We have confidence that continuing to evolve ourselves and navigating the evolution of our customers will be a step toward guiding the world in the right direction, and ultimately will contribute to society and humankind.

##### Our Strength

The Company is aiming for further business growth by supporting our customers' cloud migration of their core systems and active data utilization with deepen customer-trust, which is based on "Be a TRUSTED TECHNOLOGY ADVISOR". We have practiced DX (Digital Transformation) with our Cloud Journey to the Cloud by own technology which brought business success to ourselves. By accelerating to deploy and implement our technology to the customers, we support their Cloud Journey to Data-driven DX.

The Company has the comprehensive product portfolio which consists of platform, applications, hardware which can be deployed on cloud environment and on-premise environment. Especially our software license products have been widely adopted in the field of mission critical systems, which have demanded high security, availability and high performance for many years. The Oracle Cloud, which the Company has focused on as a pillar of its new business, has been developed based on the same system architecture and technologies as these software licenses, and the Company enjoys a strength in enabling coordination and bidirectional migration between on-premises systems built with the software licenses products and the Oracle Cloud.

##### Key Initiatives

The Company is further accelerate to provide its Cloud services, which maximize the value of information by data-driven approaching and supporting services for customers to utilize our Cloud Services that we have been focusing on. License team and Cloud one proceed the deals and projects by cooperating with each other, hereby the Company drives its customers' Cloud Transformation.

Furthermore, we reinforce our industry model by collaborating cross-functionally, which contribute customers' business with deploying optimal Oracle Solutions in each industry.

The five measures which make "To Accelerate Cloud Transformation"

1) Mission Critical Systems Modernization

To support the transformation of cost structure, the minimization of business continuity risk, and the balance of the ability to adjust and respond to change.

2) End-to-End Business Process Digitalization

To support the reduction of back office load and the concentration of management resources on high-value-added businesses.

3) Resilient Social Infrastructure Realization

To support the realization of a robust and secure social infrastructure which is required for Economic Security.

4) Business and Social Sustainability Acceleration

To support the enhancement of corporate value in the mid-term and the realization of a Sustainable economy by power of IT.

5) Co-Innovation Partner Eco-system Enhancement

To promote our key initiatives by leveraging a mutual strength of us and our stakeholders.

Business status in the 4th Quarter of the fiscal year (from March 1, 2023 to May 31, 2023)

[Cloud & Licenses]

In the Cloud license and on-premise license, the Company has developed its strength of products and services to its Customers under our strategy stated above.

Regarding our License business, the market is showing a recovery trend in IT investment which is not only for cost reduction but developing and growing their business.

In terms of Partner business side, we are expanding our cooperative ties of alliance and keep on expansion our Cloud partnership, while creating new demands on SME market segment.

In the cloud service, we continued to focus on facilitating existing customers' upgrades to the Oracle Fusion Cloud ERP (a lift and shift from on-premises to the cloud) to further accelerate a shift to the cloud, while also working proactively on acquiring new customers.

Regarding "Oracle Cloud Infrastructure (OCI)", there is a lot of demands from customers putting a weight on performance, security and cost effectiveness that has led to the usage of our Tokyo and Osaka region data center are successfully increasing continuously with expansion its Cloud datacenter.

We have been authorized ISMAP (Information system Security Management and Assessment Program) for Government Cloud supplier with OCI, PaaS and Oracle Exadata Cloud@Customer.

Furthermore, our OCI is selected as Cloud service for government cloud development at the Digital Agency in FY2023 (until the end of March, 2023), and prospective benefits amid a push for the Central and Local governments' digitalization include an acceleration and increase in investment, larger projects, and further stimulation of demand over the mid-long term.

The Company has opened a website that provides information on OCI for governments and local governments (in Japanese only).

<https://www.oracle.com/jp/cloud/government/>

NetSuite for SME market remained brisk performance in adding new customers who adopted Cloud ERP.

Also we have been keeping the high renewal rate of license support contracts and the attach rate for the on-premise license.

[Hardware Systems]

In Hardware Systems segment, the Company released "Oracle Exadata Database Machine X9M" (upgraded version of X8M) combines Intel® Optane™ DC persistent memory in September 2021. The inquiry for this machine is strong and the impact on shipments has gradually eased because of shortage of the semiconductor chip worldwide, however we are continuously examining our business status.

Exadata X9M removes storage bottlenecks and dramatically increase performance for the most demanding workloads such as Online Transaction Processing (OLTP), analytics, IoT, fraud detection, and high frequency trading.

Furthermore, the Company released "Exadata Database Machine X10M" (upgraded version of X9M) in June, 2023.

"Exadata Database Machine X10M" and "Exadata Cloud@Customer X10M" are the first Exadata systems powered by all AMD EPYC™ processors.

[Services]

In Services segment, the number of composite projects from Consulting Services taking advantage of the Company's comprehensive product and service portfolio has increased steadily. They include projects for platform transition from the on-premise environment to the IaaS and PaaS environment and those for linkage with SaaS solutions such as the ERP cloud.

Through the data-driven approaches that we have been focusing on, we will further accelerate the provision of not only cloud-based services to maximize the value of information but various types of services to support the use of such cloud services. In consequence, we will contribute to Japanese society.

Also, our license team and cloud team will step up collaboration with each other to facilitate customers' initiatives for cloud transformation.

In addition, we will contribute to customers' businesses by strengthening industry models through cross-functional collaboration and providing optimal Oracle solutions to customers in a range of industries.

We were able to lay a foundation through five measures we focused on in the fiscal year ended May 31, 2023 with a view to accelerating cloud transformation. In this fiscal year, to contribute to Japanese society, we will focus on the following initiatives specifically.

##### Provision of the Japan-focused cloud

1. By providing the cloud dedicated to customers in Japan, we will help Japanese companies modernize their mission-critical systems.
2. By supporting the digitalization of local governments in all over Japan nationwide through the utilization of Oracle Cloud Infrastructure (OCI) which is certified as the Government Cloud, we will contribute to the government cloud initiative that the Japanese government is promoting.
3. By always offering optimal solutions for the reform of IT cost structures while also providing a range of solutions such as the hybrid cloud featuring on-premises and the cloud, as well as multi-cloud solutions, we will support customers in introducing cloud-based mission-critical systems.
4. By providing cloud-native SaaS, we support the transformation of customers' life cycle cost structures, the enjoyment of continuously evolving AI technology, and the ability to respond to change.
5. To implement the above measures, we will further strengthen collaboration with partners.

The Company uses a range of values for the forecast for the next fiscal year. The Company is carefully examining the effects on its further business and it will announce that the forecast may change by various reason.
