Takara Leben Infrastructure Fund, Inc. (the “Fund”), together with Takara Asset Management Co., Ltd. (the “Management Company”), which manages the Fund’s assets, hereby announce that they made a donation to Good Neighbors Japan (“GNJP”). The details are as follows.

1. Background of donation

Guided by a sustainability policy established on May 23, 2019, the Fund and the Management Company aim to concretely and proactively address ESG issues in their day-to-day business operations.

GNJP undertakes activities in Japan and overseas, guided by its vision of a society brimming with the smiling faces of children in which all people can live a life of dignity. Its mission is to eradicate causes of poverty and discrimination, as well as threats from disasters and conflicts together with its partners in Japan and abroad. One of its main projects in Japan for addressing the issue of child poverty is Good Gohan, a food distribution program for single-parent households. The regular distribution of food free of charge has the potential to support the healthy growth of children.

It is believed that GNJP’s Good Gohan initiative and its other activities in Japan and overseas will contribute to the following 17 Sustainable Development Goals, or SDGs for short.

The Fund and the Management Company is committed to supporting the aforementioned initiatives and therefore made a donation as part of its social contribution activities and in keeping with its sustainability policy following the November 2021 donation. Going forward, the Fund will continue to undertake social contribution activities based on its sustainability policy.
