Notice of Launch of SDGs Feature “OKABE’s Sustainability”

The Company announces that it has launched the SDGs feature “OKABE’s Sustainability” on its website (<https://www.okabe.co.jp/english/sustainability/>).

Sustainable Development Goals (SDGs) are international goals for the period from 2016 to 2030 established in the “2030 Agenda for Sustainable Development” adopted at the United Nations Summit held in September 2015. It consists of 17 goals with 169 targets to realize a sustainable world, and pledges to leave no one behind.

The Company has stated its initiative policy for SDGs in its three-year medium-term management plan, NEXT100 – PHASE 2, which commences in 2020, and launched initiatives for its realization based on the idea that incorporating its approach to SDGs in its business activities in order to contribute to society will lead to its medium- and long-term development.

Please read “OKABE’s Sustainability” as the Company publishes information such as (i) the goals of the SDGs that the Company is prioritizing, (ii) the direction of future business activities, and (iii) quantitative data (results and numerical targets) regarding corporate governance and the amount of substances from its business activities that impact the environment, such as the amount of CO2 emissions.
