# Overview of the FY2022 by Segments

- Net Sales of Marine and Food Products increased significantly due to the price increase and the impact of foreign exchange rates.
  • In Fine Chemicals, Net Sales decreased mainly due to the sale of Nissui Pharmaceutical, which was
- approximately 8 billion yen.

| (Unit: 100 million JPY)                 | FY2021 | FY2022 | Y-on-Y   |        |

| General Distribution                    | 20     | 15     | (4)      | (21.9) |
| Others                                  | 10     | 7      | (2)      | (24.4) |
| Common Costs                            | (81)   | (95)   | (14)     | 17.8   |
| Ordinary Profit                         | 323    | 277    | (45)     | (14.2) |
| Profit attributable to owners of parent | 172    | 212    | 39       | 22.9   |

# Primary Factors for the Increase/Decrease in Operating Profit in FY2022 (Y-on-Y)

The substantial increase in profits in Marine Products could not fully compensate for the decline in profits in Food and Fine Chemicals. Common costs increased due to corporate brand penetration costs and system investments.

# Consolidated Balance Sheet (Y-on-Y)

While inventories and short-term borrowings increased, Nissui proceeded with the sale of its listed subsidiary, Nissui Pharmaceutical, and cross-shareholdings.

# <u><Working Capital - Net cash provided</u>by operating activities>

Due to inflation, prices of raw materials and commodity inventory prices rose in Japan and overseas, leading to an increase in spending.

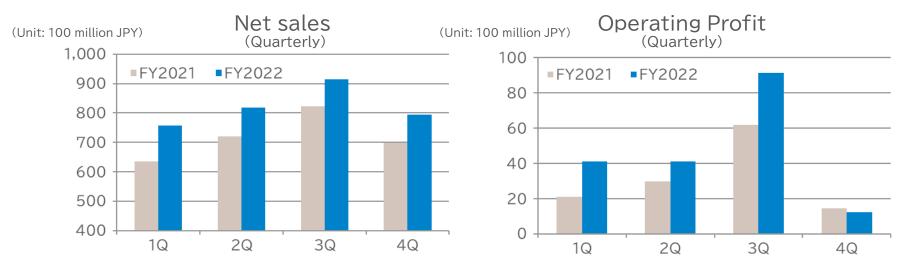

# <Investments - Net cash provided by investing activities>

The investments increased in the maintenance and renewal of individual food production plants; fish cagerelated equipment for South American aquaculture, and ship capacity in the fishery business in Japan.

# Marine Products Business Net Sales & Operating Profit (Y-on-Y)

In addition to solid sales, improvements in aquaculture businesses in Japan led to a significant increase in sales and profit.

| Unit:            | FY2021 | FY2022 | Y-( | o-Y  |
|------------------|--------|--------|-----|------|
| 100 million JPY  | FIZUZI | (Amou  |     | (%)  |
| Net Sales        | 2,877  | 3,283  | 405 | 14.1 |
| Operating Profit | 127    | 185    | 58  | 46.0 |

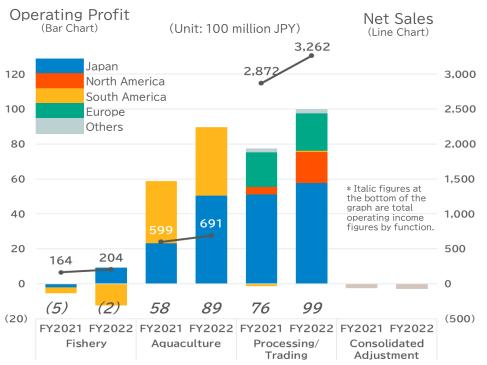

# **Marine Products Business**

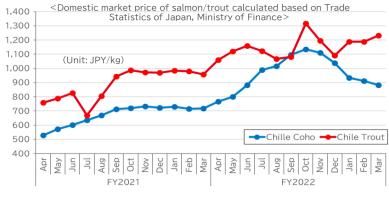

# Net Sales & Operating Profit (Y-on-Y)

 Profit of the aquaculture business in Japan increased because of the strengths of fully farmed buri yellowtail, the expansion of silver salmon, and the sales recovery of tuna. Also, salmon trout in South America contributed to the profit.

