1. Overview of Operating Results, etc.

(1) Overview of Operating Results for the Fiscal Year under Review

Regarding the Japanese economy in the current consolidated fiscal year, corporate profits have continued to decrease particularly in the tourism, restaurant, and transportation industries due to the impact of requests for staying at home and the declaration of states of emergency by the government, to prevent the spread of COVID-19. The future outlook remains unclear as the number of COVID-19 cases are still increasing.

The electric power industry, the main business of the TAIHEI DENGYO KAISHA Group (the TDK Group), encourages new entry into the market since the Electricity System Reform entered into the final phase of separation of power generation and transmission in April 2020. In addition, fuel conversion has been required for thermal power stations toward the achievement of carbon neutrality by 2050. Concerning the establishment of zero-emission power sources, efforts are underway to improve reliability for nuclear power by safety confirmation through investigation of performance-based assessment.

Under these business circumstances, the TDK Group has started the Mid-Term Business Plan (FY2020 - FY2022) which focuses on "Enhancing the corporate foundation for sustainable growth" and "Securing a revenue base that responds to changes in the business environment". Commencing with the establishment of Wind Energy Project as a new organization in March 2020, we have continued to develop new methods of construction by assimilating our expertise and accumulated technologies. Also, along with conducting market survey and business operation for new business fields such as fuel conversion, we have improved our business enterprise system by allocating personnel efficiently, developing work supervisors, and finding new ideal business partners. Furthermore, we have tried to realize diversity in workstyle, for example, introducing short-time work system for childcare and dispatching a female engineer to overseas project for the first time since our foundation.

As a result, for the results of the current consolidated fiscal year, orders received amounted to 124,747 million yen (a decrease of 0.5% YoY) and net sales amounted to 127,779 million yen (an increase of 7.0% YoY) including 6,340 million yen (an increase of 21.3% YoY) for overseas works.

Regarding profits, operating profit amounted to 7,400 million yen (a decrease of 21.7% YoY), ordinary profit amounted to 8,329 million yen (a decrease of 13.1% YoY) and profit attributable to owners of parent amounted to 5,613 million yen (a decrease of 9.3% YoY).

As for the year-end dividend for the current consolidated fiscal year, the Company decided at the Board of Directors meeting held on February 12, 2021, to pay an ordinary dividend of 80 yen, an increase of 10 yen per share from ordinary dividend at the end of the previous consolidated fiscal year (excluding the commemorative dividend of 20 yen) in accordance with a distribution policy of surplus with long-term and stable return of profit as a basis.

Performance results by business segment are as follows.

(Construction Segment)

Orders received amounted to 60,418 million yen (an increase of 14.5% YoY, composition ratio: 48.4%). Despite a decrease in that of works for thermal power plants for business use, orders received in works for thermal power plants for private use and for iron and steel-related plants increased, resulting in an increase for the overall segment.

Net sales amounted to 57,510 million yen (an increase of 13.4% YoY, composition ratio: 45.0%). Despite a decrease in that for works for environmental preservation plants, net sales of works for thermal power plants for business use increased, resulting in an increase for the overall segment. Segment profit amounted to 2,555 million yen (an increase of 326.0% YoY).

(Maintenance and Renovation Segment)

Orders received amounted to 64,329 million yen (a decrease of 11.5% YoY, composition ratio: 51.6%). Orders received in works for thermal power plants for business use and for iron and steel-related plants

decreased, resulting in a decrease for the overall segment.

Net sales amounted to 70,268 million yen (an increase of 2.2% YoY, composition ratio: 55.0%) due to an increase in that for works for nuclear power plants which resulted in an increase for the overall segment. However, segment profit amounted to 8,222 million yen (a decrease of 26.3% YoY) due mainly to a worsening of the cost rate of works for iron and steel-related plants.

(2) Overview of Financial Position for the Fiscal Year under Review

(a) Assets

Current assets amounted to 94,508 million yen, down 518 million yen from the end of the previous consolidated fiscal year. This was due mainly to a decrease of 6,784 million yen in notes receivable, accounts receivable from completed construction contracts and a decrease of 4,493 million yen in costs on construction contracts in progress, despite an increase of 13,911 million yen in cash and deposits.

Non-current assets amounted to 34,248 million yen, up 1,704 million yen from the end of the previous consolidated fiscal year. This was due mainly to an increase of 299 million yen in land and an increase of 2,577 million yen in investment securities.

(b) Liabilities

Current liabilities amounted to 40,487 million yen, up 1,738 million yen from the end of the previous consolidated fiscal year. This was due mainly to an increase of 4,000 million yen in current portion of bonds payable, despite a decrease of 3,208 million yen in advances received on construction contracts in progress.

Non-current liabilities amounted to 15,156 million yen, down 6,043 million yen from the end of the previous consolidated fiscal year. This was due mainly to a decrease in 4,400 million yen in bonds payable and a decrease of 1,685 million yen in long-term borrowings.

