#### 1. Overview of Results of Operations

#### (1) Results of Operations

(Results of operations for the fiscal year ended September 30, 2021)

In Japan, dealing with the declining workforce due to the low birthrate and aging population has become an issue of the utmost urgency, and the significance of the child-rearing business is growing year by year, as an infrastructure to support the social advancement and active participation of women who are expected to boost the country's economic vitality.

To reduce the number of wait-listed children at nursery schools, both the central and local governments are implementing measures that aim to expand service capacity by securing childcare workers and developing nursery schools. Specifically, free early childhood education and preschool programs began in October 2019, and in December 2020, the government announced the New Child-rearing Security Plan, setting a goal of securing additional capacity for approximately 140,000 children over the four years from fiscal 2021 to the end of fiscal 2024.

While the number of wait-listed children is decreasing, thanks to these initiatives taken by the government, the situation is still far from the government's goal of zero wait-listed children. The demand for establishing new nursery schools is expected to continue to a certain extent to achieve the goal of expanding service capacity under the government's New Child-rearing Security Plan.

Furthermore, in an effort to unify its measures regarding children, the government is aiming to establish a "Children's Affairs Agency" that raises the concept of "Children First." The establishment of the Children's Affairs Agency is expected to raise the percentage of childcare-related expenditures against GDP to the latter 3% levels, comparable to European countries, and to improve the compensation and social standing of childcare workers, and the stance of promoting children-centric policies on a national scale has become increasingly marked.

Under such circumstances, the Group opened ten central government licensed nursery schools during the period under review as a result of our continued efforts to develop new facilities in Tokyo, Kanagawa and Chiba.

Consequently, at the end of the current fiscal year, the Group operates a total of 184 facilities: 135 central government licensed nursery schools (98 in Tokyo, 27 in Kanagawa, four in Chiba, one in Saitama and five in Osaka); 22 local government licensed nursery schools or centers for early childhood education and care; 11 employer-sponsored nurseries; 12 after-school day care centers or children's houses; and four child developmental support facilities.

(Central government licensed nursery schools)

Tokyo

Global Kids Ikegami

Global Kids Kamata No. 2

Global Kids Magome

Global Kids Morishita 5-Chome

Global Kids Hirano

Global Kids Shimo No. 2

Global Kids Tachiaigawa

Kanagawa

Global Kids Mitsukyo

Global Kids Hiyoshi 5-Chome

Chiba

Global Kids Urayasu

Net sales for the current fiscal year increased attributable to a rise in the number of nursery school children due to the opening of ten new central government licensed nursery schools mainly in Tokyo as part of our strategy to expand our business foundations and the rising occupancy rates of relatively new nursery schools mainly in the second and third years after establishment, in addition to the gradual recovery from the temporary fall in occupancy rates as a result of the suspension of nursery admissions of mainly 0 to 1-year-olds due to the impact of the novel coronavirus infection. Cost of sales rose due to the increase in facility operation expenses including facility rent and personnel expenses reflecting the increase in the number of facilities, despite lower recruiting costs. Meanwhile, the selling, general and administrative expenses ratio improved thanks to the contributions made by the establishment of online internal events, training, and meetings and the resulting decrease in meeting and travel expenses, as well as the promotion of enhanced efficiency in hiring.

Consequently, the Group reported net sales for the current fiscal year of 23,529 million yen (up 6.2% year on year) with operating

profit of 576 million yen (up 20.6% year on year), ordinary profit of 1,148 million yen (up 25.3% year on year), and profit attributable to owners of parent of 481 million yen (up 10.0% year on year).

#### (2) Financial Position

#### Assets

Total assets amounted to 18,110 million yen at the end of the current fiscal year, a decrease of 450 million yen from the end of the previous fiscal year.

Current assets decreased 63 million yen to 4,130 million yen. This was mainly attributable to a decrease of 488 million yen in cash and deposits, despite increases of 370 million yen and 55 million yen in accounts receivable-other and prepaid expenses, respectively. Non-current assets decreased 387 million yen to 13,979 million yen. This was mainly attributable to a decrease of 306 million yen in property, plant and equipment due to depreciation and impairment loss, despite an acquisition of buildings and structures as well as machinery and equipment due to the opening of new nursery schools.

#### Liabilities

Total liabilities amounted to 9,452 million yen at the end of the current fiscal year, a decrease of 962 million yen from the end of the previous fiscal year.

Current liabilities decreased by 254 million yen to 3,212 million yen. This was mainly attributable to a decrease of 193 million yen in income taxes payable and a decrease of 41 million yen in advances received.