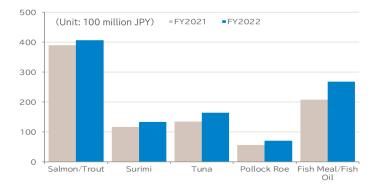

• Profit of the processing business in North America also increased significantly due to strong sales and cost

reductions.

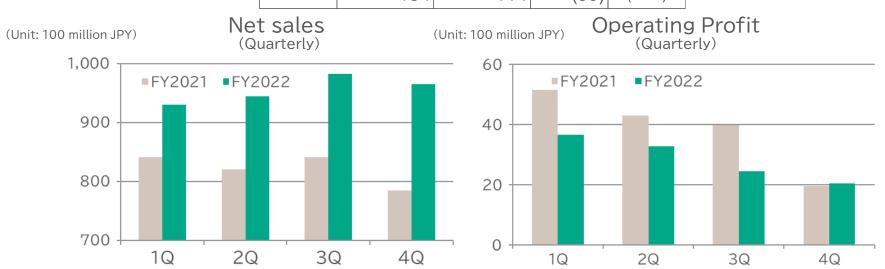

# Food Products Business Net Sales & Operating Profit (Y-on-Y)

- The sales significantly increased due to the sales area expansion in Europe and good sales of household shrimp products in the U.S., in addition to the impact of price increases and the yen depreciation.
  - The Profit decreased because the price increase could not keep up with the rising costs of raw materials and energy and rapid exchange rate fluctuations.

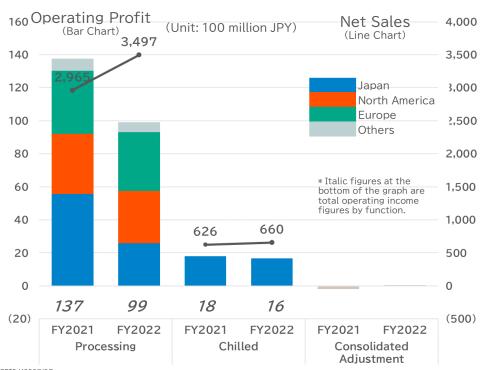

| Unit:            |        |        | Y-0      | o-Y    |
|------------------|--------|--------|----------|--------|
| 100 million JPY  | FIZUZI | FY2022 | (Amount) | (%)    |
| Net Sales        | 3,286  | 3,820  | 534      | 16.3   |
| Operating Profit | 154    | 114    | (39)     | (25.8) |

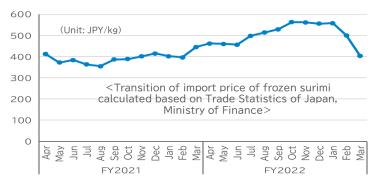

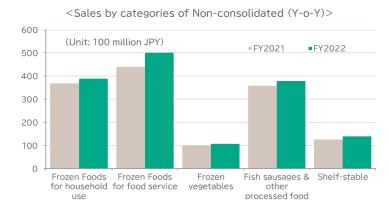

# **Food Products Business** Net Sales & Operating Profit (Y-on-Y)

The sales for household use remained strong even after price increases in Europe and the U.S., while the sales to QSRs for commercial use decreased year-on-year in the U.S.

In Japan, although price increases were struggling to keep up with rising costs, the sales increased due to price increases for both household and commercial use.

## Cost and Price increases for the FY2022

By increasing prices, the cost increase has primarily been absorbed in Europe and the U.S., However, in Japan, price increases have yet to keep up with the cost increase.

(Unit: 100 million JPY)

The schedule of price increases

© Nissui All Rights Reserved.