(c) Net assets

Net assets amounted to 73,113 million yen, up 5,490 million yen from the end of the previous consolidated fiscal year. This was due mainly to an increase of 3,778 million yen in retained earnings.

(3) Overview of Cash Flows for the Fiscal Year under Review

Cash and cash equivalents as of the end of the current consolidated fiscal year amounted to 30,941 million yen, up 13,966 million yen from the end of the previous consolidated fiscal year. Status of each cash flow and the factors are as follows.

(a) Cash Flows from Operating Activities

Cash provided by operating activities was 19,576 million yen (3,587 million yen used for the previous consolidated fiscal year). This is due mainly to a decrease in trade receivables of 6,054 million yen and decrease in costs on construction contracts in progress of 4,595 million yen, despite income taxes paid of 3,883 million yen.

(b) Cash Flows from Investing Activities

Cash used in financing activities was 2,011 million yen (4,332 million yen used for the previous consolidated fiscal year). This is due mainly to purchase of property, plant and equipment of 1,554 million yen.

(c) Cash Flows from Financing Activities

Cash used in financing activities was 3,927 million yen (7,022 million yen provided for the previous consolidated fiscal year). This is due mainly to repayments of long-term borrowings of 1,685 million yen.

- * All indicators are calculated using financial figures on a consolidated basis.
- * Market capitalization is calculated by multiplying the stock price at the end of the period by the number of shares issued and outstanding at the end of the period (excluding treasury shares).
- * For the cash flows, the cash flows from operating activities are used.
- * Interest-bearing liabilities include all liabilities recorded on the Consolidated Balance Sheet for which interest is paid.

 In addition, for interest payments, interest paid stated on the Consolidated Statement of Cash Flows is used.
- * Interest-bearing liabilities to cash flow ratio and interest coverage ratio are not stated for the fiscal year during which cash flow from operating activities is negative.

(4) Future Outlook

Regarding the future outlook, the economy is expected to recover under the implement of countermeasures against COVID-19, however, downward risk caused by the spread of COVID-19 both inside and outside of Japan still remains.

In line with progress in the Electricity System Reform, the electric power industry is expected to expand the capacity of renewable energy by dealing with more diversified and complex technological requirements.

In the next consolidated fiscal year, the TDK Group will take action in accordance with our Mid-Term Business Plan, to respond to changes in the business environment toward realization of carbon neutrality by 2050. We will promote the development of new prefabrication methods for both onshore and offshore wind farms, and try to expand our business fields in the works related to fuel conversion and installing carbon capture and storage equipment. In addition, we will establish EPC business and aim at the 100th anniversary of our founding. To enhance our corporate value and consolidate revenue bases, we will enter into new business fields by utilizing our accumulated experience and expertise, which contributes to Japan's "New Growth Strategy".

2. Basic Policy Regarding Selection of Accounting Standards

Taking into account the comparability of periods and among companies of consolidated financial statements, the TDK Group intends to prepare consolidated financial statements in accordance with Japanese GAAP for the time being. Also, as a policy, the TDK Group will appropriately respond to adoption of IFRS in consideration of conditions inside and outside of Japan.

(5) Notes to Consolidated Financial Statements

(Notes on going concern assumption)

Not applicable.

(Changes in significant subsidiaries during this cumulative quarter)

Not applicable.

However, during the consolidated fourth quarter, PT. Taihei Dengyo Indonesia, which was a non-consolidated subsidiary, was included in the scope of consolidation because of increased materiality, although this does not fall under a change in specified subsidiary. Accordingly, the number of consolidated subsidiaries as of the end of the current consolidated fiscal year has changed to six from five.

(Segment information, etc.)

[Segment information]

- 1. Overview of reportable segments
 - (1) Method for determining reportable segments

The Company's reportable segments are components of the Company about which separate financial information is available. These segments are subject to periodic examinations to enable the company's Board of Directors to decide how to allocate management resources and assess performance.

The Company establishes control departments by the types of works which it operates and engages in businesses related to construction, repair and maintenance of various plants and facilities inside and outside of Japan as well as the power generation business. Two segments, the "Construction Segment" and "Maintenance and Renovation Segment," comprise the TDK Group's reportable segments.

(2) Types of products and services belonging to each reportable segment

Construction Segment includes businesses inside and outside of Japan such as installation and reconstruction works, etc., for thermal power plants, nuclear power plants, iron and steel-related plants, environmental preservation plants and chemical plants, etc., electric and instrumentation work, and insulation and painting works incidental to these facilities, as well as demolition and decommissioning, etc., of various plants and facilities.

Maintenance and Renovation Segment includes businesses such as periodic inspection, daily maintenance, renovation, etc., for the various plants and facilities mentioned above.

The power generation business is included in the Maintenance and Renovation Segment.

2. Method of measurement for the amounts of net sales, profit (loss), assets, liabilities and other items for each reportable segment

The method of accounting for the reportable business segments is the same as those employed for preparing the consolidated financial statements."

Profits for the reportable segments are operating profit-based figures.

3. Information on net sales, profit (loss), assets liabilities and other items by reportable segment
