- (Notes) 1. Operating results for the first six months of the fiscal year ended September 30, 2021 covers the period from September 1, 2020 to February 28, 2021, as the fiscal year ended September 30, 2021 was a 13-month accounting period from September 1, 2020 to September 30, 2021 due to a change in fiscal year-end. Accordingly, year-on-year percentage changes for the first six months of the fiscal year ended September 30, 2022 (six months ended March 31, 2022) are not shown as the period for comparison differs.
  - 2. Diluted earnings per share for the six months ended March 31, 2023 have been omitted due to an absence of dilutive shares.

### (2) Financial Position

#### 1. Qualitative Information on Quarterly Financial Results

# (1) Explanation of Business Results

During the six months ended March 31, 2023, behavioral restrictions implemented in response to COVID-19 were relaxed, and the Japanese economy was marked by signs indicating that socioeconomic activity was beginning to recover to its normal pace. On the other hand, the economic outlook remains uncertain due to factors such as soaring resource and energy prices caused by protracted conflict in Ukraine and sharp exchange rate fluctuations stemming from monetary tightening in various countries to guard against inflation.

The market for mergers and acquisitions of small and medium-sized enterprises (SMEs), in which the Company's main M&A brokerage business operates, has been on a long-term growth trend, largely attributable to the success of proactive measures carried out by the Japanese government to support SMEs in need of successors. Facilitating the transfer of these businesses to a new generation of ambitious management teams is important for preventing valuable operational resources from being wasted and supporting sustainable growth of the Japanese economy, highlighted by the fact that over half of approximately 44,000 companies that were shuttered or dissolved in 2021 had reported profits during their most recent fiscal years (according to the "2022 White Paper on Small and Medium Enterprises in Japan" issued by the Small and Medium Enterprise Agency of the Ministry of Economy, Trade and Industry). Therefore, various initiatives have been launched in accordance with the "Promotion Plan for M&A among Small and Medium-sized Enterprises" announced in April 2021 by the Small and Medium Enterprise Agency, including the establishment of a registration system for organizations that support M&A and revisions of business succession guidelines. Furthermore, facilitating business succession, including through restructuring and M&A, has been positioned as one of the government's three key strategies for stimulating the growth of medium-sized enterprises. Accordingly, a new action plan was drafted by the government in June 2022, and initiatives are underway to promote M&A among SMEs through cooperation between the public and private sectors.

Within this environment, the Company undertook a variety of sales-related initiatives, aiming to acquire new clients and close deals through hybrid seminars held in person and online, as well as through consultations conducted using a web-based conferencing system. Meanwhile, the Company also strove to identify a wide range of M&A needs by rolling out industry-specific online advertisements and proposal-based sales activities. Furthermore, we focused on cultivating new opportunities for startup companies in M&A markets by holding monthly networking events through "S venture Lab.," a members-only service designed to promote partnerships between startups and operating companies.

With regard to collaborative efforts involving its business partners, the Company has launched a business alliance with Northern Kyushu Tax Accountant Cooperatives and Hyogo West Certified Public Tax Accountants' Association, thereby expanding its network of alliances with tax accountant cooperatives to include 15 organizations with more than 60,000 members nationwide. In addition, by accepting personnel from partner financial institutions, we have taken on the responsibility of developing M&A personnel within the partner financial institutions and enhanced our M&A support system through collaboration.

In terms of recruitment, we actively worked to add new employees with the goal of expanding our business performance and successfully recruited 21 new M&A consultants during the first six months of the fiscal year under review.

As a result of these efforts, during the six months ended March 31, 2023, we had closed 104 deals (Note 1), compared with 99 deals as of March 31, 2022, and had closed 206 contracts (Note 2), versus 192 contracts as of March 31, 2022. Additionally, we had closed 13 large M&A deals (generating ¥100 million or more in sales per deal) as of March 31, 2023, versus eight large deals as of March 31, 2022. As of March 31, 2023, our new contract count (Note 3) had fallen to 328, down from 354 as of March 31, 2022.

#### (Note 1) Number of deals closed:

Number of M&A transactions in which Strike provides brokerage or advisory services (i.e., number of deals).

### (Note 2) Number of contracts closed:

Number of contracts on closed M&A deals in which Strike provides brokerage or advisory services (i.e., number of companies). In brokerage services, each deal counts as two contracts (one for the seller and one for the buyer), while in advisory services, each deal counts as one contract.

#### (Note 3) New contracts:

Number of new brokerage service contracts signed with sellers (or in the case of advisory services, contracts signed, and services effectively commenced).

