Business Segment: CRO Business

Comprehensive support for research and development of disease prevention and treatment

Business Overview

- Sales increased from the same period of the previous year. Increase in inquiries for development projects
- Partnership with Science 37[®] to Promote Decentralized Clinical Trials (DCTs) and Accelerate Drug Development, Increased number of trials incorporating DCT (telemedicine, home nursing, ePRO, etc.)
- Launched Oracle Argus Safety multi-tenant rental service for pharmacovigilance operations
- In the bioanalysis business, CMIC supports drug discovery in cutting-edge areas where modalities are diversifying, such as next-generation biopharmaceuticals and gene therapy drugs

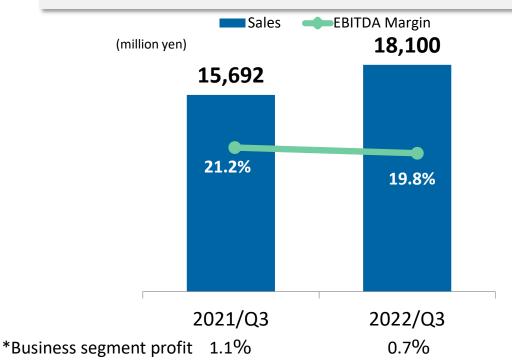

- Enhanced development support for advanced therapies such as biologics and regenerative medicine
 - (full support for filing by Academia and BV)
- Digital applications such as DCT and RWD
- Proactive take on nucleic acid medicine projects via collaboration of laboratories in Japan and the U.S.
- Proactive take on global clinical studies (clinical trials in Asia, Japan-US bioanalysis business)
- Business expansion to the U.S. and Asia
- Aim for the #1 share in Japan

Business Segment: CDMO Business

Development and manufacturing support for pharmaceutical products and biopharmaceutical API from clinical to commercial

Business Overview

- Sales increased from the same period of the previous year
- Growing need to ensure stable supply in response to the spread of new coronavirus infections and generic quality issues
- Responding to supply shortage risks such as rising prices of energy, raw materials, packaging materials, etc., and longer delivery times in manufacturing
- Delayed recovery in US performance, focus on acquiring new projects

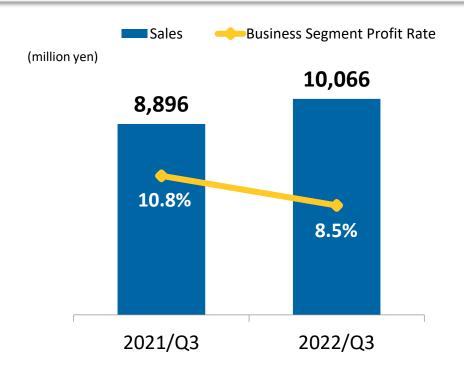

- Steady implementation of production at the Ashikaga injectable facility and its contribution to earnings
- Full-scale development of licensing business for formulation technologies (microneedles, etc.)
- Expand business at the new U.S. site
- Strengthen our position as a strategic partner for domestic pharmaceutical companies

