To become a company which enjoys more trust from shareholders and all other stakeholders, the Company is working to strengthen corporate governance, improve management efficiency, advocate corporate ethics and ensure sound management on a group-wide basis.

#### [Reasons for Non-compliance with the Principles of the Corporate Governance Code]

The Company implements all principles of the Corporate Governance Code.

#### [Disclosure Based on the Principles of the Corporate Governance Code]

[Principle 1-4: Cross-shareholdings]

<Policy on cross-shareholding>

In light of avoiding risks resulting from stock price fluctuations and improving asset efficiency, the Company owns no listed shares except for the cases in which business relationships with invested companies and/or business cooperation with the Company are needed.

<Standards, etc for voting rights>

When executing the voting rights of cross-shareholdings, the Company evaluates and judges individually and specifically in light of maintaining and/or improving its corporate value, primarily by considering the business relationships, conditions of business cooperation with the Company, and mid- to long-term return on investment.

In cases where the Company owns listed shares, the Company also holds review meetings of concerned departments in order to decide voting rights and monitor the voting conditions. Concerning the appropriation of retained earnings, election of directors and auditors, director remuneration, changes in the articles of incorporation, organizational changes, issuance of new shares, anti-takeover measures and other important matters, the Company has also formulated its Basic Policy for the exercise of voting rights which stipulate the matters to be carefully assessed.

[Principle 1-7: Related Party Transactions]

Based on the Companies Act and the Standards for Matters to be Referred to a Meeting of the Board of Directors, when the director intends to engage in conflict-of-interest transactions, concerned transactions need to be approved by the Board of Directors. Important matters related to any conflict-of-interest transactions must be reported to the Board of Directors. Furthermore, the Company's internal rules prohibit conflict-of-interest transactions by any executive officer without approval of the Company. The Company also conducts investigations of related party transactions with directors, auditors, and executive officers, and verifies the non-existence of any conflict-of-interest transactions every year.

[Principle 2-6: Execution of Functions of a Corporate Pension Plan as the Asset Owner]

To ensure the steady payment of postretirement benefits to beneficiaries into the future, the Company manages its pension fund for the goal of securing the necessary comprehensive earnings within the scope of acceptable risks for a long period of time. Accordingly, the Company has developed a basic portfolio, consisting of an appropriate combination of stocks, bonds, and other financial instruments, after considering a long-term expected rate of return.

The Company has created the Pension and Postretirement Benefit Committee, consisting of the CFO, a representative of its labor union, an executive officer who supervises human resources, and other senior officers. Based on the Basic Policy related to Pension Fund Management, which was defined according to Japan's Ministry of Health, Labor and Welfare's guidelines, the Committee periodically and comprehensively evaluates and monitors whether or not the pension fund is being appropriately managed (e.g., to decide the need for reassessing the basic portfolio by evaluating the amount of gap between the expected rate of return and actual earnings), and whether there is any conflict of interest between the Company and the beneficiaries.

To take full advantage of the monitoring function concerning the institutions of payments for corporate pension, the Company not only works with fund management consultant(s), but also works to allocate qualified personnel with the necessary experience and professional capabilities and to develop such personnel in a planned manner.

In addition, even in social contribution activities that do not aim at direct profitability, we strive to contribute to society in a way that draws on the strengths of our core business through initiatives aligned with our CSR themes.

< Business strategies and Business plans >

In April 2019, the Komatsu Group aiming for growth toward its 100<sup>th</sup> Anniversary (2021) and beyond, has started a new three-year mid-term management plan (FY2019-FY2021) entitled “DANTOTSU Value – FORWARD Together for Sustainable Growth.”

