Notes:

1. Japan Post Holdings Co., Ltd., where Mr. MASUDA Hiroya serves as Director and Representative Executive Officer, President & CEO, is the Company's parent company holding the Company's shares. The Company has entered into a contract concerning group management with Japan Post Holdings Co., Ltd., and pays brand loyalty pursuant to said contract. In addition, there are business transactions including contracts related to the use of systems such as information provision services between the Company and Japan Post Holdings Co., Ltd. There are no special conflicts of interest between the other Director candidates and the Company.
2. The positions and responsibilities of Mr. SENDA Tetsuya, Mr. ICHIKURA Noboru and Mr. MASUDA Hiroya as executive persons at the parent company for the past 10 years and at present are as described under "Past experience, positions and responsibilities."
3. The status of attendance at the Board of Directors, the Nomination Committee, the Audit Committee and the Compensation Committee by each candidate for Director refers to the status of attendance for the fiscal year ended March 31, 2021. For Directors who took office mid-term, the status of attendance reported is for the period after their appointment.
4. Of the candidates for Directors, Ms. SUZUKI Masako, Mr. SAITO Tamotsu, Ms. YAMADA Meyumi, Mr. HARADA Kazuyuki and Mr. YAMAZAKI Hisashi are candidates for Outside Directors as stipulated in Article 2, Paragraph 3, Item 7 of the Ordinance for Enforcement of the Companies Act.
5. The term of office of Ms. SUZUKI Masako as Outside Director of the Company will be five years, that of Mr. SAITO Tamotsu and Ms. YAMADA Meyumi will be four years, that of Mr. HARADA Kazuyuki will be three years, and that of Mr. YAMAZAKI Hisashi will be one year, respectively, at the conclusion of this General Meeting of Shareholders.
6. The Company has entered into liability limitation agreements with Mr. MASUDA Hiroya, Ms. SUZUKI Masako, Mr. SAITO Tamotsu, Ms. YAMADA Meyumi, Mr. HARADA Kazuyuki and Mr. YAMAZAKI Hisashi to limit their liability to the minimum liability amount as stipulated in Article 425, Paragraph 1 of the Companies Act. Subject to the approval of election of these candidates, the Company will continue the above-mentioned liability limitation agreements with each of them. In addition, if the election of Mr. NARA Tomoaki is approved, the Company will enter into a liability limitation agreement with him.
7. The Company has in effect a Directors and Officers Liability Insurance contract with an insurance company to cover damages that may arise when the insured assume liability for the execution of their duties or receive any claims in the pursuit of such liability. All candidates for Director will be insured under this contract. The Company plans to renew the insurance contract with the same terms and conditions upon its expiry.
8. The Company has designated each of Ms. SUZUKI Masako, Mr. SAITO Tamotsu, Ms. YAMADA Meyumi, Mr. HARADA Kazuyuki and Mr. YAMAZAKI Hisashi as an Independent Officer with the Tokyo Stock Exchange, and will continue to designate them as Independent Officers if their election is approved.
9. Mr. SAITO Tamotsu served as Chairman of the Board of IHI Corporation until March 31, 2020, which was found to have conducted inappropriate work in its civil aircraft engine maintenance business. On March 29, 2019, IHI Corporation was ordered by the Ministry of Economy, Trade and Industry (METI) to make repairs with repair methods approved based on the Aircraft Manufacturing Industry Act, and on April 9, 2019 it received from the Ministry of Land, Infrastructure, Transport and Tourism (MLIT) a business improvement order based on the Civil Aeronautics Act. After this fact was made clear, Mr. SAITO has fulfilled his duties by ordering comprehensive inspections of quality throughout the company and steadily promoting measures to enhance compliance awareness and prevent recurrence.
10. During the service of Ms. SUZUKI Masako, Mr. SAITO Tamotsu, Ms. YAMADA Meyumi and Mr. HARADA Kazuyuki as the Company's Outside Directors, it was found that there were cases of policy rewriting, etc. that may have caused disadvantages to customers, not in line with their intentions, and the Company received administrative dispositions pursuant to the Insurance Business Act and other relevant laws from the Financial Services Agency of Japan on December 27, 2019 for these cases. In addition to making recommendations from the perspective of legal compliance and customer compliance management at normal times, each of these Directors fulfilled their responsibilities by making recommendations for the protection of customers and prevention of recurrence after the cases had been discovered. Subsequently, five Directors including Mr. YAMAZAKI Hisashi have received regular reporting on the progress of the business improvement plan at the Board of Directors, and appropriately monitor the details and progress of the various measures.

Business Report (From April 1, 2020 to March 31, 2021)

I. Matters Concerning the Current Status of JAPAN POST INSURANCE Co., Ltd.

1. Progress and Results of Business, etc., of the Corporate Group

[Details of main business of the corporate group]

The Company belongs to the Japan Post Group, for which the parent company is Japan Post Holdings Co., Ltd. (“Japan Post Holdings”). At the same time, Japan Post Insurance Group mainly consists of the Company and one subsidiary, and mainly engages in life insurance business.

[Financial and economic environment and business progress and results of the corporate group in the fiscal year ended March 31, 2021]

During the fiscal year ended March 31, 2021, the Japanese economy rapidly deteriorated due to the implementation of countermeasures against the spread of COVID-19 at the beginning of the fiscal year, which was subsequently followed by movements toward recovery due to large-scale fiscal and monetary policy packages and gradual resumption of economic activities. However, recovery was moderate due primarily to intermittent resurgence of the spread of COVID-19. Overseas economies including the U.S. and the Eurozone also suffered a sharp deterioration from the beginning of the fiscal year due to the implementation of countermeasures against the spread of COVID-19, which was followed by continuing recovery supported by government policies in the U.S. and the Eurozone experienced a moderate recovery due to the prolonged restrictions on activities in response to the resurgence of the spread of COVID-19.

In the life insurance industry, customer needs have diversified with heightened selectivity against the backdrop of the advent of a super-aging society and evolving lifestyles, along with the continuing uncertainty caused by the spread of COVID-19. Under these circumstances, we believe that the role of the life insurance industry is growing ever more to support the efforts of customers to prepare themselves for emergencies.

The Company had formulated the Medium-term Management Plan covering the three years from the fiscal year ended March 31, 2019 to the fiscal year ended March 31, 2021, and from the fiscal year ended March 31, 2019, we have been working on efforts such as strengthening of sales activities focusing on protection needs and diversification of asset management, with the aim of increasing profit in both sales and asset management, as well as reversing the declining trend and achieving growth in annualized premiums from policies in force. However, since the fiscal year ended March 31, 2020,

due to the occurrence of solicitation quality issues, we have decided to suspend active sales activities and place top priority on efforts to regain the trust of our customers.

As a result, of the three key quantitative targets set in the Medium-term Management Plan, we exceeded our target for net income per share due to a decrease in operating expenses as a result of refraining from making proactive sales efforts in response to solicitation quality issues, in addition to a steady increase in investment income. We have decided to maintain the dividend per share as targeted. Annualized premiums from policies in force (individual insurance) fell short of the target due to a greater decrease in new policy acquisitions than anticipated for savings-type products caused by factors such as increases in premiums in line with declining market interest rates, as well as the fact that we refrained from sales activities from July 2019 in response to solicitation quality issues.

Major initiatives in the fiscal year ended March 31, 2021 were as follows.

1. Response to solicitation quality issues

To address the issues related to solicitation quality of the Company and its agents that occurred during the fiscal year ended March 31, 2020, we have made company-wide efforts to investigate insurance policies and take other measures to compensate for disadvantages experienced by affected customers, as well as to implement preventive countermeasures.

(1) Status of the investigations of insurance policies and sales personnel investigations

We finished responding to customers in regard to two types of investigations; namely, the “investigations of specified rewriting cases” to confirm whether there were specific cases involving potential disadvantages to customers because customers’ policies are not in line with their intentions for the categories of cases for which we were able to identify as such, as well as the “investigation of all insurance policies” to confirm whether there were cases involving potential disadvantages to customers because customers’ policies are not in line with their intentions with respect to all of our policies, except for cases that could not be completed due to reasons attributable to customers. In addition, we have finished responding to customers in regard to the further investigation of all insurance policies (including the investigations of multiple policies, in which we confirmed cases where sales personnel repeatedly made many policy cancellations and applications, which may not have been in line with the intentions of the customers), except for cases that could not be completed due to reasons attributable to customers.

