1. Qualitative Information on Quarterly Consolidated Financial Performance

(1) Explanation of Results of Operations

Consolidated sales of the Japan System Techniques Group (Japan System Techniques Co., Ltd. (JAST) and its consolidated subsidiaries, hereafter "the Group") in the first half of the current fiscal year were 11,004 million yen (up 9.6% year on year). Operating income was 1,003 million yen (up 1.1% year on year), ordinary income was 1,037 million yen (up 3.3% year on year), and profit attributable to owners of parent was 737 million yen (up 7.4% year on year).

Business segment performance was as follows.

In the first quarter of the current fiscal year, JAST revised its reportable segments and the method used for calculating segment profit and loss. Comparisons and analysis of first half results of operations are based on the revised segments and profit and loss calculation method. Please refer to "2. Quarterly Consolidated Financial Statements and Notes, (4) Notes to Quarterly Consolidated Financial Statements, Segment and Other Information, Segment information, 3. Information related to revisions for reportable segments" for further information.

(Digital transformation and system integration (DX&SI) business)

Segment sales increased 9.5% from one year earlier to 6,870 million yen and the operating income increased 24.5% to 1,044 million yen. The number of large and prime orders, which was included in the software business in prior years, for existing and new customers was larger than one year earlier. In addition, sales of the mainstay hardware, which was included in the system sales business in prior years, were higher due to the easing of global semiconductor shortages. As a result, overall profitability of the business increased.

(Package business)

Segment sales decreased 3.8% from one year earlier to 2,051 million yen and the operating income was down 29.3% to 555 million yen. Orders for the GAKUEN Series, consisting of the GAKUEN RX and GAKUEN UNIVERSAL PASSPORT RX strategic university management systems, and BankNeo, an information systems integration package for financial institutions, remained firm. However, there was a large number of sales of program products, which have high profit margins, for both the GAKUEN Series and BankNeo in the same period of the previous fiscal year. In addition, sales of support services to start using the GAKUEN Series decreased. The Group's performance as of the end of the second quarter of the current fiscal year was ahead the plan. We expect sales to be solid during the fiscal year.

(Medical big data business)

Segment sales decreased 2.9% from one year earlier to 718 million yen and the operating income was down 45.8% to 70 million yen. This was primarily because sales of highly profitable analysis services were heavily concentrated in the same period of the previous fiscal year. However, orders in this business as a whole remained firm. The Group's performance as of the end of the second quarter of the current fiscal year was ahead the plan. We expect sales to be solid during the fiscal year.

(Global business)

Sales increased 52.0% from one year earlier to 1,363 million yen and the operating income increased from 0 million yen to 184 million yen. Higher sales and earnings were primarily the result of the increase in orders and inquiries in Malaysia for support services for the use of SAP software, not only from existing major customers but also from new customers. This business segment also benefited from the weakening of the yen that lifted profit particularly at overseas subsidiaries with strong business results.

(General and administrative expenses not allocated to a reportable segment)

Corporate general and administrative expenses increased 11.5% from one year earlier to 851 million yen mainly because of higher personnel expenses as more people were hired.

(2) Explanation of Financial Position

1) Balance sheet

Current assets at the end of the second quarter were 12,611 million yen, up 222 million yen from the end of the previous fiscal year. This was mainly due to increases in cash and deposits due to collection of accounts receivable-trade and higher contract liabilities. Non-current assets were 3,075 million yen, down 75 million yen from the end of the previous fiscal year.

Current liabilities at the end of the second quarter were 4,068 million yen, down 552 million yen from the end of the previous fiscal year. This was mainly due to decreases in accrued consumption taxes, which is included in other, and income taxes payable. Non-current liabilities were 1,765 million yen, up 41 million yen from the end of the previous fiscal year.

Net assets at the end of the second quarter were 9,852 million yen, up 658 million yen from the end of the previous fiscal year.

2) Cash flows

Cash and cash equivalents increased 562 million yen from 6,463 million yen at the beginning of the current fiscal year to 7,026 million yen at the end of the first half of the current fiscal year.

Cash flows by category were as follows.

Net cash provided by operating activities totaled 818 million yen, a decrease of 19 million yen from 838 million yen provided in the same period of the previous fiscal year. This decrease was mainly due to an increase in payments of trade payables.

Net cash used in investing activities totaled 85 million yen, an increase of 28 million yen from 57 million yen used in the same period of the previous fiscal year. This was due to an increase in purchase of investment securities and a decrease in proceeds from sales of investment securities.

Net cash used in financing activities totaled 273 million yen, a decrease of 866 million yen from 592 million yen provided in the same period of the previous fiscal year. This was due to decreases in proceeds from disposal of treasury shares and proceeds from issuance of shares.

(3) Explanation of Consolidated Forecasts and Other Forward-looking Statements

There are no revisions to the May 13, 2022 forecasts for the fiscal year ending March 31, 2023: net sales of 22,400 million yen (up 4.7% year on year), operating income of 2,120 million yen (up 6.0% year on year), ordinary income of 2,160 million yen (up 5.2% year on year), and profit attributable to owners of parent of 1,370 million yen (up 3.0% year on year).

