### **Announcement Regarding Issuance of Stock Acquisition Rights as Stock Options**

LIXIL Group Corporation (hereinafter, "LGC" or "the Company") has decided at the Board of Directors' Meeting held today to grant stock option rights to the Directors, Executive Officers, and employees of LGC, as well as to the Directors and employees of LGC subsidiaries, based on articles 238 and 240 of the Companies Act.

Allotment of stock acquisition rights for the LGC Directors and Operating Officers follows the decision of the Company's remuneration committee.

1. Purpose of the Issuance of Stock Acquisition Rights as Stock Options  
The stock acquisition rights are to be issued to further improve motivation and morale of the grantees to raise corporate value and to increase our stock price.
2. Terms and Conditions of Issuance of Stock Acquisition Rights
  - (1) Name of stock acquisition rights  
Fifth series stock acquisition rights of LIXIL Group Corporation
  - (2) Total Number of Stock Acquisition Rights  
47,400 units  
The above number is the number scheduled to be allotted. If the total number of stock acquisition rights to be allotted is decreased, such as in cases where there is no application of subscription for some of the stock acquisition rights, the total number of stock acquisition rights to be issued shall be the total number of stock acquisition rights to be allotted.
  - (3) Class and Number of Shares to Be Issued upon Exercise of Stock Acquisition Rights  
The class of shares to be issued upon exercise of stock acquisition rights shall be common stock of the Company, and the number of shares to be issued (hereinafter referred to as "Number of Granted Shares") upon exercise of each stock acquisition right shall be 100 shares.  
  
However, the Number of Granted Shares shall be adjusted by the following formula if the Company conducts a share split (including allotment of shares of common stock of the Company without contribution; the same shall apply to any reference to a share split hereinafter) or share consolidation of its common stock after the date for the allotment of stock acquisition rights set forth in Section (14) below (hereinafter referred to as the "Allotment Date"). Any fraction less than one share resulting from the above adjustment shall be disregarded.

$$\text{Number of Granted Shares after adjustment} = \frac{\text{Number of Granted Shares before adjustment}}{\text{Share split/consolidation ratio}}$$

The provisions of Section (5) 2) (i) shall apply *mutatis mutandis* to the application date of the Number of Granted Shares after such adjustment.

In addition to the above, if any adjustment of the Number of Granted Shares is required after the Allotment Date, the Company may appropriately adjust the Number of Granted Shares within a reasonable extent.

When adjusting the Number of Granted Shares, the Company shall notify or give public notice of necessary matters to each holder of stock acquisition rights stated in the stock acquisition right registry (hereinafter referred to as “Stock Acquisition Rights Holder”) by the date immediately preceding the application date of the Number of Granted Shares after adjustment; provided, however, that, if the Company is unable to notify or give public notice by the date immediately preceding the application date, it shall notify or give public notice promptly thereafter.

#### (4) Value of Properties to be Contributed upon Exercise of Stock Acquisition Rights

The value of properties to be contributed upon exercise of each stock acquisition right shall be the result of the amount to be paid in for one share to be delivered due to the exercise of such stock acquisition right (hereinafter referred to as the “Exercise Price”), multiplied by the Number of Granted Shares.

The Exercise Price shall be the higher of (a) the result of the average price of the closing price of common stock of the Company in regular trading at the Tokyo Stock Exchange (hereinafter referred to as “Closing Price”) on each day of the month preceding the month containing the Allotment Date (excluding any date on which no trading is consummated), multiplied by 1.05, with any fraction less than one yen being rounded up to the nearest whole number, or (b) the Closing Price on the Allotment Date (or the Closing Price on the immediately preceding trading date, if there is no Closing Price for the Allotment Date); provided, however, that the Exercise Price shall be subject to the adjustment set forth in Section (5) below.

#### (5) Adjustment of Exercise Price

1) If the Company conducts either act of the following items (i) and (ii) with respect to its common stock after the Allotment Date, the Company shall adjust the Exercise Price by using the respective formulae (hereinafter referred to as the “Exercise Price Adjustment Formula”) set forth thereunder; any fraction less than one yen resulting from the adjustment shall be rounded up to the nearest whole number.

