[Monthly comment]

In March, net sales totaled 109.1% for existing stores compared with the previous year and 112.4% for all stores.

Due to factors including increase in outings with the lifting of the state of emergency and the rise in temperature, sales of apparel performed favorably with increased sales of spring items in addition to favorable performance in sales of brand items. Due to such factors, even though there was one less Sunday and holiday each than in the previous year, sales for both existing stores and all stores increased compared with the previous year.
