**[Monthly comment]**

In January, net sales totaled 99.6% for existing stores compared with the previous year and 101.7% for all stores.

Even though sales of furniture, hobby-related items, sports and outdoor items, audio-visual equipment, etc. continued to perform favorably in addition to favorable sales of home appliances due to factors such as increased demand for winter home appliances with the drop in temperature, sales of apparel dropped due to factors such as consumers refraining from going out centering on metropolitan areas with the declaration of a state of emergency, leading to decrease in net sales for existing stores compared with the previous year.

**[Information on opening and closing stores]**
