## **Business Report for Fiscal 2020**

(March 1, 2020 – February 28, 2021)

### **1. Status of the corporate group**

#### (1) Business operations during the fiscal year under review

##### (i) Progress and results of operations

The Company has defined a long-term vision through the fiscal 2025 (FYE February 28, 2026) by which we will pursue our management philosophy and achieve further business growth. We are working together with local communities to achieve sustainable growth by creating social, environmental, and economic value through the execution of management in light of the ESG perspective.

Our current medium-term management plan covering fiscal 2020 (FYE February 28, 2021) through fiscal 2022 outlines four growth policies: (1) Achieve high profit growth overseas; (2) Achieve stable growth in Japan; (3) Build a financing mix and governance structures supporting growth; and (4) Pursue ESG-based management.

For the fiscal year under review, the spread of COVID-19 on a global scale during the first quarter of the fiscal year, and in China, ASEAN and Japan where we are operating stores, we shortened operating hours of the malls or closed the malls temporarily, due to government requests or in consideration of preventing the spread of the infection. For specialty store companies, which are important business partners, we provided support such as rent reduction and exemption, etc., in light of the restrictions on mall operations, while at the same time, we worked to reduce costs by reviewing costs for mall management and operation during the closure period.

Operating revenue for the fiscal year under review amounted to ¥280,688 million (-13.4% year on year). Operating income came to ¥34,394 million (-43.4% year on year), ordinary income was ¥28,437 million (-49.3% year on year), and net loss attributable to owners of parent amounted to ¥1,864 million (net income attributable to owners of parent of ¥34,239 million in the previous fiscal year).

Fixed costs, etc. during the temporary closure period for the fiscal year under review amounted to ¥16,572 million as loss due to COVID-19 under extraordinary losses.

### < Overseas >

Operating revenue was ¥43,594 million, a decrease of 11.3% year on year, while operating income amounted to ¥3,771 million, down 54.6%.

Consumption in China and ASEAN has declined temporarily due to the spread of COVID-19. Although there were degrees of difference among countries and areas in which we operate malls, activity has been improving overseas since we resumed operations, and we aim to continue delivering high growth in these regions.

We had planned to operate a network of 70 malls overseas by 2025. However, due to the impact of COVID-19, delays occurred in negotiations for new property sites and city planning. As a result, we have changed our store opening plan and are now preparing to have 50 malls in operation overseas by 2025. We will continue to search for and secure new properties in high-growth areas of China and ASEAN toward building a pipeline by the end of 2025 that will support a network of 70 malls.

Business results for the fiscal year under review covers a period from January to December

as the fiscal year-end for overseas companies is the end of December.

(China)

Operating revenue was ¥31,353 million, a decrease of 12.5% year on year, and operating income amounted to ¥2,296 million, down 59.1%.

Due to the blockade of Wuhan City by the spread of COVID-19, we closed specialty store operations temporarily in the three malls in the city beginning January 24, 2020, and from then until mid-February 2020, we closed up to 11 of the 21 malls operating in China temporarily following the spread of the infection throughout China. As business resumed gradually between February 22 and March 2020, specialty retail tenants opened for business at all 21 malls by April 1, 2020. From July 20, we began reopening movie theaters one after the other, which had been closed due to government orders. By early August, theaters were once again open at all malls.

Prioritizing safety and security above all else, we took the lead in launching a live e-commerce platform at AEON MALL properties, allowing our tenants to conduct live e-commerce. We also sponsored delivery promotions for restaurant tenants and held night markets using our large mall parking areas. In this way and more, we responded to changes in consumer behavior and government economic stimulus programs.

In November, we leveraged *Double 11* (China's largest e-commerce event, held every November 11) to launch a special ALIVE WINTER PLAN campaign through the year end and New Year holidays. In addition to various events and sales discounts, we also rolled out the latest in digital promotions through our e-commerce site, including a Double 11 sale, digital coupons, and live commerce hosted by approximately 30 of China's most popular retailers.