#### Japan:

Processed Surimi, fish sausages, frozen food, and shelf-staple products in February/March '22, July/August '22, and February/March '23.

Europe: May/November '22,

North America: For household use in February/July '22, Commercial use as needed

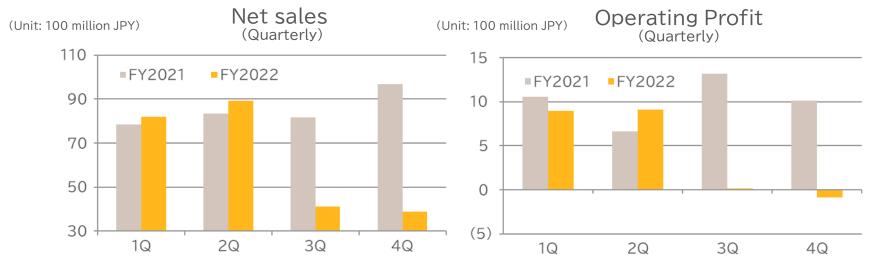

The aggregation method has been changed since the previous announcement.

Excluded expenses not related to cost increases and price increases that were included in "Price Increase Effects and Sales Increase" (minor impact) (Japan) Included chilled business, but limited to food processing business (North America) Transfer of manufacturing consignment costs, which were included in the negative factors of "price increase effects and increased sales" to "raw material costs"

# Fine Chemicals Business Net Sales & Operating Profit (Y-on-Y)

The Sales and Profit declined because of the sale of Nissui Pharmaceutical in September and the suspension of exports of pharmaceutical raw materials to the United States.

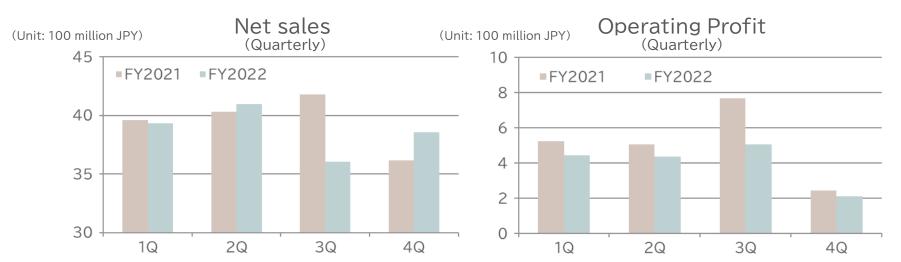

| Unit:            | 50 WILL BY FY2021 FY2022 FY2022 |     | Y-o-Y    |        |
|------------------|---------------------------------|-----|----------|--------|
| 100 million JPY  |                                 |     | (Amount) | (%)    |
| Net Sales        | 340                             | 251 | (89)     | (26.3) |
| Operating Profit | 40                              | 17  | (23)     | (57.4) |

# General Distribution Business Net Sales & Operating Profit (Y-on-Y)

Sales and Profit declined due to the decrease in goods handling fees caused by sluggish cargo movements and the rising electricity charges and other costs, although the customs clearance business went well.

| Unit:            | FY2021              | FY2022 | Y-(      | o-Y    |

# Plan for the FY2023

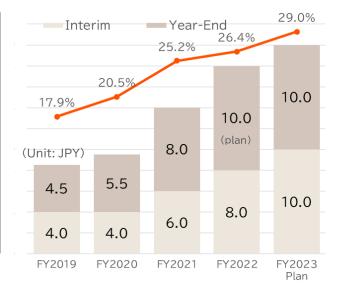

## Overview of Plan for the FY2023

- Although the Marine Product business is expected to struggle due to changes in fish market conditions, Nissui plans to increase profits because of increased food product prices, sales expansion, and cost reductions, like adjustments of Surimi raw materials.
- Profit is expected to increase at each stage, including the highest Profit attributable to owners of parent for two consecutive years. The annual dividend is 20 yen, by 2 yen increase from the last period.