Non-current liabilities decreased 707 million yen to 6,239 million yen. This was mainly attributable to a decrease of 776 million yen in long-term loans payable.

Total interest-bearing debt decreased 814 million yen from the end of the previous fiscal year.

#### Net assets

Net assets amounted to 8,658 million yen at the end of the current fiscal year, an increase of 511 million yen from the end of the previous fiscal year. This was mainly attributable to an increase of 481 million yen in retained earnings as a result of the booking of profit attributable to owners of parent.

### (3) Cash Flows

Cash and cash equivalents (hereinafter, "net cash") at the end of the current fiscal year decreased 488 million yen from the end of the previous fiscal year to 1,327 million yen with net cash provided by operating activities of 1,235 million yen, net cash used in investing activities of 907 million yen, and net cash used in financing activities of 816 million yen.

The cash flow components for the current fiscal year and the main factors for changes are described below.

### Cash flows from operating activities

Net cash provided by operating activities amounted to 1,235 million yen, mainly due to recording of profit before income taxes of 815 million yen, an increase in net defined benefit liability of 107 million yen, an increase in provision for bonuses of 31 million yen and a cash inflow from other operating activities of 143 million yen.

Net cash provided decreased 764 million yen compared to the fiscal year ended September 30, 2020. This was mainly due to an increase in accounts receivable-other of 505 million yen and an increase in income taxes paid of 425 million yen, despite an increase in profit before income taxes of 41 million yen and an increase in prepaid expenses of 133 million yen.

### Cash flows from investing activities

Net cash used in investing activities amounted to 907 million yen, mainly due to purchase of property, plant and equipment of 785 million yen and payments for lease and guarantee deposits of 136 million yen.

Net cash used in investing activities decreased 136 million yen compared to the fiscal year ended September 30, 2020. This was mainly due to a decrease in purchase of property, plant and equipment of 82 million yen and a decrease in the purchase of intangible assets of 71 million yen.

#### Cash flows from financing activities

Net cash used in financing activities amounted to 816 million yen, mainly due to repayments of long-term loans payable of 904 million yen, despite proceeds from long-term loans payable of 90 million yen.

Net cash used in financing activities increased by 197 million yen compared to the fiscal year ended September 30, 2020. This was

mainly due to a decrease in proceeds from long-term loans payable of 388 million yen, despite a decrease in repayments of long-term loans payable of 166 million yen.

Reference: Cash flow indicators

|--|--------|
| Equity ratio (%)                                 | 47.7   |
| Market value-based equity ratio (%)              | 44.3   |
| Interest-bearing debt to cash flow ratio (Years) | 3.7    |
| Interest coverage ratio (Times)                  | 52.7   |

- -Equity ratio: Shareholders' equity / Total assets
- -Market value-based equity ratio: Market capitalization / Total assets
- -Interest-bearing debt to cash flow ratio: Interest-bearing debt / Operating cash flows
- -Interest coverage ratio: Operating cash flows / Interest expenses
- Notes: 1. Market capitalization is calculated by multiplying the closing share price at the period end (or the contract price for the most recent day prior to the period end if there is no applicable contract execution at the period end) by the number of shares issued and outstanding (excluding treasury shares) at the period end.
  - 2. Cash flows are calculated using the figures for operating cash flows in the statement of cash flows.
  - 3. Interest-bearing debt includes all debt on the consolidated balance sheet that incur interest.

#### (4) Future Outlook

Nursery school users have been increasing due to the rise in the number of double-income households and the employment rate of women, reflecting the change in awareness of the social advancement of women and government efforts to encourage them to take active roles. Meanwhile, although the usage rate of nursery schools remains high at over 90%, thanks to the successful efforts by both the central and local governments to expand service capacity, the rate is on a slight decline.

The central and local governments continue to build more nursery schools, in an effort to expand service capacity, and the number of wait-listed children has decreased for four consecutive years, as shown in the table below. However, as of April 2021, the number of wait-listed children stood at 5,634, a figure that is still far from the government's goal of zero, and in December 2020, the government launched the New Child-rearing Security Plan, setting a goal of securing additional capacity of approximately 140,000 children over the four years from fiscal 2021 to the end of fiscal 2024. In light of these circumstances, the demand for establishing new nursery schools is expected to continue to a certain extent.

In this environment, we are making it a policy to promote the stable development of new facilities to fulfill the social demand for eliminating wait-listed children.

