### (3) Acquisition of shares with no compensation

The company will naturally acquire the Allotment Shares with no compensation where the transfer restriction has not been released when the transfer restricted period ends, or during the transfer restricted period, at the time when the Eligible Employees (1) lose their position as an employee of the company or a member of the board, or an audit & supervisory board member, or an employee of the subsidiary companies, or (2) are appointed as a member of the board or an audit & supervisory board member of the company.

### (4) Management of shares

To ensure that the Allotment Shares cannot be transferred, created any security interest on, or otherwise disposed of during the transfer restricted period, they shall be managed in a dedicated account for the Allotment Shares opened with Daiwa Securities Co. Ltd. by the Eligible Employees during the transfer restricted period.

### (5) Provision for cases where the company undergoes reorganization

If, during the transfer restricted period, a merger agreement in which the company is the disappearing company, a share exchange agreement or share transfer plan in which the company becomes a wholly owned subsidiary of another company, or any other matter concerning reorganization is approved by the company's General Shareholders' Meeting (or by the company's Board of Directors if the approval of the General Shareholders' Meeting is not required), the transfer restrictions for a portion of the eligible employee's Allotment Shares shall be lifted immediately before the business day prior to the effective date of restructuring by the resolution of the Board of Directors. This portion will be calculated by first dividing the number of months from the month that contains the payment date to the month that contains the date of approval of the company restructuring by (1) 23 and then multiplying this number by the total amount of the Allotment Shares A the eligible employee A held at that time (however, if any fractional share arises as a result of the calculation, this will be rounded down), and by (2) 35 and then multiplying this number by the total amount of the Allotment Shares B the eligible employee B held at that time (however, if any fractional share arises as a result of the calculation, this will be rounded down)

## 3. Basis for Calculating Payment Amount and the Details thereof

The Disposal of Treasury Shares shall be performed as an in-kind contribution based on the monetary compensation receivables issued to the Eligible Employees based on the Plan, and in order to ensure that there is no arbitrariness in the valuation, the amount paid per share shall be taken as 496 yen, which represents the closing price of ordinary shares in the company on the Tokyo Stock Exchange on January 14, 2021 (the business day before the date of the resolution of the Board of Directors). This is the market price immediately before the date of the resolution of the Board of Directors and the company believes that it is a reasonable value that appropriately reflects the value of the company in a condition free of special circumstances that would indicate that the recent share price is unreliable, and that it does

not constitute a special benefit for the Eligible Employees.