| (Unit: 100 million JPY)                 | FY2022 | FY2023 | Y-o-Y | (%)  |

# Overview of Plan for the FY2023 by Segments

Despite the risk of fluctuations in the fish market, the company expects the effects of price increases in addition to expanding the food market and plans to achieve sales of 800 billion yen for the first time. In the fine chemicals business, the sales will decline due to the impact of the sale of Nissui Pharmaceutical (approximately 9 billion yen).

| Ordinary Profit                         | 277    | 290                   | 12      | 4.4    |  |
| Profit attributable to owners of parent | 212    | 215                   | 2       | 1.3    |  |

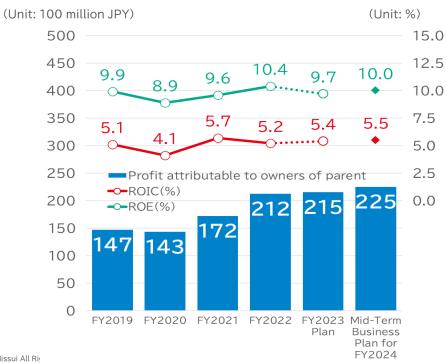

# Primary Factors for the Increase/Decrease in Operating Profit in FY2023 (Y-on-Y)

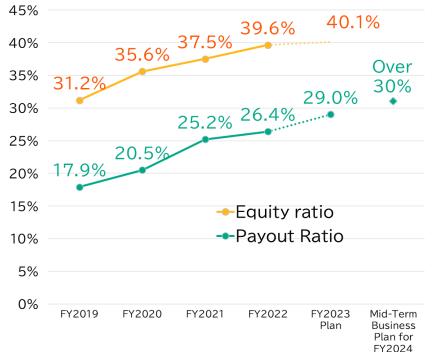

Nissui, thanks to the penetration of increased prices in the Food Product business, plans to cover the decline in profits of the Marine Product business, which is expected to struggle due to changes in fish market conditions, and the Fine Chemicals, which scale has been reduced by the sale of the subsidiary.

## Financial Position and Shareholder Returns

- In recent years, the level of Profit attributable to owners of parent has increased, and the financial position has improved. Shareholder returns have also reached a certain level.
  The Equity ratio has improved, and ROE has remained at around 10%.

# Nissui will continue our efforts to improve ROIC.

Net Operating Profit After Tax(NOPAT)

Improvement for ROIC

Invested Capital

| Marine Product   | Food Product   | Fine Chemicals                                       |
|--|--|--|
| (Expansions) •Expansion of domestic coho salmon farming •Entering the home delivery business in the UK, supplying processed marine products through the Internet. (High added value) •Promoting food processing and expanding high-value-added products. (Efficiency and optimization) •Cost reduction through efficient operation between aquaculture companies | (Japan) •Expanding high value-added and health products utilizing unique technologies •Increasing of sales and operating profit through chilled integration and expansion into the food business (North America, Europe) •Expanding in product categories in North America and sales areas in Europe to expand the scale of earnings | (Overseas expansion of pharmaceutical raw materials) |

 (Inventory reduction)
 (Japan)
 (Improvement of production efficiency)

 In preparation for changes in fish market conditions, Nissui increases inventory turnover and reduces working capital.
 (Japan)
 (Improvement of production efficiency)

 'Thorough inventory management at domestic production plants

## Initiatives for the Marine Product Business in FY2023

In addition to working on expanding the aquaculture business, Nissui will work on inventory management and efficient operation between aquaculture companies in anticipation of the high degree of price fluctuation in the fish market.

| Unit:            | FY2022          | FY2023 | Y-o-Y    |       |  |
|------------------|-----------------|--------|----------|-------|--|
| 100 million JPY  | JPY FY2022 Plan |        | (Amount) | (%)   |  |
| Net Sales        | 3,283           | 3,173  | (110)    | (3.4) |  |
| Operating Profit | 185             | 173    | (12)     | (6.9) |  |

# Initiatives for the Marine Product Business in FY2023 (Japan)

### Aquaculture Business Initiatives

Strengthening existing businesses and making them highly profitable

(Coho salmon) Expansion of Otsuchi salmon in the second year (Approximately 2.5 times compared to the previous fiscal year)

#### Productivity innovation and operational improvement

(Buri yellowtail)

Promote early landings to mitigate the impact of market fluctuations and soaring feed prices.