For this new mid-term management plan, we uphold three new strategies of 1) value creation by means of innovation, 2) growth strategies based on business reforms, and 3) structural reforms for growth. By making priority investment in growth areas based on the three pillars of growth strategies, we will strive for sustainable growth through a positive circle of improving earnings and solving ESG issues without being affected by changes in market demand. To promote the three pillars of growth strategies, we need to advance and enhance the level of DANTOTSU products, DANTOTSU service, and DANTOTSU solutions, for which we have continued to make efforts, at a faster speed, and realize safe, highly productive, smart and clean workplace of the future with customers by creating DANTOTSU value (ESG solutions through the creation of customer value and improvement of earnings). In this manner, we will help solve ESG issues through our core business by offering high-quality, high-performance products, service and solutions ensuring safety and reduction of environmental impact in response to climate change. We will strive for sustainable growth through linking every workplace and generate value through DANTOTSU with our global teams, customers, distributors, partners and communities.

In formulating the new mid-term management plan, we first decided on the future vision Komatsu should pursue from a long-term perspective and then drafted a roadmap toward this vision. Afterward, a backcasting approach was taken to examine what Komatsu should do in the present in order to move forward with this vision. Clarifying our vision enabled us to establish a better understanding of the strengths that can be exercised toward the realization of this vision, the existing businesses needing to be reinforced, and the lacking resources. The scenario based on this understanding was discussed exhaustively, and growth strategies and management targets were set based on this scenario.

The Komatsu Group will strive for sustainable growth through linking every workplace and generate value through DANTOTSU with our global teams, customers, distributors, partners and communities.

Policy on Determining Remuneration Amounts and Calculation Methods	Established
--	-------------

#### Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods

In an effort to maintain an objective and transparent remuneration system, the policy and levels of remuneration for Directors and Audit & Supervisory Board Members of the Company are deliberated by the Compensation Advisory Committee, which consists of seven (7) Outside Members [three (3) Outside Directors (including one (1) as the Chairperson of the Committee), three (3) Outside Auditors, and one (1) Outside Expert] and one (1) Internal Member. Taking its reports and recommendations into consideration, the remuneration for Directors is determined by the Board of Directors, and the remuneration for Audit & Supervisory Board Members is determined by discussions by the Audit & Supervisory Board Members, respectively, within the range previously determined by resolution of the General Meeting of Shareholders. With regards to remuneration levels, their comparison by position at other key, globally active manufacturers in Japan is made by the Compensation Advisory Committee and is reflected in its reports and recommendations.

The remuneration for Directors excluding the Outside Directors (hereinafter “Internal Director”) comprises basic remuneration (fixed remuneration) and performance-based remuneration linked to the Company’s consolidated performance for a single fiscal year (bonus in cash and the Stock-Based Remuneration A) as well as the performance-based remuneration (Stock-Based Remuneration B) that will reflect the degree of achievement of the targets raised in the mid-term management plan, so that it will further contribute to the enhancement of the medium- and long-term corporate value of the Company, by linking the

remuneration.

The remuneration for Outside Directors only consists of basic remuneration (fixed remuneration) designed to support their role to make recommendations with respect to the overall management of the Company as a member of the Board of Directors.

Furthermore, the remuneration for Audit & Supervisory Board Members only consists of basic remuneration (fixed remuneration) designed to support their independent position with authority to audit the execution of duties by Directors without getting fettered by the movements of corporate performance of the Company.

The retirement allowance system for Directors and Audit & Supervisory Board Members was terminated as of June 2007.

[System of Remuneration for Internal Director]

Basic remuneration (Fixed Remuneration)	Performance-Based Remuneration for a Single Year (Monthly Remuneration x 0 ~ 24 months)		Performance-Based Remuneration Linked to Performance of Mid- Term Management Plan (Monthly Remuneration x 0 ~ 3 months)
Monthly Remuneration x 12 months	Bonus in Cash (2/3, in principle) [up to the equivalent of 12 months' remuneration]	Stock-Based Remuneration A (1/3, in principle) Restricted Stock	Stock-Based Remuneration "B" Restricted Stocks

a) Performance-based remuneration for a single year

The total amount paid for performance-based remuneration shall be calculated each year by evaluating the single-fiscal-year consolidated performance against the basic indicators, comprising consolidated ROE\*1, consolidated ROA\*2 and the consolidated operating income ratio, using the respective percentages indicated in the table below as benchmarks, and making adjustments for growth (growth rate of consolidated sales).

