1. Overview of operating results, etc.

(1) Explanation of operating results

We estimate that the TAM (*1) for cloud accounting and HR software for small businesses (*2) is around 1.2 trillion yen (*3). At present, however, among SMBs with less than 1,000 employees and self-employed that use accounting software, the adoption rate of cloud accounting software is only 34.3% (*4). We believe that this relatively low adoption rate represents an opportunity for us to further expand the use of cloud ERP software among SMBs. In line with our corporate mission "Empower Small Businesses to Take Center Stage," we develop and offer services aimed at realization of "Integrated Management Platform for Everyone to Manage Business Freely."

In the current fiscal year, to realize our mission, we, the freee Group, made investments to improve the functionality of our primary services, "freee Accounting" and "freee HR." In addition, we have newly released "freee Order Management" for centralized management of order management operations. In preparation for the Invoice System to be introduced in October 2023, we released the "freee Invoice" which enables customers to create invoices compliant with the Invoice System for free. To expand services in response to the Invoice System, we acquired and consolidated sweeep Inc. which offers products that automate receiving and saving invoices and journal entries. Furthermore, we acquired Why, Inc. as a wholly owned subsidiary, which provides the SaaS account management tool "Bundle" for corporate information system departments.

As a result of initiatives including the above, as of the end of the fiscal year, for Platform business (*5), ARR (*6) increased year-over-year by 36.7% to 20,579 million yen, the number of paying customers (*7) by 18.9% to 451,088, and ARPU (*8) by 15.0% to 45,622 yen. Moreover, for the Platform business in the fiscal year ended June 30, 2023, net sales increased by 37.4% to 19,219 million yen year-over-year and adjusted operating loss (*9) was 7,195 million yen (2,343 million yen in the previous fiscal year).

As a result, for the consolidated fiscal year under review, net sales increased by 33.7% year-over-year to 19,219 million yen, adjusted operating loss was 7,195 million yen (2,250 million yen in the previous fiscal year, and the same applies hereafter), operating loss was 7,919 million yen (3,042 million yen), ordinary loss was 7,982 million yen (3,085 million yen). Loss attributable to owners of parent resulted in 12,338 million yen (11,609 million yen in the previous fiscal year).

Trends in ARR, Number of Paying Customers and ARPU for Platform business

Notes:1. TAM: Total Addressable Market. This figure represents our estimate of our maximum market opportunity and is not intended as an objective indicator of the actual size of the market for our businesses as of the date of submission of this report. Our estimate of the TAM for accounting software and HR software for small businesses is based on certain assumptions and was calculated using statistical data and publications from external sources by the calculation method shown in 3 below. Actual market size may differ from this estimate due to the limitations peculiar to such statistical data and publications in terms of their accuracy.

- 5. Platform business consists of the integrated cloud ERP offering for small businesses and financial services, etc. In the fiscal year ended June 30, 2022, it represented the Group's overall business, excluding the "Shikaku Square" business, sold in December 2021, provided by consolidated subsidiary Site Visit Inc. (now freee Sign Inc.)
- 6. ARR: Annual Recurring Revenue. Monthly Recurring Revenue for last month of relevant period, multiplied by 12. Monthly Recurring Revenue is defined as the amount of fees contracted to be paid by customers on a monthly basis as of the end of a particular month (excludes one-time fees).
- 7. Refers to both self-employed and corporations that use our services.
- 8. ARPU: Average Revenue Per User. Annual Recurring Revenue as of the end of the relevant period divided by the number of paying customers as of the end of the same period.
- 9. Adjusted operating profit is the sum of the operating profit, stock-based compensation expenses, expenses for amortization of acquisition-related intangible assets, and one-time cost.

(2) Explanation of financial position

(Assets)

Total assets at the end of the period under review amounted to 42,786 million yen, a decrease of 4,626 million yen from the end of the previous fiscal year. This was primarily due to decreases in cash and deposits by 6,141 million yen.

(Liabilities)

Total liabilities at the end of the period under review came to 15,727 million yen, an increase of 4,743 million yen from the end of the previous fiscal year. This was mainly because of an increase of 2,643 million yen in unearned revenue, 1,529 million yen in asset retirement obligation and 1,142 million yen in accrued expenses.

(Net assets)

Total net assets at the end of the period under review were 27,059 million yen, a decrease of 9,369 million yen from the end of the previous fiscal year. This was chiefly owing to a decrease in retained earnings by 12,338 million yen resulting from the posting of loss attributable to owners of parent.

(3) Explanation of cash flows

Cash and cash equivalent (hereinafter "cash") as of June 30, 2023 stood at 35,905 million yen. Net cash flows and factors associated therewith in the consolidated fiscal year are as stated below.

(Cash flows from operating activities)

Net cash used in operating activities amounted to 4,753 million yen. This was mainly due to loss before income taxes of 12,328 million yen, impairment losses of 4,217 million yen, and increase in unearned revenue of 2,564 million yen.

(Cash flows from investing activities)

Net cash used in investing activities amounted to 1,935 million yen. This was mainly due to the spending of 1,171 million yen for purchase of shares of subsidiaries resulting in change in scope of consolidation and the spending of 685 million yen for purchase of property, plant and equipment.

(Cash flows from financing activities)

Net cash provided by financing activities amounted to 543 million yen. This was mainly due to Proceeds from share issuance to non-controlling shareholders of 1,000 million yen and decrease in short-term borrowings of 550 million yen.

(4) Explanation of consolidated earnings guidance and other forward-looking statements

Our SaaS business, which generates the highest proportion of our earnings, provides services to users in the subscription business model, in which earnings are built up through users' continuous subscription of services over time. Meanwhile, this business model is characterized by prior investment in development and acquisition of customers, which generally entails an operating loss in the short term.

For the fiscal year ending June 30, 2024, we forecast net sales of 25,400 million yen (up 32.2% compared to net sales in the fiscal year ended June 30, 2023 for Platform business(*1), reflecting the expansion of customer base and improvement in customer value in the SaaS business and other factors. As for profit items, adjusted operating profit (*2) is expected to be a loss ranging from 8,650 to 7,800 million yen (compared to a loss of 7,195 million yen in the fiscal year ended June 30, 2023) and adjusted operating profit margin is expected to be a loss ranging from 34.1% to 30.7% because of increases in development cost and customer acquisition cost as upfront investments for the mid-to-long term growth mentioned above.

Notes:1.Platform business: Business consisting of the integrated cloud ERP offering for small businesses and financial services, etc.

2.Adjusted operating profit is the sum of the operating profit, stock-based compensation expenses, expenses for amortization of acquisition-related intangible assets, and one-time cost.
