- Compensation for outside Directors shall consist of a base salary only, reflecting their roles and the need for maintaining independence.

[Outline of Compensation for Directors]

1) Compensation composition ratio

Compensation consists of a "base salary" (fixed compensation) and compensation according to Company performance, namely "short-term performance-linked compensation (bonuses)" and "medium-to-long-term, performance-linked compensation (stock compensation)." The ratio of compensation consisting of performance-linked compensation compared to base salary has been determined for each role:

Base salary : Short-term performance-linked compensation : Medium-to long-term performance-linked compensation = 1 : 1 : 1.5*

*Referring to Representative Director, President and CEO

*The ratio is based on the assumption that the performance targets are set as 100% for each performance-linked compensation

2) Base salary

A base salary is paid monthly to Directors as fixed compensation. Base salaries are determined for each role by taking into account the salary levels of officers at other companies (benchmarked companies of the same industry and scope selected by the Compensation Advisory Committee), as surveyed by a specialized outside organization.

3) Short-term performance-linked compensation (bonuses)

Bonuses are paid as a lump sum after the fiscal year concludes to Directors excluding Outside Directors as short-term performance-linked compensation, which is linked to yearly

performance indicators and the degree of achievement of performance targets. Director bonuses vary between 0% and 200% according to the achievement of operating income, net income, and ROIC targets defined in the annual operating plan.

Base amount for each position x Performance score x ROIC score = Short-term performance
 (Operating income 50%, -linked compensation
 Net income 50%) (bonuses)

4) Medium-to-long-term, performance-linked compensation (stock compensation)

Stock compensation is paid as medium-to-long-term, performance-linked compensation to Directors excluding Outside Directors. Stock compensation comprises the performance-linked component (60%), which is linked to the degree of achievement of the medium-term management plan, and the non-performance-linked component (40%), which aims for retention and motivation to improve share prices over the medium- to long-term, and is paid under the condition of a certain term of service. The performance-linked component of stock compensation is paid after the medium-term management plan concludes, while the non-performance-linked component is paid after the Director retires.

Stock compensation for performance-linked component varies between 0% and 200%, according to achievement of net sales, EPS, and ROE targets based on the medium-term management plan, as well as sustainability evaluation* based on a third-party organization.

Base amount for each position x Performance score x ROE score x Sustainability evaluation = Stock compensation
 (Net sales 30%, (performance-linked)
 EPS 70%)

As a rule, stock paid in stock-based compensation must be held by the individual during their term of service. In the event that an individual Director in question engages in serious misconduct during their term of service, and such misconduct harms the Company, Compensation Advisory Committee will deliberate and make a recommendation. Based on this discussion and recommendation, Board of Directors shall resolve to limit the payment of stock-based compensation.

* Sustainability evaluation

An evaluation based on the Dow Jones Sustainability Indices (DJSI). The DJSI are a series of ESG Indices which include companies evaluated and selected based on long-term shareholder value perspective, reflecting economic, environmental, and social factors comprehensively.

5) Performance indicators of performance-linked compensation

The medium-term management plan that spanned the period from fiscal 2017 to fiscal 2020 was

a growth strategy. Indicators based on financial targets of short-term performance-linked compensation and medium- to long-term, performance-linked compensation were set from the perspective of “growth,” “profitability” and “efficiency,” thereby forming a performance-linked design that evaluated the growth that accompanied profits.

From the medium-term management plan that began in fiscal 2017, for medium- to long-term, performance-linked compensation, indicators related to non-financial targets were set, thereby forming a performance-linked design that evaluated sustainable management.

3. Limited liability agreements

The Company has established a provision in its Articles of Incorporation regarding the limited liability agreements the Company enters into with its Outside Directors and Audit & Supervisory Board Members (Independent) with the approval of the shareholders, in order to ensure that these officers can adequately fulfill their duties and responsibilities. Accordingly, the Company has entered into limited liability agreements with Mr. Eizo Kobayashi, Mr. Takehiro Kamigama, Ms. Izumi Kobayashi, Mr. Hideyo Uchiyama, and Mr. Tadashi Kunihiro, under which each of these officers' liability shall be limited to JPY 10 million or to the minimum amount of liability prescribed in Article 425-1 of the Companies Act, whichever is higher.

3. Reasons for OMRON's Selection of its Current Corporate Governance System

The Company has chosen to adopt the organizational structure of a “Company with Audit & Supervisory Board.”

Board of Directors strives toward sustained improvements in the OMRON's Group corporate value by exercising oversight functions over the overall management through the election of Directors, Audit & Supervisory Board Members and Executive Officers; the determination of compensation for Directors and Executive Officers; and making important operational decisions.