Sales personnel investigations in connection with the investigations of specified rewriting cases were mostly completed by the end of April 2020, except for cases where the investigations cannot be completed due to sick leave or other reasons. In addition, the sales personnel investigations in

connection with the portion of investigations of multiple policies which have been implemented since 2019 were completed by the end of October 2020, except for cases where the investigations cannot be finished due to sick leave. Furthermore, the sales personnel investigations in connection with the further investigations of all insurance policies and other investigations that were given priority were mostly completed by the end of March 2021, except for retirees and others. Since March 2021, we have been conducting investigations on sales personnel who are considered problematic based on the contents of customer comments, and we also have investigated in writing sales personnel who were not included in prior investigations.

(2) Efforts to improve solicitation quality

We received orders from the Financial Services Agency (FSA) of Japan to suspend business (from January 1, 2020 to March 31, 2020) and improve business operations based on Article 132, Paragraph 1 of the Insurance Business Act on December 27, 2019, submitted a business improvement plan to FSA on January 31, 2020, and has since been making regular reports on its progress.

We have already implemented most of our preventive measures (creating a healthy corporate culture, establishing an appropriate sales promotion scheme, strengthening of the appropriate solicitation quality control scheme, and strengthening governance by the Board of Directors, etc.), which are set forth in the business improvement plan.

a. Establishing an appropriate sales promotion scheme and creating a healthy corporate culture

In April 2020, the Company announced a solicitation policy that reflects the customer-first philosophy, and has been providing ongoing training to sales personnel to ensure their understanding and instill our sales action principles, the Standard of Japan Post Insurance Sales, which have been formulated based on the solicitation policy. Furthermore, in April 2020, as a measure for policy rewriting, we have decided to abolish the incentive payments for policy rewriting (at 50% of the allowances for normal new contracts), and reviewed the personnel evaluations so that securing solicitation quality is mandatory. In addition, we obtained approval in November 2020 for a policy conversion system that allows customers to revise their coverage without having to cancel their existing policies, and started offering this system in April 2021.

Moreover, while savings-type products have been our mainstay, we are working to expand our product line-up and enhance our coverage in order to better meet the needs of our customers even in a low interest rate environment. Specifically, we decided to enhance products that can be proposed to customers who want long-term coverage at low premiums, mainly young adults and working-age customers, and added ordinary term insurance and special endowment insurance with extended term to our existing insurance product line-up on April 2, 2021.

In addition, as an initiative to create a healthy corporate culture, the Company has introduced a system that allows employees to directly make suggestions to the President, so that management can hear all of the employees' voices, and we also continue to hold Dialogue with Management events during which management directly listens to those voices in the field such as at branches. In addition, in November 2020, we conducted an employee satisfaction (ES) survey of all employees to identify company-wide issues and issues in each department. Based on the opinions of employees and issues identified through these efforts, we are working to create a more open organization by improving operations and considering measures to improve ES.

b. Strengthening of the appropriate solicitation quality control scheme

The Company has strengthened its control function by implementing checks and controls on the front lines and at the Head Office to prevent the occurrence of policies that are not in line with the intentions of customers.

Specifically, in April 2020, we expanded the policy rewriting qualifying period, established a system for displaying alert messages for policies that are in close proximity to the qualifying period and prompting policyholders to confirm them, and built a system that enables us to easily confirm the customers' past policy enrollment and cancellation histories on our systems. In addition to the establishment of a multi-layered system for the verification of customers' intentions by post office managers, dedicated call centers for Japan Post Insurance, and service centers, in an effort to ensure transparency of the solicitation process, recording and keeping voice records of the solicitation process, which had been conducted on a trial basis since March 2020, was fully implemented for all consultants* at post offices beginning in August 2020.

* Sales personnel have been renamed as consultants from April 2020.

c. Strengthening governance by the Board of Directors, etc.

The Company has worked to strengthen its governance through efforts such as establishing a system that enables the management to appropriately understand risks and reinforcing internal controls.

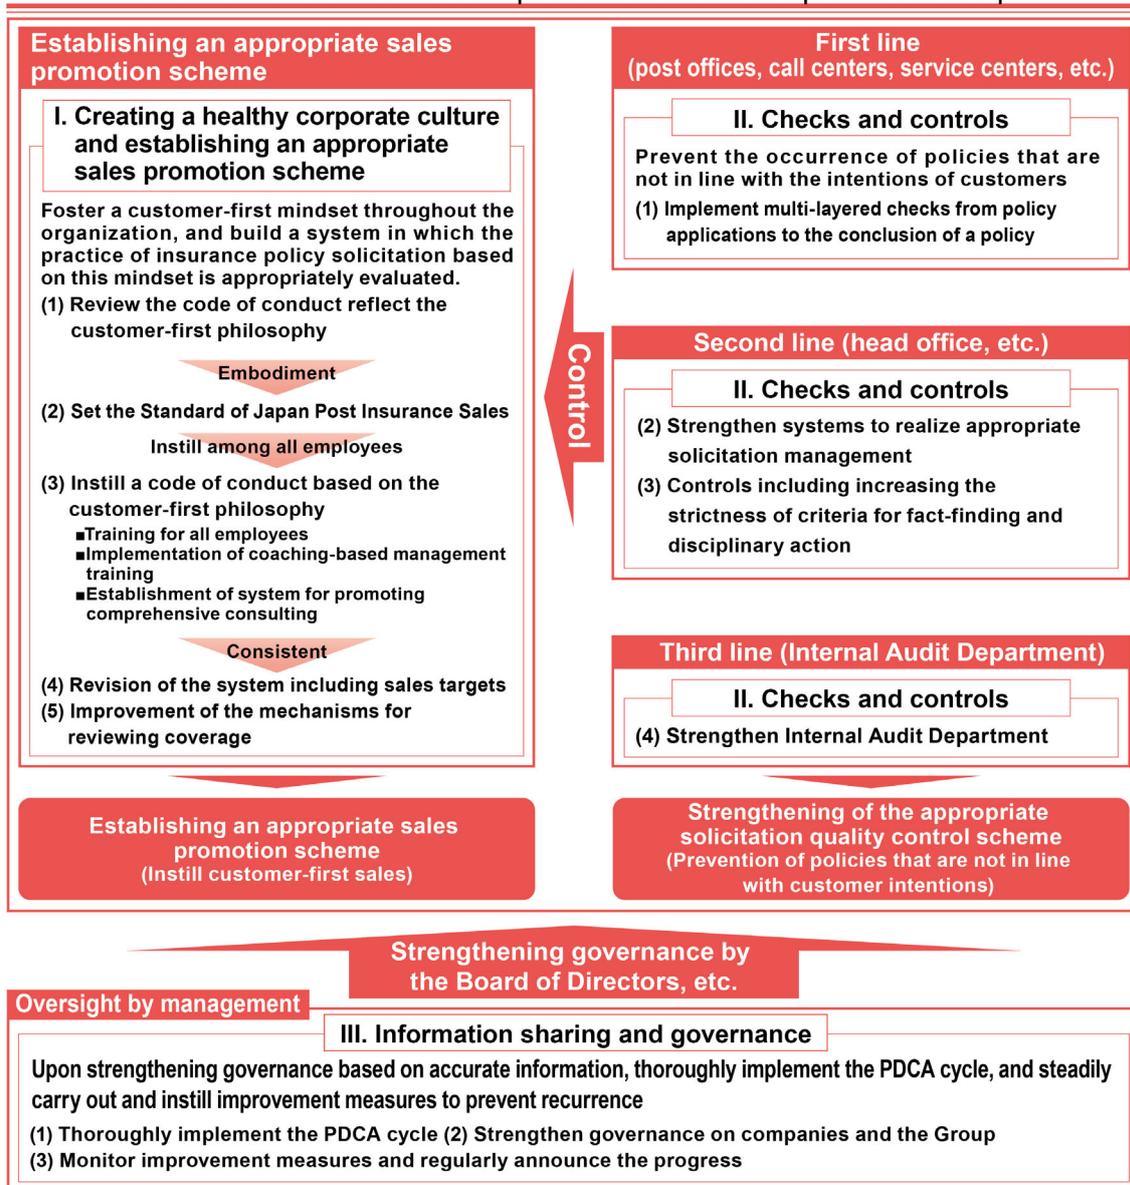

Specifically, in April 2020, we established a PDCA system to utilize the various risk information detected for improvement measures, such as by setting up a dedicated team to grasp and analyze internal and external risk information and report to the management team. In addition, in order to ensure that material risks do not go unnoticed, the relevant departments actively investigate cases with a type or structure that are similar to those of the improper solicitation cases discovered.

