### **Notice of ISO9001 and ISO14001 Certification for Yatsugatake Plant of Huit Laboratories**

AXXZIA Inc. (the “Company”) hereby announces that on March 17, 2023, its consolidated subsidiary, Huit Laboratories, Inc., obtained certifications for the international standards ISO9001 and ISO14001 for its cosmetics and quasi-pharmaceutical plant, including the land and buildings, located in Hokuto, Yamanashi Prefecture (the “Yatsugatake Plant”). The details are as follows.

#### **1. Overview of ISO9001 and ISO14001**

The ISO9001 and ISO14001 are international standards for quality management systems and environmental management systems, respectively, established by the International Organization for Standardization (ISO), a non-governmental organization headquartered in Geneva, Switzerland. The ISO9001 standard requires organizations to enhance customer satisfaction by consistently providing products that meet quality assurance requirements, while the ISO14001 standard requires organizations to comply with environmental laws and regulations and continuously improve the environmental impacts of its business operations.

**ISO9001:2015 / ISO14001:2015**  
Certified for Yatsugatake Factory, Hokuto-City, Yamanashi, Japan

#### **ISO9001**

Applicable standard: Quality management systems (ISO9001:2015)

Certification scope: Design, development, and manufacturing of cosmetics

Certification body: EQA

Registration No.: QA230002

#### **ISO14001**

Applicable standard: Environmental management systems (ISO14001:2015)

Certification scope: Design, development, and manufacturing of cosmetics

Certification body: EQA

Registration No.: QA230002

#### **2. Significance of certification and policy going forward**

After making Huit Laboratories a wholly owned subsidiary on April 1, 2022, the Company pressed ahead with preparations geared towards obtaining ISO certifications for the Yatsugatake Plant. Now that the plant has been certified, Huit Laboratories will make every effort to conduct environmentally sustainable plant operations and maintain product stability in line with ISO standard-certified management systems to provide the world with products that meet high levels of customer satisfaction.