Audit & Supervisory Board and the Audit Supervisory Board Members work to secure the integrity of the OMRON Group and the sustained improvement of corporate value by conducting audits on legality and appropriateness of Directors' duties, and the fulfillment of Board of Directors' oversight obligations. In addition, each Audit & Supervisory Board Member can exercise his/her authority on his/her own as a single-person organ in which the power of final decision-making is given to one person. This allows them to play a crucial role in strengthening internal controls.

Furthermore, to enhance the oversight functions of Board of Directors, four voluntary advisory committees are attached to Board of Directors. Personnel Advisory Committee, CEO Selection Advisory Committee and Compensation Advisory Committee are chaired by an independent outside director, and the majority of each committee should be composed of independent outside director. The President & CEO does not belong to any of these committees. CEO Selection Advisory Committee, in particular, is dedicated to the deliberation and nomination of candidates for CEO, which is the top-priority matter in management oversight. In addition, Corporate Governance Committee, established for the purpose of enhancing corporate governance, is also chaired by an independent outside director, and exclusively comprises an independent outside director and Audit & Supervisory Board Members (Independent). Through these unique initiatives, the Company has established and adopted a system that enhances the transparency and objectivity of management's decision-making process.

By incorporating the best aspects of the corporate governance system of a so-called “Company with Committees (Nomination, etc.)” in this way, we have created the kind of hybrid corporate governance structure that we feel is most appropriate for OMRON as a Company with Audit & Supervisory Board.

To strengthen constructive dialogue with investors, we will describe our implementation status in addition to policies regarding the following principles stated in the Corporate Governance Code.

1. CEO Appointment/Dismissal [Supplementary Principles 4-3 (2) (3)]

Board of Directors takes the appointment and dismissal of the CEO as one of the highest-priority matters in management oversight. Accordingly, the CEO Selection Advisory Committee, dedicated to the nomination of candidates for the CEO, annually evaluates the performance of the CEO and nominates candidates for the CEO based on the results of the evaluation, thereby maintaining the transparency, objectivity, and timeliness of the CEO appointment process. As such, the Company annually appoints a CEO for the succeeding fiscal year based on the evaluation reflecting the Company's business results, etc. and thus has established a system for deliberating the re-appointment or dismissal of the current CEO based on the business results, etc.

2. Director/Executive Officer Appointment/Dismissal [Principle 3-1 (iv)]

Board of Directors takes the appointment and dismissal of directors/executive officers as one of the highest-priority matters in management oversight. Accordingly, the Personnel Advisory Committee annually evaluates the performance of directors/executive officers in accordance with the criteria for selection, and nominates candidates for directors/executive officers based on the results of evaluation. By doing so, the Company has established transparent, objective, and timely procedures for appointment. As such, the Company annually appoints directors/executive officers for the succeeding fiscal year based on the evaluation reflecting the Company's business results, etc., and thus has established a system for deliberating re-appointment or dismissal of the current directors/executive officers based on the business results, etc.

3. Policy and Procedures for the Election of Directors and Audit & Supervisory Board Members [Principle 4-11 (1)]

[Thoughts behind the Composition of Board of Directors]

To enhance the oversight functions of the Board of Directors, The Company keeps management oversight and business execution separate, and makes it a rule that a majority of the Board consists of Directors who are not involved with business execution. Furthermore, at least one-third of the Board shall be made up of Outside Directors. To ensure independence, the election and appointment of Outside Directors and Audit & Supervisory Board Members (Independent) shall be based on the "Independence Requirements for Outside Executives" established by the Company. Additionally, the Company makes sure that the Board consists of Directors and Audit & Supervisory Board Members with varied realms of experience, expertise, and knowledge in an optimally balanced manner, in order to build diversity on the Board.

[Nomination Procedures for Candidates for Directors/Audit & Supervisory Board Members]

The Company has established the Personnel Advisory Committee to enhance transparency, objectivity, and timeliness in the nomination process of candidates for Directors and candidates for Audit & Supervisory Board Members. The nomination procedures begin as follows: The Chair of the Board of Directors requests a consultation with the Personnel Advisory Committee regarding candidates for Directors. The Committee discusses the candidates and makes recommendations in accordance with the Company's election criteria. For Audit & Supervisory Board Members as well, the Personnel Advisory Committee discusses and recommends their candidates in accordance with the election criteria, in response to a request for consultation made by the Chair of the Board of Directors, who is entrusted by the Audit & Supervisory Board. Reflecting the Personnel Advisory Committee's recommendations, the Board of Directors nominates candidates for Directors. Candidates for Audit & Supervisory Board Members will also be nominated by the Board of Directors, with the consent of the Audit & Supervisory Board.
