#### 1. Qualitative Information regarding Financial Results for the Six Months Ended September 30, 2023

#### (1) Explanation of Operating Results

During the six months ended September 30, 2023, the external environment surrounding the Group remained uncertain. This was due to factors such as the trend of interest rate hikes in various countries designed to curb inflation, the impact of yen depreciation, the prolonged situation in Ukraine, and concerns about the future of Chinese economy due to sluggishness of real estate development investment.

Amid this environment, the Sanwa Group started the second year of its long-term management vision, Sanwa Global Vision 2030, and the Mid-Term Management Plan 2024, and is working on establishing the foundation to become a global leader of smart entrance solutions that meet the changing needs of society due to climate change and digitalization as well as executing our basic strategies. Under our basic strategies of expanding and strengthening core businesses in Japan, North America, and Europe, we continued to work to increase our market share for core products such as shutters and doors and strategic products, including partitions, expand our maintenance and service business, and enhance our structure for business expansion. Under our basic strategies of expanding products for disaster prevention and climate change response and enhancing smart products and services, we sought to make our products disaster-resistant and environmentally friendly and smart. Some of these products include the lightweight shutter Taifu (wind-resistant) Guard LS that features a high wind pressure resistance of 800 Pa, and high-speed sheet-style shutters, with both strong heat insulation and quick opening/closing. Under our basic strategies of strengthening a basis for growth of Asian business, we focused on strengthening the business foundation in addition to bringing Sanwa Shanghai, Sanwa Novoferm Changshu, and AUB within the scope of consolidation. As part of our efforts to enhance sustainability management, we worked to reduce CO2 emissions, including installing solar panels on the premises of our Kyushu Plant.

Looking at the operating results by segment, in Japan, we sought to secure profitability through price pass-on, and the maintenance and service business performed well. In addition, solid sales were recorded for core products such as heavy-duty shutters and doors for buildings and condominiums, mainly for factory facilities and large-scale redevelopment projects, and strategic products including partitions. In North America, we worked to maintain selling prices and improve productivity amid the significant slump in the residential market. In Europe, business conditions remained harsh due to the deterioration of the market environment caused by the economic slowdown on top of various cost increases such as energy prices. Meanwhile, sales were up in Asia owing to the effect of the new inclusion of subsidiaries in consolidation.

As a result, net sales for the six months ended September 30, 2023 amounted to ¥285,657 million, a 6.5% year-on-year increase. In terms of profits, operating profit amounted to ¥27,733 million, a 29.0% year-on-year increase, ordinary profit amounted to ¥27,163 million, a 36.8% year-on-year increase, and profit attributable to owners of parent amounted to ¥22,109 million, a 63.9% year-on-year increase.

The following describes performance by segment.

(Application of Accounting Treatments Specific to the Preparation of Quarterly Consolidated Financial Statements) (Calculation of Tax Expenses)

The Company reasonably estimates an effective tax rate after applying tax effect accounting to profit before income taxes for the fiscal year in which the second quarter of the fiscal year ending March 31, 2024 is included, and calculates tax expenses by multiplying quarterly profit before income taxes by the estimated effective tax rate. However, in cases where the calculation of tax expenses using the estimated effective tax rate yields a result that is considered not to be reasonable to a significant extent, the statutory tax rate is used. Note that income taxes - deferred is included in income taxes.