Furthermore, the Board of Directors has been working to enhance and expedite the provision of information so that Outside Directors can utilize their knowledge and experience and exercise appropriate control functions from an objective standpoint. Moreover, the Internal Audit Department

has strengthened its human resources and organizational structure, and is working to reinforce its risk assessment implementation structure with the cooperation of external experts.

Since April 2020, companies of the Japan Post Group have been cooperating to address the cross-sectional sales of the Company’s products and investment trusts. Confirmation with customers and related employees has been completed, with the exception of customers who could not be contacted. Going forward, we will continue to respond appropriately to cases that require customer support.

Overview of the Business Improvement Plan of Japan Post Group

(2) Transition to a new sales stance

Since July 2019, we have refrained from making proactive sales efforts on our insurance products at post offices and our directly-managed offices, including the period of the business suspension order from January to March 2020. However, the JP Reform Execution Committee* assessed that the minimum necessary conditions for resuming sales activities have been met, and it has been confirmed that the purpose of operations for regaining customers' trust is instilled company-wide. Accordingly, on October 5, 2020, we commenced operations aimed at regaining customers' trust, placing top priority on apologizing to our customers. Subsequently, as we have made some progress in our activities on operations for regaining customers' trust and in addressing cross-sectional sales of our products and investment trusts and have earned the understanding of our customers regarding these activities, starting from April 1, 2021, we have shifted to a new sales stance that builds a relationship of trust with customers through sales activities, providing information and making proposals to all customers on insurance products and services that meet customer needs at post offices and our directly-managed offices.

Going forward, all employees of the Japan Post Group will continue to comply with our "Commitments to Regain Customers' Trust," which was formulated so that customers can once again use our products and services with peace of mind, and will do their utmost to ensure proper operations to regain customers' trust.

* Established on April 2, 2020 for the purpose of seeking advice from external experts from a fair and neutral standpoint in order to restore public confidence in the Japan Post Group.

Commitments to Regain Customers' Trust

[Company we commit to becoming]

We commit to become a trusted company that gives individual customers utmost cares, satisfaction, and peace of mind.

[Actions we commit to taking]

- We will ensure that we are always customer-oriented in our business operations and will perform our work with the utmost care to deliver customer satisfaction.
- We will carefully listen to our customers and reflect their feedback to make improvements in our services.
- We will enhance our employees' expertise and provide our customers with accurate, clear explanations of our products and services.
- We will comply with laws and rules to provide our customers with reliable, high-quality services.
- We will offer products and services that can please customers and address their needs.

2. Countermeasures and initiatives in response to COVID-19

We have strived to maintain appropriate business operations and implemented initiatives to support our customers in order to ensure that we fulfill our social mission and functions as a life insurance company even during the COVID-19 pandemic.

Specifically, in response to the expanding impact of COVID-19, from March 2020, we implemented emergency measures including the extension of the grace period for payment of premiums, reduction or exemption of interest rates applicable to policy loans excluding premium loans (finished accepting claims in June 2020), and omission of some of the necessary documents at the request of policyholders to enable simple and quick handling. Furthermore, considering that the sudden death of the insured due to an unexpected accident, etc. will have a significant impact on the bereaved family, we have implemented a measure to include death due to COVID-19 in the scope of double payment of insurance benefits from April 2020, where insurance benefits stipulated in the insurance policy are paid out in addition to the death benefit. In addition, we are providing payment of hospitalization benefits even if medical institutions did not allow hospitalization due to the effects of COVID-19, to persons receiving medical treatment for COVID-19 in lodging or other facilities provided by the local government, or in the case of treatment at home, upon submission of a doctor's certificate or other documentation.

Moreover, in order to respond to the growing demand for non-face-to-face use of our services, we expanded the My Page web service for policyholders to include a function for requesting documents necessary for payment of hospitalization and surgery benefits in November 2020, and a function for reporting the current status, which is required for pension payments, in March 2021.

3. Initiatives related to asset management and ERM

In asset management, we have continued investments into risk assets within the scope of risk tolerance in an aim to secure stable interest margin under a low interest rate environment while remaining committed to ALM*¹ for secure payment of insurance claims, etc. In an aim to diversify asset management, as part of our efforts to expand overseas credit investments, we continued in-house management of U.S. corporate bonds together with in-house managed stocks and alternative investments*². As a result, the balance of risk assets of the total assets at the end of the fiscal year ended March 31, 2021 was 15.9% and interest margin was ¥76.3 billion.

These asset management measures are performed under the enterprise risk management (ERM*³) framework as part of efforts to secure financial soundness and improve return on risk.

*1 ALM (Asset Liability Management) refers to an integrated management of assets and liabilities

*2 “Alternative investments” is a general term for new investment targets or methods other than financial instruments that have a relatively long history such as bonds or listed stocks (traditional assets).

*3 “Enterprise risk management (ERM)” refers to risk management for the overall business by ascertaining risks on an overall basis, including latent significant risks, for any risk a company faces and by comparing and contrasting such risks with its capital and other areas.

4. Initiatives that contribute to resolving social problems

(1) ESG investment

In order to fulfill our social responsibility as a life insurance company, we have established an ESG* Investment Policy for asset management, and we make investments based on this policy.

During the fiscal year ended March 31, 2021, following investments in “COVID-19 bonds” issued by the European Investment Bank and the Inter-American Development Bank, we invested in bonds that will contribute to the promotion of reconstruction policies with a view to economic recovery from the COVID-19 pandemic. In addition, we have expanded the scope of ESG investment such as by investing in bonds that support education and gender equality in the Asia-Pacific region, as well as a “One Health” approach that recognizes the health of people, animals and global environment as a whole.

(2) Health promotion and social contribution

In June 2020, the Japan Post Group contributed a total of ¥100 million to the Japanese Red Cross Society to support measures against COVID-19, and in August 2020, it contributed a total of ¥20 million to help those affected by the heavy rain event of July 2020.

Furthermore, in August 2020, we held the Japan Post Insurance Digital Radio Exercise Competition with the aim of restoring opportunities for exercise that had been reduced due to the impact of COVID-19 and contributing to the promotion of health of all people across Japan and the sound development of children. In September 2020, we produced videos that show the appeal of local areas along with radio exercise* as the Radio Exercise Digital Tour, with the cooperation of local government agencies. In addition to contributing to the revitalization of local communities, as a part of the support for countermeasures against COVID-19, we launched an initiative in which we donate a certain amount to the Japanese Red Cross Society based on the number of views of the YouTube videos distributed under the program.

- * The Postal Life Insurance Bureau of the Ministry of Communications, the predecessor of Japan Post Insurance, created the Radio Exercise Program in 1928 in celebration of the enthronement ceremony of the Showa Emperor. The average life expectancy in Japan was very short when the program was created, and the Bureau aimed to make the citizens of Japan stronger through the promotion of radio exercises.

(3) Diversity and workstyle reform (diverse human resources and workstyles)

We aim to create an attractive company where diverse talents can all grow together with the Company by delivering their full potential, find self-fulfillment and job satisfaction and work with energy and vitality. To this end, we are working to expand roles of female employees, support the balance of work with child rearing and nursing care, promote employment of people with disabilities, be LGBT-friendly, and support para-athletes.

In addition, in the fiscal year ended March 31, 2021, as additional efforts on workstyle reform, we have promoted the company-wide deployment of remote work, paperless and stampless operations, and other operational improvements, with the aim of improving operations, increasing productivity, transforming workstyles, and improving the well-being* of employees.

In addition, under the Management Policy stating “We create a working environment in which all employees can develop their talents and work with energy and vitality,” we are working to maintain and promote the health of our employees through measures such as by enriching health guidance based on the results of periodic health checkups aimed at preventing lifestyle-related diseases, making anti-smoking efforts, and taking mental health measures. Through a health and productivity management survey, we were certified by the Ministry of Economy, Trade and Industry and the Nippon Kenko Kaigi as a Health and Productivity Management Outstanding Organization 2021 (large enterprise category) and a White 500 company, which is a certification given to the top 500 corporations.

* Well-being, or happiness, is a concept that refers to a state where one is physically, mentally, and socially whole.

5. Initiatives to ensure sound business operations

(1) Countermeasures against money laundering and financing of terrorism

The Company is promoting efforts to appropriately reduce the risk of money laundering, etc. based on the Policy on Anti-Money Laundering and Combating the Financing of Terrorism.