Regarding existing malls, we renovated the food zone in AEON MALL Wuhan Jinqiao (Wuhan City, Hubei Province) in June and underwent a floor space expansion and renovation in AEON MALL Wuhan Jinyintan (Wuhan City, Hubei Province) in July. At AEON MALL Wuhan Jinyintan, we converted the parking lot on the fourth floor of the main building into stores, and introduced 48 stores, including a new food court and amusement facilities, in addition to a restaurant district with a collection of food and beverage specialty stores from around the world.

Sales at specialty stores in the existing 19 malls in China for the fiscal year under review amounted to 79.8% of the previous fiscal year, partly due to the impact of the closure in the first quarter of the fiscal year. Since the resumption of operations, partly due to the effects of the above-mentioned initiatives, sales in the fourth quarter of the fiscal year under review (three months) recovered to 102.9% year on year, showing a trend exceeding the previous fiscal year.

(ASEAN)

The Company recorded operating revenue in ASEAN in the amount of ¥12,241 million, a

decrease of 7.9% year on year. Operating income amounted to ¥1,474 million, down 45.1%.

We closed specialty store operations at four malls temporarily in Vietnam beginning March 28, 2020, due to government regulations associated with COVID-19. On April 24, 2020, we resumed operations, with all five malls in Vietnam opened. Although customer traffic and sales of each mall temporarily dropped due to the spread of COVID-19 in late July, customer traffic returned quickly due to strict virus containment measures in the country, and specialty store sales at four existing malls in Vietnam in the fourth quarter of the fiscal year under review (three months) recovered to 101.4% year on year, showing a trend exceeding the previous fiscal year.

In Cambodia, due to the spread of COVID-19, we shorted mall operating hours at our two existing malls for a time until returning to normal in June. In August, we reopened mall movie theaters. Although COVID-19 had a minimal impact on operations, many foreign nationals living in Cambodia returned to their home countries, which limited specialty store sales performance for the fiscal year under review to 75.1% of the previous fiscal year at our existing two malls.

In Indonesia, we closed specialty store operations temporarily at two existing malls beginning March 31, 2020, due to large-scale government social restrictions following the spread of COVID-19, but resumed operations on June 15. However, with the continuous increase of COVID-19 patients in Indonesia, conditions have been challenging and customer traffic declined 50% year on year at our two existing malls. We introduced food delivery discount promotions in collaboration with local companies and engaged in other measures to secure sales at our malls.

During the fiscal year under review, we opened two new malls: AEON MALL Sentul City (West Java), our third mall in Indonesia, in October, and AEON MALL Hai Phong Le Chan (Hai Phong City), our sixth mall in Vietnam, in December.

AEON MALL Sentul City is located within a development area in Bogor Province, West Java, about an hour's drive from the center of Jakarta. The area has already been developed for housing, offices, hotels, schools, etc., and is expected to see high growth in the future. In addition, a next-generation transportation system connecting central Jakarta and Bogor is planned for the future, and the area is expected to attract visitors from wide areas. The opening in October is a partial opening, and the grand opening for the mall is scheduled for 2021.

AEON MALL Hai Phong Le Chan is located in Hai Phong City, the third largest city directly under the control of central government in Vietnam, and as the largest port city in the north of the country, it is an area where large-scale infrastructure development is underway and economic growth and commercial development are expected. In this mall, we worked on MD that meets the needs of the local community, including shopping, dining, and entertainment. In addition, we installed more than 100 digital signage units, including a large digital screen on the exterior wall of the mall and touch-panel information search signage inside the building, to provide the latest digital experience, such as map search inside the building and the display of anti-COVID-19 signs.

In Vietnam, we signed a comprehensive memorandum of understanding (MOU) with the Ho Chi Minh City government regarding investment and business promotion in the development of shopping malls in Ho Chi Minh City, in October. Based on this memorandum, we plan to

strengthen the structure for cooperation toward further developments of our large-scale shopping mall business in Ho Chi Minh City, striving to revitalize the region and create new services for customers.

In Cambodia, AEON MALL Phnom Penh (Phnom Penh City) welcomed a COACH store in October. This marked the first luxury brand retail store in the country. The mall is planning a major renovation to transform it into a luxury mall in 2021.

