#### 1. Qualitative Information on Quarterly Financial Results

#### (1) Explanation of Operating Results

During the nine months ended December 31, 2022, the Japanese economy was expected to recover economic activities due to lifting of the movement restrictions amid the prolonged impact from novel coronavirus infection (COVID-19). However, the rapid yen depreciation and rising commodity prices did not allow us to be optimistic for the economic future. The overseas economy, which preceded Japan in moving forward from the COVID-19 pandemic, also had a stagnant recovery from the impact of the pandemic, due to rapid inflation in the wake of the Russia and Ukraine situation.

Under these situations, the markets of the outdoor, sports, and leisure industry, in which the Group operates, remained weak. This is due to the financial pressure on households from soaring commodity prices, as well as the increased popularity of travelling, shopping, and a variety of other leisure activities that had been restricted. In such conditions, the Group has played as "A Lifetime Sports Company" to provide attractive products and high-quality services for everyone who loves nature and sports.

As a result, for the nine months ended December 31, 2022, consolidated net sales were 105,858 million yen (up 13.0% year on year). As for profit, despite an increase in import purchasing costs partially caused by yen depreciation and soaring raw material prices, an increase in revenue resulted in operating profit of 12,718 million yen (up 10.4% year on year). Ordinary profit was 13,224 million yen (up 11.4% year on year), partially due to recording gain on valuation of receivables in foreign currencies, and profit attributable to owners of parent was 9,633 million yen (up 8.8% year on year).

Operating results by segment are shown as follows. Net sales of each segment include inter-segment sales and transfers.

#### Japan

In Japan, the outdoor, sports, and leisure markets remain weak partially due to financial pressure on households from rising energy and commodity prices, as well as an increased variety of leisure consumption to include travel and others caused by the relaxation of movement restrictions. In such a circumstance, the Group launched new products and provided services to satisfy customers. This led to net sales of 67,399 million yen (up 5.4% year on year). On the other hand, segment profit was 7,878 million yen (down 6.3% year on year) because of the yen's rapid depreciation that drove up import purchasing costs.

#### Americas

In the Americas, the rapid inflation has caused concerns about economic impact amid the normalization of economy. While such conditions have come to affect the current outdoor, sports, and leisure markets, the Group's net sales were 11,447 million yen (up 34.7% year on year), partially due to positive performance of new products and yen depreciation, and segment profit was 272 million yen (up 37.2% year on year).

#### Europe

In Europe, the prolonged Russia and Ukraine situation indirectly caused rapid inflation and affected consumption patterns. Under such circumstances, continuing to launch products catered to local needs led to net sales of 11,170 million yen (up 6.0% year on year). As for profit, however, increased logistic costs, soaring energy prices, and other factors drove up SG&A expenses, and this resulted in segment profit of 535 million yen (down 51.9% year on year).

#### Asia and Oceania

In the Asia and Oceania region, the socioeconomic situation varies among countries due to different handling of the COVID-19 pandemic, but generally, the outdoor, sports, and leisure markets have been resilient for the period under review. The Group's sales kept a positive performance especially in China and South Korea. As a result, net sales were 43,571 million yen (up 40.8% year on year) and segment profit was 6,998 million yen (up 86.1% year on year).

#### (2) Explanation of Financial Position

Total assets at the end of the nine months ended December 31, 2022, amounted to 112,493 million yen, an increase of 21,811 million yen from 90,682 million yen at the end of the previous fiscal year. The increase is mainly due to an increase in inventories associated with sales expansion and an increase in non-current assets resulting from capital investment.

Net assets amounted to 50,039 million yen, an increase of 12,561 million yen from 37,478 million yen at the end of the previous fiscal year. The increase is due to recording profit attributable to owners of parent and changes in foreign currency translation adjustment.

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-Looking Information The financial results forecast for the fiscal year ending March 31, 2023 has not been revised from the forecast announced on November 8, 2022.