Business Segment: Market Solutions Business

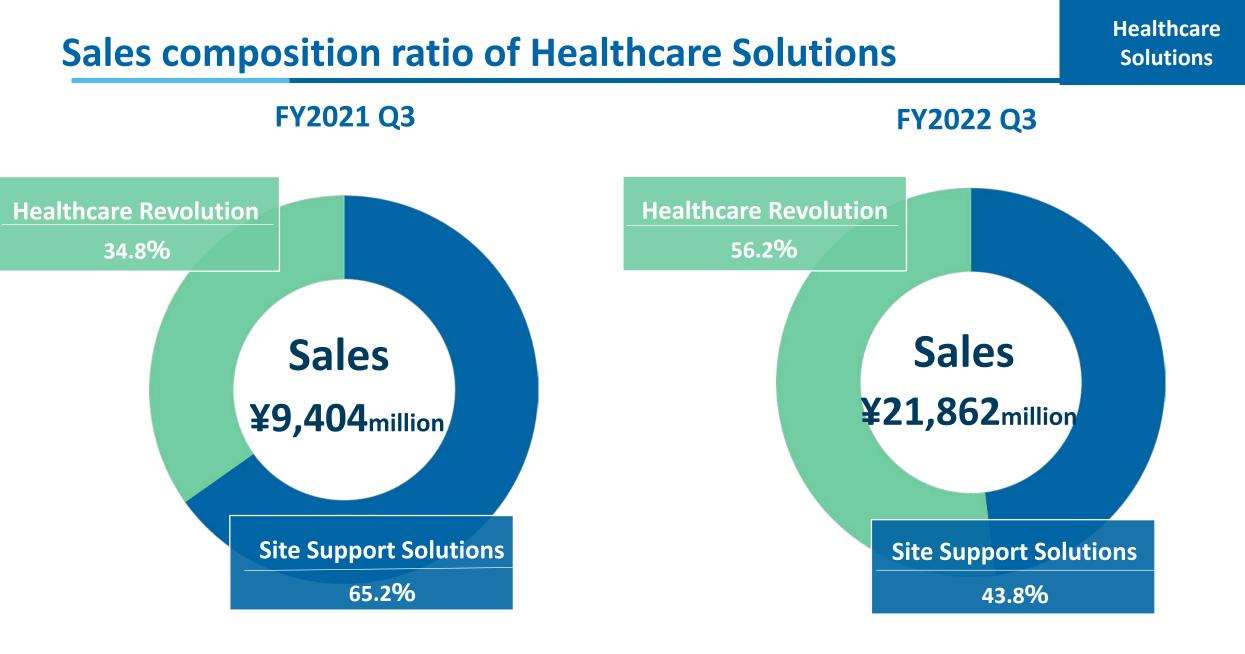

Medical, sales and marketing support for pharmaceuticals, and orphan drugs development to commercialization

Business Overview

- Sales increased from the same period of the previous year
- Acquired new projects and made steady progress in existing projects in MR dispatch services
- Exclusive license agreement for the development, manufacturing and marketing of glycerol phenylbutyrate (overseas trade name: Ravicti[®]) for the treatment of urea cycle disorders in Japan

- Expand positioning in the MR dispatch business
- Efficient recruitment of MRs and MSLs
- Provision of hybrid services
- Promotion of multi-channel
- Development of new orphan drugs
- Supporting foreign pharmaceutical companies entering the Japanese market

Operating income ¥884million Operating margin 9.4% Operating income ¥6,210million Operating margin 28.4%

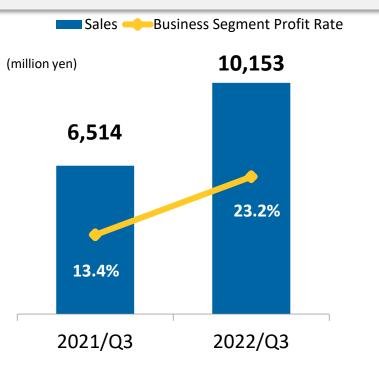

Business Segment: Site Support Solutions Business

Healthcare Solutions

Comprehensive support of medical institutes and medical staff

Business Overview

- Sales significantly exceeded the same period of the previous year
- Increase in development projects for vaccines and therapeutic drugs for new coronavirus infections
- Needs for clinical trials (researches) and other support for medical institutions are expanding
- Promote collaboration with academia

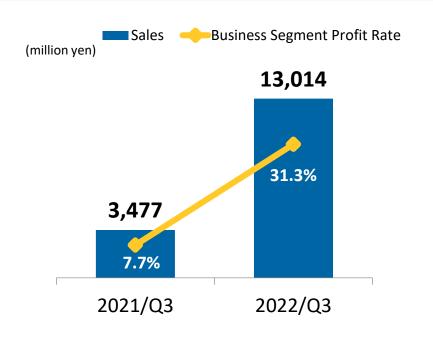

- Shifting from treatment to prevention/prognosis market (prophylaxis treatment agents and clinical trias using apps)
- Providing support for university hospital network, etc.
- Providing services in community healthcare