Number of wait-listed children

| April 1, 2016 | April 1, 2017 | April 1, 2018 | April 1, 2019 | April 1, 2020 | April 1, 2021 |
|---------------|---------------|---------------|---------------|---------------|---------------|
| 23,553        | 26,081        | 19,895        | 16,772        | 12,439        | 5,634         |

Source: Summary of Nursery School Situation issued by the Ministry of Health, Labour, and Welfare

Based on the above, we anticipate net sales for the next fiscal year of 24,900 million yen (up 5.8% year on year) with operating profit of 940 million yen (up 63.2% year on year), ordinary profit of 1,260 million yen (up 9.7% year on year), and profit attributable to owners of parent of 800 million yen (up 66.0% year on year).

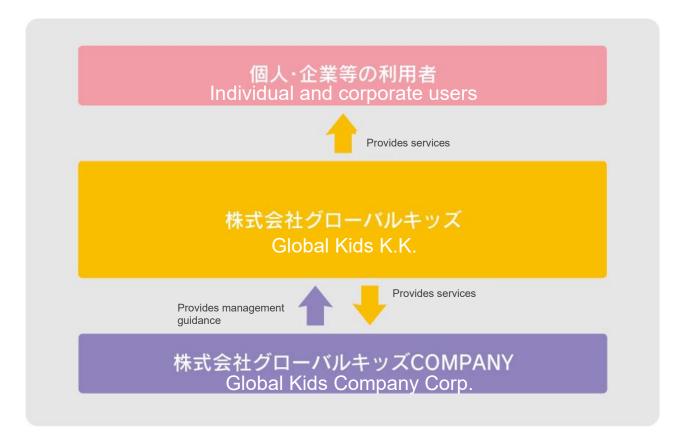

The year-on-year increase in net sales for the next fiscal year is attributable to an expected rise in the number of nursery school children mainly due to the opening of new nursery schools, as well as the rising occupancy rates of relatively new nursery schools in the second and third years after establishment. In addition, both operating profit and ordinary profit are expected to increase due to expected contributions from sales and optimization of personnel expenses through optimized staff allocation, in addition to improved efficiency associated with higher occupancy rates.

### 2. Corporate Group

The Group consists of the Company and its consolidated subsidiary that engage primarily in the child-rearing support business by operating nursery schools, after-school day care centers, children houses, and child developmental support business.

The following diagram shows the Group's business activities and the positioning of the Company and its affiliated companies in the business.

Business structure diagram

#### 3. Basic Approach to the Selection of Accounting Standards

We adopt Japanese GAAP because most of our stakeholders are shareholders, creditors, users, and business partners located in Japan, and we do not necessarily have to raise funds from overseas capital markets.

#### (5) Notes to Consolidated Financial Statements

#### **Going Concern Assumption**

Not applicable.

#### Significant Accounting Policies in the Preparation of Consolidated Financial Statements

- 1. Scope of consolidation
  - 1) Number of consolidated subsidiaries: 1

Name of consolidated subsidiary:

Global Kids K.K.

#### 2) Name of non-consolidated subsidiary

Non-consolidated subsidiary

GLOBAL KIDS VIETNAM CO., LTD.

(Reason for exclusion from the scope of consolidation)

The non-consolidated subsidiary is excluded from the scope of consolidation as it would be of minor importance in the consolidated financial statements considering its total assets, net sales, profit/loss (amounts proportionate to the Company's equity interest) and retained earnings (amount proportionate to the Company's equity interest) even if it is excluded from the scope of consolidation, as its business is small in scale.

#### 2. Application of the equity method

 Non-consolidated subsidiaries and affiliates accounted for under the equity method Not applicable.

#### 2) Non-consolidated subsidiaries and affiliates not accounted for under the equity method

Name of major company

GLOBAL KIDS VIETNAM CO., LTD.

(Reason for exclusion from the scope of equity-method application)

The above non-consolidated subsidiary is excluded from the scope of application of the equity method as it would be of minor importance in the consolidated financial statements considering profit/loss (amount proportionate to the Company's equity interest) and retained earnings (amount proportionate to the Company's equity interest) even if the method is not applied.

#### 3. Period end of consolidated subsidiaries

The fiscal year of the consolidated subsidiaries ends on the closing date of consolidated financial statements.

#### 4. Accounting policies

- (1) Valuation criteria and methods for significant assets
  - 1) Available-for-sale securities

Securities with market quotations

Stated at fair value with any changes in unrealized holding gain or loss, net of the applicable income taxes, directly included in net assets. Cost of securities sold is determined by the moving average method.

Securities without market quotations

Moving average cost method.

2) Inventories

Supplies

Stated at cost determined by the first-in and first-out method (the carrying value on the consolidated balance sheet is written down to reflect the effect of lower profit margins).