As a part of these efforts, in October 2020, we abolished the handling of non-local cash for insurance benefits, etc. in order to curb the risk of crimes occurring through cash transactions. In addition, from the perspective of preventing the misuse of our products and services for money laundering and other purposes, we are working to revise our systems for identifying and assessing risks to those based on the nature of our business, conditions at agencies, and laws and regulations.

(2) Cybersecurity measures

Given that cyberattacks are becoming more advanced and sophisticated every day, we consider the threat of cyberattacks as a material risk and have implemented multi-layered defense measures that combine defense and detection mechanisms across the Japan Post Group. In addition, as our own initiative, the Company is working on cybersecurity measures such as conducting cybersecurity assessments of the systems that provide services to our customers via the Internet.

Policy amounts during the fiscal year ended March 31, 2021 were as follows.

Annualized premiums*¹ from new policies for individual insurance reached ¥30.6 billion (79.1% decrease year on year), and annualized premiums from new policies for medical care coverages*² amounted to ¥1.4 billion (93.4% decrease year on year).

For individual insurance, annualized premiums from policies in force*³ reached ¥3,898.1 billion (9.7% decrease year on year), and annualized premiums from policies in force*³ for medical care coverages reached ¥669.1 billion (6.5% decrease year on year).

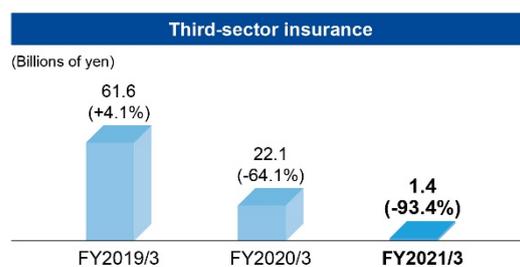

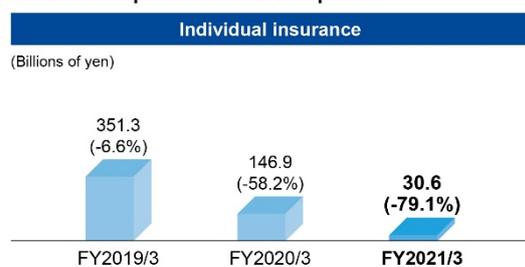

*1 “Annualized premiums” are the amount of insurance premiums adjusted according to differences in payment method (monthly, yearly, etc.), and converted to one year (12 months). Annualized premiums from new policies and policies in force are indicators that show the size of sales of life insurance companies as with the amount of insurance premiums and others.

*2 “Medical care coverage” (“third sector”) is a general term for insurance related to medical care, cancer, nursing care, etc., which does not fall under either life insurance (“first sector”) or nonlife insurance (“second sector”).

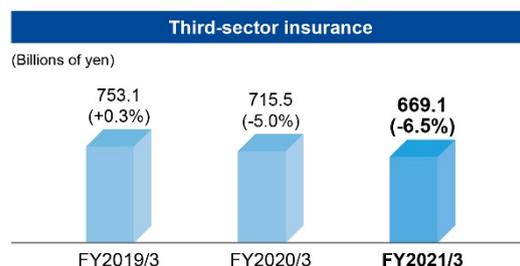

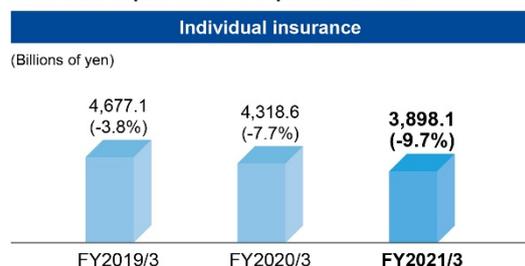

*3 Includes reinsured Postal Life Insurance Policies received from the Organization for Postal Savings, Postal Life Insurance and Post Office Network (the “Management Network”) (limited to insurance from Postal Life Insurance Policies for individual insurance).

Consolidated profit and loss during the fiscal year ended March 31, 2021 were as follows.

Ordinary income amounted to ¥6,786.2 billion (5.9% decrease year on year), comprising the sum of insurance premiums and others of ¥2,697.9 billion (16.9% decrease year on year), investment income of ¥1,121.6 billion (1.4% decrease year on year), and other ordinary income of ¥2,966.6 billion (4.9% increase year on year).

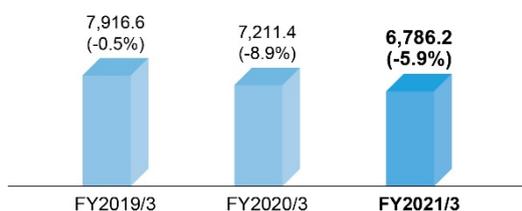

Ordinary expenses amounted to ¥6,440.4 billion (7.0% decrease year on year), comprising the sum of insurance claims and others of ¥5,866.0 billion (5.3% decrease year on year), investment expenses of ¥70.8 billion (42.9% decrease year on year), operating expenses of ¥403.0 billion (14.9% decrease year on year), and other ordinary expenses of ¥100.4 billion (25.9% decrease year on year).

As a result, ordinary profit amounted to ¥345.7 billion (20.6% increase year on year), and net income attributable to Japan Post Insurance amounted to ¥166.1 billion (10.2% increase year on year), which is calculated by subtracting extraordinary losses, provision for reserve for policyholder dividends, and total income taxes from ordinary profit.

Recovery and growth strategies set forth in the next Medium-term Management Plan

The Company announced in May 2021 a new Medium-term Management Plan that covers the period from the fiscal year ending March 31, 2022 to the fiscal year ending March 31, 2026.

Under this new Medium-term Management Plan, the Company will once again return to its management philosophy of, “Being a trustful partner for people, always being close at hand and endeavoring to protect their well-being,” to fulfill its social mission as a life insurance company. The Company will aim to achieve sustainable growth by reconstructing itself as a company truly trusted by its customers and shifting to a business model that gives top priority to customer experience value (CX).*

- * Customer experience value (CX) refers to the focus not only on the rational value of a product or service, such as its functions, performance, and price, but also on the appeal of the emotional value of the experience in the whole process from before purchase, usage, to follow-up support after purchase.

Japan Post Group’s new Medium-term Management Plan, JP Vision 2025, aims to reduce the shareholding ratio of the two financial companies (the Company and Japan Post Bank Co., Ltd.) held by Japan Post Holdings Co., Ltd. to 50% or less as early as possible during the period of the plan. When the shareholding ratio is reduced to 50% or less, the Company will be able to provide insurance services that meet the needs of its customers more easily due to the further privatization of the postal service and the relaxation of legal restrictions stipulated in the Postal Service Privatization Act (additional restrictions on new operations) that other companies in the same industry do not have. The Company will also take necessary measures to achieve this as a path to enhancing the corporate value of the Company and the Japan Post Group.

1. Initiatives for reconstruction

(1) Continued efforts aimed at regaining trust

In order to reconstruct itself as a company truly trusted by customers, the Company will thoroughly conduct customer-first business operations and make continued efforts aimed at regaining customers’ trust.

Under an appropriate solicitation process, we will fundamentally transition to a new sales style and thoroughly ensure that our customers using our products and services are well-informed and satisfied. Specifically, we will shift to a management approach that appreciates activities based on principles such as the Solicitation Policy^{*1} and the Standard of Japan Post Insurance Sales,^{*2} as well as the process of activities including retaining policies and after-sales follow-up support. Through these efforts, we

will fundamentally transition to a new sales stance and ensure that our customers using our products and services are well-informed and satisfied. We will work to rebuild relationships of trust with our customers by carefully attending to follow-up support with the notion that life insurance is a service provided throughout the insurance period.

*1 The Solicitation Policy is a principle-based policy on the customer-first philosophy to provide coverage in accordance with high ethical standards based on the mission of life insurance.

*2 The Standard of Japan Post Insurance Sales is a set of action principles for implementing truly customer-oriented sales activities based on the Solicitation Policy.

(2) Strengthening our business foundation

In order to reconstruct the Company into what it should be as a life insurance company, while continuing the efforts to regain trust as described above, the Company will work to strengthen its business foundation by establishing a new Japan Post Insurance sales system, enhancing insurance services, boosting the efficiency of business operations, and achieving greater depth and sophistication of asset management.

a. Establishing a new Japan Post Insurance sales system

In order to provide insurance services that meet the diverse protection needs of customers, we will build a new sales system at Japan Post Insurance that combines expertise and breadth to realize comprehensive consulting services provided by Japan Post Group as a whole.

