Tokyo, April 28, 2023 – CMIC HOLDINGS Co., Ltd. (TSE Prime Code: 2309) today reported financial results for the 2nd quarter ended March 31, 2023.

CMIC Group aims at transitioning to PHVC (Personal Health Value Creator) business model that "maximizes the individual health value", while using our unique PVC (Pharmaceutical Value Creator) model that fully supports the value chain of pharmaceutical companies as the foundation for sustainable growth.

The Group will strengthen its response to drug development and digitalization using new basic technologies for drug discovery. At the same time, we will expand our business domain into the healthcare field and promote support for efforts to provide total care for diseases, from prevention to diagnosis, treatment, and prognosis. Through such efforts, we intend to strengthen the Group's business foundation and make great strides toward sustainable growth.

In our mid-term plan (FY2022-2025) formulated in November 2021, we have identified (1) evolution of healthcare business, (2) comprehensive support for disease prevention, treatment R&D, and marketing, and (3) contributing to sustainable society through services with high social benefits as the key pillars. In the fiscal year ending September 30, 2023, the second year of the mid-term plan, we will steadily implement measures to address each of these pillars.

[Consolidated operating results for the second quarter]

During the consolidated cumulative second quarter, as part of our efforts to address the key pillars of our mid-term plan, we focused on coming up with solutions for local governments, which supports local communities in terms of both digital and human resources, and on acquiring new projects and securing human resources for pharmaceutical companies and biotech ventures.

The prolonged situation in Ukraine continues to raise concerns about the impact on our business, but there has been no direct significant impact on our group in the second quarter of the current fiscal year. We continue to closely monitor price trends and supply issues for energy and raw materials, and are working to minimize the impact on our business.

In the second quarter of the consolidated fiscal year under review, our figures have significantly exceeded that of the same period of the previous year: net sales increased 15.7% year on year to $\pm 59,883$ million, operating profit increased 48.8% to $\pm 8,546$ million, ordinary profit increased 24.2% year on year to $\pm 7,665$ million and profit attributable to owners of the parent increased 86.8% year on year to $\pm 6,545$ million. This is due to growth in the Pharmaceutical Solutions segment businesses on top of growth in municipal support services related to new coronavirus infection in the Healthcare Solutions segment.

Overview of the financial condition and Cash Flow

Assets, liabilities, and net assets

Total assets at the end of the consolidated cumulative second quarter increased by ¥3,935 million compared with the end of the previous consolidated fiscal year to ¥111,525 million. This was mainly due to an increase in cash and deposits, accounts receivable-trade and contract assets, and a decrease in investment securities.

Total liabilities decreased by ¥1,614 million compared with the end of the previous consolidated fiscal year to ¥64,706 million. This was mainly due to a decrease in provision for bonuses and an increase in long-term borrowings.

Total net assets increased by ¥5,549 million compared with the end of the previous consolidated fiscal year to ¥46,819 million. This is due mainly to an increase in retained earnings.

Cash Flows

Cash and cash equivalents at the end of the first half increased ¥2,281 million from the end of the previous fiscal year to ¥13,984 million.

Status of each cash flow and key factors are as follows:

(Cash flow from operating activities)

Net cash flows from operating activities amounted to ¥2,168 million (¥4,011 million in the same period of the previous year). This was mainly due to an increase in funds resulting from Profit before income taxes, and a decrease in funds resulting from income taxes paid and bonuses paid.

(Cash flow from investing activities)

Net cash provided by investing activities amounted to ¥267 million (¥3,682 million used in the same period of the previous year). This was mainly due to proceeds from sale of investment securities and payments for purchase of fixed assets.

(Cash flow from financing activities)

Net cash used in financing activities amounted to ¥114 million (net cash provided by financing activities amounted to ¥906 million in the same period of the previous year). This was mainly due to an increase in funds from long-term borrowings, cash dividends paid, and purchase of treasury shares.

Future Outlook

Taking into account the results of the first half of the current fiscal year, the forecast for the fiscal year ending September 30, 2023 incorporates the forecast for matters affecting the first half of the fiscal year based on information available at this time.

In the second quarter consolidated cumulative period, we substantially exceeded our initial forecast due to a significant increase in municipal support services related to COVID-19 and a gain on sale of investment securities of 3,349 million yen recorded as an extraordinary income.

As for matters that will affect business results in the second half of the fiscal year, as announced in the "Notice of Change of CDMO Business Subsidiary and Notice of Strategic Business Alliance with Dai Nippon Printing Co., Ltd." dated April 17, 2023, some subsidiaries in the CDMO (drug formulation development and manufacturing support) business of Pharmaceutical Solutions are expected to become equity-method affiliates from June 2023.

As for the impact of COVID-19, the shift of the classification of COVID-19 to category 5 under the Infectious Diseases Control Law effective May 8, 2023 is expected to reduce the number of vaccination projects that have driven our performance in the first half of the current fiscal year.

Further, the situation in Ukraine will not have a significant direct impact on our operations in Russia and Ukraine, as we do not have any offices in either country, but there will be an impact on our profits due to higher energy and logistics costs, which we have incorporated into our forecast.

Based on the above, we have revised upward our full-year forecasts for the fiscal year ending September 30, 2023, to net sales of ¥ 105,000 million, operating profit of ¥ 10,300 million, ordinary profit of ¥ 9,000 million, and profit attributable to owners of parent of ¥7,300 million, respectively.
