1. Operating results

(1) Summary of business performance

(All comparisons are with the same period of the previous fiscal year, unless stated otherwise.)

Net sales during the first six months of the current fiscal year totaled ¥147,071 million (up 10.4%), driven by the domestic business. Sales in the domestic business were ¥110,315 million (up 12.8%). The increase in sales was due to factors including the effect of price and content revisions, higher sales of gift snack items stemming from increased people flows and the absence of sales adjustments from the potato shortage in the first half of last year. Sales in the overseas business were ¥36,755 million (up 3.7%) due to expanded sales of snack foods in the UK, Indonesia, and other countries, despite sluggish sales in Greater China.

Operating profit was ¥13,514 million (up 31.9%), and operating margin was 9.2%, an increase of 1.5 percentage points. In the domestic business, higher raw material prices were more than offset by the effects of price and content revisions and increased profit from higher sales volume. Ordinary profit was ¥16,635 million (up 30.9%) due to the recording of foreign exchange gains in non-operating income on the depreciation of the yen, and profit attributable to owners of parent was ¥10,864 million (up 30.7%).

Results by business are as follows.

^{*} Net sales by product are before deduction of rebates, etc.

^{**} The category "Snack food products with new value / other snacks" was renamed "Other snacks" from the current period.

- Sales of *Potato Chips* increased driven by sales of regular items such as *Usu-Shio-Aji* and *Kataage Potato*.
- Sales of *JagaRico* increased on strong sales of regular items and the launch of a new product named *Skinny JagaRico Salad*.
- Sales of other snacks increased due to both growth in gift snack items such as *Jaga-Pokkuru* and steady sales of flour-based and corn/bean-based snacks.

Domestic cereals:

Sales of domestic cereals were ¥13,182 million (down 1.9%) due to a decrease in sales volume accompanying a contraction in volume in the overall cereal market.

Domestic, others:

Sales in other domestic businesses were ¥6,419 million (up 14.2%) on strong sales in the wholesale sweet potato business.

Overseas production and sale of snack and other foods business

Sales increased in the overseas production and sale of snack and other foods business.

^{*} Greater China: China and Hong Kong

- In North America, while sales of bean-based snack *Harvest Snaps* and brands of Japanese origin such as *Kappa-Ebisen* grew, sales decreased on a local currency basis due to a decline in snack foods contract manufacturing sales.
- In Greater China, overall sales decreased on weak sales to retail outlets and via existing e-commerce channels, despite sales expansion in e-commerce growth channels.
- In Other regions, overall sales rose due to higher sales in the UK, Indonesia, and Thailand. In the UK, this was due to factors including increased sales of Seabrook brand *Potato Chips* and the launch of new products, while in Indonesia, sales grew mainly driven by *Potato Chips*. In Thailand, the consolidation of Greenday Global Co., Ltd. in July of last year and increased sales of mainstay products such as *JAXX* contributed to the increase.

^{**} Other regions: United Kingdom, Indonesia, South Korea, Thailand, Singapore and Australia

^{***} Net sales by region are before deduction of rebates, etc.

(2) Analysis of financial position

(All comparisons are with the end of the previous fiscal year, unless stated otherwise.)

1. Overview of assets. liabilities and net assets

Total assets as of September 30, 2023 increased by ¥27,110 million to ¥266,206 million, mainly due to an increase in notes and accounts receivable-trade as well as an increase in property, plant and equipment. The increase in notes and accounts receivable was due to delayed collection until the following month as the last day of September was a bank holiday. The main reasons for the increase in property, plant and equipment were the construction of new JagaRico manufacturing facilities and a new plant in Hiroshima.

Liabilities increased by ¥17,713 million to ¥74,122 million on an increase in short-term borrowings. Net assets increased by ¥9,397 million to ¥192,083 million due to an increase in retained earnings. As a result, the shareholders' equity ratio was 68.4%, down 4.4 percentage points.

2. Overview of cash flows

Cash and cash equivalents as of September 30, 2023 were ¥34,152 million, an increase of ¥3,860 million.

Cash flows from operating activities

Operating activities resulted in a net cash inflow of ¥5,318 million, a decrease of ¥4,064 million. This was mainly due to a decrease in trade receivables compared to the same period of the previous year from a delay in collection caused by a bank holiday.

Cash flows from investing activities

Investing activities resulted in a net cash outflow of ¥10,251 million, an increase of ¥6,096 million, mainly due to a decrease in proceeds from redemption of securities and an increase in expenditures for the purchase of property, plant and equipment.

Cash flows from financing activities

Financing activities resulted in a net cash inflow of ¥7,173 million, an increase of ¥13,183 million, mainly due to a net increase in short-term borrowings.

Information pertaining to financial resources and capital liquidity

· Developments in capital requirements

Calbee Group's capital requirements for operating activities include expenditures for costs related to manufacturing, such as raw materials, labor and production expenses, and for sales activities, such as selling, labor, distribution, etc. Expenditures for investing activities are primarily for capital investment and growth investment and expenditures for financing activities are primarily for capital requirements related to the payment of dividends by the parent company.

In response to these capital requirements, based on our Change 2025 growth strategy we plan to allocate cash flows from operating activities to be generated over the three-year period from the fiscal year ending March 31, 2024 to the fiscal year ending March 31, 2026, cash on hand and borrowings.

Details of capital requirements

Growth investment: Capital investment for growing domestic and overseas business, investment in new areas, M&A for strengthening overseas bases, etc.

Efficiency investment: Support for ESG, capital investment in areas including automation/laborsaving, to raise productivity

Shareholder returns: Aim for total return ratio over 50% and DOE 4% on a consolidated basis

The status of cash outlays as of September 30, 2023 is as follows.

^{* 3-}year plan: period from FY ending March 31, 2024 to FY ending March 31, 2026

· Fund-raising methods

In principle, Calbee Group raises funds by using borrowings from financial institutions in addition to cash provided by operating activities. We and our domestic consolidated subsidiaries have introduced a cash management system (CMS) to centrally manage funds within the Group, thereby centrally managing surplus funds, securing liquidity and improving funding efficiency. In addition, Calbee has entered into overdraft agreements with several financial institutions with the aim of further supplementing our liquidity, and we recognize that we have sufficient liquidity to fund our business operations.

(3) Consolidated forecasts

The consolidated forecasts for the fiscal year ending March 31, 2024 have been revised as follows, in accordance with the results for the six-month period under review and the latest performance trends.

Net sales and operating profit are expected to exceed the initial forecast, mainly due to favorable sales conditions in the domestic business and the effects of price and content revisions. Ordinary income and net income attributable to owners of the parent are expected to exceed the initial forecast due to the above factors, as well as foreign exchange gains in the first half of the fiscal year.

The exchange rate assumption used in this forecast is 1USD=¥145 (up from ¥133 in the initial forecast announced at the beginning of the fiscal year).
