### **Proposal 6: Payment of Bonuses to Directors**

The Company proposes that it pay Directors' bonuses totaling ¥90 million to six (6) Directors, excluding Outside Directors, as of the end of the fiscal year under review, in comprehensive consideration of their individual duties, responsibilities and performances, as well as earnings during the fiscal year under review and the business environment of the Company, while taking into account the level of other companies based on objective market research data on remuneration by an external specialized organization.

We consider that this proposal is in accordance with the Company's policy on determination of content of remuneration, etc. for individual Directors, and that it is appropriate. Furthermore, the policy is as described in the Business Report "3. Matters related to Directors and Corporate Auditors of the Company, (2) Remunerations for Directors and Corporate Auditors, 1) Matters related to the policy on determination of content of remuneration, etc. for individual Directors." In addition, the total amount of Directors' bonuses has been determined by consulting with the Nomination and Remuneration Advisory Committee, which is chaired by an Outside Director and is made up of a majority of Outside Directors, and decided by the Board of Directors. It is now being submitted to the Ordinary General Meeting of Shareholders for approval.

# Proposal 7: Partial Revision of Remuneration for Grant of Restricted Stock to Directors (excluding Outside Directors)

With regard to the amount of remuneration, etc. for Directors of the Company, it was approved at the 81st Ordinary General Meeting of Shareholders held on June 29, 2000, that the remuneration, etc. shall be not more than \(\frac{4}{2}\)8 million per month (excluding employee salaries of Directors concurrently serving as employees). Moreover, separately from this remuneration limit, at the 100th Ordinary General Meeting of Shareholders held on March 28, 2019, it was approved that the total amount of monetary remuneration claims paid for the purpose of granting restricted stock to Directors of the Company (excluding Outside Directors, hereinafter the "Eligible Directors") in accordance with the restricted share-based remuneration plan (the "Plan") be not more than \(\frac{4}{2}\)100 million per year, and that the total number of common shares to be issued or disposed of under the Plan be not more than \(\frac{5}{2}\)0,000 shares per year. With a view to diversifying the methods of granting the restricted stock under the Plan, the Company requests approval for the following revisions to the Plan.

The granting of restricted stock under the Plan shall be conducted by any of the following methods in accordance with a resolution of the Board of Directors.

- (i) A method whereby the Company's common shares are issued or disposed of without requiring monetary payment or property contributed in kind as remuneration, etc., of Eligible Directors.
- (ii) A method whereby the Company's common shares are issued or disposed of after paying monetary remuneration claims as remuneration, etc. to Eligible Directors and having them pay all of the monetary remuneration claims as property contributed in kind.

The total number of common shares of the Company to be issued or disposed of under the Plan shall be not more than 50,000 shares per year as before, and the total amount of remuneration shall be not more than \(\frac{\pmathbf{1}}{100}\) million per year as before, separate from the current limit for monetary remuneration (not more than \(\frac{\pmathbf{2}}{28}\) million per month). However, if the Company's total number of issued shares should increase or decrease due to a share split (including allotment of shares without contribution) or share consolidation, the upper limit for the total number of shares shall be adjusted proportionately.

In the method of ii) above, the amount to be paid in per share shall be determined by the Board of Directors of the Company within a range that is not particularly advantageous to the Eligible Directors. Furthermore, the specific allocation for each Eligible Director will also be determined by the Board of Directors of the Company.

Moreover, currently there are six Eligible Directors, and if Proposal No. 3 is approved as proposed, the number of Eligible Directors will continue to be six.

The Company has resolved at the Board of Directors Meeting held on February 18, 2022 to make partial amendments to the policy on determination of content of remuneration, etc. for individual Directors, on the condition that this proposal is approved as proposed. We consider that this proposal is in accordance with the policy, and that it is appropriate. The policy is as described in the Business Report "3. Matters related to Directors and Corporate Auditors of the Company, (2) Remunerations for Directors and Corporate Auditors, 1) Matters relating to the policy on determination of content of remuneration, etc. for individual Directors." In addition, the revision of the Plan has been determined by consulting with the Nomination and Remuneration Advisory Committee, which is chaired by an Outside Director and is made up of a majority of Outside Directors, and decided by the Board of Directors. It is now being submitted to the Ordinary General Meeting of Shareholders for approval.