Business Segment: Healthcare Revolution Business

Support individuals, local governments, etc. with solutions using a new ecosystem of health care

Business Overview

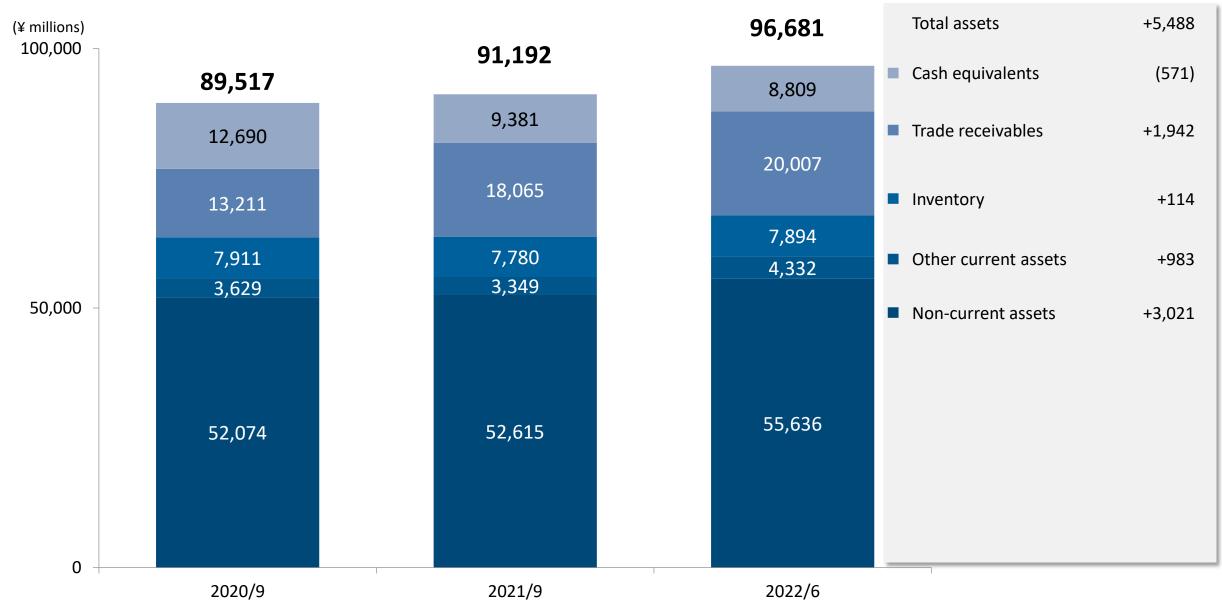

- Sales significantly exceeded the same period of the previous year
- Significant increase in vaccination support services for new coronavirus infections, etc.
- Expansion of businesses that integrate disease prevention, health information, and IT technologies
- Promote cooperation with local governments
- Promote the use of harmo[®] as a Healthcare Communication Channel in PHRs, etc.
- Promotion of Selcheck[®] self-check service

- Expansion of healthcare services & utilization of data by using harmo[®]
- Expansion of healthcare services for local governments and companies
- Expansion of self-screening services
- Nurture and secure healthcare human resources

Forecast for FY ending Sep. 2022

COVID-19-related

- Therapeutic drug and vaccine development projects continue
- Increased inquiries from municipalities due to another wave of COVID

Russia and Ukraine situation

- Although price hikes in energy, raw materials, packaging materials, etc. are factored in, the impact on this fiscal year will be limited
- Continue to work with customers and suppliers to address supply shortage risk
- Minimal impact on clinical trials