Specifically, consultants are assigned a role to provide customers with careful follow-up support and insurance services through home visits and other means. They will focus on proposing life insurance and providing follow-up support as well as provide our customers with meticulous and high-quality after-sales services by introducing an account manager system.

In addition, counter service personnel at post offices with a nationwide network propose and offer a wide range of financial products, including insurance, to customers over the counter and will continue with their mission to provide wide-ranging products and services.

b. Enhancing insurance services

We will work to develop insurance services that meet the protection needs of customers of all generations in an age of the 100-year life.

Specifically, we will be engaged in the research and development of products that contribute to extending healthy life expectancies, in addition to providing well-balanced protection at lower premiums to meet the needs of young adults and working-age customers and expanding the product

range to meet the protection needs of the middle-aged and elderly population in view of the age of the 100-year life.

c. Boosting the efficiency of business operations

Through the promotion of digitalization, we will work to improve customer service, increase operational efficiency, and reduce costs. Management resources saved by streamlining will be shifted to focus areas such as customer support and DX promotion.

d. Achieving greater depth and sophistication of asset management

In the area of asset management, we aim to secure stable investment income based on ALM management under the ERM framework while appropriately addressing the movement toward the introduction of new economic value-based capital regulations scheduled for 2025. We will also engage in deeper and more sophisticated asset management in terms of investment areas, including alternative investments, and portfolio building. In addition, from April 2021 onward, we will consider various ESG factors for all assets under management and make investments and loans with a focus on themes contributing to environmental protection including “enhancement of well-being,” “development of local communities and society,” and “addressing climate change.” Through these efforts, we will contribute to achieving the targets of SDGs* on a wider scale and solving social challenges, and promote ESG investment in the hope of giving a sense of “warmth” that people will feel to be typical of Japan Post Insurance.

* SDGs is an abbreviation for Sustainable Development Goals, and is a universal goal adopted by the UN General Assembly in September 2015 with the goal of “ending poverty and pursuing a sustainable future.” It consists of 17 goals and 169 targets to solve global issues by 2030.

2. Initiatives for sustainable growth

(1) Improving customer experience value

While working to reconstruct the Company into a company that is truly trusted by its customers, as described in the above “Initiatives for reconstruction,” the Company will rediscover its social mission and create new social value that is unique to us, thereby enhancing our competitiveness in the market and aiming for sustainable growth.

We will fundamentally review our insurance services from the perspective of improving CX, and work to improve customer convenience and solicitation quality, so that customers feel glad to be with Japan Post Insurance. In addition, we will expand our customer base by encouraging customers who

appreciate the value of the experience to recommend Japan Post Insurance to their families, acquaintances, and even the entire community and society.

Specifically, we will work on providing appropriate proposals that are tailored to each customer's needs, offering simple procedures that can be completed on the spot, providing meticulous support as a team, and enhancing after-sales follow-up services that focus on our relationship with customers.

a. Appropriate proposals that are tailored to each customer's needs

We will realize appropriate proposals in line with the individual circumstances of each customer by visualizing their needs and the details of required protection through tools using digital technologies.

b. Offering simple procedures that can be completed on the spot

With the use of digital technologies, we will enable customers to choose the mode of application and claim-filing from various options, such as online and face-to-face channels, depending on their needs. Specialist staff attending to customers on a remote basis will also enable the completion of various procedures on the spot.

c. Providing meticulous support as a team

We will establish a customer database that integrates policy and inquiry information and other records for each customer. Then, we will develop an environment where all employees, including consultants and personnel at post office counters and customer service centers, deal with customers as a team to provide meticulous and heart-to-heart support.

d. Enhancing after-sales follow-up services that focus on our relationship with customers

In addition to face-to-face service through home visits, we will offer extensive after-sales follow-up services using various methods including telephone and TV conferences, as well as digital-based follow-up services for each customer timed to suit their needs through e-mail and social media. We will respond to a wide range of customer needs and aim to gain the trust of customers and those around them.

(2) Promotion of ESG management (helping solve social challenges)

We will contribute to solving social issues regarding sustainability by fulfilling our social mission.

We have set five priority social issues ("materiality" items) to be addressed: provision of insurance services through the post office network, contribution to regional and social development and environmental protection, extension of healthy life expectancy and improvement of well-being through health promotion, establishment of a working environment where all employees can work

with vitality, and corporate governance that supports our social mission. We will work to solve these issues.

Specifically, we will set specific targets such as reducing greenhouse gas emissions to achieve carbon neutrality and improving the female manager ratio, as well as implement initiatives such as those in line with the recommendations of the Task Force on Climate-related Financial Disclosure (TCFD). We will also proactively disclose the statuses of these initiatives through means such as our sustainability reports.

In addition, by responding to the various concerns of our customers and providing services that are closely connected with their daily lives, we will stand true to our *raison d'être* and contribute to solving social issues such as the declining birthrate, aging population, and other health issues, as well as consider initiatives that will make the Company more familiar to customers and build greater trust.

3. Building a foundation of reconstruction and sustainable growth

(1) Corporate culture and workstyle reform

We aim to be a company where management and employees share a vision for the future, and where each individual grows with the company with a sense of fulfillment (ES).

Specifically, we will promote corporate culture reform focusing on revitalizing communication between management and employees, supporting the diverse career development of each employee, strengthening management capabilities, and improving the personnel evaluation system. In addition, we will promote self-imposed improvement activities based on the results of the ES survey, as well as implement workstyle reform that realizes diversity by creating an environment that allows employees to choose diverse and flexible workstyles through the use of means such as remote work.

Through these efforts, we will revitalize internal communication and become a company that acts autonomously and proactively based on customer-oriented principles with a sense of unity throughout the company based on mutual understanding.

(2) Strengthening governance

We will conduct sound business operations by ensuring greater transparency and fairness as an organization and, moreover, by increasing the risk sensitivity of each and every employee.

Specifically, we will first ensure sound corporate governance, and then continue efforts to prevent money laundering and other criminal activities, and strengthen privacy measures to protect personal information and information security measures as initiatives to ensure sound business operations. We consider the voices of our customers and employees to be valuable assets, and we will incorporate them in our efforts to improve our customer service and business operations.

By implementing the initiatives mentioned above in the new Medium-term Management Plan, we will aim to improve corporate value in a sustainable manner to meet the expectations of various stakeholders including shareholders and investors.

With respect to the total compensation, etc. by type, all of the Company's performance-linked stock compensation is disclosed as performance-linked compensation, etc., including the case where the Company's shares are delivered, and the relevant amount is that recorded as expenses in the current fiscal year.

[Matters Concerning Performance-linked Compensation, etc.]

(Summary of performance-linked stock compensation system)

The Company determined to introduce a performance-linked stock compensation system (the “System”) utilizing a trust for its Executive Officers at a meeting of the Compensation Committee held on December 22, 2015, with details of the System determined at a separate meeting of the committee held on April 27, 2016.

(1) Overview of the System

The objective of the System is to further motivate Executive Officers to contribute to achieving sustainable growth and enhancing the medium-to-long-term corporate value of the Company through clarification of the linkage between the Executive Officers’ compensation and share values of the Company so that Executive Officers share interests with shareholders not only in terms of the benefits from rising share prices, but also in risks associated with falling share prices.

The System adopts a structure called the Board Benefit Trust (BBT). BBT is a performance-linked stock compensation system whereby the Company’s shares are acquired from the stock market through a trust funded by cash contributed by the Company, whose shares and cash in the amount translated at fair value of a certain portion of the shares at the retirement date (provided, in the case of resignation for personal reasons, the shares will not be translated into cash, and only the Company’s shares will be delivered; hereinafter, the “Company’s Shares, Etc.”) are granted to Executive Officers through the trust in accordance with the predetermined Stock Benefit Rules. In principle, Executive Officers will receive the Company’s Shares, Etc. when they retire from their positions as Executive Officers of the Company.

Voting rights related to shares of the Company attributable to trust assets of the said trust shall not be exercised.

(2) Total number of shares of the Company to be granted to Executive Officers

109,300 (as of March 31, 2021)

As described in “Overview of the System,” the System delivers the Company’s shares and cash in the amount translated at fair value of a certain portion of the shares at the retirement date (provided, in the case of resignation for personal reasons, the shares will not be translated into cash, and only the Company’s shares will be delivered), and the number of shares shown above is the total number of the Company’s shares to be granted to the relevant Executive Officers (as of March 31, 2021) on the assumption that all eligible Executive Officers retire upon expiration of their terms of office, and does not include the portion to be paid in cash. The status of benefits during the current fiscal year is as stated in “IV. Matters Concerning Shares, 4. Shares Delivered to Directors and Executive Officers as Consideration for Execution of Their Duties for the Current Fiscal Year.”

