Introducing the ZOOM Q8n-4k

Brand new design brings greatest features to Zoom Handy Video Recorder's flagship model

Following up on the legacy of long-time seller Zoom Q8, we are pleased to announce the next-generation **Q8n-4K Handy Video Recorder**. Built with a more contemporary and sturdy enclosure, the Q8n-4K now provides 4K video resolution, HDR (High Dynamic Range) image processing and support for new-generation Zoom Mic Capsules 2.0, including Shotgun, XY / AB and even VR (360 Audio) microphones, suitable for the widest choice of audio and video recording. In addition, the Q8n-4K mounts a newer monitor LCD that conveniently folds on the camera back panel and yet it allows for selfie shots by easily moving around at your convenience. Two external XLR inputs are also now positioned on the side panel to allow for simultaneous recording of 4 audio tracks.

The Q8n-4K compact design makes it the most flexible 4K Video Recorder/Webcam for musicians and YouTube creators capturing and streaming their live performances from anywhere with unrivaled audio and video quality.

The new Zoom Q8n-4K will start shipping worldwide from early January 2022 (Shipment in Japan start from December 2021). with the expectation to further increase Zoom's market share of its own and uniquely popular HVR (Handy Video Recorder) product category.