The Compensation Advisory Committee decided on the remuneration standard for FY2019 based on the results of 8.6% for consolidated ROE, 6.1% for consolidated ROA, 10.3% for consolidated operating income ratio, and (10.3)% for rate of sales growth.

Such valuation indicators may be changed in the future by a resolution of the Board of Directors.

[Indicators with respect to single-fiscal-year consolidated performance-based remuneration]

	Indicator	Ratio
Basic Indicators	Consolidated ROE*1	50%
	Consolidated ROA*2	25%
	Consolidated operating income ratio	25%
Adjustment Indicators	Adjustment according to growth rate of consolidated sales

\*2 ROA=Income before income taxes and equity in earnings of affiliated companies/[(total assets at the beginning + total assets at the end of the fiscal year)/2]

With regards to the single-fiscal-year consolidated performance-based remuneration levels, the upper limit shall be twice the basic remuneration

(12 × monthly remuneration) of the Director, and the lower limit shall be zero (0) payment (remuneration in this case will comprise only the basic remuneration).

The equivalent of two-thirds (2/3) of the total paid amount of performance-based remuneration linked to the Company's consolidated performance for a single year shall be paid in the form of bonus in cash and the amount remaining after deducting the bonus in cash shall be paid by granting restricted stock as stock-based remuneration in order to further promote the same perspective on corporate value with the shareholders (Stock-Based Remuneration A); provided, however, that for the bonus in cash, the upper limit shall be the

equivalent of a 12 month portion of the monthly remuneration, and for any amount exceeding 12 months, the Company shall pay the Stock-Based Remuneration A in substitution for the bonus in cash. Note that as a general rule, concerning the Stock-Based Remuneration A, the restriction of transfer of the shares will be lifted after three years from delivery.

**b) Performance-Based Remuneration Linked to Performance of Mid-Term Management Plan**

The Company will pay Internal Directors the equivalent of a three-month portion of monthly remuneration every fiscal year as remuneration linked to the period of the Company's Mid-Term Management Plan by granting restricted stock as stock-based remuneration (Stock-Based Remuneration B). In deciding Stock-Based Remuneration B, after the expiry of the period of the mid-term management plan, the number of shares on which to lift transfer restrictions (within range of 0-100%) will be decided based on the achievement of the management targets of the Mid-Term Management Plan presented in the following table and as a general rule, the restriction of transfer on the shares will be lifted after three years from delivery.

**[Supporting System for Outside Directors and/or Audit & Supervisory Board Members]**

As general rule, the Company provides materials for Board of Directors to Outside Directors and Outside Audit & Supervisory Board Members in advance of the meetings so that they have sufficient time to review the matters that are to be discussed. With respect to matters that may be of particular importance, the Board of Directors discusses them at the Board of Directors prior to the Board of Directors where such matters are scheduled for resolution. In this manner, the Company ensures that the Directors have sufficient time to review the matters before decisions are made and that they will have an opportunity to consider the points noted in earlier discussions before deciding upon such matters.

For newly appointed Outside Director(s) and Outside Audit & Supervisory Board Member(s), the concerned department(s) conducts explanatory meeting(s) concerning the information requiring decision-making by the Board of Directors, as needed. Such meetings are attended by the Secretariat of the Board of Directors and held prior to Board of Director meetings. The Company has built the database which houses

materials, minutes, other information of the Board of Directors and other major committee meetings in the past. This database can be accessed by all members of the Board of Directors and the Audit & Supervisory Board, including Outside Member(s).

**2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System)**

1) Overview of Current Corporate Governance System (the reference material at the end of this Report: see the schematic diagram.)

The Company positions the Board of Directors as the core of corporate governance. To enhance the effectiveness of the Board, the Company has worked to improve the Board organizationally and operationally so that it can discuss important management matters more thoroughly and make prompt decisions. To this end, having introduced the Executive Officer System in 1999, the Company has worked to separate management decision making and supervisory functions from executive functions to the extent permitted by laws and regulations. The Company also limits the Board of Directors to a small number of members and appoints Outside Directors and Outside Audit & Supervisory Board Members. To improve the effectiveness of discussions at meetings of the Board of Directors, the Company has worked to reform their operational aspect, primarily by putting in place a system to ensure thorough discussions of important management matters and prompt decision making.

