Segment Information

1. Overview of Reportable Segments

The Group's reportable segments comprise business units for which separate financial information is available. The reportable segments are regularly reviewed by the Company's Board of Directors for such purposes as making decisions on the allocation of management resources and evaluating business performance.

The Group's business is divided into two parts: the Metalworking Machinery business, which manufactures and sells sheet metal processing machines and micro welding machines; and the Metal Machine Tools business, which manufactures and sells cutting machines, grinders and presses.

The Metalworking Machinery business is principally operated by the Company and Amada Weld Tech Co., Ltd., while the Metal Machine Tools business is principally operated by Amada Machinery Co., Ltd. and Amada Press System Co., Ltd.

Each companies develop comprehensive strategies for their respective products and services both in Japan and overseas.

Consequently, the Group has two reportable segments—Metalworking Machinery and Metal Machine Tools—based on its business segment-delineated production and marketing structure.

The Metalworking Machinery business manufactures products for the sheet metalworking market, including laser machines, punch presses and press brakes, as well as micro welding machines for the micro welding market. The Metal Machine Tools business manufactures products for the cutting market, including metal-cutting bandsaws, and grinders and other products for the grinder market as well as mechanical presses for the press market.

Cutting Division and Grinding Division, which has been shown until the last fiscal year, are reclassified to Cutting and Grinding Division from this fiscal year because Amada Machinery Co., Ltd., a consolidated subsidiary of the Group, is responsible for strategic planning and business activity of those 2 divisions and the revenue of Grinding Division is insignificant, less than 2% of total consolidated revenue. Following this change, the comparative information is also shown in the new classification.

2. Information on Reportable Segments

Information by reportable segment of the Group is as follows. Further, profit for reportable segments is based on operating profit, and intersegment transactions are based on selling prices, which take into account market prices.
