[Principle 1-4 Cross-shareholdings]

Based on comprehensive consideration of management strategy and of establishing, maintaining, and strengthening relationships with business partners, the Company holds stocks which are considered to contribute to the enhancement of the Group’s corporate value over the medium to long term.

Regarding these stocks, the Company reviews them regularly, while taking measures such as reducing the number of the stocks when it is deemed that the appropriateness of holdings cannot be recognized according to changes in situations. In verifying the appropriateness of holding such cross-shareholdings, the Company carefully reviews whether the benefits, etc., associated with holdings are in line with the above policy for each stock held, and continuously reduces our cross-shareholdings after sufficient dialogue with our business partners, and with the immediate goal of reducing our holdings to less than 20% of consolidated net assets, we are proceeding to sale shares.

The Company exercises its voting rights after comprehensively judging various viewpoints including impacts on the Company, while taking into account whether exercising such voting rights will lead to

the enhancement of the corporate value of the invested companies over the medium to long term and conducting dialogues with counterparties in cases where it is deemed that there is sluggish business performance or serious compliance violation, etc.