The Company holds Board of Directors' meetings periodically at least once every month. The Board of Directors deliberates and makes resolutions on important matters, determines management policies of the Company, and rigorously controls and supervises the execution of duties by all members of the executive management team including Representative Directors. Of the eight (8) Directors on the Board, three (3) are Outside Directors to ensure transparent and objective management.

In FY2019, the Board of Directors met fifteen (15) times, made decisions on important management matters based on the Standards for Matters to be Referred to a Meeting of the Board of Directors, and reported business execution. While the business execution reports cover virtually 100% of businesses on a consolidated basis, that of very small operations are also reported, centering on their safety, compliance and risk matters, in Board meetings. To ensure thorough discussions by the Board of Directors, the Company secures ample time for thorough discussions and has adopted the process in which the Board of Directors meet twice to separately discuss and resolve important agenda.

In monthly Board meetings, the President and CEO directly reports latest conditions and topics of important matters, including safety, compliance and risk management, CFO also reports conditions of sales, income, orders received and borrowings.

In FY2019, the attendance at Board meetings (average attendance rates) is shown below.

- Directors: 99%
- Auditors: 100%

Audit & Supervisory Board Members attend important meetings such as meetings of the Board of Directors, Strategy Review Committee, Compliance Committee, and Risk Management Committee, visit and inspect offices and plants of the Company and its subsidiaries in Japan and overseas, exchange opinions with the representative directors, other Directors and Audit & Supervisory Board Members, and management of the Company and its main subsidiaries, and hold liaison meetings and individual interviews with the standing Audit & Supervisory Board Members of subsidiaries in Japan. Through these activities, they monitor the upgrading and implementation status of the internal control system. They also periodically exchange opinions with the Internal Auditing Department and the Accounting Auditors and maintain close contact to enhance the effectiveness of audits.

The Audit & Supervisory Board consists of five (5) Audit & Supervisory Board Members, including three (3) or more Outside Audit & Supervisory Board Members. The Board meets periodically at least once every month in principle and determines audit policies and the division of duties among Audit & Supervisory Board Members. Based on audit policies, each Audit & Supervisory Board Member audits the execution of duties by Directors and hears reports from members of the executive management team on their execution of duties, thereby performing appropriate audits. To assist the Audit & Supervisory Board Members in their duties, the Company has established the Office of Corporate Auditors' Staff, allocates necessary staff, and budgets expenses, which are regarded as necessary to perform their duties based on audit plans, thereby performing appropriate management and execution.

To promote efficient management of the Board of Directors, the Company has established a Strategy Review Committee consisting of Senior Executive Officers and senior managers. Based on the reviews of the Committee, Executive Officers and senior managers execute their duties within the authority delegated by the Board of Directors.

As a means to supplement executive functions, the Company established the International Advisory Board (IAB) in 1995. Through the IAB, the Company aims to secure objective advice and suggestions from experts from Japan and abroad about how to function as a global company by exchanging opinions and holding discussions.

The Human Resource Advisory Committee, consisting of three (3) Outside Directors, Chairperson of the Board and President, discusses appointment and discharge of senior management officers and offers advice and suggestions to the Board of Directors. When selecting the candidates, the Committee also considers diversity, as represented by gender, and nationality and race. Based on the report, the Board of Directors discusses and decides appointments of the candidates for directors and Audit & Supervisory Board Members as well as appointments and discharges of executive and other officers.

In an effort to maintain an objective and transparent remuneration system, the policy and levels of remuneration for Directors and Audit & Supervisory Board Members of the Company are deliberated by the Compensation Advisory Committee, which consists of seven (7) Outside Members [three (3) Outside

Directors (including one (1) as the Chairperson of the Committee), three (3) Outside Auditors, and one (1) Outside Expert] and one (1) Internal Member. Taking its reports and recommendations into consideration, the remuneration for Directors is determined by the Board of Directors, and the remuneration for Audit & Supervisory Board Members is determined by discussions by the Audit & Supervisory Board Members, respectively, within the range previously determined by resolution of the General Meeting of Shareholders.

