Outside Corporate Auditors' Relationship with the Company (2)

Name	Designation as Independent Corporate Auditor	Supplementary Explanation of the Relationship	Reasons of Appointment
Akio Makabe	○	He formerly worked at Mizuho Bank, Ltd., from which the Group has significant borrowings. However, as 10 years have passed since Mr. Makabe resigned from said bank in July 2005, and as he focused on academic activities including teaching at various universities while working at the bank, it is judged that this would not affect Mr. Makabe's independence in his relationship with the Company. Also, Mr. Makabe is a professor of the Faculty of Economics at Shinshu University, with which the Group has business dealings. However, since the annual volume of transactions between the Group and Shinshu University is less than 1% of the Group's consolidated net sales, it is judged that this would not affect his independence in his relationship with the Company. Furthermore, although Mr. Makabe formerly served as a member of the Company's Group Advisory Committee, the remuneration he received was not significant, so it is considered that this would also not affect his independence in his relationship with the Company.	He was chosen as an Outside Corporate Auditor to enable audits based on his wealth of experience and broad range of knowledge related to economics and finance as a university professor. Mr. Makabe has been teaching and researching economics and finance at universities for many years and has extensive knowledge of finance and accounting.

Tetsuo Ito	○	<p>He currently works as a lawyer at Nishimura & Asahi, with which the Group has business dealings. However, since the annual volume of transactions between the Group and Nishimura & Asahi is less than 1% of the Group's consolidated net sales, it is judged that this would not affect Mr. Ito's independence in his relationship with the Company. Furthermore, although Mr. Ito serves as a member of the Company's Group Advisory Committee, the remuneration he receives is not significant, so it is considered that this would also not affect his independence in his relationship with the Company.</p>	<p>He was chosen an Outside Corporate Auditor to enable audits based on his wealth of experience and broad range of knowledge related to compliance as a prosecutor and lawyer.</p>
Akemi Mochiduki	○	<p>The Group has no transactions with her or the organizations to which she belongs.</p>	<p>She has been a certified public accountant for many years. Based on the experience and knowledge in the environment, society, finance, accounting, and other fields she gained through her career, we expect her to properly perform her duties as an Outside Corporate Auditor. Furthermore, as mentioned above, she has considerable insight into finance and accounting.</p>

Policy on Determining Remuneration Amounts and Calculation Methods	Established
--	-------------

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods
--

1. Basic policy

Remuneration of Outside Directors, who have a position of independence with respect to management of the Company, is comprised solely of fixed basic remuneration at a level determined in consideration of third-party survey data, in order to secure a high degree of independence unaffected by short-term earnings fluctuations.

The remuneration system for Directors with executive responsibilities, who are the Senior Management, combines performance-linked remuneration together with stock-based remuneration as nonmonetary remuneration, in addition to fixed basic remuneration which serves a basic livelihood, in order to provide incentives tied to earnings and management strategy, with levels of remuneration amounts and proportions of types of remuneration adjusted as appropriate for each role according to management strategy and tasks, in consideration of third-party survey data.

To ensure the optimal way of remunerating Directors and design of the remuneration system, the Board of Directors and the Remuneration Advisory Committee regularly deliberate and continually confirm appropriateness and make improvements.

2. Policy for determining timing and conditions of remuneration

Considering the purpose of each type of remuneration, fixed basic remuneration is provided monthly as it serves as a basic livelihood, performance-linked remuneration is provided monthly as it serves as a constant incentive, and stock-based remuneration is provided to relevant Directors at the time they retire both as Director and as officer of the Group as it serves to bring medium-to-long-term alignment with shareholders' perspective.

3. Policy for determining each individual's basic remuneration (monetary remuneration)

Amounts of basic remuneration for Directors are determined through comprehensive consideration in accordance with rank and responsibility taking account of other companies' levels and the Company's earnings.

4. Policy for determining content of performance-linked remuneration and nonmonetary remuneration as well as method of calculating amounts and numbers thereof

Performance-linked remuneration, which comprises a part of remuneration for Directors with executive responsibilities, combines both achievement of financial targets including asset efficiency to provide incentives tied to earnings and management strategy as management leaders together with achievement of nonfinancial targets including individual targets including progress on sustainability.

Performance-linked remuneration is calculated based on comprehensive judgment based on achievement of financial targets such as consolidated net sales, operating income, ROA, etc., together with achievement of individually set targets including progress on sustainability. Standards for financial incentives are selected as appropriate for clear and objective evaluation based on earnings results together with the perspective of awareness for increased asset efficiency.

The formula required to calculate individual performance-linked remuneration is outlined as follows.

[Formula required to calculate individual performance-linked remuneration]

Index calculated by evaluation* × basic amount by rank
= individual performance-linked remuneration amount

* Coefficient comprehensively considering achievement of financial targets and nonfinancial targets

A portion of remuneration for Directors with executive responsibilities is the provision of shares of the Company's stock as nonmonetary remuneration. To reinforce a common perspective with shareholders including both the benefits of share price increases and the risk of share price decreases, a stock-based remuneration system was adopted at the 126th Ordinary General Meeting of Shareholders on June 28, 2017, whereby a trust established by the Company acquires shares of the Company and grants them to eligible Directors. Based on the Share Grant Regulations adopted by the Board of Directors, eligible Directors are conferred points in accordance with their rank, etc. (maximum of 100,000 points per fiscal year) and the Company's shares are granted to eligible Directors corresponding to the accumulated number of points at the time of their retirement as Director and as officer of the Group (one share of stock per point).