(3) Scope of persons who are entitled to beneficiary interests and other rights under the System
Retired Executive Officers who meet the beneficiary requirements set forth in the Stock Benefit Rules.

(Indicators for performance-linked compensation, reasons for selecting such indicators, and method to determine the amount of performance-linked compensation)

Points under the performance-linked stock compensation are granted to Executive Officers, calculated based on the Company's performance, a certain coefficient determined according to their duties, and the evaluation of the individual based on such matters as the execution status of the Executive Officer's duties for the current fiscal year.

[Point calculation method]

“Points granted” = (“Basic points commensurate with duties” + “Individual evaluation points”) × “Company performance-linked coefficient”

As for basic points commensurate with duties, the Company has established points according to each position.

Evaluation points for each Executive Officer are determined by individually evaluating the results, statuses, and other factors of operations of which such Executive Officers are in charge.

Regarding the company performance-linked coefficient, in order to enable the Company to comprehensively evaluate the degree of achievement in management plans, the coefficient is selected from multiple different categories, and “income targets,” “degree of achievement in matters related to sales/solicitation quality,” and “degree of achievement in establishment of administrative and IT system framework, etc.” are determined based on the degree of achievement of such indicators since they are suitable for the Company's business structure and business operations.

The policy on determining the payment ratio of performance-linked compensation and compensation other than performance-linked compensation, etc. has not been formulated.

(Targets and results of indicators for performance-linked compensation for the current fiscal year)

Indicator	Target	Result
Income target for the fiscal year: Net income per share (consolidated)	¥220	¥295.33
Degree of achievement in matters related to sales/solicitation quality: Annualized premiums from policies in force (Note)	Policy investigations, after-sales follow-up activities, creation of a healthy corporate culture, establishment of an appropriate sales promotion scheme	Progress of measures generally in line with the plan
Degree of achievement in establishment of administrative and IT system framework, etc.	Strengthening an appropriate solicitation quality control scheme, asset management, ERM, improvement in business efficiency, restructuring of the business model, development of human resources/workstyle reform, and measures for preventing crime and money laundering	Progress of measures generally in line with the plan

Note: In the fiscal year ended March 31, 2021, we did not set any annualized premiums in force as a management target because we did not set sales targets to place the highest priority on efforts to regain customers' trust.

[Matters Concerning Non-monetary Compensation, etc.]

The Company grants stock compensation to Executive Officers under the System as non-monetary compensation. The stock compensation is included in the performance-linked compensation, etc., as described in "Total Compensation by Type" above, and the details and delivery status are as described in "Matters Concerning Performance-linked Compensation, etc."

[Policy for Determining Compensation, etc. for Directors and Executive Officers by Individual]

With respect to compensation for our Directors and Executive Officers, taking into account the scope and scale of responsibilities for management, the Compensation Committee has resolved the following “Compensation Policies for Directors and Executive Officers by Individual.”

“Compensation Policies for Directors and Executive Officers by Individual”

1. Compensation System

- (1) If a person serves concurrently as a Director and an Executive Officer, such person shall receive compensation as an Executive Officer.
- (2) Directors of the Company shall receive a fixed monetary compensation commensurate with their positions based on the scope and scale of their responsibilities for management, etc.
- (3) Executive Officers of the Company shall receive a basic compensation (fixed monetary compensation) commensurate with their duties and stock compensation that reflects individual performance under a system that offers sound incentives for contributing to the sustainable growth of the Company.

2. Compensation for Directors

Compensation for Directors shall comprise a fixed monetary compensation of a certain level commensurate with their positions based on the primary role of supervision of management, and such level shall be an appropriate level that gives consideration to the extent of their duties as Directors and the current state of the Company.

3. Compensation for Executive Officers

Compensation for Executive Officers shall comprise a basic compensation (fixed monetary compensation) of a certain level commensurate with their duties in light of the differences in responsibilities depending on position and stock compensation that reflects the results of their evaluation based on factors such as the degree of achievement of management plans.

The level of a basic compensation shall be an appropriate level that gives consideration to the extent of duties of Executive Officers and the current state of the Company. However, should the compensation commensurate with the position of an Executive Officer who is in charge of a field that requires special business knowledge and skills fall significantly below the general level of compensation of an officer who is in charge of a similar field at another company, such Executive Officer shall receive a basic compensation based on the level of compensation of other companies, instead of compensation commensurate with his or her duties in the Company.

In terms of stock compensation, from the standpoint of offering sound incentives for contributing

to the sustainable growth of the Company, Executive Officers shall be granted on a yearly basis basic points commensurate with their duties and performance points reflecting their individual evaluation based on factors such as the degree of achievement of management plans. At the time of retirement, Executive Officers shall receive stocks corresponding to the number of accumulated points and some cash attainable through conversion of shares of the Company.

4. Other

If a person serves concurrently as a Director or an Executive Officer of the Company as well as a director, an auditor or an executive officer of a Group company, such person shall receive compensation from the entity where the person executes primary business.

[Reason that the Compensation Committee Determined that the Content of Compensation, etc. for Directors and Executive Officers by Individual for the Current Fiscal Year is in Line with the Policy]

In addition to the Policy above, the Compensation Committee formulated the “Standard for Officers’ Compensation” that stipulates basic compensation by position and “Officers’ Stock Benefit Rules” that stipulates details about the performance-linked stock compensation.

In determining the compensation amount by position for individual Directors and Executive Officers, and points to be granted for performance-linked stock compensation reflecting the evaluation of individual Executive Officers and performance, the Compensation Committee conducts a multifaceted review of the draft, including consistency with the above Policies, etc., and determines that the content of the compensation, etc. by individual is in line with the Policies, etc. above.

(Status of operation of systems to ensure the appropriateness of business operations)

The Company has established and operated the internal control systems for ensuring proper operations based on the “Fundamental Policy for Establishment of Internal Control Systems.” During the fiscal year ended March 31, 2021, the Company positioned the implementation of the business improvement plan as the most important management task and established and operated the internal control systems as follows:

(1) System for ensuring that the execution of duties by the Executive Officers and employees of the Company are in compliance with laws and regulations and the Articles of Incorporation

- In order to realize the management philosophy of “Be a trustful partner for people, always being close at hand and endeavoring to protect their well-being,” the Company announced the “Basic Policies for Customer-first Business Operations,” the “Declaration of Customer-Oriented Services” and “Solicitation Policy,” and sent messages inside and outside the Company to strive for thorough customer-first business operations. In addition, with regard to the Standard of Japan Post Insurance Sales which was formulated to ensure that our principle-based approach to providing coverage has a high level of ethics that takes into account the original role and mission of life insurance and to reflect our customer-first philosophy, the Company provided training to establish and instill this standard, and also disclosed the “Commitments to Regain Customers’ Trust” and provided related training to ensure customer-first business operations.
- In order to ensure thorough compliance, the Company established the Compliance Committee, where management policies concerning compliance, specific compliance operations and various issues were deliberated, and important matters were reported to the Executive Committee and the Audit Committee. In addition, ongoing and multi-layered compliance training has been conducted in the workplace.
- The Company has set up points of contact for whistleblowing both inside and outside the Company for reporting compliance violations or the possibility of such violations, the use of which are thoroughly informed to all Executive Officers and employees. In addition, in order to improve the reliability of points of contact for whistleblowing, the Company has promoted measures such as better explaining the policy on how the reported incident will be handled to the whistleblower and actively detecting whether there were any disadvantageous treatments of whistleblowers on the ground of such reporting by following up on them.
- The Company developed the following organizational systems and established an appropriate solicitation quality control scheme.
 - (i) Post offices, call centers, and service centers have conducted multi-layered checks from policy signing to the conclusion of a policy, including a pre-solicitation check and a check of all policies on solicitation by post office managers.