#### (2) Depreciation and amortization method for significant depreciable assets

1) Property, plant and equipment (excluding leased assets)

The Company applies the straight-line method.

The useful lives of property, plant and equipment are summarized as follows:

Buildings and structures 6 to 39 years

2) Intangible assets (excluding leased assets)

The Company applies the straight-line method.

Software for internal use is amortized over an estimated internal useful life of five years.

3) Leased assets

Leased assets associated with finance lease transactions where there is no transfer of ownership

The straight-line method with no residual value is applied over the lease period used as the useful life of the assets.

#### (3) Accounting for significant allowance

Provision for bonuses

An allowance is provided, based on an estimated amount of payment for the current fiscal year, to prepare for the payment of bonuses to employees of the Group.

#### (4) Accounting method for retirement benefits

1) Method of attributing estimated retirement benefits to periods

In its calculation of retirement benefit obligations, the Company uses the benefit formula basis for attributing estimated retirement benefit obligations to the period until the end of the current fiscal year.

2) Amortization of actuarial difference and past service cost

Past service cost is amortized by the straight-line method over a certain period (five years) within the average remaining years of service of the eligible employees.

Actuarial gain or loss is amortized and charged to expense in the year following the fiscal year in which such gain or loss is recognized by the straight-line method over a certain period (five years) within the average remaining years of service of the eligible employees.

#### (5) Cash and cash equivalents in the consolidated statement of cash flows

Cash and cash equivalents consist of cash on hand, deposits that can be withdrawn on demand, and short-term investments, with maturities of three months or less, that are highly liquid and readily convertible to known amounts of cash and present insignificant risk of change in value.

#### (6) Other significant matters for preparation of the consolidated financial statements

Accounting for consumption taxes

Consumption taxes are accounted for by the tax-exclusion method. Non-deductible consumption taxes are recorded as expenses in the corresponding fiscal years. However, non-deductible consumption taxes associated with non-current assets are included in long-term prepaid expenses under investments and other assets and amortized over five years by the straight-line method.

#### **Consolidated Statements of Income and Comprehensive Income**

#### \*1 Impairment loss

The Group reported impairment loss for the following group of assets.

FY9/20 (Oct. 1, 2019 - Sep. 30, 2020)

| Purpose                 | Туре   | Location                            | Impairment loss (Millions of yen) |
|-------------------------|--|-------------------------------------|-----------------------------------|
| Facility (3 facilities) | Buildings and structures "Other" under property, plant and equipment | Toda City, Saitama Prefecture, etc. | 95                                |
| Headquarters            | Software   | Head Office (Chiyoda-ku,<br>Tokyo)  | 41                                |

The Group's assets are grouped by facility as a basic unit, which is the smallest group of assets that generates cash inflows. The Group recognized an impairment loss (89 million yen for buildings and structures and 6 million yen for "Other" under property, plant and equipment) as an extraordinary loss as well as writing down the carrying amount of facilities with deteriorating operating performance to their recoverable amount. Their recoverable amount is measured based on value in use, which is determined to be zero as the future cash flows cannot be expected.

The Group has previously recorded the expenses required for the development of the system being built to enhance work efficiency as construction in progress. However, as it was determined that the initially forecast results cannot be expected, the Company has judged that the asset value has decreased and recorded it under extraordinary losses as an impairment loss.

FY9/21 (Oct. 1, 2020 - Sep. 30, 2021)

| Purpose                  | Туре   | Location            | Impairment loss (Millions of yen) |
|--------------------------|--|---------------------|-----------------------------------|
| Facility (17 facilities) | Buildings and structures "Other" under property, plant and equipment | Ota-ku, Tokyo, etc. | 258                               |

The Group's assets are grouped by facility as a basic unit, which is the smallest group of assets that generates cash inflows. The Group recognized an impairment loss (244 million yen for buildings and structures and 14 million yen for "Other" under property, plant and equipment) as an extraordinary loss as well as writing down the carrying amount of facilities with deteriorating operating performance to their recoverable amount. Their recoverable amount is measured based on value in use, which is determined to be zero as the future cash flows cannot be expected.

#### \*2 Loss on valuation of investment securities

FY9/20 (Oct. 1, 2019 - Sep. 30, 2020)

Of the securities held by the Company that are classified as available-for-sale securities, the Company recognized a loss on valuation for those whose actual value has deteriorated significantly.

FY9/21 (Oct. 1, 2020 - Sep. 30, 2021)

Of the securities held by the Company that are classified as available-for-sale securities, the Company recognized a loss on valuation for those whose actual value has deteriorated significantly.

