1. Qualitative Information for the Second Quarter of Fiscal Year 2021

(1) Explanation of Business Results

During the second quarter of fiscal year 2021 (January 1, 2021–June 30, 2021), supply and demand tightness for 300 mm wafers for logic increased further, with demand being driven by PC, smartphone, and data center. Supply and demand tightness began to affect wafers for memory as well, as NAND followed DRAM in entering a demand recovery phase. For wafers of 200 mm and smaller, likewise, supply continued to fall short of demand, with expanding needs for automotive, consumer product, and industrial.

In this environment, in line with the SUMCO Vision, the SUMCO Group sought to maintain our strong presence with customers through technology development aimed at meeting their needs for leading-edge, distinctive products, while endeavoring also to improve our profitability by cost reduction.

As a result, for the period under review, the Group registered consolidated net sales of 157,778 million yen, operating income of 21,720 million yen, ordinary income of 20,964 million yen, and net income attributable to owners of the parent of 16,373 million yen.

(2) Explanation of Business Forecasts

The market for 300 mm semiconductor silicon wafers in the third quarter is expected to see further supply and demand tightness, as demand grows for memory in addition to logic. Supply and demand tightness is forecast to continue also for wafers of 200 mm and smaller, sustained by strong demand.

In this market environment, the Group will continue seeking to enhance the competitive advantage of our products by developing technologies for state-of-the-art wafers for which continued demand growth is expected, while endeavoring to meet customer needs for these products through productivity improvements making greater use of AI, and through ongoing augmenting of equipment capacity in line with this demand. We will also be paying close attention to changes in the market environment including the impact of COVID-19 and US-China trade friction.

It is difficult for the Group to formulate reasonable business forecasts for the full-year, since the semiconductor industry to which the Group belongs is characterized by drastic and short-term changes in the business environment. Therefore, the Group has adopted the policy of disclosing business forecasts for the forthcoming quarter only.

SUMCO announces its consolidated business forecasts for the nine months ending Sep. 30, 2021 as follows.

(Changes in Accounting Policies)

(Adoption of Accounting Standard for Revenue Recognition, etc.)

The Accounting Standard for Revenue Recognition (ASBJ Statement No. 29 of March 30, 2018) (hereinafter, "Revenue Recognition Standard") and Implementation Guidance on Accounting Standard for Revenue Recognition (ASBJ Guidance No. 30 of March 2018) having become applicable to a consolidated fiscal year starting prior to March 31, 2021, we have applied this Revenue Recognition Standard and Guidance from the beginning of the first quarter of the fiscal year, recognizing as revenue the amount expected to be received in exchange for goods or services at the time control of the promised good or service is transferred to the customer.

Accordingly, the Company and its Japanese consolidated subsidiaries, with the exception of consignment products, has changed from recognizing revenue at the point of shipment in the case of domestic sales, and at the point of export clearance in the case of export sales, to recognizing revenue for domestic sales at the time of arrival of the goods at the customer's, and for export sales upon arrival of the goods at the place agreed with the customer, deeming our performance obligation to have been satisfied.

In the case of sales to certain customers where the transfer of control of assets to the customer takes place over a fixed period of time, the time of revenue recognition is changed to the fixed period of time based on manufacturing progress.

In addition, sales commissions and other considerations payable to a customer, which were previously accounted for as selling, general and administrative expenses, are now accounted for by deducting them from the transaction price.

Implementation of the Revenue Recognition Standard and Guidance is in line with the transitional measures provided in the proviso to Article 84 of the Revenue Recognition Standard. Accordingly, the cumulative impact of the change when the new accounting policy is applied retroactively prior to the beginning of the first quarter is reflected in retained earnings at the beginning of the first quarter, while the new policy is not retroactively applied to contracts for which all or most revenue was recognized prior to the beginning of the first quarter in accordance with the previous policy.

In addition, the method specified in Paragraph 86 item (1) of the Revenue Recognition Standard is applied for contract changes made prior to the beginning of the first quarter, such that accounting is performed based on the contract provisions after all changes have been reflected, and the cumulative impact is reflected in retained earnings at the beginning of the first quarter.

As a result, the impact on earned surplus balance at the beginning of the first quarter is minor.

The impact of these changes on the quarterly consolidated financial statements in the second quarter (January 1, 2021–June 30, 2021) is minor.
