TechnoPro Holdings Selected as DX Certified Operator by METI

On June 1, 2021, TechnoPro Holdings, Inc. has been selected as a Digital Transformation (DX) Certified Operator based on the national DX Certification Initiative implemented by the Ministry of Economy, Trade and Industry (METI).

The DX Certification Initiative is based on the Act on Facilitation of Information Processing which was enacted on May 15, 2020. This initiative nationally certifies the companies that are recognized as ready to promote digital transformation, satisfying the basic requirements specified in the "Digital Governance Code."

TechnoPro Holdings, Inc. was certified under the DX Certification for its strong commitment in promoting digitalization. The Company develops its talent management systems and core systems in-house, both of which shall be foundation of the Group's growth strategy, reflecting at a high level the operational demands from inside under the CEO's direct leadership, and also nurtures its engineers leveraging partnerships with leading-edge enterprises.

The TechnoPro Group will continue to contribute to the promotion of DX by meeting the needs of society and industry through the technological capabilities of its engineers and researchers.

About TechnoPro Group <https://www.technoproholdings.com/en/>

TechnoPro Group is Japan's largest technology-focused staffing and service corporate group, with more than 20,000 technicians and researchers in Japan, China, Southeast Asia, India, England, and other locations. The company is recognized for its expertise across a broad range of specialties, covering nearly every area of technology considered necessary in Japanese industry. These fields include machinery, electrical/electronic engineering, information systems, chemistry, biotechnology, medicine, construction, and civil engineering. The company provides a variety technology-based services, including engineer staffing, subcontracting, technology consulting, recruiting services, and other technology-based services to more than 2,000 companies, universities, and research institutions in Japan and overseas. (All figures are as of June 2020)
