This is to advise you that the consolidated financial forecasts for fiscal 2023, which were originally announced on April 28, 2022, are revised as set forth below, taking into consideration the performance for the nine months ended December 31, 2022 (“the nine months”) and the business environment forecast for the three months ending March 31, 2023 (“the fourth quarter”).

*1: Based on the average number of shares outstanding during the six months ended September 30, 2022.

*2: Based on the average number of shares outstanding during the nine months.

2. Reason for revision

During the nine months, Kyocera increased its sales revenue mainly in semiconductor-related markets. However, during the fourth quarter, due to the economic slowdown caused by accelerating global inflation, it is expected that production and sales volume of smartphones will decrease, and that costs for raw materials and logistics, etc. will further increase. Under these circumstances, Kyocera has revised its consolidated financial forecasts for fiscal 2023.