Consequently, net sales recognized during the six months ended March 31, 2023 rose to ¥6,082 million (up 16.6% year on year), reflecting year-on-year growth in the number of deals closed as well as an increase of five large deals year on year. Cost of sales totaled ¥2,078 million (up 18.8% year on year), owing to higher incentive bonuses paid in line with increased sales and higher personnel expenses associated with the rise in the number of M&A consultants. SG&A expenses amounted to ¥1,978 million (up 34.3% year on year) on increased advertising expenses to strengthen sales activities, including TV commercial airings, and higher rent expenses on land and buildings resulting from head office expansion. As a result, operating profit came to ¥2,025 million (up 1.6% year on year). Ordinary profit totaled ¥2,035 million (up 2.0% year on year), with bottom-line profit coming in at ¥1,368 million (up 1.4% year on year) as a result of a ¥14 million loss on valuation of investment securities recorded as an extraordinary loss.

The number of deals closed, contracts closed, new contracts, and net sales recorded during the six months ended March 31, 2023, as well as the corresponding targets we plan to achieve for the full year, are provided below.

|                             | Six months ended<br>March 31, 2023<br>(actual) | Fiscal year ending<br>September 30,<br>2023 (target) | Achievement of the full-year target |
|-----------------------------|------------------------------------------------|------------------------------------------------------|-------------------------------------|
| Number of deals closed      | 104                                            | 277                                                  | 37.5%                               |
| Number of contracts closed  | 206                                            | 540                                                  | 38.1%                               |
| Number of new contracts     | 328                                            | 756                                                  | 43.4%                               |
| Net sales (millions of yen) | 6,082                                          | 15,266                                               | 39.8%                               |

Business results by segment are omitted, as the Company operates in a single operating segment of the M&A brokerage business.

# (2) Explanation of Financial Position

(Assets)

As of March 31, 2023, current assets stood at ¥12,382 million, up ¥1,525 million from September 30, 2022. This increase was primarily the result of a ¥2,801 million rise in cash and deposits, which was partially offset by a ¥942 million decrease in income taxes refund receivable.

Non-current assets amounted to ¥2,583 million, up ¥630 million compared to September 30, 2022. This increase occurred mainly because property, plant and equipment grew ¥404 million, reflecting an increase in construction in progress and other factors, and investments and other assets rose ¥227 million primarily as a result of increases in shares of subsidiaries and associates and investment securities.

#### (Liabilities)

Current liabilities came to ¥2,897 million as of March 31, 2023, up ¥1,336 million from September 30, 2022. This rise was mainly the result of a ¥780 million increase in income taxes payable and a ¥225 million increase in provision for bonuses.

Non-current liabilities amounted to ¥63 million, up ¥63 million compared to September 30, 2022. This increase was attributable to a ¥63 million rise in long-term accounts payable—other.

#### (Net assets)

As of March 31, 2023, net assets totaled ¥12,004 million, up ¥755 million compared to September 30, 2022. This increase primarily reflected higher retained earnings—which grew ¥1,368 million due to the recording of bottom-line profit and declined ¥765 million owing to the payment of dividends—and ¥178 million decrease in treasury shares as a result of the exercise of share acquisition rights.

#### Cash Flows

As of March 31, 2023, cash and cash equivalents stood at ¥11,343 million, up ¥2,801 million from September 30, 2022. Principal factors affecting changes in cash flows during the six months ended March 31, 2023 are as follows.

# (Cash flows from operating activities)

Net cash provided by operating activities amounted to ¥3,621 million (compared to ¥1,956 million provided by these activities in the first six months of the previous fiscal year). Main sources of cash were ¥2,021 million in profit before income taxes, a ¥1,016 million decrease in consumption taxes payable and consumption taxes refund receivable due to the refund of consumption taxes, etc., and ¥917 million in income taxes refund, which were partially offset by a ¥508 million increase in trade receivables.

#### (Cash flows from investing activities)

Net cash used in investing activities totaled ¥206 million (compared to ¥783 million used in these activities in the first six months of the previous fiscal year). This result primarily reflected ¥100 million in purchase of shares of subsidiaries and associates and ¥90 million in purchase of investments securities.

### (Cash flows from financing activities)

Net cash used in financing activities came to ¥612 million (compared to ¥1,062 million used in these activities in the first six months of the previous fiscal year). The main use of cash was dividends paid of ¥765 million, which was partially offset by proceeds from disposal of treasury shares of ¥152 million.

# (3) Explanation of Earnings Forecasts and Other Forward-Looking Information

Our earnings forecasts for the fiscal year ending September 30, 2023 are unchanged from the figures announced on October 28, 2022.

# (4) Notes to the Quarterly Financial Statements

(Notes on going concern assumption)

There is no relevant information.

(Notes in the event of significant changes in shareholders' equity)

There is no relevant information.

# (Changes in accounting policies)

(Application of Implementation Guidance on Accounting Standard for Fair Value Measurement)

The Company has applied the Implementation Guidance on Accounting Standard for Fair Value Measurement (Accounting Standards Board of Japan [ASBJ] Guidance No. 31; June 17, 2021) from the beginning of the first quarter of the fiscal year ending September 30, 2023. In accordance with the transitional procedures prescribed in Paragraph 27-2 of the guidance, the Company has prospectively applied the new accounting policies set forth therein.

This change has no impact on the quarterly financial statements for the six months ended March 31, 2023.
