1. QUALITATIVE INFORMATION ON QUARTERLY FINANCIAL RESULTS

(1) Operating Performance Analysis

In the consolidated first six months ended September 30, 2023, the Japanese economy moved steadily toward the normalization of economic activities in line with the reclassification of COVID-19 as a Class 5 infection. However, the future of the economy remains uncertain due to price hikes associated with soaring energy and raw material costs and other conditions.

In the dispensing pharmacy industry, as economic activities normalize, the impact of patients refraining from being seen and receiving outpatient treatments at medical institutions is easing. At the same time, the completion of transitional measures for Community Support System Premium in line with NHI drug price and dispensing fee revisions have led to a decline in dispensing and technical fee unit prices.

Even amid these significant changes in the business environment, the Qol Group aims to continue being the Company closest to patients. To achieve our medium-term goals in the post-pandemic era, we are engaged in efforts to integrate all businesses under the three keywords "expand scale," "maximize profits," and "digitalize." In May 2023, Qol resolved to acquire all shares of DAIICHI SANKYO ESPHA CO., LTD. In October 2023, we completed the first phase of this process with the acquisition of 30% of DAIICHI SANKYO ESPHA shares.

In the consolidated first six months ended September 30, 2023, the Qol Group performance was generally in line with initial plans, with net sales of \$88,540 million (up 7.4% year on year), operating profit of \$3,559 million (down 11.5%), ordinary profit of \$3,675 million (down 11.9%) and profit attributable to owners of parent of \$1,888 million (down 20.2%). EBITDA was \$6,110 million (down 4.3%).

Net sales	85,600	88,540	103.4%
Operating profit	3,500	3,559	101.7%
Recurring profit	3,500	3,675	105.0%
Profit attributable to owners of parent	1,800	1,888	104.9%

Performance by business segment is as follows.

a. Pharmacy Business

In the Pharmacy Business, the Group works to expand scale through M&A, new store openings, and the promotion of the Home and Facility Dispensing Business, maximize profits through increased productivity, and enhance patient convenience through digitization including the creation of next-generation pharmacies.

In the first six months of the fiscal year under review, the Group added 15 new stores and acquired two stores through business transfer, for a total addition of 17 stores, while closing only four stores, resulting in a total of 905 stores across all businesses. Going forward, to develop high added-value pharmacies, the Group will engage in strategic new store openings and scale expansion through M&A to continue expanding scale. In terms of pharmacy operations, we are working to provide dispensing at home at all pharmacies in the Home and Facility Dispensing Business as a new business pillar, and will significantly increase the number of facilities we are in charge of by increasing the number of stores specializing in home dispensing.

In April 2023, we also started collaborations with Suntory Wellness Ltd., related to health support. The Qol Group will contribute to the field of presymptomatic diseases by handling Suntory Wellness health foods and promoting proper understanding through pharmacist explanations.

In September 2023, as a board member company of the Pharmacy DX Promotion Consortium, we jointly proposed the "partial outsourcing of dispensing operations" to the Secretariat of Office

for Promotion of Regional Revitalization, Cabinet Office. Going forward, we will examine mechanisms that will lead to the enhancement of pharmacist interpersonal services in local communities. Further, to realize a society with human-friendly digitalization in which no one is left behind, the Digital Agency has appointed Qol employees as member of the Digital Promotion Committee. We will continue to contribute to local communities through an increase in Digital Promotion Committee members.

Regarding performance, although the completion of transitional measures for Community Support System Premium in line with NHI drug price and dispensing fee revisions led to a decline in dispensing and technical fee unit prices, contributions from M&A conducted in the previous fiscal year, new store openings, and the promotion of the Home and Facility Dispensing Business among other efforts resulted in an increase in prescription numbers at existing pharmacies.

As a result, net sales in this segment amounted to \\ \pm 80,966 \text{ million (up 7.2\% year on year),} \\ \text{while operating profit was \\ \pm 4,714 \text{ million (down 6.8\% year on year).} \end{array}

b. Medical-Related Business

In the Medical-Related Business, we continue efforts to expand the core CSO Business, Professional Referral Dispatch Business, Publishing-related Business and Pharmaceutical Manufacturing Business, targeting stable growth to move forward as a comprehensive healthcare company.

In the CSO Business, although numbers increased in line with expanding demand for MR dispatches. Going forward, to increase the number of MR dispatches and meet diversifying needs from medical sites, we will focus efforts on recruiting human resources with a wide range of experience and providing high-quality education including training programs for MRs in specialized fields. Further, contracted business for the development of pharmaceuticals and foods expanded due to an increase in orders, mainly for food testing.

In the Professional Referral Dispatch Business, demand for professional referral dispatches in all positions is expanding steadily, while the number of contracts concluded is increasing in line with various efforts including customer base expansion and divisions of labor. Additionally, Oncall.Inc, which owns a matching platform for the short-term employment of doctors and nurses, became a Group company in April 2023. Qol will leverage synergies created with Oncall as a Group company to further expand business.

In the Publishing-related Business, Qol provides oncology, digital, and other materials with a high growth potential in to existing customers, while expanding transactions with academic societies and other non-pharmaceutical customers. We will also expand the newly launched convention business, compliance service business, and other highly profitable businesses.

In the Pharmaceutical Manufacturing Business, in addition to Qol products, we will continue to promote sales of "Tegaruna® stick SARS-CoV-2 Ag" COVID-19 antigen test kits launched in December 2022. Further, we are conducting various discussions among Group companies to heighten the synergistic effects created from the addition of DAIICHI SANKYO ESPHA CO., LTD., to the Qol Group.

As a result, net sales in this segment were \$7,573 million (up 9.7% year on year) and operating profit was \$658 million (up 1.9% year on year).