In Indonesia, AEON MALL Jakarta Garden City (Jakarta) introduced SAMSAT facilities in November. SAMSAT is a onestop, integrated administrative system offering government administrative functions for the Special Capital Region of Jakarta. We enhanced convenience by providing an environment where customers can complete administrative procedures, including registering their cars and motorcycles, and paying automobile taxes, etc., while visiting the stores. The facility is also planning to open a driver's license renewal center in the future to attract more customers.

We signed an agreement for cooperation on regional revitalization between AEON MALL Sentul City and Bogor Province, where the mall is located. This agreement aims to improve convenience for local residents in Bogor Province, disseminate local information, and serve as a base for the community, and will promote the revitalization of the region through the effective use and cooperation of the resources of both parties.

We plan to open our first-ever mall in the suburbs of Yangon, Myanmar (Dagon Seikan Township, Yangon District) in 2023. The Company has established a joint venture with SHWETAUNG REAL ESTATE Co., Ltd., the largest real estate developer in Myanmar. In the future, this joint venture will pursue multi-store property development in Myanmar. To date, the AEON Group has implemented school construction support, tree-planting activities, and other social contribution activities in Myanmar, creating deeper interchange with the people the country. We welcome the opportunity to contribute to new lifestyles and economic revitalization through our mall businesses in Myanmar.

A coup d'état led by the Myanmar military occurred in February 2021, and the country is under a declared state of emergency. We intend to take action based on the local situation, while placing the highest priority on the safety of our employees.

< Japan >

The Company recorded operating revenue in Japan in the amount of ¥237,093 million, a decrease of 13.8% year on year. Operating income amounted to ¥30,597 million, down 41.7%.

In Japan, following the declaration of a state of emergency on April 7, 2020, we closed specialty stores and urban shopping centers in malls managed and operated by the Group temporarily in stages from April 8, 2020, and from April 18, 2020, we temporarily closed all 164 facilities nationwide. Subsequently, Japan phased out its declaration of a state of emergency and we began reopening our businesses on May 13. By May 28, all of our facilities were open for business.

Upon reopening, we installed AI-based thermometers at building entrances and acrylic panels to prevent droplet infections in our sales areas and back rooms. Also, in addition to adopting entry restriction standards based on in-store customer management system data, we implemented other measures to prevent infection and offer safety and security to our customers, such as increasing the internal air circulation in malls by increasing the intake of outside fresh air.

We held drive-in theaters and drive-in public viewings, etc. in outdoor parking lots of AEON malls across the country as entertainment that corresponds with new lifestyles.

We renewed the AEON MALL app completely in June with the aim of improving usability and providing a more stress-free shopping environment. Using this app, we supported specialty store business by providing services including issuing coupons and rewarding points in line with changes in customer behavior, such as dispersing peak visiting hours and using restaurants during slower times. The AEON MALL app won the App of the Year Award for Excellence, recognized as an app that achieved essential growth in 2020, in the App Ape Award 2020. The App Ape Award, organized by app analysis platform company Fuller, Inc., is one of Japan's largest app awards. In the future, we will promote the sophistication of the customer's purchasing experience in digitization through enhancement of convenience by further expanding functions.

We expanded the duration of our AEON MALL Black Friday November campaign to ten days from five in the previous year to disperse customer visits. In addition to the usual sale plans, we implemented new plans utilizing both real and online channels, such as live commerce and a lottery in which customers can participate via the AEON MALL app, so that customers can enjoy shopping even during COVID-19 pandemic.

As part of our efforts to strengthen mall functions to provide one-stop solutions in the region, the new Uki City Ogawa Branch Office opened in the external building at AEON MALL Uki (Kumamoto Pref.) in December. This is the first time in Japan that a branch office of a city office has been relocated to a mall, and we attempted to improve convenience for users by setting up a café operated by a facility for the handicapped to support their employment, and a large space for relaxation for people of child-rearing age.

In collaboration with Mizuno Corporation, we have been sponsoring projects using real and digital means as part of our Health and Wellness initiatives to provide sports experiences that encourage more people to participate in sports. This project has been responsible for sports experience events at six malls across Japan between November and December. In our mutual

aim to increase desire to participate in sports, increase the number of sports activities, and support health through sports, we also offered sports-related digital content via websites, apps, and other channels. This project was selected as a *2020 Sport in Life Project* by the Japan Sports Agency.

As a new mall in the fiscal year under review, we opened AEON MALL Ageo (Saitama Pref.) in December. As the first new store to open during COVID-19 pandemic, this mall enhanced ventilation by installing circulators in all the atrium areas and opening the high sidelight windows above the atrium, etc. Due to the mall's infection prevention measures, it was evaluated as a facility that takes into consideration the health and safety of visitors and employees, and was the first commercial facility in Japan to receive "WELL Health - Safety Rating." In addition, as part of our efforts to create a new normal mall, we focused on community-based initiatives through the conclusion of Regional Partnership Agreement with Ageo City, and promoted initiatives utilizing digitals such as the introduction of guidance robots, the digitization of "Customer Voices," and the dissemination of information through 320-inch large signage on the exterior walls.

Regarding existing malls, we renovated eight malls, and underwent floor space expansions and renovations at AEON MALL Takasaki (Gunma Pref.) and AEON MALL Kochi (Kochi Pref.).

In June, we renovated 106 specialty stores at AEON MALL Takasaki. The renovations represented approximately half of all mall tenants in combination with our existing wing. The newly expanded wing hosts a number of lifestyle specialty stores, including a large-scale fast fashion retailer, a bookstore, a home appliance retailer, a pet supply shop, and more. We expanded the third-floor food court from 12 restaurants and 700 seats to 16 restaurants and 1,000 seats.

In September, we renovated 92 specialty stores at AEON MALL Kochi. The renovations represented 58% of all mall tenants in combination with our existing wing. The newly expanded wing hosts large-scale fast fashion retailers from Japan and abroad on the second floor, and on the third floor is the food court, which was relocated from the existing wing and upscaled from 10 restaurants and 650 seats to 14 restaurants and 1,000 seats. In addition, to further promote ventilation function in the building, we strengthened our efforts to prevent epidemics by installing more ventilation fans and new air purifiers with high-performance filters in the food court.

For the fiscal year under review, specialty store sales at our existing 83 malls in Japan amounted to 76.0% of the previous fiscal year. In the third quarter of the fiscal year under review (three months), sales recovered to 91.8% year on year, partly due to the effect of the mega-hit of *Demon Slayer: Kimetsu no Yaiba the Movie: Mugen Train*, in attracting customers to cinemas. However, partly due to the state of emergency declared in 11 prefectures following the number of patients infected with COVID-19 increasing again from late November, sales in the fourth quarter of the fiscal year under review (three months) amounted to 85.9% year on year.

OPA Co., Ltd. ("Former OPA"), which is engaged in the urban shopping center business, conducted a company split (incorporation-type company split) on March 1, 2021, with a newly established wholly owned subsidiary ("New OPA") as the successor company, and the Company acquired the split company (Former OPA).

New OPA will specialize in the management and operations of urban facilities, mainly located in transportation terminals, creating new value through a concentration of management resources. The Company will absorb certain community-based facilities and urban facilities owned by Former OPA to transform these assets into facilities that meet daily needs and engage in the redevelopment of certain properties to increase property values.

## (5) Priorities

AEON MALL Co., Ltd. has defined a long-term vision for fiscal 2025 through which the Company will pursue its management philosophy and achieve further business growth. In light of the loss of one year of profit growth due to the impact of the spread of COVID-19 throughout fiscal 2020, as well as delays in negotiations for new property sites and town planning, especially overseas, we have revised our consolidated operating income target, overseas business mall opening plan, and operating income target as follows.

### Vision for 2025

- 1) Build a portfolio of multiple business models, rather than rely on domestic malls as a single source of profit generation.
- 2) Make AEON MALL a leading global commercial developer with consolidated operating income of ¥90 billion.
- 3) Conduct floor space expansions and renovations in Japan to become the overwhelmingly dominant mall in each region.
- 4) Secure growth markets overseas, expand overseas business to 50 malls, and record operating income of ¥27 billion (25% profit margin).