In granting restricted shares pursuant to this proposal, an agreement on allotment of shares with transfer restrictions as summarized below (the "Allotment Agreement") shall be entered into between the Company and each Eligible Director.

(1) The Eligible Director shall not transfer, create security interests on, or otherwise dispose of the common shares of the Company allotted under the Allotment Agreement (the "Allotted Shares") during the period from the day of allotment of the Allotted Shares until the day that the relevant Eligible Director resigns as the Director of the Company

- (the "Restriction Period"). The restrictions described in the preceding sentence will hereinafter be collectively referred to as the "transfer restrictions."
- (2) If the Eligible Director resigns from the position of the Director of the Company before the period designated by the Company's Board of Directors (the "Service Period") expires, the Company shall automatically acquire such Allotted Shares without contribution, unless the Board of Directors of the Company deems the reason for resignation to be justifiable.
- (3) The Company shall lift the transfer restrictions on all of the Allotted Shares upon expiration of the Restriction Period on the condition that the Eligible Director has remained in the position of the Director of the Company continuously throughout the Service Period. However, if the Eligible Director resigns from the position of Director of the Company before the expiration of the Service Period for a reason that the Board of Directors of the Company deems justifiable as specified in (2) above, the Company shall rationally adjust the number of the Allotted Shares on which the transfer restrictions are to be lifted as necessary.
- (4) The Company shall automatically acquire without contribution the Allotted Shares on which the transfer restrictions have not been lifted at the expiration of the Restriction Period in accordance with the provisions in (3) above.
- (5) In a case where a violation of laws or regulations, violation of the Allotment Agreement, or other reason that is deemed by the Board of Directors that justifies the acquisition of the Allotted Shares without contribution applies to the Eligible Director, the Company shall acquire the Allotted Shares without contribution.
- (6) Notwithstanding the provisions in (1) above, if, during the Restriction Period, matters relating to a merger agreement in which the Company is the disappearing company, a share exchange agreement or share transfer plan in which the Company becomes a wholly-owned subsidiary, or other reorganization, etc. are approved at the Company's General Meeting of Shareholders (or at a meeting of its Board of Directors in cases where approval at the Company's General Meeting of Shareholders is not required in relation to the reorganization, etc.), the Company shall lift the transfer restrictions on the Allotted Shares with the number of shares that is reasonably determined considering the period from the start date of the Service Period to the date of approval of the reorganization, etc. prior to the date on which the reorganization, etc. becomes effective, by resolution of the Board of Directors of the Company.
- (7) In the cases specified in (6) above, the Company shall automatically acquire without contribution the Allotted Shares on which the transfer restrictions have not been lifted as of the time immediately after the transfer restrictions were lifted in accordance with the provisions in (6) above.

#### <Medium-term business plan>

Previous medium-term business plan "EGP2021"

The Company has worked on its medium-term business plan "EGP2021" for three years from fiscal 2019, focusing on making its corporate structure stronger by growing human resources, technology base, and development capabilities, while achieving robust growth in its business performance.

During this period, the Company has made progress in developing products to support the future, including all-solid-state Na-ion secondary batteries, and at the same time, developed innovative manufacturing process technologies that not only improve quality and productivity, but also contribute to carbon neutrality, thereby improving the profitability of the display business. In addition, the Company actively invested in the display and medical fields and others to strengthen its business in growth markets. Performance of glass fiber struggled in terms of profit and loss at sites in Europe and the US, but the Company made steady progress in reforming its production system and organization and was able to lay the foundation for growth. As a result of these efforts, the Company achieved the target level of net sales, exceeded the target in terms of profits, and steadily strengthened its corporate structure, despite the continuing severe business environment, including rapid changes in the international situation and the spread of the novel coronavirus infection (COVID-19).

- (2) Remunerations for Directors and Corporate Auditors
  - 1) Matters related to the policy on determination of content of remuneration, etc. for individual Directors

The Company resolved a policy on determination of content of remuneration, etc. for individual Directors at a Board of Directors meeting held on February 18, 2021. In making the resolution, the Board of Directors consulted with the Nomination and Remuneration Advisory Committee regarding a summary of the content that was to be resolved, and received its opinion.

