1. Qualitative information regarding the quarterly financial results

(1) Qualitative information regarding consolidated operating results

During the cumulative Q3 FY03/24 accounting period, the Japanese economy continued to recover gradually against a backdrop of an improvement in overall corporate earnings, a rebound in personal consumption, and improvements in employment and income conditions.

With this fiscal year being the first year of our medium-term management plan released on May 11, 2023, the Benefit One Group implemented growth strategies focused on expanding the membership base and making the payment business profitable.

Membership expansion

Our Group actively markets its employee benefit services as measures to support personnel recruitment and retention for corporate HR departments, as well as to improve fair treatment of employees, which can benefit a wide range of people regardless of the size of the companies they work for, employment type, gender, etc.

In Q3 FY03/24, while there were delays in the acquisition of new members, an increasing number of companies, mainly in the manufacturing industry, adopted our Group's services to attract personnel and improve employee retention. As a result, membership increased to 9.61 million as of the end of Q3. Further, for Benefit Station*1, which we updated at the beginning of the fiscal year, we released a series of additional functions in Q3 as well in a bid to improve convenience and further expand membership while focusing on ensuring stable operations and functional enhancement of the new system.

2 Achievement of profitability of the payment business

To grow the payment business into a new earnings pillar over the medium to long term, our Group provides Kyutokubarai, a payment service utilizing a payroll deduction system linked to member data on Bene ONE PLATFORM*². Handling value in Q3 amounted to ¥28 million, up from ¥22 million in Q2.

As an immediate priority, we are working to expand our lineup of compelling content, primarily in the categories of lifestyle infrastructure and flat-rate services. In October 2023, we added the Netflix video streaming service to the Kyutokubarai menu, and as such, we have been working to further expand the use of Kyutokubarai along with efforts to enhance recognition by investing in marketing activities.

3 Healthcare service expansion

Our Group provides healthcare services, including medical checkups and health guidance services, that support employees' mental and physical health management through corporate HR departments, and we are actively engaged in new sales activities to capture even greater outsourcing demand going forward. During Q3 FY03/24, we actively carried out sales activities and saw an increase in inquiries and preliminary agreements with new clients to adopt our medical checkup services from the next fiscal year.

The following is an overview of results by main business in cumulative Q3 FY03/24.

In the Employee Benefit Services business, membership fee revenue, which accounts for the bulk of sales in the business, grew YoY, but transactions specific to the former JTB Benefit Services declined. Also, average membership fees were lower than expected because newly acquired members were mainly from major clients, and both revenue and expenses fell due to a partial revision of contracts, resulting in sales falling short of the forecast. While expenses resulting from investments in personnel and system with an eye to longer-term growth rose YoY, thanks to the elimination of duplicate costs as a result of the integration of services of the former JTB Benefit Services, the operating margins in Employee Benefit Services, Individual Benefit Services, and CRM improved.

In the Healthcare business, sales from the COVID-19 vaccination support business declined ¥2,274 million YoY. Although there were delays in securing new orders for health guidance services, sales and profit grew YoY owing to progress in orders already received. Performance in the medical checkup business was largely in line with expectations. In the payment business, investments in marketing activities, including commercials, originally planned for Q2, were

executed in Q3 to coincide with the addition of Netflix to the Kyutokubarai menu.

As a result of the above, consolidated sales in cumulative Q3 FY03/24 amounted to ¥28,376 million (-8.5% YoY), consolidated operating income ¥5,820 million (-25.7% YoY), consolidated ordinary income ¥5,842 million (-25.9% YoY), and net income attributable to owners of parent ¥3,923 million (-32.7% YoY).

Our Group operates a membership services business, mainly providing outsourced employee benefit services in Japan. As a result of consolidating our business segments, we have omitted disclosure of "Segment information, etc." as our only reportable segment is the Membership Services business.

Note 1: Benefit Station is a comprehensive employee benefit service operated by the Company. It mainly supports increasing employee satisfaction, and promoting health management and skill improvement.

Note 2: Bene ONE PLATFORM is designed to manage and utilize corporate HR and health data, enhance employee performance, and revitalize organizations through centralized management, visualization, and analysis of all employee data. At the same time, its construction enables it to raise the efficiency of HR department management through the utilization of "Bene Account," an ID that is issued exclusively to members and can be used with various HR services.

(2) Qualitative information on the consolidated financial position

Assets, liabilities, and net assets

(Assets)

Total assets at the end of the Q3 FY03/24 consolidated accounting period were ¥47,995 million, a decrease of ¥5,985 million from the end of the previous consolidated fiscal year.

Current assets were ¥21,722 million, a decrease of ¥5,684 million. This is mainly due to a decrease in cash and deposits (¥2,497 million), a decrease in notes and accounts receivable – trade and contract assets (¥3,454 million), etc. Non-current assets decreased by ¥301 million to ¥26,273 million.

(Liabilities)

Total liabilities at the end of the Q3 FY03/24 consolidated accounting period were ¥25,560 million, a decrease of ¥3,588 million from the end of the previous consolidated fiscal year.

Current liabilities were ¥15,788 million, a decrease of ¥2,803 million. This is mainly due to a decrease in accounts payable – trade (¥1,250 million), a decrease in income taxes payable (¥1,610 million) resulting from the payment of income taxes, etc.

Non-current liabilities decreased by ¥785 million to ¥9,771 million. This is mainly due to a decrease in long-term borrowings due to repayment (¥500 million), etc.

(Net Assets)

Net assets at the end of the Q3 FY03/24 consolidated accounting period were ¥22,435 million, a decrease of ¥2,397 million from the end of the previous consolidated fiscal year. This is mainly due to net income attributable to owners of the parent (¥3,923 million), dividends of surplus (¥5,714 million), etc.

As a result, the equity ratio increased to 46.7% from 46.0% at the end of the previous consolidated fiscal year.

(3) Qualitative information regarding consolidated operating performance forecasts

While progress was delayed in the Employee Benefit Services business and some areas of the Healthcare business, our view of the business environment has not changed significantly. Considering variable factors, including future sales activities, the level of service usage by members, and the effect of marketing initiatives, we have maintained the full-year consolidated performance forecast released on November 14, 2023.
