- We examine each shareholding for economic rationale from the viewpoint of profitability, creditworthiness, regional characteristics (relevancy to our core business area), and improvement of business relationship, etc. Concerning profitability, we examine their overall business RORA(\*2) based on our ROE target.
  - (\*) overall business RORA = (Net interest margin on loans and deposits Expenses (including credit cost) +Fees and Commissions + Dividends) ÷ Risk-weighted Assets (Loans and Stocks)

| Incentives to Directors               | Others  |

#### [Supplementary Explanation]

The Company has introduced performance-linked compensation system regarding the bonuses for executive directors. In addition to basic amount for each position, individual bonuses shall be distributed based on contribution to business performance by each executive director, within the limits of total amount determined in accordance with consolidated net income level (ROE) for each fiscal year. The reason for using ROE as performance-linked compensation indicator is to give more incentives to enhance corporate value of the Group.

With aim to enhance the link between executive director compensation and business performance or shareholder's interest, the Company has issued stock acquisition rights under a stock option scheme as share-based compensation. But for the purpose of promoting further value-sharing with the Company's shareholders and providing an additional incentive to the Directors, excluding Outside Directors and Directors who are Audit and Supervisory Committee Members, to achieve the sustainable enhancement of the Company's corporate value, we resolved to introduce a restricted stock remuneration plan from fiscal year 2020 and abolished the above-mentioned remuneration framework for the stock compensation-type stock options.

The recipients of the restricted stock remuneration plan are the same as stock options, executive directors and executive officers of the Company and subsidiary banks.

#### [Disclosure of Policy for Determining Compensation Amounts or Calculation Methods Thereof]

Director compensation shall be determined separately for "directors (excluding the Audit and Supervisory Committee members)" and "directors (to be the Audit and Supervisory Committee members)", within annual limits resolved at the General Meeting of the Shareholders. The Company resolved the annual limits of total amount of compensation for directors (excluding the Audit and Supervisory Committee members) with ¥200 million and for the Audit and

Supervisory Committee members with ¥80 million, at the Ordinary General Meeting of the Shareholders held on June 28, 2016.

The compensation for executive directors of "directors (excluding the Audit and Supervisory Committee members)" shall consist of "Monthly Basic Salary" as fixed salary, "Stock Options" and "Bonuses" as performance-linked compensation.

"Monthly Basic Salary" for individual executive director shall be determined by position. Regarding "Bonuses", in addition to basic amount for each position, individual bonuses shall be distributed based on contribution to business performance by each executive director, within the limits of total amount determined in accordance with consolidated net income level (ROE) for each fiscal year. The reason for using ROE as performance-linked compensation indicator is to give more incentives to enhance corporate value of the Group. The ROE result as of March 31, 2020 was 4.0%, with a target of 5% or more in the second medium-term group business plan (period: April 1, 2019 to March 31, 2022). In fiscal year 2019, the percentage of performance-linked compensation to total amounts for executive directors was about 5%.

"Stock Option" shall be paid by position, in the form of the stock acquisition rights under stock option scheme as share-based compensation, in which their exercise price per share shall be one (1) yen.

For the purpose of promoting further value-sharing with Company's shareholders, and providing an additional incentive to the Directors, excluding Outside Directors and Directors who are Audit and Supervisory Committee Members ("Eligible Directors"), to achieve the sustainable enhancement of the Company's corporate value, we introduced a restricted stock remuneration plan ("the Plan") from fiscal year 2020 instead of the conventional stock option scheme.

Subject to the introduction of the Plan, the remuneration framework for the above above-mentioned stock compensation-type stock options was abolished, and future stock acquisition rights granted as stock compensation-type stock options will no longer be allocated to the Eligible Directors.

Under the Plan, the Eligible Directors shall make payments in kind as contributed assets using all of the monetary compensation claims provided to them by the Company and receive the issuance or disposal of the Company's common shares and the Company and each of the Eligible Directors shall enter into a restricted stock allocation agreement.