Moreover, the Board of Directors judges that the remuneration, etc. of individual Directors for the fiscal year under review is in line with the policy, because the method of determining the content of remuneration, etc. and the determined content comply with the determination policy resolved by the Board of Directors, and the opinion of the Nomination and Remuneration Advisory Committee has been respected.

Details of the policy on determination of content of remuneration, etc. for individual Directors are as follows.

i Policy on determination of amounts of remuneration, etc. for individual Directors (excluding performance-linked remuneration and non-monetary remuneration)

The monthly retainer (fixed) and bonuses (excluding Outside Directors) of the Company's Directors shall be determined according to individual duties, responsibilities and performance, while giving comprehensive consideration to financial results (excluding Outside Directors), the Company's management environment, and remuneration levels of other companies based on objective remuneration market survey data by an outside specialist institution. In addition, the amount of Directors' bonuses is deliberated by the Nomination and Remuneration Advisory Committee based on consultation from the Board of Directors, the results of that deliberation is reported to the Board of Directors, which approves the amount before it gets decided by the General Meeting of Shareholders.

ii Policy on determination of content, and calculation method for amount or number of nonmonetary remuneration, etc. (including policy on determination of timing and conditions for paying remuneration, etc.)

Non-monetary remuneration, etc. shall be allocated at a certain time each year in the form of restricted stock to Directors, excluding Outside Directors. First, in accordance with the resolution of the 100th Ordinary General Meeting of Shareholders held on March 28, 2019, monetary remuneration claims are paid to Eligible Directors for granting restricted stock. The Eligible Directors shall pay in all of the monetary remuneration claims as property contributed in kind in accordance with the resolution of the Board of Directors of the Company, and receive the issuance or disposal of the common shares of the Company within the scope of the total number resolved by the General Meeting of Shareholders. Furthermore, the amount of payment, which is the standard for calculation of the number of restricted shares to be allotted, shall be determined based on the individual duties, responsibilities, and share price, within the scope of the total amount resolved by the General Meeting of Shareholders.

iii Policy on determination of proportion of monetary remuneration amount, performance-linked remuneration amount, or non-monetary remuneration amount by individual director remuneration amount

For Directors other than Outside Directors, payment shall be linked with achievement of financial results targets and medium- to long-term corporate value increase and comprised of a monthly retainer (fixed), which is a fixed remuneration, and bonuses and share-based remuneration using restricted shares, which is variable remuneration. The ratio of fixed to variable remuneration based on payment amount shall be approximately 6:4. For Outside Directors, payment shall consist only of a monthly retainer (fixed) that is not linked to financial results, so as to maintain their independence.

iv Policy on determination of timing and conditions for paying remuneration, etc.

Monthly retainer (fixed) shall be a fixed remuneration paid monthly. Bonuses shall be paid at a certain time each year.

v Matters related to determination of content of remuneration, etc., by individual Director The evaluation and allocation of the amount of individual monthly retainer (fixed) and bonuses (excluding Outside Directors) for Directors of the Company is determined as follows. Based on the consultation of the Board of Directors, the specific content of the remuneration is deliberated by the Nomination and Remuneration Advisory Committee, which is chaired by an Outside Director and is made up of the Chairman of the Board of Directors, the President, and all Outside Directors, with Outside Directors making up a majority. Except in cases where the opinions of the committee members are equally divided, a response to the Board of Directors is not required, and the decision of the committee is deemed to be a resolution of the Board of Directors. The specific allocation of restricted stock to Directors excluding Outside Directors shall be determined by the Board of Directors.

(Note) The Company resolved at a Board of Directors meeting held on February 18, 2022 that the underlined section in the above determination policy ii shall be deleted if Proposal No. 7 of the 103rd Ordinary General Meeting of Shareholders scheduled to be held on March 30, 2022, "Partial Revision of Remuneration for Grant of Restricted Stock to Directors (excluding Outside Directors)" is approved as proposed.
