(Stock Code: 3939 TSE 1)

Kanamic Network Recognized under the “2021 Certified Health & Productivity Management Outstanding Organizations Recognition Program”

Kanamic Network Co., Ltd. (Headquarters: Shibuya-ku, Tokyo; Representative Director and President: Takuma Yamamoto; hereinafter “the Company”) was, as with the previous year, recognized under the 2021 Certified Health & Productivity Management Outstanding Organizations Recognition Program. Through this award, the Ministry of Economy, Trade and Industry (METI), the Ministry of Health, Labour and Welfare (MHLW), and Nippon Kenko Kaigi jointly recognize outstanding enterprises engaging in efforts to advance health and productivity management.

The Certified Health & Productivity Management Outstanding Organizations Recognition Program is a system for highlighting outstanding large enterprises, SMEs and other organizations engaging in initiatives for overcoming health-related challenges in communities or for promoting health-conscious activities led by the Nippon Kenko Kaigi, and recognizes outstanding enterprises engaging in efforts for health and productivity management.

2021

健康経営優良法人

Health and productivity

Based on its management philosophy, the Company believes that the health of everyone who interacts with the Company, including employees and their families, is the cornerstone of the future the Company envisions; and the Company has placed a focus on health management.

Following the reception of this Award, the Company will work to further improve its workplace environment and promote health of its employees, as well as to promote health management so that it can contribute to the health of everyone who uses its services.

■About “Kanamic Cloud Service”

The “Kanamic Cloud Service is a “regional communication” cloud service that contributes to the realization of the “community comprehensive care system” that our super-aged society requires by making multidisciplinary communication among local governments, medical associations, and elderly care service providers possible. It is used by over 120,000 users in over 1,100 communities (as of September 2020). The Company's lineup includes an information sharing system for the purpose of facilitating communication among interdisciplinary professionals as well as a system for elderly care service provider operations.