(Tuna)

Enhancing collaboration between two companies, such as joint purchasing of feed.

Increased production of short-term farmed tuna.

# Expansion of farmed fish species

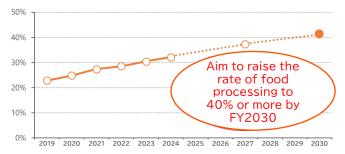

(Vannamei)
Realizing commercialization.

Photo: Demonstration Test Facility Vannamei (whiteleg) shrimp closed circulation aquaculture

#### Initiatives in the Processing and Trading Business

— (Trading) Increasing the rate of food processing to 40% or more in order to reduce the impact of fish market prices.

— (Processing) Launched an "intensive distribution business" in which the storage, processing, and picking of marine products is collectively entrusted to the Group, which will lead to the expansion of the Group's handling of marine products and the promotion of the use of seafood products.

# Initiatives for the Marine Product Business in FY2023 (Overseas)

- Fisheries and Aquaculture Business Initiatives (South America)
  - Expansion of high value-added products and improvement of profitability
  - By automating the fillet production line, personnel is allocated to the value-added product production line, thereby increasing profitability.
  - Utilizing the equipment we have introduced, we can optimally combine multiple feeds to reduce costs.
  - (Fishery) Increased catch and cost reduction to improve profitability

In addition to increasing the catch by widening the net opening, we also reduced depreciation expenses and repair costs due to impairment losses on fixed assets implemented in the previous fiscal year.

- Processing and Trading Business Initiatives (North America and Europe)
  - (North American processing) In addition to the effect of increased production due to resource recovery, profitability increased by expanding the ratio of valueadded products.
  - Expansion and acceleration of the overseas growth of Japanese marine products such as scallops from Hokkaido. Comprehensive inventory management.
  - (European Trading) The company aims to expand sales by incorporating the strengths of the seafood delivery company it acquired last year such as the delivery network and customer trend understanding in response to the growing demand for high-quality marine products.

Photo: Value-added products that can be cooked just by putting them in the oven; develop meal kits with ingredients and sauce

## Initiatives for the Food Product Business in FY2023

Improve profitability by expanding products that meet health, individual meals, and simple needs.

| Unit:            | FY2022                  | FY2023 | Y-o-Y    |      |  |

| GAF               | P (A)-(B)                            | 52    | 7                | (1)    | (0)  | 58    |

The aggregation method has been changed since the previous announcement.

Excluded expenses not related to cost increases and price increases that were included in "Price Increase Effects and Sales Increase" (minor impact) (Japan) Included chilled business, but limited to food processing business (North America) Transfer of manufacturing consignment costs, which were included in the negative factors of "price increase effects and increased sales" to "raw material costs"

<sup>\*</sup> The impact of the price revision implemented in FY2022 is factored in.

# Initiatives for the Food Product Business in FY2023 (Overseas)

### Expansion of sales categories (North America)

 In addition to improving production efficiency through increased sales, stable earnings will be secured due to the effect of price increases.

(Household Use)
Expansion of healthy products and shrimp category products

(Commercial Use)
Expansion of products in the white fish category and Asian products

#### <Household frozen food>

Products with half the amount of fat

#### <Commercial frozen food >

Expansion of white fish products and Asian products (dumplings)

### Expansion of sales area (Europe)

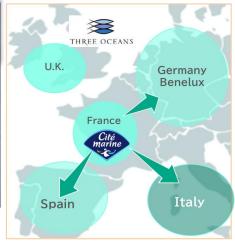

— With last year's M&A, the production system is being prepared to respond to the expansion of the area.