- (ii) The sales divisions at the Head Office implemented planning and guidance operations aiming at realizing appropriate solicitation activities to be more accountable for sales activities focusing on the maintenance of solicitation quality, while compliance and solicitation quality control divisions focused on the verification of measures taken by the sales divisions. Through these measures, the Company has established a scheme that enables the formulation of truly customer-first measures under appropriate mutual checks and balances system. In addition, the Company strengthened its checks and balances system against sales personnel who were found to have engaged in inappropriate solicitation activities by conducting fact-finding that does not rely on confession, and by applying stringent disciplinary standards to sales personnel.
 - (iii) The Internal Audit Department formulated an audit program not only to confirm that the operations related to solicitation complied with the regulations, but also based on whether operations were implemented to achieve the goals of measures for appropriate solicitation activities and whether it was designed to enable reviews of the measures as necessary. The Internal Audit Department verifies each measure from the viewpoints of sufficiency, appropriateness and effectiveness.
- In addition, in order to discuss various issues including matters related to the enhancement and strengthening of the internal control system of Japan Post Co., Ltd., meetings were held regularly with the presidents of both the Company and Japan Post Co., Ltd. to discuss measures necessary for guidance and management.

(2) System for retaining and managing information concerning the execution of duties by the Executive Officers of the Company

- In the Executive Committee rules and the document management rules, the Company clarified the methods and system for retaining and managing documents concerning the execution of duties by the Executive Officers, including the minutes of the Executive Committee meetings and approval documents, and appropriately retained and managed such information.

(3) System and rules for managing the risk of loss to the Company

- The Company established the Risk Management Department as a department that supervises risk management. Meanwhile, the Risk Management Committee conducted deliberations and made reports on the risk management, and the Executive Officer responsible for the Risk Management Department reported important matters related to risk management to the Executive Committee and to the Audit Committee.
- The Company has developed a PDCA cycle, which utilizes risk information detected from customer feedback, employee feedback, social interests/trends of other companies, status of

policies in force, etc., and links them to improvement measures. In addition, incidents for which problems were detected have been verified by horizontally implementing an investigation of incidents in a similar type or structure.

- The Company responded to disasters such as earthquakes and typhoons in a timely and appropriate manner such as by establishing the Crisis Management Committee, in the areas of customer service, insurance administration, head office functions, and IT systems. The Company continued company-wide measures to address COVID-19, such as thoroughly implementing infection prevention measures for employees by restraining commuting as well as taking up remote working, in order to secure a business continuity structure.

(4) System for ensuring the efficient execution of duties by the Executive Officers of the Company

- The Company, in principle, held a meeting of the Executive Committee on a weekly basis, and conducted deliberations and made reports. In addition, 10 specialized committees were established as advisory bodies to the Executive Committee and engaged in deliberations regarding cross-divisional issues, including the Sustainability Committee which was established to discuss the policy for promoting sustainability strategies from an expert viewpoint. In addition, the Customer Services Committee has been renamed the Customer Experience Committee to promote and manage customer experience initiatives on a company-wide basis in addition to improving customer services.
- Furthermore, in order to promptly and reliably implement measures under the leadership of the management team and improve solicitation quality, the Company implemented various measures such as establishing a Customer-first Solicitation Committee and holding discussions, holding a new “deliberation” session at the Board of Directors’ meeting to utilize the knowledge of Outside Directors from the drafting stage of proposals, holding extraordinary meetings of the Board of Directors and meetings of Outside Directors as necessary, and enhancing and accelerating the provision of information to Outside Directors.

(5) System for ensuring proper operations within the corporate group comprising the Company and Japan Post Holdings, and subsidiaries of the Company

- Based on the Japan Post Group Agreement, the Company engaged in prior consultation with and made reports to Japan Post Holdings. In addition, in order to ensure the appropriateness of operations among the Group companies, we held the Group Steering Committee to discuss critical issues for the Group such as the operational status of each company, customers’ and employees’ feedback and operational risks. We also held Group liaison meetings regularly on various management issues such as internal audits and compliance.
- In addition to the internal contact point for whistleblowing within the Company, we

established an external contact point for whistleblowing to report not only inappropriate events related to the business operations for financial products, but also when there is a risk that internal systems or sales policies related to such business operations may be disadvantageous for customers. We also established a contact point to accept a wide range of business consultations from employees of Group companies, including those that do not constitute compliance violations. Employees have been fully informed of these contact points. In addition, we will also carry out Group-wide initiatives; for example, if there is a report from a sales personnel of Japan Post Co., Ltd. regarding a Japan Post Insurance product, the Company and Japan Post Co., Ltd. will share the necessary information and respond to the report.

- The Company established a framework for appropriately managing business operations of subsidiaries by formulating rules concerning the management of subsidiaries, and prescribing matters requiring application for prior approval from and reports to the Company, based on business management contracts concluded with subsidiaries.

(6) System for ensuring effective audits by the Audit Committee

- The Company established the Audit Committee Office and assigned full-time employees who are independent and have knowledge and capabilities needed to support the duties of the Audit Committee.
- Based on a resolution of the Audit Committee, the Company stipulated Audit Committee auditing standards and prescribed a system for ensuring effective audits by the Audit Committee. A system for reports to the Audit Committee has been established, whereby the Executive Officer responsible for internal control reports regularly on the status of business execution, and important matters are immediately reported to a member of the Audit Committee. Moreover, in order to strengthen the involvement of the Audit Committee in the Internal Audit Department, formulations or amendments to the internal audit plan and important personnel appointments of the Executive Officers responsible for internal audits and the Senior General Manager of the Internal Audit Department are made with the consent of the Audit Committee or an Audit Committee Member selected by the Audit Committee.
- In response to reports from the Executive Officer responsible for the Internal Audit Department, the Audit Committee instructs the Internal Audit Department to investigate as necessary, and has established a system that allows for in-depth discussions based on reports of investigations by the Executive Officer responsible for internal audits, or to provide advice to the said Executive Officer as necessary. In addition, in order to enrich the discussions of the Audit Committee, Audit Committee Members are updated on the status of the most recent audits related to the Audit Committee's audit topics each month.

- The Audit Committee regularly exchanged opinions with the President, CEO, Representative Executive Officer, and with the Audit Committee of Japan Post Holdings Co., Ltd. and the Audit and Supervisory Board of Japan Post Co., Ltd., on important management matters.

IX. Matters Concerning Specified Wholly-Owned Subsidiaries

Not applicable.

X. Matters Concerning Transactions with Parent Company and Others

1. Points considered not to unfairly impair the benefits when conducting such transaction

Business transactions between the Company and its parent company, Japan Post Holdings, and other companies belonging to the Japan Post Group, are conducted fairly, based on the Insurance Business Act, in accordance with the arm's length rule (the arm's length rule stipulates that insurance companies must not engage in business transactions, etc., with certain related parties including the parent company or subsidiaries of the parent under significantly different terms than normal transactions.)

2. Determination and reasoning by the Board of Directors on whether such transaction does not unfairly impair the benefits.

In order to ensure the appropriateness of transactions within the Group, all transactions conducted by the Company are checked by the transacting department before the transactions take place to confirm whether or not they constitute intercompany transactions. In the case of transactions conducted with companies belonging to the Japan Post Group, we examine the transaction in advance, based on a fixed checklist, from the perspective of the necessity of an intercompany transaction, the appropriateness of the terms of the transaction, etc., to ensure the appropriateness of the transaction. In addition, a specialized department (Legal Affairs Department) confirms the appropriateness of this examination. Furthermore, the managing department (Corporate Planning Department) conducts an after-the-fact examination after the transaction is completed. Moreover, in order to ensure the properness of transaction terms related to intercompany transactions, we have established a system whereby a resolution is passed by the Board of Directors, including outside directors, when conducting important new transactions or changing the terms of important existing transactions. Thus, through the proper operation of the Company's arm's length rule check system, the Board of Directors confirms that the appropriateness of transactions with Japan Post Holdings is ensured.

3. The opinion of the outside directors in case the decision made by the Board of Directors in 2. above differs from the opinion of outside directors

Not applicable.

XI. Matters Concerning Accounting Advisor

Not applicable.

XII. Other Matters

[Policy for the exercise of authority in case where there is a provision set in the Articles of Incorporation that cash dividends, etc., shall be determined by the Board of Directors]

The Company recognizes that the distribution of profit to shareholders is an important policy of management, and distributes profits to shareholders stably, while securing management soundness.

Specifically, the Company in principle aims not to decrease but to increase dividend per share for the period of the Medium-term Management Plan up to the fiscal year ending March 31, 2026, while considering earning prospects and financial soundness.

The Company secures internal reserves to fund stable business growth to enable it to respond to future changes in the business environment.

The Company has, in accordance with the provisions of Article 459 of the Companies Act, stipulated that it provides cash dividends based on the resolution of the Board of Directors in the Articles of Incorporation. As for the dividend for the fiscal year ended March 31, 2021, payment of ¥76 per share was decided at the Board of Directors' meeting held on May 14, 2021.