Additional Information

Board Benefit Trust (BBT)

Based on the resolution of the 46th Annual General Meeting of Shareholders, JAST on June 26, 2018 terminated the directors' retirement benefit system and established a Board Benefit Trust (BBT) for the purpose of increasing motivation for contributing to the medium to long-term growth of sales and earnings and an increase in corporate value. The BBT plan clearly links the compensation of directors with the JAST stock price. Furthermore, directors share with shareholders the benefits of a higher stock price as well as the risk of a lower stock price.

1) Overview

This is a stock compensation plan in which directors receive stock compensation through a BBT. The BBT acquires JAST stock using cash contributions from JAST as the source of funds. Directors (excluding external directors; same afterward unless indicated otherwise) receive stock compensation or a monetary amount equivalent to the market value of the stock in lieu of stock compensation in accordance with the rules on the stock compensation plan for directors. In principle, a director becomes eligible for stock compensation only after the individual is no longer a JAST director.

2) JAST stock held by the BBT

The book value (excluding associated expenses) of JAST stock held by the BBT is shown as treasury shares in the net assets section of the consolidated balance sheet. The BBT held 74,600 shares of JAST with a book value of 171,700 thousand yen as of the end of the previous fiscal year, and the BBT held 74,600 shares with a book value of 171,700 thousand yen as of the end of the second quarter of the current fiscal year.

- 2. Segment profit is consistent with operating income shown on the quarterly consolidated statement of income.
- 2. Information related to impairment losses on non-current assets, goodwill, etc. for each reportable segment Not applicable.
- 3. Information related to revisions for reportable segments

(Revisions to reportable segments)

During the past several years, the scale and composition of business operations of the JAST Group as well as the types of services provided have changed significantly along with dramatic shifts in the social and business environment. In response to these changes, the JAST Group started using new business segments in the first quarter of the fiscal year ending in March 2023. The purposes of the new segments are to facilitate more accurate and thorough management and decision-making concerning growth strategies and other items and to disclose information to investors in a more suitable format. In previous fiscal years, the reportable segments were the software business, GAKUEN business, system sales business and medical big data business. The new segments are the digital transformation and system integration (DX&SI) business, package business, medical big data business and global business.

The former software business has been renamed the DX&SI business for the purpose of clearly expressing the commitment of this business to providing even more added value and creating seeds for new businesses. This business aims to continue the steady growth of system integration, currently the largest source of JAST's earnings, while shifting emphasis to co-creation digital transformation activities. The goal of these activities with customers is to use digital technologies for business process innovation and for making customers and the JAST Group more competitive. The DX&SI business includes former system sales business. The former GAKUEN business has been renamed the package business because this business uses package systems with JAST brands to provide comprehensive digital transformation services and aim for growth. The package business includes the BankNeo financial

institution information systems integration package that was in the software business in prior years. The activities of the global business were included in the former software business in prior years. Beginning with this fiscal year, global operations are a separate business segment to more accurately provide information about the distinctive characteristics and growth strategies of the JAST Group's businesses, such as solutions and wide-area activities in the ASEAN region and China.

Segment information for the first six months of FY3/22 is based on the new reportable segments.

(Change in method for calculating segment profit and loss)

In recent years, the scale and characteristics of the business activities of the JAST Group have changed and the importance of properly managing these activities has increased. To more appropriately evaluate the performance of the group's reportable segments, the allocation of expenses for head office functions has been reexamined. In prior years, general and administrative expenses that could not be allocated to a reportable segment were allocated in accordance with expense allocation standards. Beginning with the first quarter of the current fiscal year, these expenses are instead recognized as corporate expenses that are part of the adjustment to segment profit.

Segment profit and loss for the first six months of FY3/22 is based on the new calculation method.

Business Combinations

This information is omitted due to immateriality.

Subsequent Events

Following the resolution approved by the Board of Directors meeting held on August 22, 2022, JAST implemented a stock split and has made an associated revision to the Articles of Incorporation.

1. Stock split

(1) Purpose of stock split

The purpose of the stock split is to make investment easier for investors by reducing the value of JAST's investment unit, thereby expanding the investor base and increasing the liquidity of its shares.

(2) Method of stock split

Shareholders listed in the final shareholder register on the record date of September 30, 2022 have received two shares of common stock for each share held on the record date.

(3) Number of shares increased by the stock split

Total number of shares issued prior to the stock split: 6,209,230 shares

Number of shares increased by the stock split: 6,209,230 shares

Total number of shares issued following the stock split: 12,418,460 shares

Total number of authorized shares following the stock split: 32,000,000 shares

(4) Schedule

Public notice of record date: September 15, 2022
Record date: September 30, 2022
Effective date: October 1, 2022

2. Partial revision to the Articles of Incorporation following the stock split

(1) Reason for the revision

In association with this stock split, the JAST Articles of Incorporation was partially amended on October 1, 2022 in accordance with Article 184, Paragraph 2 of the Companies Act.

(2) Details of the revision (Underlined parts are revised.)

Current	After revision			
Article 6: (Total Number of Shares Authorized)	Article 6: (Total Number of Shares Authorized)			
The total number of shares authorized to be issued by the	The total number of shares authorized to be issued by the			
Company shall be <u>16,000,000</u> shares.	Company shall be <u>32,000,000</u> shares.			

(3) Effective date

October 1, 2022