Furthermore, the Company works to mitigate legal risks by securing timely advice from expert law offices regarding important legal issues.

#### 4) Succession Plans

One of the items that has been contained in the Code of Conduct for Leadership/Top Management described in the KOMATSU Way since its establishment in 2006 is “continue to think about your succession plan.” The KOMATSU Way positions the cultivation of management successors as an important task that can only be entrusted to top management. Members of top management are thus expected to always have clearly defined successors and to take steps to foster within these successors the capacity to identify the underlying causes of issues by providing them with opportunities to experience and gain understanding of various work sites.

The Human Resource Advisory Committee, which comprises the chairman of the Board, the president, and outside directors, consistently engages in discussions regarding the selection and cultivation of candidates for positions as next the president (CEO) and the next president (CEO) to follow.

#### 5) Summary of Limitation of Damage Liability

Based on the agreement, the Company sets the limited amounts of liability as specified in laws and regulations.

### 3. Measures to Ensure Due Respect for Stakeholders

	Supplementary Explanations
Stipulation of Internal Rules for Respecting the Position of Stakeholders	<p>Komatsu's Worldwide Code of Business Conduct, which stipulates the Rules of the Business Community to be followed by executives and employees of the Komatsu Group companies around the world, requires timely and fair disclosure of accurate information in order to develop and maintain the long-term relationship of trust.</p>
Implementation of Environmental Activities, CSR Activities etc.	<p>The Company has created the Komatsu Earth Environment Charter, in which the Earth environment is defined as one of the most important management tasks of the Company, and thoroughly promotes environmental conservation efforts.</p> <p>The Company has published our integrated report, Komatsu Report, for our stakeholders to introduce the Group's efforts to realize sustainable growth in corporate value. The Komatsu Report mainly focuses on the value creation business model of working for sustainable growth by turning a positive cycle of improving earnings (financial indexes) and solving ESG issues (non-financial indexes) as it implements growth strategies in the mid-term management plan. Separate reports (ESG Databook) are prepared and disclosed to provide detailed CSR &amp; Environmental information.</p>

Development of Policies on Information Provision to Stakeholders	The Company works to actively disclose information related to all areas of management to shareholders and other stakeholders after thoroughly considering safekeeping confidential information.
Other	<p>The Company established its Human Rights Policy in September 2019, thereby declaring its commitment to promoting respect for human rights in line with internationally accepted standards. Through human rights due diligence based on the United Nations Guiding Principles on Business and Human Rights, the Company will conduct training programs (e-Learning) on human rights to educate its employees and implement measures for preventing or mitigating negative impacts on human rights. In addition, frameworks will be put in place to allow for corrective measures to be instituted should it be found that the Company was directly or indirectly involved in activities that had a negative impact on human rights.</p> <p>[LGBT support, work-life balance, promotion of women’s participation and advancement in the workplace, etc.]</p> <p>The Company engages in a variety of measures designed to create workplaces where all employees feel comfortable working.</p> <p>To support LGBTs, the Company revised the Komatsu’s Worldwide Code of Business Conduct in 2017, prohibiting discriminatory treatment because of sexual orientation and identity, and thoroughly informing that discriminatory words and action against LGBT employees would be included in and applicable to sexual harassment. The Company is improving its programs and systems to establish an in-house consultation desk concerning LGBT, recognize same-sex partnerships, and expand the scope of applications concerning welfare benefits, holidays, and leave of absence. It is also working to foster a better understanding of LGBT through E-learning designed for managers in order to create workplaces where all employees feel comfortable working.</p> <p>The Company also promotes the work-life balance practice among all employees by not only working to reduce total working hours but also improving a variety of supporting programs.</p> <p>1) Reduction of total working hours: The Company is currently engaged in co-operative undertakings with labor unions in order to formulate specific quantifiable targets to reduce the total number of working hours for its employees. The Company establishes commendable goals of less than 2,100 working hours per year, along with the provision of an average of at least 19 days of paid leave per year for each employee. In addition, based on compliance with the Article 36 Agreement or agreement on overtime, the Company is working to realize an efficient way of working. As of FY2018, the Company has started an “interval system”, promoting a “safe and healthy” manner of working.</p> <p>2) Improvement of supporting programs: The Company is establishing systems such as child-care leave and shorter working hours is one of the factors which ensure a sustainable workplace environment. In 2007, the Company was certified by the Japan Ministry of Health, Labour and Welfare to display the “Kurumin” symbol as a company that supports the development of the next generation. The Company subsequently launched the “Panel on Fostering Future Generations” as well as the “Research Group on Solutions against Low Birthrate and Longevity” in our company and have continued to work on expansion measures for the child-care support systems. In addition to the improvement in the paid leave systems such as extending periods of child-care leave (to a maximum of three years) in 2011 and granting child-care leave for employees in case whose spouse is transferred to another place, the Company reviews its personnel evaluation systems by offering options such as temporary part-time work for those who raise</p>