#### \*3 Loss on valuation of shares of subsidiaries and associates

FY9/20 (Oct. 1, 2019 –Sep. 30, 2020)

The Company recognized a loss on valuation of the shares of GLOBAL KIDS VIETNAM CO., LTD, an unconsolidated subsidiary.

#### \*4 Loss on closing of nursery schools

FY9/21 (Oct. 1, 2020 - Sep. 30, 2021)

The Company recognized a loss on closing of nursery schools as a result of incurring restoration costs of 13 million yen, due to the closing of a local government licensed nursery school in conjunction with the establishment of a new central government licensed nursery school in its neighborhood.

#### **Additional Information**

(Accounting-based estimates regarding the impact of the novel coronavirus infection)

With regard to the impact of the novel coronavirus infection, the Company had assumed that the infection would be contained by the end of March 2021 and that normal facility operations would commence from April 2021. However, as the nursery school admissions of 0 to 1-year-olds were temporarily suspended, due to the effects of the resurgence of the infection and the state of emergency once

again being declared, the occupancy rates fell short of expectations. Consequently, the Company has changed its assumption so that the impact of the novel coronavirus infection will continue until the end of March 2022 and has accordingly made estimates of future cash flows in the impairment of non-current assets.

#### **Segment and Other Information**

#### a. Segment information

Omitted since the Group has only a single business segment, which is the "child-rearing support business."

#### b. Related information

FY9/20 (Oct. 1, 2019 -Sep. 30, 2020)

1. Information by product or service

Omitted since sales to external customers, which account for more than 90% of net sales shown on the consolidated statement of income, are derived from a single product or service category.

#### 2. Information by region

(1) Net sales

Not applicable because there are no external sales outside Japan.

#### (2) Property, plant and equipment

Not applicable because there are no property, plant and equipment outside Japan.

#### 3. Information by major client

(Millions of yen)

| Customer name | Net sales | Relevant segment               |
|---------------|-----------|--------------------------------|
| Yokohama City | 3,049     | Child-rearing support business |

#### FY9/21 (Oct. 1, 2020 - Sep. 30, 2021)

1. Information by product or service

Omitted since sales to external customers, which account for more than 90% of net sales shown on the consolidated statement of income, are derived from a single product or service category.

- 2. Information by region
- (1) Net sales

Not applicable because there are no external sales outside Japan.

### (2) Property, plant and equipment

Not applicable because there are no property, plant and equipment outside Japan.

#### 3. Information by major client

(Millions of yen)

| Customer name | Net sales | Relevant segment               |
|---------------|-----------|--------------------------------|
| Yokohama City | 3,320     | Child-rearing support business |

c. Information related to impairment losses on non-current assets for each reportable segment Omitted since the Group has only a single business segment.

d. Information related to goodwill amortization and the unamortized balance for each reportable segment Omitted since the Group has only a single business segment.

e. Information related to gain on bargain purchase for each reportable segment Not applicable.

### **Per-share Information**

(Yen)

|                              | FY9/20<br>(Oct. 1, 2019 –Sep. 30, 2020) | FY9/21<br>(Oct. 1, 2020 –Sep. 30, 2021) |
|------------------------------|---|---|
| Net assets per share         | 882.76                                  | 928.85                                  |
| Net income per share         | 47.65                                   | 51.97                                   |
| Diluted net income per share | 46.75                                   | 51.41                                   |

Note: The basis of calculating the net income per share and diluted net income per share is as follows:

|   | FY9/20<br>(Oct. 1, 2019 –Sep. 30, 2020) | FY9/21<br>(Oct. 1, 2020 –Sep. 30, 2021) |
|---|---|---|
| Net income per share  |   |   |
| Profit attributable to owners of parent (millions of yen)   | 438                                     | 481                                     |
| Amount not attributable to ordinary shareholders (millions of yen)  | -                                       | -                                       |
| Profit attributable to owners of parent applicable to common stock (millions of yen)  | 438                                     | 481                                     |
| Average number of shares of common stock outstanding (shares)   | 9,193,412                               | 9,272,876                               |
| Diluted net income per share  |   |   |
| Adjustment to profit attributable to owners of parent (millions of yen)   | -                                       | -                                       |
| Increase in number of shares of common stock (shares)   | 178,236                                 | 101,116                                 |
| [Of which, stock acquisition rights (shares)]   | [178,236]                               | [101,116]                               |
| Summary of dilutive shares not included in the calculation of diluted net income per share since there was no dilutive effect | -                                       | -                                       |
