno-iriyaguchi, D39 Comfort Hotel Kurosaki, D40 Comfort Hotel Maebashi, D41 Comfort Hotel Tsubame-Sanjo, D42 Comfort Hotel Kitami, and D48 Takamatsu Tokyu REI Hotel. NOI includes a simulated amount of dividend income from Kingdom TMK (the "TMK") that owns Sheraton Grande Tokyo Bay Hotel as an underlying asset. The fiscal periods of the TMK are semi-annual periods from April 1 to September 30 and from October 1 to March 31 every year, and INV will receive the dividend within three months from the end of each semi-annual fiscal period of the TMK. Since INV does not receive a dividend from the TMK on a monthly basis, the amount of dividend INV receives from the TMK for each month is a simulated figure, which is calculated by deducting (i) simulated expenses such as operating expense of the TMK and the interest of debt (calculated dividing the budget of the TMK for the fiscal period that includes the relevant month by the number of months in such fiscal period) from (ii) NOI based on the performance of Sheraton Grande Tokyo Bay Hotel in the month which is three months before the target month for this performance disclosure and multiplied by INV's ownership ratio of the preferred equity interest in the TMK (49.0%). The revenue from the Cayman Hotels is calculated at the exchange rate of US\$1 to ¥110. Furthermore, NOI is provisional figure and subject to change when it is determined at financial closing; hereinafter the same.

This English language notice is a translation of the Japanese-language notice released on December 25, 2020 and was prepared solely for the convenience of, and reference by, non-Japanese investors. It is not intended as an inducement or solicitation for investment. We caution readers to undertake investment decisions based on their own investigation and responsibility. This translation of the original Japanese-language notice is provided for informational purposes only, and no warranties or assurances are given regarding the accuracy or completeness of this English translation. Readers are advised to read the original Japanese-language notice. In the event of any discrepancy between this translation and the Japanese original, the latter shall prevail in all respects.

- (Note 3) NOI figures before acquisition by INV is based on the data obtained from third-parties including previous owners, and are subject to change caused by the adjustments based on differences in accounting treatments, since it is difficult to adjust them due to the timing even if the figures are based on actual performance; hereinafter the same.
- (Note 4) Based on 75 hotel properties; of the 84 domestic hotel properties (including Sheraton Grande Tokyo Bay Hotel, the underlying asset of preferred equity interest held by INV) held as of the end of November 2020, 9 hotels with fixed-rent lease agreements are excluded. As for Sheraton Grande Tokyo Bay hotel, NOI is based on the figure for the month which is three months prior to the target month for this performance disclosure as INV will receive the dividend from the TMK within three months of each fiscal period end for the TMK as described above. However, in consideration of seasonality, figures other than NOI in the table above are based on the figures for November 2020; hereinafter the same.
- (Note 5) "Occupancy Rate" for hotel portfolio is calculated using the following formula:  
room occupancy rate = total number of rooms occupied during the relevant period ÷ (aggregate number of rooms during the relevant period x number of business days during target period)
- (Note 6) "ADR," or Average Daily Rate, is the value of the total room sales for a certain period (excluding service fees) divided by the total number of sold rooms for the same period.
- (Note 7) "RevPAR," or Revenues Per Available Room, is calculated by dividing the total room sales for a certain period by the aggregate number of rooms for the same period (rooms x number of days), and is the same as product of room occupancy rate and ADR.
- (Note 8) Based on 60 properties held by INV as of the end of November 2020.
- (Note 9) NOI excludes one-off insurance-related revenues and expenses.
- (Note 10) Gross Revenue of Sheraton Grande Tokyo Bay Hotel used in the table is the whole gross revenue of such hotel, regardless of INV's ownership ratio of the preferred equity interest in the TMK (49.0%).
- (Note 11) Based on 148 properties owned by INV as of the end of November 2020, assuming all properties were owned since the beginning of 2019. Includes the dividend from preferred equity interest of TMK that owns Sheraton Grande Tokyo Bay Hotel, assuming this dividend contributed throughout the June 2019 fiscal period and the December 2019 fiscal period of INV. The revenue from the Cayman Hotels is calculated at the exchange rate of US\$1 to ¥110.
- (Note 12) Percentages are rounded to one decimal place. ADR, RevPAR and Rent per Tsubo are rounded to the nearest yen and Gross Revenue is rounded down to the nearest million yen.
- (Note 13) Cumulative occupancy rate for residential portfolio is calculated by dividing the sum of total leased area by the sum of total leasable area at the end of each month and the percentages are rounded to one decimal place. Cumulative rent per tsubo is calculated by dividing the sum of the total rental revenue including common area charges for each month by the sum of total leased area (tsubo) at the end of each month.
- (Note 14) For the details of performance for each hotel asset, please visit INV's website:
