

Overview of Financial Results for FY2023 2nd Quarter/1H

CMIC HOLDINGS Co., Ltd. May 11, 2023

Overview of Financial Results

CMIC GROUP CFO

Wataru Mochizuki

CMIC Group Business

Healthcare Solutions

Comprehensive support of medical institutes and medical staff

Support individuals, local governments, etc. with solutions using a new ecosystem of health care

Pharmaceutical Solutions

Comprehensive support for research and development of disease prevention and treatment

Development and manufacturing support for pharmaceutical products and biopharmaceutical API from clinical to commercial

Medical, sales and marketing support for pharmaceuticals, and orphan drugs development to commercialization

CMIC Group Network

27 group companies, 61sites (48 offices, 6 factories, 7 laboratories) Japan: 14 companies **Overseas: 13 companies** Korea China **Hong Kong** Taiwan Vietnam **Philippines** Thailand Malaysia **Japan: 47** Singapore (Plants: 4, Labs: 6) Offices Australia Plants **Q** Labs Global: 14 (Plants: 2, Lab: 1) Offices Plants Lab

Focus Activities of Mid-term Management Plan (FY2022-25)

Evolution of healthcare business

Comprehensive support for disease prevention, treatment R&D, and marketing

Contribution to sustainable society through services with high social benefits

Progress of 2nd quarter of FY2023

Evolution of healthcare business

- Expansion of support for local governments
 - Comprehensive support for measures against COVID-19 infections, ranging from infection prevention to post-infection follow-up
 - New solutions to local government / municipalities
- Strengthening our digital platform with the aim of increasing the individuals' health values
 - Business development centered on "nanacara", a support platform for patients and families
 - New business developed with OKEIOS Inc. utilizing personal data

Progress of 2nd quarter of FY2023

Comprehensive support for disease prevention, treatment R&D, and marketing

- Comprehensive support from drug development, manufacturing, to sales and marketing
 - PVC (Pharmaceutical Value Creator) Model -
 - Consulting for entering the Japanese market and entering the healthcare field from other industries
 - Projects for efficacy and safety evaluation and analysis in cutting-edge areas where modalities are diversifying
- > Support combining manufacturing, marketing, and other permits with PVC's value chain
 - Clinical trials in Japan for a treatment for urea cycle disorders

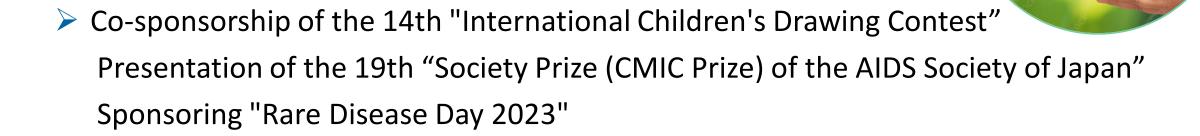

Progress of 2nd quarter of FY2023

Contribution to sustainable society through services with high social benefits

Support for athletes with disabilities

Consolidated income statement (overview)

Business Segment: CRO Business

Comprehensive support for research and development of disease prevention and treatment

Business Overview

- Sales increased from the same period of the previous year
- Strengthen comprehensive consulting services for overseas bio ventures entering the Japanese market and other industries entering the healthcare field
- Increase in support for DX (Digital Transformation) promotion and DTx (Digital Therapeutics) entry
- Increase in projects for efficacy and safety evaluation and analysis in cutting-edge areas where modalities are diversifying, such as next-generation antibody drugs, nucleic acid drugs, gene therapeutics, and biomarkers

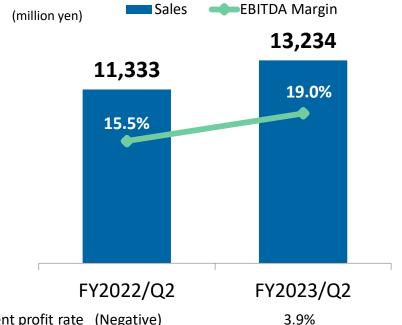

- Enhanced development support for advanced therapies such as biologics and regenerative medicine (full support for filing by Academia and BV)
- Digital applications such as DCT and RWD
- Proactive take on nucleic acid medicine projects via collaboration of laboratories in Japan and the U.S.
- Proactive take on global clinical studies (clinical trials in Asia, Japan-US bioanalysis business)
- Business expansion to the U.S. and Asia
- Aim for the #1 share in Japan

Business Segment: CDMO Business

Development and manufacturing support for pharmaceutical products and biopharmaceutical API from clinical to commercial

Business Overview

- Sales increased from the same period of the previous year
- Growing need to ensure stable supply in response to the spread of COVID-19 and generic quality issues
- Increase in manufacturing costs due to higher prices for energy, raw materials, packaging materials, etc.
- Respond to supply shortage risks, such as prolonged delivery times, in cooperation with customers and suppliers
- Delayed recovery in US performance, focus on acquiring new projects

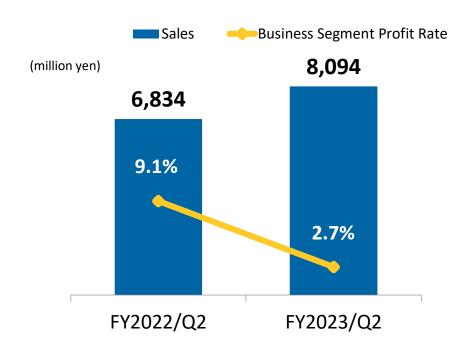

- Steady implementation of production at the Ashikaga injectable facility and its contribution to earnings
- Full-scale development of licensing business for formulation technologies (microneedles, etc.)
- Expand business at the new U.S. site
- Strengthen our position as a strategic partner for domestic pharmaceutical companies

Business Segment: Market Solutions Business

Medical, sales and marketing support for pharmaceuticals, and orphan drugs development to commercialization

Business Overview

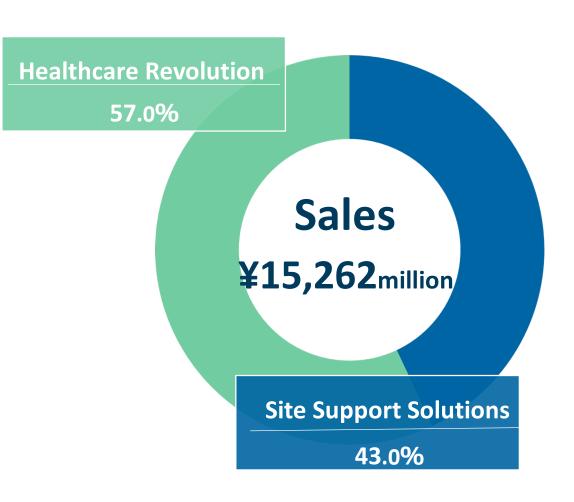

- Sales increased from the same period of the previous year
- Received many customer inquiries for MR dispatch services
- Commencement of Phase III clinical trials in Japan for glycerol phenylbutyrate (overseas trade name: Ravicti®), a treatment for urea cycle disorders, and associated increase in R&D expenses

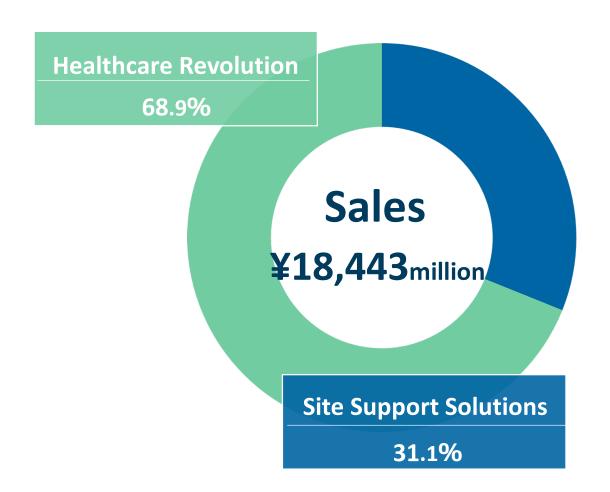

- Expand positioning in the MR dispatch business
- Efficient recruitment of MRs and MSLs
- Provision of hybrid services
- Promotion of multi-channel
- Development of new orphan drugs
- Supporting foreign pharmaceutical companies entering the Japanese market

Sales composition ratio of Healthcare Solutions

FY2022 Q2 FY2023 Q2

Operating margin

Operating profit ¥4,182million
Operating margin 27.4%

Operating profit ¥5,892million

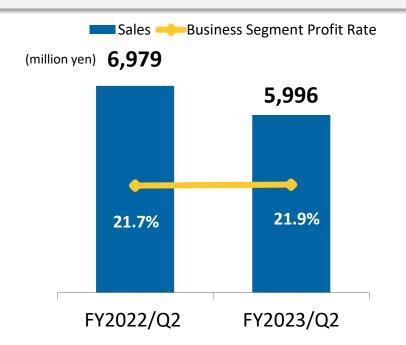

31.9%

Business Segment: Site Support Solutions Business

Comprehensive support of medical institutes and medical staff

Business Overview

- Sales decreased from the same period of the previous fiscal year due to a decline in large new coronavirus vaccine development projects
- Solid orders received
- Expansion of Clinical Trial Office Support for Medical Institutions
- Expand collaboration with academia

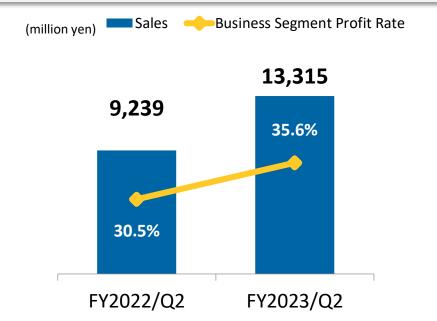

- Shifting from treatment to prevention/prognosis market (prophylaxis treatment agents and clinical trials using apps)
- Providing support for university hospital network, etc.
- Providing services in community healthcare

Business Segment: Healthcare Revolution Business

Support individuals, local governments, etc. with solutions using a new ecosystem of health care

Business Overview

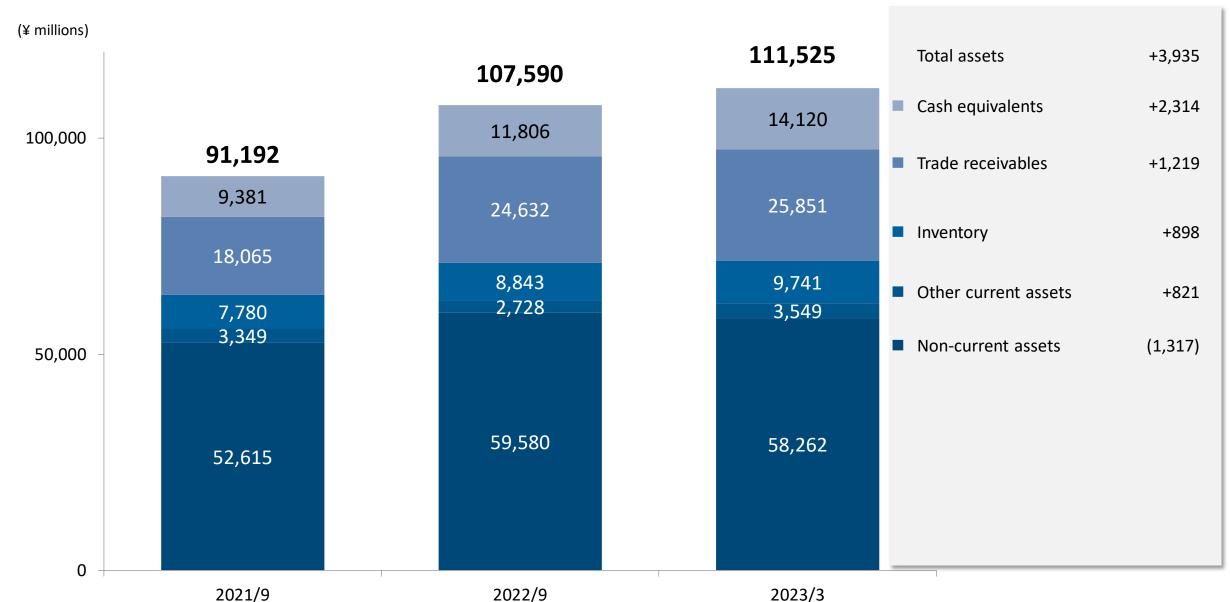

- Sales significantly exceeded the same period of the previous year
- Continued support services related to COVID-19
- Expansion of businesses that integrate disease prevention, health information, and IT technologies
 - Increase in the number of medical institutions introducing "nanacara", a support platform for epilepsy patients and their families, and expansion of target diseases for nanacara-based services
 - Support for local government projects in line with the "Digital Garden Cities and Green Transformation"

- Expansion of healthcare services & utilization of data by using harmo[®]
- Expansion of healthcare services for local governments and companies
- Expansion of self-screening services
- Nurture and secure healthcare human resources

CMIC CMO becomes an equity-method affiliate and forms a strategic business alliance with Dai Nippon Printing (DNP)

Division Director of CDMO Business Makoto Matsukawa

Business Alliance with Dai Nippon Printing (DNP)

Reason for Partnership

- ✓ CMIC Group to maintain its strategic policy of developing PVC models and expand and grow CMIC CMO
- ✓ Effective utilization of group resources to create healthcare business and achieve sustainable growth

Details of Cooperation

- (1) Development of value-added pharmaceutical products by combining the packaging technology of the DNP Group with the formulation development technology of the CMIC Group
- (2) Establishment of an end-to-end system from process development and manufacturing of active pharmaceutical ingredients by the DNP Group to formulation development and manufacturing by the CMIC
- (3) Collaboration in the CMIC Group's clinical development and clinical trial site support business, utilizing the DNP Group's technology and know-how
- (4) Business Alliance to Build a Healthcare Ecosystem

Joint initiatives with DNP in CDMO business

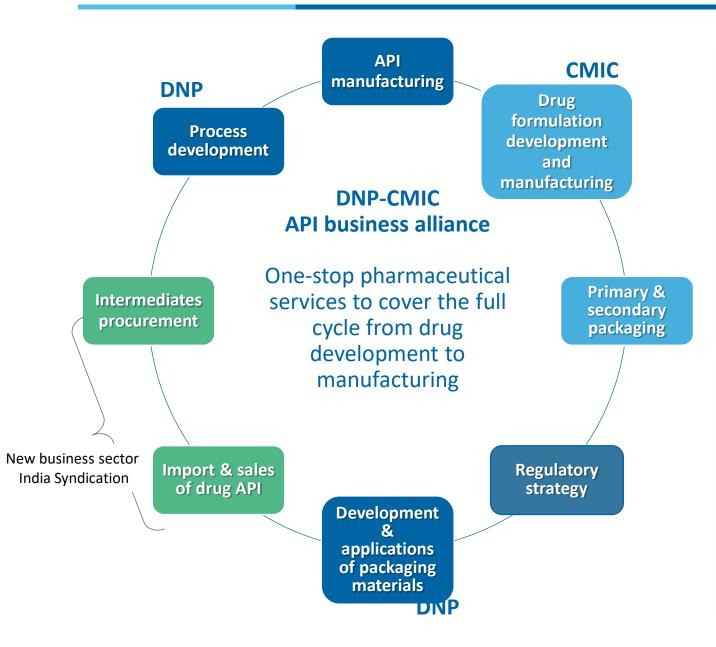

The joint venture will maintain CMIC CMO's previous management structure and organization, while leveraging DNP's expertise in contract manufacturing in other businesses.

- ✓ CMIC CMO's formulation technology and DNP's packaging technology will be combined to develop value-added formulations that are user-friendly and consider not only production costs but also the environment.
 - Currently developing a product using deoxygenated packaging technology that enables liquid formulation of freeze-dried injectable products that remains stable at room temperature
 - Promoting practical application of drug manufacturing utilizing 3D printing technology (in collaboration with Apricia)
- ✓ Collaboration between DNP's API business unit and CMIC CMO to nurture an integrated business from API to drug product development and manufacturing
- ✓ Application of DNP's production automation system to drug manufacturing

DNP - CMIC API business model

1

Providing one-stop service for pharmaceutical manufacturing

- Provide comprehensive supply chain solutions: from API to formulation
- Design and evaluation of API properties suitable for formulation development and manufacturing
- Packaging design services

2

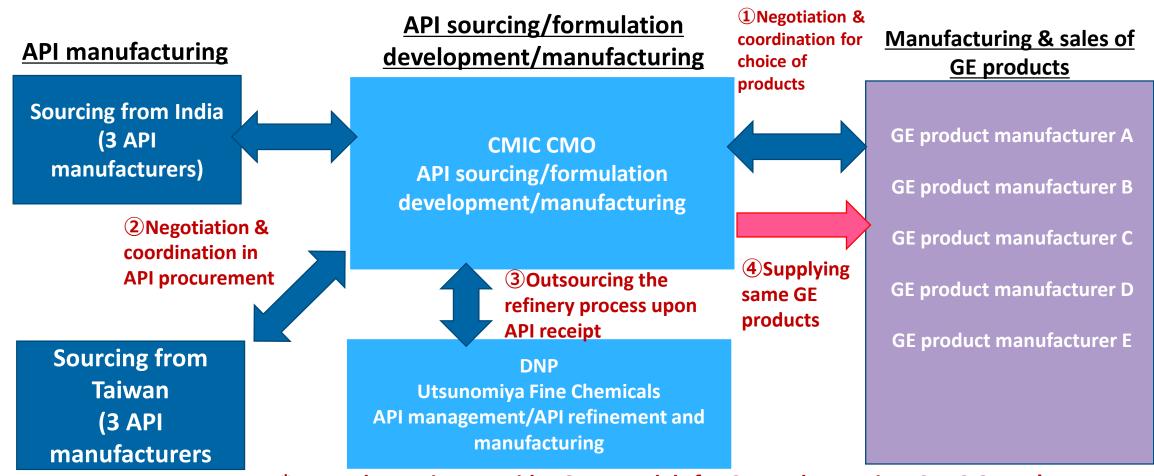

Competitive API supply

- Procurement of raw materials and intermediates from reliable channels at low prices
- Stable supply of domestic brand high quality API
- Efficient and highly productive operation utilizing compact sites/facilities

DNP alliance model to develop & manufacture GE new products

In the development of new GE products, we have concluded joint development and manufacturing consignment agreements with multiple GE manufacturers, and have CMIC/DNP handle everything from API to development and manufacturing, with the aim of improving operational efficiency and reducing costs through formation of an ecosystem (platform)

*As an alternative, consider OEM models for GE products using CMIC Group's manufacturing and marketing capabilities

1	Name	CMIC CMO Co., Ltd
2	Address	1-1-1 Shibaura, Minato-ku, Tokyo
3	Title and name of representative	Toshiki Sugimoto, Chairman and Representative Director (DNP) Makoto Matsukawa, CEO and Representative Director
4	Business	Manufacture, import, export and sales of pharmaceutical products
5	Capital	100 million yen
6	Shareholders	CMIC Holdings 49.9%, Dai Nippon Printing 50.1%

Future expansion

- Our challenge towards maximizing personal health value -

CMIC Group CEO Dr. Kazuo Nakamura

Healthcare Revolution – CMIC's Philosophy

Concept proposed in 2005

PHVC

Personal Health Value Creator

A group of professionals who can contribute to a new era of health care (person-centered health care)

Personal Health Value

Developed in 2015

Our CREED

CMIC Group will bring innovation to healthcare so that all people, regardless of age, gender or race, can live their one and only lives according to their own will.

Whether in youth, when potential has yet to blossom, or in later years, when the fruits of one's life are maturing, every individual has an equally earnest desire to live every moment to its fullest.

We wish to genuinely answer each and every one of these wills to live.

To achieve this, we aspire to always challenge ourselves for a better future.

By evolving and gaining new perspectives,

we will create value out of our unwavering determination,

and continue to contribute to society and humanity.

PHVC = Health care services based on individual health values

Not <u>existing concepts</u> such as treatment based on conventional medicine, disease prevention, and MIBYO (presymptomatic medicine)

Towards the realization of personalized healthcare

To let everyone live their once and only life to its fullest, it is important not only to devote our efforts in disease treatment, but also to hold the perspective of IKIGAI: Happiness of each and every person.

Such spirit is embodied in CMIC's CREED, which is at the core of our innovation to bring about new healthcare value.

Healthcare Revolution

Healthcare Revolution

Aiming to create businesses that contribute to the maintenance and promotion of personal health and to create a new platform

- Healthcare Revolution2.0 (from 2021)
- ► Response to the changing environment due to COVID-19
- Providing individuals and municipalities with new ecosystem solutions

Healthcare Revolution 1.0 (from 2019)

- ► Realization of CMIC CREED
- ► Establishment of In-House Healthcare Professional System and Talent Development
- ► Transformation from Pharma Model to Innovative Healthcare Pharma Model

Healthcare Revolution 2.0 Response to the changing environment due to COVID-19

- Demonstrating the Value of Healthcare Talents in Support of Municipalities -

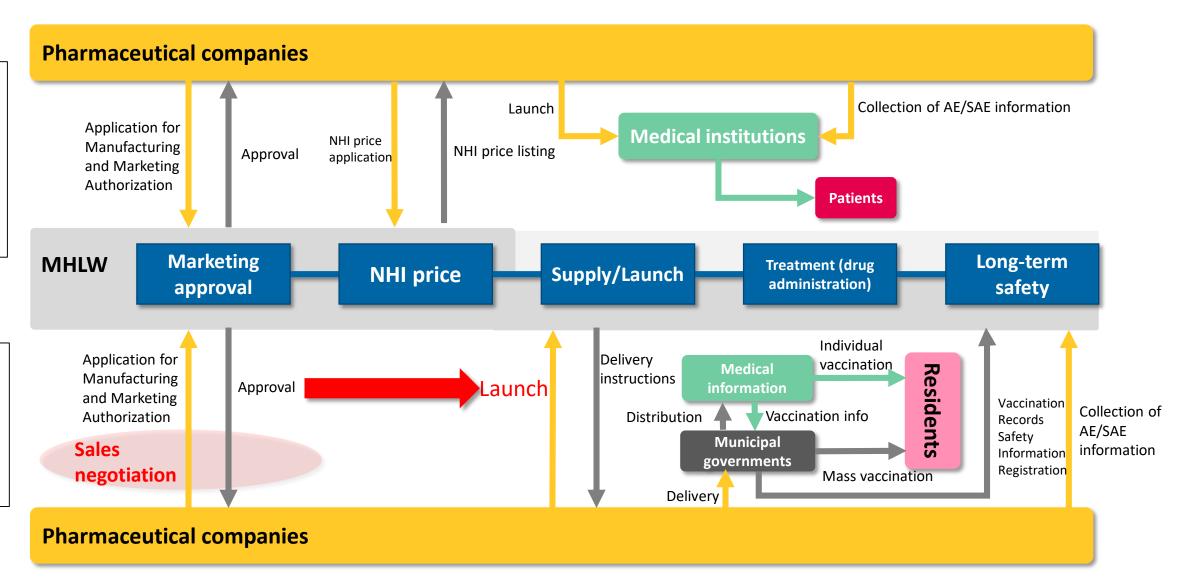

The COVID Vaccine Changed the Value Chain/Supply Chain

Regular new drugs

COVID vaccines

CMIC's New Role in the COVID-era

Mass vaccination venue

Vaccine bus

Vaccination made possible on "Vaccine buses" in Tokyo, Japan

Vaccination completed on 45 users and staffs within 1 hour

PCR caravan

Vaccination caravan for medical institutions

[harmo utilization]

1 Check vaccination intervals/vaccine types

Secure data management system that separates personal info from vaccination info (Patent#: 6202152)

Follow up on those vaccinated based on accurate information

あなたか ンは安全	「接種を受けたCOVID-19ワクチ とです
	が接種を受けたCOVID-19ワク 安全です
本目(2021	年8月26日)、原生労働省よりCOVID-19ワク

Local government support based on "IKIGAI"

Comprehensive support for infection control and personal health control

Providing healthcare services based on individual health value

Frailty measures

Digital Health Support

Regional healthcare promotion

Medical MaaS

Epidemiological Study

Call Center

Personal Health Check

Specific health guidance

intervention

Antigen/PCR Test

Vaccination

harmo Service

Test Kits Sales

We also provide a variety of other services to meet needs.

Healthcare Revolution

Aiming to create businesses that contribute to the maintenance and promotion of personal health and to create a new platform

From April 2023

Healthcare Revolution 3.0

Toward the realization of PHVC

From 2021

Healthcare Revolution 2.0

From 2019

Healthcare Revolution 1.0

PHVC: Personal Healthcare Value Creator

Healthcare Revolution 3.0 towards the realization as Personal Healthcare Value Creators

"nanacara", a platform for intractable and rare diseases

Seizure Recording App Born from the Voices of Patient Families and Epileptologists

Smartphone app that allows children with epilepsy and their families to manage and share daily information such as medication status and seizure frequency with family members and doctors

Seizure recording and management functions

Medication history management

Ability to connect with Dr.

Aiming to provide a wide range of patient-centered services by expanding services based on nanacara to other therapeutic areas

Operate a platform with high app usage

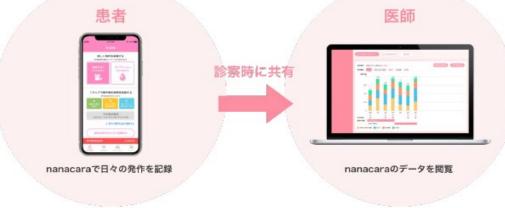

The monthly usage rate of the app (nanacara) by patients' families is as high as approximately 60%.

System to solve the gap between patients and doctors when treating epilepsy

Quickly communicate correct seizure records to physicians and other health care professionals

Patients with epilepsy: 1 million Patients with intractable epilepsy: 300,000(including 100,000 children)

Pediatric epilepsy use: approx. 25,000

Epileptologists: 700Number of medical institutions: 450

Medical institutions: approx. 200

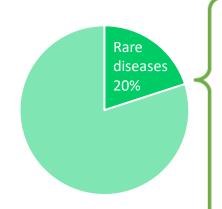

Enrollment of patients with intractable epilepsy symptoms and many rare diseases
Seizure and medication data can be analyzed and reported

Disease/Symptom Segment

- West syndrome
- Dravet syndrome
- Lennox syndrome
- Rett syndrome
- Tuberous sclerosis complex
- Ohtahara syndrome
- CDKL5 deficiency disorder
- Aicardi syndrome
- MECP2 duplication syndrome
- Angelman syndrome
- •Fukuyama congenital muscular dystrophy etc.

Examples of Recorded Data

- Medications
- Prescription trends
- Seizure frequency
- Number of seizures
- Seizure onset time
- Seizure duration
- Age
- Gender
- Place of residence
- Family medical institution
- Family doctor

"nana-medi", an online medical service specializing in epilepsy care

Online medical consultation and pharmacy app

Able to connect with a doctor or pharmacist from home or work via a smartphone and receive medical consultation and medication guidance.

It is estimated that there are approximately 1 million epilepsy patients in Japan, but specialists are concentrated in urban areas and there is a large regional bias. The use of digital devices is expected to improve regional disparities in epilepsy treatment.

Our app is the de facto standard for pediatric epilepsy treatment apps

Apps distributed to medical institutions mainly through referrals from patients' families. Used by about half of Epileptologists.

PHR Personal Health Record

PHR (Personal Health Record)

Personal Health Record

A system in which individuals collect their own medical, health, and nursing care information using digital technology and store it centrally. The data can then be provided to medical institutions and used for other purposes.

Electronic Medication Notebook Guidelines Revised Significantly for the First Time in Eight Years

The rules to be followed by e-medicine notebook providers and medical institutions that have introduced the e-medicine notebook, "Operational considerations for the e-medicine notebook," have been overridden as the "Guidelines for the e-medicine notebook," the first major revision in about eight years

ールとして活用されることが期待される。また、他の PHR サービスとの連携等により、体重等の各種健康情報と併せて健康づくりの支援ツールとして活用されること、オンライン服薬指導やオンライン診療のサービスなど関連したサービスと連携することが期待される。現状では紙のお薬手帳の利用者が多いが、今後は、すべての薬局、診療所、病院で電子版お薬手帳サービスの活用を推進することが望まれる。各提供薬局・診療所・病院(以下「提供施設」という。)等において、電子版お薬手帳の意義・役割や活用方法を広く周知するとともに、利用を推奨することが求められる。

It clearly states that "all pharmacies, clinics, and hospitals should promote the use of the electronic version of the Medication Record Book service."

Important points

- 1. Promotion of electronic rather than paper. Medical institutions were encouraged to use the service
- 2. Electronic versions of the medicine notebook were clearly positioned as part of PHRs.
- 3. Secondary use of the e-medicine notebook is now subject to the same standards as PHRs.
- 4. Functional requirements for the e-medicine notebook were clearly defined.

聚生総発0331第1号 令和5年3月31日

都 道 府 県 保健所設置市 特 別 区

と置市 薬務主管部(局)長

厚生労働省医薬・生活衛生局総務課長 (公 印 省 略)

電子版お薬手帳ガイドラインについて

医薬行政の推進につきましては、平素から格別の御高配を賜り、厚く御礼申し上 げます。

電子版お薬手帳については、「お薬手帳(電子版)の運用上の留意事項について」 (平成27年11月27日付け薬生総発1127第4号厚生労働省医薬・生活衛生局総務課長通知。以下「留意事項通知」という。)により、利用者にお薬手帳サービスを提供する薬局・医療機関や、アプリケーションの提供やデータ保存を行う運営事業者向けに、運用上の留意裏頂をお示し、エキキレニスです。

今般、令和4年度厚生労働省委託事業「データへルス改革を見据えた次世代型お 薬手帳活用推進事業」を通じて、オンライン資格確認の普及、電子処方箋の運用開 始、マイナポータルを通じた閲覧範囲の拡大といったデジタル技術の進展を踏まえて 電子版お薬手帳に求められる役割・機能、要指導医薬品・一般用医薬品を含めた薬剤 情報の一元的な管理の重要性を整理し、先の留意事項通知を踏まえつつ、別添のとお り「電子版お薬手帳ガイドライン」を作成いたしました。本ガイドラインでは、電子 版お薬手帳の運営事業者において対応が必要と考えられる事項や、電子版お薬手帳サ ービスを提供する施設における留意事項をまとめており、本通知の発出に伴い、留意 事項通知は廃止いたします。

つきましては、貴管内の薬局、医療機関等の関係団体等に対し、本ガイドライン の周知をいただきますよう、よろしくお願いいたします。

また、本ガイドラインにおいては、「実装すべき機能」、「実装が望ましい機能」、 「将来的に実装が望ましい機能」として、電子版お薬手帳に求められる機能を体系的 に整理しています。「実装すべき機能」については、本通知の発出から1年を目処と して実装いただくよう運営事業者に依頼しておりますので、その旨申し添えます。

Digital Garden City Project Support in Rusutsu Village and Rankoshi Town