The Company stipulates in its Articles of Incorporation that it is able to pay interim dividends with a record date of September 30 of each year. For the purpose of enhancing the opportunities to distribute profits to shareholders, the Company plans to provide cash dividends twice a year as the interim dividends and the year-end dividends.

Basic Views on Corporate Governance

The Company shall develop the corporate governance structure of the Group based on the following concept, with a view to ensuring sustainable growth of the Group and creating corporate value over the medium to long term.

- (1) The Company shall continue to create new convenience for customers and pursue the provision of high quality services, while generating consistent value by providing life insurance services through the post office network.
- (2) Fully recognizing its fiduciary responsibility to its shareholders, the Company shall give consideration to effectively secure rights and equal treatment of shareholders.
- (3) The Company shall place emphasis on dialogue with all stakeholders including customers and shareholders with an aim to ensure appropriate collaboration and sustainable coexistence. To this end, the Company shall strive to secure management transparency and commit to appropriate disclosure and provision of information.
- (4) The Company shall carry out swift and decisive decision-making and business execution under the effective supervision by the Board of Directors, in order to promptly cope with changes in social and economic environment and meet the expectation of all stakeholders.

Corporate Governance Structure

*In April 2021, specialized committees were updated by renaming the Customer Services Committee as the Customer Experience Committee, and newly establishing the Sustainability Committee.

Board of Directors (Management Supervision)

The Board of Directors of the Company determines matters such as the basic management policy of the Company, segregation of duties of Executive Officers and the fundamental policy for establishment of internal control systems and has the authority of supervising the execution of duties by Executive Officers. Meanwhile, the Board of Directors promotes the development of a framework that enables supervision of management from the external and broader perspective by appointing lawyers and corporate managers as Outside Directors.

The three committees, the Nomination Committee, the Audit Committee and the Compensation Committee, have been established to fully utilize external views on the management of the Company and ensure the transparency and fairness of decision-making of the management. The specific roles of these committees are as follows:

- **Nomination Committee**
The committee determines proposals for general meetings of shareholders concerning the election and dismissal of Directors.

- **Audit Committee**
The committee audits the execution of duties by Directors and Executive Officers, prepares audit reports, determines the content of proposals regarding the election and dismissal of the accounting auditor to be submitted to general meetings of shareholders and approves the compensation for the accounting auditor.

- **Compensation Committee**
The committee formulates compensation policies for Directors and Executive Officers and determines detailed compensation for each individual.

Opinion

We have audited the consolidated financial statements, which comprise the consolidated balance sheet, the consolidated statement of income, the consolidated statement of changes in net assets and the related notes of JAPAN POST INSURANCE Co., Ltd. ("the Company") and its consolidated subsidiary (collectively referred to as "the Group"), as at March 31, 2021 and for the year from April 1, 2020 to March 31, 2021 in accordance with Article 444-4 of the Companies Act.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position and the results of operations of the Group for the period, for which the consolidated financial statements were prepared, in accordance with accounting principles generally accepted in Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and the Audit Committee for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan.

The audit committee is responsible for overseeing the executive officers and directors' performance of their duties including the design, implementation and maintenance of the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of our audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The audit procedures shall be selected and applied as determined by the auditor.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the objective of the audit is not to express an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate whether the presentation and disclosures in the consolidated financial statements are in accordance with accounting standards generally accepted in Japan, the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit, significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Interest required to be disclosed by the Certified Public Accountants Act of Japan

Our firm and its designated engagement partners do not have any interest in the Company and its subsidiary which are required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these non-consolidated financial statements and the supplementary schedules.

As part of our audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the non-consolidated financial statements and the supplementary schedules, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The audit procedures shall be selected and applied as determined by the auditor.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the objective of the audit is not to express an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the non-consolidated financial statements and the supplementary schedules or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate whether the presentation and disclosures in the non-consolidated financial statements and the supplementary schedules are in accordance with accounting standards generally accepted in Japan, the overall presentation, structure and content of the non-consolidated financial statements and the supplementary schedules, including the disclosures, and whether the non-consolidated financial statements and the supplementary schedules represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit, significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Interest required to be disclosed by the Certified Public Accountants Act of Japan

Our firm and its designated engagement partners do not have any interest in the Company which are required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

Audit Report

The Audit Committee audited the execution of the duties of the Directors and the Executive Officers of JAPAN POST INSURANCE Co., Ltd. (the "Company") during the 15th fiscal year from April 1, 2020 to March 31, 2021 and hereby reports the auditing method and the results thereof as follows:

1. Auditing Method and Details Thereof

The Audit Committee received reports regularly and requested explanations when necessary on the contents of resolutions made by the Board of Directors concerning matters set out in Article 416, Paragraph 1, Item 1 (b) and (e) of the Companies Act as well as systems developed in accordance with the resolutions (internal control systems) and the status of the establishment and operation of the systems from Executive Officers and employees, etc. In addition, the Audit Committee conducted an audit according to the following methods.

- 1) Based on the Audit Committee auditing standards, audit policies, assigned duties, etc. stipulated by the Audit Committee, while working closely with the internal control divisions, the Audit Committee examined the decision-making process and contents at important meetings, etc., the contents of major documents for approval and other important documents and materials related to the execution of business, the status of execution of duties by Executive Officers, and the business and financial condition of the Company. With regard to a subsidiary, the Audit Committee communicated and exchanged opinions with the Directors and the Audit & Supervisory Board Member, etc. of the subsidiary, and received reports concerning business as necessary.
- 2) With respect to the matters given due consideration set forth in Article 118, Item 5 (a) and the judgement and reasons for such judgement set forth in (b) of the same Item of the same Article of the Ordinance for Enforcement of the Companies Act that are described in the business report, the Audit Committee examined the details taking into consideration the status, etc. of deliberations at the meetings of the Board of Directors and other meetings.
- 3) The Audit Committee monitored and verified as to whether the independent auditor conducted audits in an appropriate manner while maintaining an independent positioning, received reports from the independent auditor on the execution status of its duties, and, when necessary, requested explanations. The Audit Committee also received notification from the independent auditor that the "system for ensuring appropriate execution of duties of the independent auditor" (matters set out in each item of Article 131 of the Rules of Corporate Accounting) is being developed in accordance with the "Quality Control Standards for Auditing" (Business Accounting Council, October 28, 2005) and other relevant standards, and, when necessary, requested explanations.

Based on the above-described methods, the Audit Committee examined the business report, the supplementary schedules thereto, the non-consolidated financial statements (the non-consolidated balance sheet, the non-consolidated statement of income, the non-consolidated statement of changes in net assets and the related notes), and the supplementary schedules thereto as well as the consolidated financial statements (the consolidated balance sheet, the consolidated statement of income, the consolidated statement of changes in net assets and the related notes) for the fiscal year ended March 31, 2021.

2. Results of Audit

(1) Results of Audit of the Business Report, etc.

- 1) In our opinion, the business report and the supplementary schedules present fairly the condition of the Company in conformity with the applicable laws and regulations of Japan as well as the Articles of Incorporation of the Company.
- 2) With regard to the execution of duties by Directors and Executive Officers, we found no evidence of misconduct or any material facts that violate the applicable laws and regulations of Japan or the Articles of Incorporation of the Company.
- 3) In our opinion, the resolutions of the Board of Directors regarding the internal control system are appropriate. In addition, we found no matters to be pointed out regarding such system or the execution of duties by Directors and Executive Officers described in the business report.

As mentioned in the report, in January 2020, the Company submitted a business improvement plan to the Financial Services Agency of Japan regarding the problems related to solicitation quality discovered in the fiscal year ended March 31, 2020, and is working to improve the situation.

The Audit Committee has confirmed that the Company is implementing its business improvement plan and taking steps to prevent recurrence and restore the trust of customers. The committee will continue to monitor the status of improvement.

4) Regarding transactions with the parent company as described in the business report, we found no matters to be pointed out on the points considered not to unfairly impair the benefits of the Company when conducting such transactions, as well as on the determination and reason by the Board of Directors on whether such transaction does not unfairly impair the benefits of the Company.

(2) Results of Audit of Non-Consolidated Financial Statements and Supplementary Schedules

In our opinion, the method and the results of the audit conducted by KPMG AZSA LLC, the independent auditor, are appropriate.

(3) Results of Audit of Consolidated Financial Statements

In our opinion, the method and the results of the audit conducted by KPMG AZSA LLC, the independent auditor, are appropriate.