The remuneration to be paid to the Eligible Directors for the granting of restricted stock shall be monetary compensation claims and the total amount of such claims is set at 20 million yen or less per year within the amount of remuneration for the Company's Directors (excluding Directors who are Audit and Supervisory Committee Members Members), and the total number of common shares newly issued by the Company is set at 200 thousand shares or less per year.

The allocation of payment to each Eligible Director shall be determined by position.

<Details of restricted stock allocation agreement (the "Allocation Agreement")>

#### (1) Transfer Restriction Period

The Eligible Directors may not transfer, use as collateral or otherwise dispose of the Company's common shares allocated in accordance with the Allocation Agreement (the "Allotted Shares") for a period of 30 years (the "Transfer Restriction Period") from the date on which allocation was received in accordance with the Allocation Agreement (this prohibition is hereinafter referred to as the "Transfer Restriction").

## (2) Treatment in the event of resignation

In the event that an Eligible Director, prior to the expiry of the Transfer Restriction Period, resigns from a position stipulated by the Company's Board of Directors for any reason other than the expiry of the term of office, death or any other legitimate reason, the Company shall rightfully acquire the Allotted Shares without consideration.

#### (3) Removal of Transfer Restrictions

Notwithstanding the provisions of (1) above, the Company shall remove the Transfer Restrictions

on all Allotted Shares, at the expiry of the Transfer Restriction Period, on the conditions that the Eligible Director continuously remains in a position stipulated by the Company's Board of Directors during the Transfer Restriction Period. However, if the Eligible Director resigns from a position stipulated by the Company's Board of Directors prior to the expiry of the Transfer Restriction Period due to the expiry of the term of office, death or any other legitimate reason, stipulated in (2) above, the number of the Allotted Shares for which the Transfer Restrictions are to be removed and the timing of the removal of the Transfer Restrictions shall be reasonably adjusted, as necessary. Furthermore, the Company shall rightfully acquire without consideration any Allotted Shares for which the Transfer Restriction had not been removed immediately after the removal of the Transfer Restrictions in accordance with the above provisions.

(4) Handling in the case of organizational restructuring, etc.

Notwithstanding the provisions in (1) above, during the Transfer Restriction Period, in the case that a merger agreement in which the Company becomes the non-surviving company, a share exchange agreement or share transfer plan in which the Company becomes a wholly-owned subsidiary or other matters related to its organizational restructuring is approved at the general meeting of shareholders of the Company (or at the Board of Directors, if such organizational restructuring in question does not involve the approval of the general meeting of shareholders of the Company), the Company shall remove the Transfer Restriction on all Allotted Shares, by resolution of the Board of Directors of the Company, prior to the effective date of such organizational restructuring, etc. Furthermore, the Company shall rightfully acquire without consideration any Allotted Shares for which the Transfer Restriction had not been removed immediately after the removal of the Transfer Restrictions in accordance with the above provisions. (5) Other matters

Other matters relating to the Allocation Agreement shall be determined by the Board of Directors of the Company.

The compensation for outside directors not to be the Audit and Supervisory Committee member shall consist of monthly basic salary only as fixed compensation, and shall be determined according to internal regulation concerning compensation established by the Board of Directors. The compensation for "directors (to be the Audit and Supervisory Committee members)" shall consist of monthly basic salary only as fixed compensation. The monthly basic salary of each director shall be determined according to deliberation of the Audit and Supervisory Committee based on internal regulation concerning compensation, reflecting full-time or part-time status, established by the Audit and Supervisory Committee.

After deliberation of the Corporate Governance Committee as an advisory body to the Board of Directors to ensure its objectivity and transparency, individual compensation for "directors (excluding the Audit and Supervisory Committee members" shall be decided by the Board of Directors, and that for "directors (to be the Audit and Supervisory Committee members)" shall be decided by the Audit and Supervisory Committee.

The majority of the Corporate Governance Committee members shall be outside directors (including outside directors nominated by wholly-owned banks), and the chairman shall be elected from among outside directors.