Under this long-term vision, our medium-term management plan covering fiscal 2020 (FYE February 28, 2021) through fiscal 2022, consists of four growth policies: (1) Achieve high profit growth overseas; (2) Achieve stable growth in Japan; (3) Build a finance mix and governance structures supporting growth; and (4) Pursue ESG-based management. By engaging in management from an ESG perspective, we will create both social value and economic value through which we will produce sustainable growth in partnership with our communities.

We have defined the following management issues and future vision with respect to the growth policies. Through these efforts, we will continue to provide solutions to regional and social issues, establishing our position through social infrastructure functions to be a central facility for the local community.

### Management Issues and Future Vision

- 1) Aim for high profit growth in our overseas business, accelerating the opening of new malls in the growing markets of China and ASEAN, and expanding floor space at existing malls.
- 2) Maximize the attraction of brick-and-mortar malls in our business in Japan by offering community solutions, creating new initiatives in collaboration with tenant companies, striving for the rapid resolution of vacant floor space and other priority issues, and creating a customer experience (CX).
- 3) Pursue an urban shopping center business (urban development), including the creation of environments responding to the era of the new normal, construction of next-generation malls, office complexes, and the revitalization of the OPA business.
- 4) Leverage digital and data technologies to pursue digital transformation (DX), including the creation of new business models, business development that creates new customer lifestyles, operating systems for a new era, and improved employee satisfaction.

- 5) Create economic, social, and environmental value for stakeholders by accelerating reforms based on ESG perspectives, with a focus on addressing materialities (key issues) using clearly defined performance indicators.

## (4) Policy concerning decisions on the amounts of remuneration for officers and total amount of remuneration for Directors and Audit & Supervisory Board Members for the fiscal year under

review

(i) Policy concerning decisions on the amounts of remuneration for officers

The Company has established a policy concerning decisions on the amounts of remuneration for officers or the method of calculation thereof, the content of which is as follows.

a Remuneration for Directors is designed to strongly motivate the execution of management policies and linked to business performance, and is designed to be objective and transparent.

b Remuneration for Directors consists of “basic remuneration,” “performance-based remuneration” and “share compensation-type stock options.”

i Basic remuneration

The amount is determined based on individual evaluation within the standard amount set for each position, and is paid on a monthly basis.

ii Performance-based remuneration

The weight of performance-based remuneration in total cash remuneration (basic remuneration + performance-based remuneration) is set at around 30%, with the weight increasing in accordance with responsibility.

The amount of performance-based remuneration paid to each Director (by individual) is calculated as “stipulated amount of the performance-based remuneration x the performance-based remuneration payment rate” and is determined by reflecting the payment rate (0%-170%) based on the Company’s performance and the evaluation of individual performance. The Company has selected the ordinary income budget achievement ratio as the indicator that can most appropriately represent ordinary business performance.

In addition, each independent outside officer who is a member of the Nomination and Compensation Committee evaluates the individual performance of each Director based on the annual business report from each Director, and the evaluation is determined after adding the evaluation by the President. At the same time, the President provides feedback to independent outside officers regarding the final evaluation results of each Director and the performance-based compensation payment ratio.

iii Share compensation-type stock options

Stock acquisition rights shall be allocated as share compensation-type stock options that reflect performance for the purpose of enhancing the morale and motivation to continuously improve performance and increase corporate value by strengthening the linkage between the stock price and performance with the remuneration, and by sharing with shareholders not only the benefits received when the stock price rises but also the risks when the stock price falls. The number of stock acquisition rights allocated shall be determined based on the performance of the year in question according to the standard number for each position. If the ordinary income for the year of grant is less than 80% of the budgeted amount, half of the planned amount will be granted, and if there is an ordinary loss, no amount will be granted.

c Outside Directors are paid only fixed remuneration and are not subject to either company-wide or individual performance evaluations.

d The maximum amount of remuneration for Directors was resolved at the 96th Ordinary General Meeting of Shareholders held on May 17, 2007 to be no more than ¥600 million per year. The number of Directors at the time of the said resolution was 20.

e The person who has the authority to make decisions on the policy concerning decisions on the amounts of remuneration for the Company’s officers or the method of calculation thereof, is the President and CEO, and the content of that authority and the scope of

discretion is for the portion relating to the amount of individual remuneration (monetary portion) for each Director. The Board of Directors resolved to establish “Nomination and Remuneration Committee” at its meeting held in November 2018, and the Committee has been in operation since January 2019. The purpose of “Nomination and Compensation Committee” is to advise or report to the President and CEO, through discussions mainly among five independent outside officers (as of February 28, 2021) in response to the request for advice from the President and CEO. After discussion and report by the Committee, performance-based compensation is determined by the President and CEO within a set range based on the Company’s performance and the individual performance of each Director.