children and goal setting methods corresponding to each employee's working condition. These options are designed to motivate employees who are working part-time due to child-care.

The Company is also focusing on ways to support employees who are working while providing nursing care. In 2013 we introduced an allowance that can be received during family-care leave as a measure of financial support, and in 2014 the Company introduced an option of home teleworking for employees who are engaged in nursing care for children and/or other family members. In addition to improving the programs and systems, the Company has provided opportunities for employees to think about their stance on nursing and work-life balance as well as monthly consultations by outside experts for individual employees, offering individually tailored support.

The Company has also established a consultation desk at each plant, where employees can receive information about keeping a balance between medical treatment and work from the viewpoints of health and safety. In FY2019, the Company introduced the leave of absence program for fertility treatment to increase options for employees to maintain their work while receiving treatments. This helps create workplaces where employees who need medical treatment can feel comfortable and safe to continue working. The Company continues to support employees to achieve a healthy work and life balance.

For FY2019, the number of paid holidays taken by employees was nineteen point nine (19.9) days on average and the number of employees who used the childcare leave was one hundred sixty-one (161) (including forty-three (43) men). The reinstatement rate from childcare leave was 99.4%, and five (5) employees took advantage of the subsidies program for caring for family members.

The Company is vigorously pushing ahead with various measures for making concerted efforts to employ and train more women, and providing a working environment in which female employees can continue developing their careers after maternity leave. The Company appointed the first female executive officer in April 2011 and the first director in June 2018. Because the Company considers the low number of female managers in comparison to male managers to be an issue in need of further improvement, not only does it support the combining of work with life events such as childbirth, child raising and caregiving, but it also supports women's career development and actively appoints them to managerial roles.

While the Company has set a target of bringing the ratio of female managers to 10% by April 2021, the respective Komatsu Group companies in Japan and overseas have also set quantitative targets particularly in terms of ratios of female employees in their workforces and ratios of female managers, and furthermore they have been taking action accordingly through various initiatives geared to achieving those benchmarks.

Since March 2019, the Company held the "Diversity & Inclusion Development Seminar," for female managers of the Company and of its overseas subsidiaries. This seminar is designed for participants themselves to not only gain a deeper understanding of such issues as the history of the Company, The KOMATSU Way, and the management strategy, but also to receive support to become leaders who will drive the activities to promote diversity at each company.

	<p>As a measure to develop female employees in Japan, since FY2015, the Company has held the career plan seminar where participants think about their future and ways of working, and the Career Development Program where they plan their mid to long-range career plans with their supervisors. Since FY2016, jointly with other manufacturers, the Company has continued to engage in the exchange seminars for female employees. Since FY2015, the Company has periodically dispatched female managers to outside training programs, working to develop management officers.</p> <p>Because measures to promote the active involvement of women lead to the creation of systems and work environments that are comfortable for everybody to work in, and that allow individuals to maximize the expression of their abilities, the Komatsu Group will continue to promote such initiatives going forward.</p>