- (i) In cases where the Company conducts a share split or share consolidation

$$\text{Exercise Price after adjustment} = \text{Exercise Price before adjustment} \times \frac{1}{\text{Share split/consolidation ratio}}$$

- (ii) In cases where the Company conducts an issuance of new shares or a disposition of treasury shares at a price lower than the market price (excluding the case as a result of sale of treasury shares in accordance with the provisions of Article 194 of the Companies Act (Demand by a holder of shares less than one unit for sale of shares less than one unit), conversion of securities that are to be or may be converted into common shares of the Company, or exercise of stock acquisition rights by which delivery of common stock of the Company may be requested (including those attached to bonds with stock acquisition rights))

$$\text{Exercise Price after adjustment} = \frac{\text{Exercise Price before adjustment} \times \text{Number of issued shares} + \frac{\text{Number of new shares to be issued} \times \text{Amount to be paid in per share}}{\text{Market price}}}{\text{Number of issued shares} + \text{Number of new shares to be issued}}$$

- (a) The “market price” in the Exercise Price Adjustment Formula shall be the average price of the Closing Price (including indicative prices; the same shall apply hereinafter) of common stock of the Company in regular trading at the Tokyo Stock Exchange for a period of 30 trading days (excluding any day without the Closing Price) commencing on the 45th trading day prior to the “Application date of the Exercise Price after adjustment” set forth in clause 2) below (hereinafter referred to as the “Application Date”). In calculating the “average price,” any fraction less than one yen shall be calculated to the hundredth and then rounded to the nearest tenth.
- (b) The “Number of issued shares” in the Exercise Price Adjustment Formula shall be the total number of issued shares of common stock of the Company as of the record date, if any, or otherwise the date one month prior to the Application Date, less the number of treasury shares of common stock of the Company that are held by the Company.
- (c) In the case of disposition of treasury shares, the “Number of new shares to be issued” in the Exercise Price Adjustment Formula shall be replaced with the “Number of treasury shares to be disposed.”
- 2) The application date of the Exercise Price after adjustment shall be subject to the following provisions:
- (i) When making an adjustment pursuant to clause 1) (i) above, the Exercise Price after adjustment shall be applied, in the case of a share split, on and after the

day immediately following the record date for the share split (if no record date is prescribed, the effective date of such share split) and, in the case of a share consolidation, on and after the effective date thereof; provided, however, that, if a share split is subject to the condition that a proposal to increase the stated capital or reserves by decreasing the amount of surplus is approved at a general meeting of shareholders of the Company, and that the record date for the share split is prescribed to be the date prior to the date of conclusion of such general meeting of shareholders, the Exercise Price after adjustment shall be applied retrospectively to the date immediately following the record date on and after the date immediately following the date of conclusion of the general meeting of shareholders.

Under the proviso clause of the preceding paragraph, the Company shall adjust, by the following formula, the number of shares of its common stock to be delivered to the Stock Acquisition Rights Holder exercising stock acquisition rights during the period commencing on the date immediately following the record date for the share split and ending on the date of conclusion of the general meeting of shareholders (the number of shares that may be delivered due to the exercise of stock acquisition rights shall be hereinafter referred to as the "Number of Shares Subject to Exercise Before Split"). Any fraction less than one share resulting from the adjustment shall be disregarded.

$$\text{Number of new shares to be issued} = \frac{(\text{Exercise Price before adjustment} - \text{Exercise Price after adjustment}) \times \text{Number of Shares Subject to Exercise Before Split}}{\text{Exercise Price after adjustment}}$$

- (ii) When making an adjustment pursuant to clause 1) (ii) above, the Exercise Price after adjustment shall be applied on and after the date immediately following the payment date (if a period for payment is prescribed, the last day thereof) for such issuance or disposition (or on and after the date immediately following the record date, if any).
- 3) In addition to clauses 1) (i) and 1) (ii), after the Allotment Date, in cases where there occur unavoidable circumstances that would require adjustment of the Exercise Price, such as where the Company allots shares of other classes without contribution to common shareholders or distributes shares of another company as dividends to common shareholders, the Company may adjust the Exercise Price within a reasonable extent after taking into consideration conditions such as those of the allotment or dividends.
- 4) When adjusting the Exercise Price, the Company shall notify or give public notice of necessary matters to the Stock Acquisition Rights Holders by the date immediately preceding the Application Date; provided, however, that, if the Company is unable to notify or give public notice by the date immediately preceding the Application Date, it shall notify or give public notice promptly thereafter.