(France) Expansion by increasing the production capacity of Cite Marine, one of the group companies.

(UK) Production line development has progressed, such as the enhancement of refrigeration function capacity.

Expansion of Chilled white fish products further

# Initiatives for the Food Product Business in FY2023 (Japan)

Solving health issues with Nissui's unique technologies and products

Fast-twitch skeleta

**FOSHU** 

Expansion of Health Category Products

Functional research of fish and materials "Fast-twitch skeletal muscles protein", "EPA", "Salt Reduction Technology"

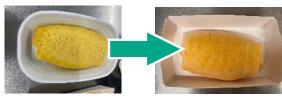

**Functional Foods** 

"Fast-twitch
skeletal muscles
protein" is aimed at
more recognition
and sales
expansion

- Increase Profitability through asset efficiency and response to social issues
  - Reduce operational costs by DX of order-receiving operations and utilization of RPA.
  - We will promote the reduction of items, de-traying, and
  - paper trays to both consider the environment and improve profitability.

Omelet rice in the frozen food → Plastic Tray to the paper tray

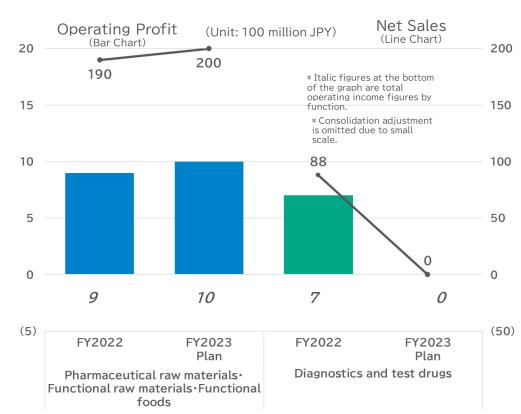

Kneaded products (partial) → Trayless

## Initiatives for the Fine Chemicals Business in FY2023

Accelerate the expansion of pharmaceutical raw materials to Europe.

| Unit:            | FY2022 | FY2023 | Y-o-Y    |        |  |
|------------------|--------|--------|----------|--------|--|
| 100 million JPY  | FIZUZZ | Plan   | (Amount) | (%)    |  |
| Net Sales        | 251    | 177    | (74)     | (29.5) |  |
| Operating Profit | 17     | 10     | (6)      | (39.2) |  |

## Initiatives for the Fine Chemicals Business in FY2023

# Overseas Initiatives

- (Pharmaceutical raw materials)

Europe: Preparation of application to EMA (European Medicines Agency).

To respond to customers' demand for high-quality raw materials (functional raw materials), we started a certified fish oil refining plant in collaboration with a Spanish company (MSC certification). Nissui is aiming to develop businesses in the EU.

Fish oil production plant in Spain

# Initiatives in Japan

- (Pharmaceutical raw materials) Production expansion is
   expected because of prevailing prescriptions for new EPA drug types.
- (functional raw materials) Thorough inventory management at domestic production plants
- (Mail order/merchandise sales) The company will expand variations by introducing new products into the retail market in collaboration with drugstores and discount stores.

←DHA almond soy milk was released in March 2023 (Brain function)

Further product development Coming soon→

We are developing Fasttwitch skeletal muscle protein sports powdered drinks and soups.

# Capital Investment Plan (FY2022 Results + FY2023 Plan)

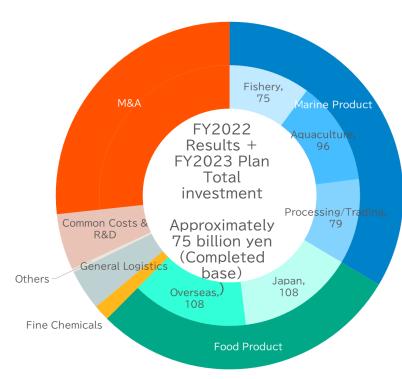

Actively invest in growth areas such as strengthening access to resources, including aquaculture, and overseas business.