- f As Audit & Supervisory Board Members are in a position to supervise the execution of duties by Directors from an independent standpoint, only fixed remuneration is paid to them. The level of remuneration is set at the level necessary to secure personnel who are suitable to play an important role in the establishment and operation of good corporate governance. The amount of remunerations for Audit & Supervisory Board Members was resolved, at the 91st Ordinary General Meeting of Shareholders held on May 8, 2002, to be no more than ¥50 million per year and is determined through consultation among Audit & Supervisory Board Members within the said extent. The number of Audit & Supervisory Board Members at the time of the said resolution was four.

The policy concerning each remuneration of Audit & Supervisory Board Member is as follows.

i Basic remuneration

A fixed amount is paid to each Audit & Supervisory Board Member based on his or her experience, insight, and position, etc.

ii Performance-based remuneration

No performance-based compensation is paid to Audit & Supervisory Board Members.

iii Share compensation-type stock options

No stock-related compensation is paid to Audit & Supervisory Board Members.

## Measures to Address Environmental Issues

- Initiatives for realization of a decarbonized society

Aiming to realize a decarbonized society, the AEON Group has formulated the “AEON Decarbonization Vision 2050,” along with three initiatives: to reduce the total GHG emissions from our stores to zero by 2050, to continue our efforts to achieve zero GHG emissions from our business operations, and to cooperate with our customers for the creation of a decarbonized society. To achieve this goal, we are promoting energy-saving activities such as the installation of solar power generation equipment and EV chargers.

In addition to the AEON Fujiidera Shopping Center (Osaka Pref.), AEON MALL Nagoya Chaya (Nagoya), AEON MALL Nagakute (Aichi Pref.), and AEON MALL Okazaki (Aichi Pref.), where we utilized CO2-free electricity to date, in fiscal 2020 we newly started utilizing CO2-free electricity at AEON MALL Ageo (Saitama Pref.), AEON MALL Matsumoto (Nagano Pref.), and AEON MALL Tsu-Minami (Mie Pref.). AEON MALL Ageo operates the entire mall including tenants, on completely CO2-free electricity, and reduced CO2 emissions by a total of approximately 268 tons over the seven-month period from June to December as the total of the three malls introduced in the fiscal year under review.

In 2017, the Company participated in the EV100 (Note 1) as a first Japanese company, and has been working to create an environment that enables customers to visit the store with peace of mind by driving EV (electric vehicles) and PHV (plug-in hybrid vehicles). As of the end of the current fiscal year, we have installed 2,422 EV charging stations across 156 malls (Note 2) in Japan and overseas. The Japanese government announced that it will eliminate sales of gasoline vehicles in Japan by mid-2030s, and EVs and PHVs are expected to become even more popular. In response to this, the Company is planning to further expand the number of quick chargers that allow for charging in a short time. At the same time, we aim to increase the usage rate of existing chargers by strengthening customer notification, etc.

- Tree planting activities

The AEON Group has conducted tree planting activities consistently since 1991 as one specific example of the AEON basic principle. In this project, we work together with customers to plant trees that are most compatible with the local environment. As of the end of the fiscal 2019, the AEON Group has planted nearly 1,212 million trees on cumulative basis. The Company planted a combined total of about 54,000 trees at the newly opened four malls in Japan and overseas in fiscal 2020.

## Measures to Address Social Issues

- Attending dementia supporter training courses

In fiscal 2020, we launched a company-wide initiative to learn how to deal with people with dementia, which is expected to increase in the future, with the goal of building a system to support people with dementia in cooperation with various stakeholders in the community. In the second half of fiscal 2020, we conducted web-based courses, and a total of 407 people took the courses, including those held independently at each mall.