- Marine Product business (approx. 25 billion yen)
  - Aquaculture in South America (6.8 billion yen): Investment to increase production of high-value-added products and maintenance and renewal of sea-level aquaculture facilities
  - Investment in domestic aquaculture (2.7 billion yen) to improve operational efficiency
  - Fishery (7.5 billion yen) Investment to increase the capacity of seine fishing vessels
- Food Product business (approx. 21 billion yen)
  - (Europe & North America)
    Invested in improving productivity, such as production line automation in Europe, where sales areas are expanding (10.8 billion yen).
- M&A (approx. 20 billion yen)
  - Assuming M&A mainly overseas
- other
  - Investment in research and development of plant-based protein products as health-related products

Ongoing research and development to produce crab-style / meat-style plant-based foods.

# Sustainability Targets: FY2022 Results

Strengthen efforts to create the three values (society, human capital, and the environment) for items that need to catch up.

| Values  | Themes                                   | Goals                                       | Base year<br>unit         | FY2030<br>Goals                      | FY2024<br>Goals                 | FY2022<br>Results   | FY2023 Plan   |

# Respect for Human Rights in the Value Chain

Conduct assessments to prevent and reduce human rights problems in the value chain

#### supplier

#### (Initiatives in FY2022)

Revised the Supplier Guidelines in June 2022. Guidance to all Nissui primary suppliers completed. [Initiatives in FY2023]

SAQ in line with new guidelines for primary suppliers (Self-evaluation questionnaire) will be conducted.

#### Within the own group

29 offices employing foreign employees within the Group conducted a labor environment survey for subjects

#### [Initiatives in FY2022]

For business sites that are lagging behind in the multilingualization of documents, bulletin boards, educational tools, etc., we encourage and improve responses in languages that employees can understand. [Initiatives in FY2023]

In addition to continuing the above survey, we will consider conducting questionnaires and interviews with foreign national employees.

# **Employee Engagement**

To achieve the goal of "Diverse human capital playing an important role," which is one of our visions for 2030, Nissui conducts employee engagement surveys.

"Diverse human capital playing an important role" (definition)

People with various values actively work on their own volition A state in which they are exercising their abilities in their respective areas of expertise.

#### Keyword

People with various values gather. Have a concept based on backcasting. You can envision your "ideal state" and work autonomously. Demonstrate your strength in the field in which you excel.

#### [FY2022 Survey Results]

#### Strength

Company Foundation

Description of Business

#### ▶ For example.

·Influence in the industry

·Business superiority

 Demonstrating individuality and abilities

#### weakness

Organizational Culture

Philosophy Strategy

#### ▶ For examples.

·Communication between ranks

On-site penetration of the philosophy

#### Initiatives to Improve Engagement

#### Inner Branding

In FY2023, for mission penetration Deploy workplace meetings across all departments

Workshops for department heads

#### Dialogue with Management

A place for dialogue between the president and employees
[One Table Meeting]

Meetings at the production plant

Improving our ability to respond to changes, Nissui will work to achieve our long-term vision, a leading company that delivers friendly foods both for people and the earth, "Good Foods 2030."

# Disclaimer regarding forward-looking statements

This presentation contains forward-looking statements regarding Nissui's business projections for the current term and future terms. All forward-looking statements are based on the rational judgment of management derived from the information currently available, and the Company provides no assurances that these projections will be achieved.

Please be advised that the actual business performance may differ from these business projections due to changes in various factors. Significant factors affecting the actual business performance include but are not limited to the changes in the market economy and product demand, foreign exchange rate fluctuations, and amendments to various international and Japanese systems and laws.

Accordingly, please use the information contained in this presentation at your discretion. The Company assumes no liability for any losses that may arise due to the use of this presentation.