- AEON Yume-Mirai Nursery School

As of the end of the current fiscal year, we have opened 31 AEON Yume-Mirai Nursery Schools, on-site childcare facilities (Note 3), to support our employees who work and raise

children. We will continue to take measures to help more people, including employees at mall specialty stores, group company employees and others, offering them support to balance work and childcare and mitigate waiting lists for childcare.

- Blood donation activities

With regard to blood donation activities promoted together with Japanese Red Cross Society, in fiscal 2020, due to the declaration of a state of emergency issued on April 16, we stepped up our blood donation activities by accepting blood donation activities at malls that reopened for business in May, in consideration for concerns about a decrease in the amount of blood donated due to a decrease in blood donation opportunities at companies, schools, and commercial facilities. In May and June, we conducted 832 blood drives in total at 122 malls, and 45,123 people (39,224 of whom donated blood) cooperated, representing more participants than the previous year, and resulting in the collection of 14,905 liters of blood.

companies that encourage the participation of women in the workplace. In fiscal 2020, we continued our efforts from the previous year to encourage male employees to take childcare leave, and in addition to informing employees about our unique monetary allowance system for childcare leave, we introduced the childcare leave acquisition plan sheet. We created an environment where it would be easier to take leave, by setting up a childcare leave plan with his or her family, department, and human resources department as soon the due date of the baby is known.

The Company acknowledges that the internal control system is appropriately operated in accordance with “Decisions regarding system to ensure the appropriate operations,” which is described in the preceding paragraph.

The major operational status for the current fiscal year is as follows.

Based on findings through a risk survey conducted in fiscal 2016 and its responses to serious incidents occurred and new business fields and environments, the Company divided risks according to their importance and need for countermeasures. The Company is building a more effective management system by assigning the intensive discussion of the details of initiatives taken by management divisions to the Risk Management Committee.

In the fiscal year under review, based on our response to incidents such as COVID-19, we reviewed our emergency response measures, such as redeveloping the communication system and decision-making channels throughout the Group. In terms of other risks, we are working also from a risk management perspective to minimize delays in taking countermeasures due to the effects of COVID-19, by switching from group training to remote training, etc., to improve the resilience of our business.

The Company’s subsidiaries in China and ASEAN conducted a risk survey in fiscal 2017. Based on its results, they adopted systems for autonomously promoting risk management systems in each country in line with the practice at the head office in Japan. Furthermore, given the growing importance of subsidiary management in line with business expansion, we are promoting the development of standards for risk management systems tailored to the size

and operations of subsidiaries, and are working to improve the Group's risk management system as well.

Furthermore, the Company's Compliance Committee is discussing matters for the sake of preventing recurrence, treating violations that have occurred in the past within the Company as case studies, in order to prevent the violations of laws and regulations, internal rules and the like which amount to compliance risks. In the fiscal year under review, discussions by the Compliance Committee focused on measures for preventing harassment and enhancement of working hours management. The Company discussed next harassment prevention measures in particular in view of the whistle-blowing status, morale survey findings and the results of compliance education execution, and reported the discussion results to the Management Meeting and the Board of Directors. Through such procedure, the Company is advancing initiatives for raising effectiveness while verifying whether the measures have been implemented appropriately. For responses to transactions that may cause a conflict of interest between the Company and its parent or Group companies, we deliberate on the rationality of transactions and the appropriateness of the terms and conditions of the transactions in accordance with Rules for Managing Related-Party Transactions. We also provide explanations in advance to outside officers on the proposals submitted to the Board of Directors to help them make necessary judgments. In addition, in order to strengthen internal controls, we establish regulations and strengthen the audit system in overseas subsidiaries in China and the ASEAN region. We also control and manage information through appropriate measures, such as obtaining approval from the Management Meeting for important decisions. In September 2018, we established the Basic Rules for Prevention of Bribery in order to prevent bribery in Japan and overseas countries. Based on the rules, we improve the internal system and provide education.

The internal audit department holds meetings with full-time Audit & Supervisory Board Members once a month to manage the progress of the improvement status and sends reports to the Management Meeting once every semi-annual period.
